Faculty and staff achievements...

(Continued from page 7)

ation's Town and Gown Consortium workshop for joint economic development, 3-4, in Phila. Their presentation focused on the role MU is playing in the economic development of West Virginia.

Dr. WARREN W. WOODEN, former professor of English at Marshall, has had a book titled "Children's Literature of the English Renaissance" published by the University of Kentucky Press. He has also had articles published in The Journal of Medieval and Renaissance Literature, and in "Acetylcholine and A23187" published in The Journal of Pharmacology, and Experimental Therapeutics. Dr. JEAN WATSON, formerly an assistant professor of English at Marshall, and now associate dean of arts and sciences at Southern Illinois University, has had a book titled "Religion, Technology, and the American Dream" in an environment of "Living Room Learning."

Professor DAVID R. WOODWARD and Professor CHARLES V. BIAS, members of the Department attended the 32nd annual meeting of the Southern Historical Association held in Charlotte, N.C., Nov. 12-13.

Dr. JOAN ADKINS, professor of English, has had an article titled "The Role of the Chorister in Eliot and Stravinsky" accepted for publication in "Renaissance: Essays in Literature," a publication of Marquette University.

Professor JAVIER CAMPOS of the Department of Modern Languages has had an article titled "La Poesia Chilena Joven" published in the fall issue of Araucaria, a Chilean literary journal that is published in Madrid.

Dr. A. G. MARTIN, professor of pharmacology, and SALLY L. LEMKE, lab/med tech, have had an article titled "Comparison of Endothelium-Dependent Relaxation in Bovine Internal Artery and Vein by Acetylcholine and A23187" published in The Journal of Pharmacology and Experimental Therapeutics.

Three members of the Medicine faculty have had an article on "Urinary Tract Effects of Phensuximide in the Sprague-Dawley and Fischer 344 Rat" published in the Journal of Applied Pharmacology. They are: PATRICK I. BROWN, acting chairman of anatomy; and DR. RICHARD M. NITYCH, associate professor of pharmacology, and DR. PATRICK L. DOUGHERTY, professor of pharmacology.

New MU Logo

(Continued from page 1)

final selection was made several weeks ago, but introduction of the logo was held up until it could be legally registered as a trademark. "It has been an interesting, sometimes frustrating effort as we have looked at ideas and drawings from many, many sources," Scott said. "In fact, three different public relations firms volunteered sketches. That's how widespread the interest in this project has been." Scott said the designer of the new logo will be introduced at the reception.

Scott said registration as a trademark means the logo is legally protected and its commercial use will be licensed through the Institutional Advancement office. Earlier university logos were in the "public domain" and the university had no control over their use, he noted. He said leaders of the university's various constituencies-including students, faculty, staff, alumni, the Institutional Board of Advisors and the Marshall Foundation-all had approved the design of the new logo.

"Although a tremendous amount of work has gone into this project, we believe it has been worth the effort," Scott said. "We believe it gives an excellent presentation of Marshall University and its place in West Virginia higher education. We're very happy with it, and I believe all the people we serve will have a similar reaction."

Art exhibit begins

The Marshall University Art Faculty Exhibition will open with a reception in the Museum Gallery of the Cultural Center in Charleston on Friday, Jan. 25, at 7 p.m. The exhibit will continue through Sunday, March 1.

Letter of appreciation

Dear Marshall Faculty and Staff:

Thank you for the flowers for my brother's funeral. They were there when we arrived in Romney.

Sincerely,

Dr. Wesley L. Shanholter

(Continued on page 6)

New MU logo to be introduced

Governor Arch A. Moore Jr. will help Marshall University launch its Sesquicentennial Year observance by unveiling the university's new logo during a legislative reception in Charleston next week.

The reception, co-hosted by House of Delegates Speaker Robert "Chick" Chambers and Senate President Dan Tonoovich, is scheduled from 7 to 9 p.m. on Thursday, Jan. 22, at the Marriott Hotel. It is being sponsored by the Marshall Foundation, the Marshall Alumni Association, and the Kanawha Valley Chapter of the Alumni Association.

MARMALL UNIVERSITY

January 15, 1987

Eminent Scholar chair is established

Marshall University President Dale F. Nitzschke has presented the West Virginia Board of Regents a check for $45,000 in private funds to establish an endowed chair in computer science at Marshall.

The board will match the contribution with $45,000 in state funds under the Eminent Scholars Endowment Trust Fund. The matching funds will be available to supplement the state-funded $150,000. Annual earnings from the invested principal will be available to supplement the state-funded "contract salary" allocated for a Marshall faculty position. This will enable the university to recruit an outstanding professor to fill the position, Nitzschke said: "We're truly excited about the Eminent Scholar program," Nitzschke said. "The Legislative and Governor Moore have initiated a project which ultimately can have a tremendous impact on academic quality throughout the state system of higher education. They should be commended for their foresight in getting this innovative effort underway."

Nitzschke said the university hopes to be able to accumulate enough funds in the special account and perhaps add some additional private funding to establish the endowed chair in the College of Business next fall. "We're looking at a contract salary of $45,000, provided by an individual who prefers to remain anonymous at present," Nitzschke said.

The Eminent Scholar Chair in Advanced Computer Technology is important to Marshall in several ways. "The outstanding professor we should be able to attract will teach classes, of course, but also will work with other members of the faculty in strengthening our program in computer science," Nitzschke said. At the same time, the Eminent Scholar will be able to provide guidance and technical assistance to our Center for Regional Progress in its programs to help stimulate economic development in West Virginia."

Nitzschke said he believes Marshall will be able to create endowed chairs in additional areas in the future under the Eminent Scholars Endowment Trust Fund.

University to close 19th

By order of President Dale F. Nitzschke, classes will be dismissed and Marshall University offices closed Monday, Jan. 19, in observance of the Martin Luther King Jr. Day national holiday.
Athletic Committee discusses 5th-year aid

(Out the following reports on the Dec. 3 and Dec. 11 meet- ngs of the Marshall University Athletic Committee were submitted by Deryl R. Leaming, secretary.)

The Athletic Committee met on Tuesday, Dec. 3. Members heard the report of Robert Ulliman who asked for reconsideration for full aid rather than the limited fifth-year aid that he has been receiving.

He maintained that he had been promised such aid by former coach Sonny Randle and that his case is different from others for whom aid had been granted.

After much discussion, the committee voted 7-1 to recommend that Ulliman be granted full aid.

Olive Hager, committee chairperson, announced that questions relating to NCAA legislative proposals should be held and referred to Dorothy Hicks. Patches on NCAA legislative proposals had been sent previously to com- mittee members.

Ed Starling reported that Kevin Staples (basketball) was transferred to another college and that Reggie Giles was ruled eligible and Brian Fish would be eligible after all grades were turned in.

The meeting adjourned at 5:10 p.m.

A special meeting of the Athletic Committee was called by Olive Hager at the request of Athletic Director Dave Braine on Thursday, Dec. 11, at 1 p.m. in the Big Green Room in Henderson Center.

Braine asked for the meeting to discuss the fifth-year aid policy that has led to the ouster of the Athle- tic Committee on the Robert Ulliman matter.

Most members present said they felt Ulliman should be awarded full aid as requested at the Dec. 5 meeting. They said they did not view their action on the Ulliman matter as establishing policy or precedent and that each case would have to be looked at individually.

The meeting adjourned at 1:52 p.m.

Graduate Council meets

(Graduate Council meeting was submitted by Dewey D. Sanderson, secretary.)

One hundred two graduate faculty members responded to the poll regarding the proposed Faculty Senate should be a part of or separate from the proposed Faculty Senate. The majority of those responding, 56, indicated the council should be part of the proposed Faculty Senate. The denial of some part-time faculty members to associate gradu- ate faculty status has brought about concern from the attending meetings regarding the implementation of the new graduate faculty criteria.

Some departments have had difficulty finding part-time faculty members who have the minimum standards that the Graduate School desires for teaching in Marshall's graduate program.

Dr. W. BLAKER BOLLING, associate professor of management and planning, and a visiting professor of accounting, made a presentation titled "Capital Justification of Emerging Technologies" for the Charleston- Huntington Metropolitan Planning Council. He discussed the "Fifth Year Engineers. 22. BOLLING is on the chapter's board of directors.

ROBERT S. KRIEBEL, assistant professor of business education in the Division of Specialized Allied Studies, recently participated in the Visiting Professor Day at St. Joseph's College. He discussed his work with the "Counseling, several classes on "Your Future in the World of Work."

TERRY McQUEEN, associate professor and chair- man of Philosophy, attended the 25th annual meeting of the Society of Phenomenology and Existential Philo- sophy. He was elected to the Program Committee of the Nietzsche Society, which meets annually in conjunction with the SPEP.

Professor HAROLD MURPHY, associate professors TERRY McQUEEN, JACQUELINE GUTTMAN and NANCY STUMP, assistant professor MARIA CARMEN RIDDEL, and instructor SARA HENRY, all of the Modern Languages Department attended, the semiannual com- bined meetings of the West Virginia Foreign Language Teachers Association, the American Association of Teachers of Spanish and Portuguese and the American Association of Teachers of French held at Parkersburg Community College Oct. 11. RIDDEL presented a paper titled "Ingrid: The Natu­ ral Feminist Novelist" at the AATSP afternoon session. MICHAEL G. TANNENBAUM, assistant professor of biology, attended "The Extraordinary Zoo­logist in Hoarding Behaviour in Southeastern Peromyscus" in Animal Behaviour, volume 35. The paper was co-authored by ]. B. Pivorun of Clemson University.

TERRY McQUEEN, director of the medical unit of Instruc- tional Television, and VIRGINIA BICKNELL, assistant directors, attended the annual meeting of the American Association of Colleges of the Health Sciences held at Canaan Valley State Park.

Professor ROBERT S. KRIEBEL was a guest speaker at the West Virginia State Basketball Hall of Fame held Oct. 16 at the Cedar Lakes in Ripley. His presentation was titled "Winning at Your Job Search." He is an assistant professor of human services in the Division of Specialized Allied Studies.

Dr. ROBERT GERE, professor of English, attended the Southern Appalachian Regional Conference held Oct. 23-25 at the University of Georgia. He presented a paper titled "Prudence and Impudence in 'Sir Gawain and the Green Knight."

Dr. DONALD L. HALL, assistant professor in the Divi- sion of Fine and Performing Arts, was made a presentation titled "Basketball Officiating and Managing Stress" at the Western West Virginia Basketball Officials Association meeting held Oct. 24-25 at Huntington. He made a presentation titled "Fundamentals of Stress Management" at a seminar for Tri-County Action Services in Huntington held Oct. 20. Dr. HALL also presented a workshop titled "Creating Opportunities for the Cincinnati Community Action Program on Oct. 27.

BILL WEBB, visiting assistant professor of psychology, co-authored an article titled "Accuracy of Personal Perception of the Environment" at the "National Meetings of the American Psychological Association held in Washington, D.C."

Dr. JONATHAN G. CARPENTER, director of the university's Center for Regional Progress, dis- cussed "Casted Developments in Specialized Projects" at the International City Management Associ-
Quinlan Committee receives charge

Wayne native establishes scholarship

Students from Wayne County attending Marshall University and West Virginia University will benefit for generations to come, thanks to the generosity of one of Wayne County's most prominent citizens.

The West Virginia University Foundation and the Marshall University Foundation jointly announced that each is receiving $10,000 from Milton J. and Betty Eichenmiller Ferguson of Wayne County to establish endowed scholarships.

In each case, priority in awarding the scholarships is to go to Wayne county residents. As an alternate priority, scholarships may be awarded to Cabell County students.

The Marshall scholarships are earmarked for students enrolled in the M.U. School of Medicine at WVU. The scholarships are to be awarded to undergraduate students, based on financial need and high academic promise.

At WVU, the endowment will be identified as "The Milton J. and Betty Eichenmiller Ferguson Scholarship Fund." At Marshall, it will be "The Milton J. and Betty Eichenmiller Ferguson Medical Scholarship."

The funds are to be invested with 90 percent of the earned income each year to be disbursed in the form of scholarships. The other 10 percent will be added to the principal annually.

A lawyer in Wayne and Huntington since 1929, Mr. Ferguson also has had a distinguished career in government service and politics. A 1936 candidate for the Democratic gubernatorial nomination in West Virginia, Mr. Ferguson served for the Southern District of West Virginia, served 10 years as assistant U.S. attorney, was West Virginia state tax commissioner, member of the West Virginia Legislature, Wayne County prosecuting attorney, mayor of Wayne, as well as a board of the Tri-State Airport Authority.

He has been affiliated with the Wayne County Bank since 1945 and served as chairman of the bank's board of directors. He was a director of the Farm Credit Administration of Baltimore from 1946 to 1953.

Born in Wayne County in 1902, the third of five sons of Lucian and Fannie Ferguson, he is a member of the county's best-known family. His great-great-grandfather, Samuel Ferguson, was one of the county's first settlers. A brother, C.W. Ferguson, was a circuit judge of Wayne and Mingo counties for many years and another brother, Sam Ferguson, was a Wayne physician. A cousin, Fred M. Ferguson, served as chief justice of the U.S. Supreme Court.

Milton Ferguson attended Morris Harvey Academy and Marshall College, and earned his law degree from West Virginia University in 1929, the same year he established his law practice in Wayne. He married the former Betty Eichenmiller of Pittsburgh in 1926.

In a joint statement, Marshall and WVU officials said, "Mr. Ferguson's gift is very significant for both universities. Marshall is an institution in the West Virginia community that has been among Virginia's greatest needs--is for private assistance to help deserving, qualified young West Virginians gain college education. We're very appreciative of Mr. Ferguson's understanding of that need and his action to help meet it."

Med School staff named

Dr. Lester R. Bryant, dean of the Marshall University School of Medicine, has named Dr. Johnnie Gallemore as associate dean for academic affairs and Dr. Linda Savory assistant dean for curriculum and evaluation.

Gallemore, who joined the Marshall faculty in 1982, will continue as chairman of the school's Department of Psychiatry. He previously served as chairman at East Virginia University School of Medicine. A psychiatrist, Dr. Gallemore was assistant professor of psychiatry at Duke University Medical Center, and as associate dean for undergraduate medical education at Duke.

He received his medical degree from the Emory University School of Medicine, and also earned a law degree at the Emory School of Law in 1976.

Savory joined Marshall's Department of Family and Community Health in 1983. She received her undergraduate degree from James Madison University with a degree in psychology and M.D. degrees from the University of Michigan, and did her medical residency at Marshall.

Legislative reception to be held Jan. 21

The Autism Training Center at Marshall University will hold its annual Legislative Reception, Thursday, Jan. 22, at 3 p.m. in the Memorial Humanities Library. All individuals involved in the testing, diagnostic services and research associated with the Autism Training Center are invited to attend the reception, which will be held in the Alumni Lounge in Memorial Student Center. A reception will be open to the public free of charge.

The program is designed for professors from higher education institutions where there are limited or no opportunities for study or educational exchange about the modern Islamic world.

Applicants should have a Ph. D. and promise to integrate summer experiences into teaching about the Middle East and conduct outreach programs, according to Dr. Clair W. Matz, director of Marshall's Center for Middle East Studies.

Applications will be accepted from professors in history, politics, economy, religion, fine arts or any other discipline which would be enriched by including an Arab or Islamic studies component.

To obtain further details contact Dr. Carolyn Karr, Marshall's representative to FACIDS, 696-6610, or Dr. Matz, 696-6410. Instructions for applications are available.

Ehrlichman to speak

John Ehrlichman, former counsel and special assistant to the president during the Nixon administration, will be a guest speaker at Marshall University on Tuesday Jan. 27, at 8 p.m. in the W. Don Morris Room in Memorial Student Center.

His program is designed for legislators from higher education institutions where there are limited or no opportunities for study or educational exchange about the modern Islamic world.

Applicants should have a Ph. D. and promise to integrate summer experiences into teaching about the Middle East and conduct outreach programs, according to Dr. Clair W. Matz, director of Marshall's Center for Middle East Studies.

Applications will be accepted from professors in history, politics, economy, religion, fine arts or any other discipline which would be enriched by including an Arab or Islamic studies component.

To obtain further details contact Dr. Carolyn Karr, Marshall's representative to FACIDS, 696-6610, or Dr. Matz, 696-6410. Instructions for applications are available.
Inclement weather policy revised

The policy statement related to suspension of classes because of extreme weather conditions has been revised. The revised policy follows:

POLICY STATEMENT

Extreme weather conditions or energy outages have resulted in disruption of normal operations at Marshall University on several occasions during past winters. Similar situations may occur in the future. With that possible result in mind, Marshall University has developed the following policy:

1. Although it may be necessary to suspend classes because of inclement weather or other problems on some occasions, offices will not be closed and all employees will be expected to report to work.

2. Individual employees, for whom it is appropriate, may, in their best judgment, determine the risk of travel to be too great and elect not to report to work. Those who do so should contact their respective supervisors and indicate they are: (1) taking annual leave that day, or (2) taking a day off with pay or (3) taking compensatory time, in the event compensatory time is owed them.

3. If the event of a building, or a portion of a building, is closed (because of heat loss, power outage, etc.), employees working in the affected area will be permitted to take their work to another area or building on campus. Or, in consultation with the supervisor, the employee may elect to take annual leave that day, take the day off without pay, or take compensatory time off.

4. In the event of an extreme situation (tornado, flood, ice storm, campus disturbance, etc.) and the employees’ presence is not desired on campus, this information will be disseminated to the news media. A decision as to whether the missed time will be chargeable to annual leave, compensatory time, or a non-pay situation will be determined by the president and communicated through supervisors on the first day normal campus operation is resumed.

5. Supervisors must take steps to ensure offices and work stations are open to employees at all times when those employees are expected to be at work, including inclement weather situations and other disruptive situations.

6. The President will notify the media by 7:00 a.m. of suspensions and classes for the remainder of the day. A separate announcement will be made later in the day in regard to classes scheduled to begin at 4:00 p.m. or later. This policy supersedes the Policy Statement appearing in the 1966-67 Catalog and in the Greenbook.

Royal Philharmonic performance scheduled

The Royal Philharmonic Orchestra, one of the world’s most renowned musical ensembles, will perform for the Marshall Artists Series on Thursday, Jan. 15, at 8 p.m. at the Keith-Albee Theatre.

Vladimir Ashkenazy, a pianist who has received great critical acclaim since he won first prize in the 1962 Tchaikovsky Competition in Moscow, will serve as conductor and soloist for the concert.

The Royal Philharmonic Orchestra is Britain’s only major independent orchestra on which the queen has conferred the title “Royal.” The orchestra gives more than 200 performances each year and is especially active in the recording field.

Included in the program for the Jan. 15 performance will be Berlioz’ “Les Troyens Overture,” Beethoven’s Concerto No. 3 in C minor, and Rachmaninoff’s Symphony No. 2 in E minor. Royal Philharmonic artists’ concert repertoire is built on the same concert programs given by the orchestra in 1962.

To obtain further details and ticket information contact the Marshall Artists Series, 696-6565.

Dr. Eugene Aserinsky retires

Dr. Eugene Aserinsky, a physiologist who has been credited with revolutionizing scientific thinking about sleep, is retiring this month from the Marshall University School of Medicine.

He discovered rapid eye movement in sleep, commonly called REM, while a doctoral student at the University of Chicago in 1953. REM shows that the brain is active during sleep, Aserinsky says, a finding that has stimulated widespread scientific research.

Aserinsky came to Marshall in 1976 as chairman of the Department of Physiology and Pharmacology, one of the first basic science chairmen recruited by the new Medical School. “I’m one of the few people still here who was here to apply to Marshall when they first mentioned they were looking for a chairman of the medical school,” he says.

Before coming to Marshall, he taught for 22 years at Jefferson Medical College in Philadelphia. He also has served as a visiting professor for schools in the United States and abroad. Although he and his wife will make Huntington their permanent home, Aserinsky says he is exploring the possibility of becoming a consultant to the Spanish government and of going on a speaking tour of the United States and Europe.

MU employees contribute to book

Three Marshall University faculty and staff members have made contributions to the new book "Missing Chapters: West Virginia Women in History.” The book was recently published by the West Virginia Women’s Commission, the West Virginia Women's Foundation, the Humanities Foundation of West Virginia and the West Virginia Federation of Business and Professional Women’s Clubs.

Dr. Frances S. Hensley, associate professor of history at Marshall, is the editor of the book, which chronicles the historical contributions of West Virginia women in individual and group endeavors spanning a period of time which extends to the present.

“Because the contributions of these women are absent from previous histories of West Virginia, their stories truly constitute ‘missing chapters’ in the state’s history,” wrote Dr. Hensley in the preface to the book.

Nancy Whear, librarian II, wrote the first chapter of the book on Mary S. Smith Simpkins Poffendorfer (1862-1937), who became a national figure in the Republican Party at a time when women had virtually no role in political affairs.

Dr. Leonard J. Deutsch, acting dean of the MU Graduate School, contributed a chapter to the book on Ann Kathryn Flagg, who gained fame as a member of a national touring company and an award-winning playwright.

Deutsch said Ms. Flagg was greatly honored during her lifetime for her work after her death, but remains largely unknown in her native state. “Her achievements, and her life, deserve recognition,” said Deutsch.

Two other persons with Marshall connections also contributed sections to the book.

Dr. D. Banks Wilburn, a former dean of the Marshall College of Medicine, who co-authored a chapter of the book, and William H. Hardin, a Wayne County teacher who received his undergraduate and master’s degrees from Marshall, also wrote a chapter.

Accountants donate tests

The West Virginia Society of Certified Public Accountants, through its Accounting Education Foundation, recently presented 120 copies of the 1986 Uniform Certified Public Accountant Examination to the Marshall University Accounting Department.

Hardin, a former Marshall College student who is now a partner in the firm of Diamond, Sunderland and Company, CPAs, presented the examinations to Dr. William J. Radig, acting chairman of the Marshall University Accounting Department.

The examinations are valued at approximately $400.

“Tuberculosis patients do not receive better care for their CPA exami-

nations by reviewing copies of the 1986 test and answers,” said Radig.

“The West Virginia Society of Certified Public Accountants has made similar contributions in the past and our students have found the tests to be very beneficial. We appreciate the support this organization gives Marshall University,” Radig said.

Tuba recital scheduled

Kenneth Robert Stultz II, a candidate for the Bachelor of Arts degree in music education at Marshall, will present a tuba recital on Tuesday, Jan. 27, at 8 p.m. in Smith Recital Hall.

Kenneth Stultz recital will be Terry Lawson, piano, Terry Rosch, tuba, and Joseph Patton, James Groscup and Dr. John H. Mead on trombone and euphonium.

A native of Lavale, Stultz has performed as a member of the MU Marching Band, Wind Symphony, Symphonic Band, and in the MU pep band. In 1985, he was a member of JMU's All-American College Marching Band.

The recital is open to the public free of charge.
