Presidential guidelines outlined

SEARCH ‘GOING VERY WELL’

Resumes of more than 160 persons who have expressed their interest in becoming president of Marshall University are being screened by the 12-member Presidential Selection Advisory Committee, according to Dr. Ben L. Morton, chancellor of the West Virginia Board of Regents.

The committee held its second meeting Wednesday evening, Aug. 21, in Marshall’s Memorial Student Center.

Dr. Morton said the committee “is shooting for a Sept. 1 cutoff date on applications.” He said he was hopeful the committee could make its recommendations to the Board of Regents “by the board’s November meeting, at most, but probably by the December meeting.”

The chancellor said he estimated another 20 to 30 names would be submitted before the cutoff date.

The following general guidelines document has been adopted by the committee:

“1. An earned doctorate degree.

“2. A demonstrated record of administrative leadership, preferably in higher education.

“3. Broad academic perspective as demonstrated by his record and expressed philosophy of education. Faculty experience would be highly desirable.

“4. A knowledge of, and successful involvement in, the political processes as these affect higher education.

“5. The candidate should have a record of good health.

“The guidelines which have been developed are deliberately general, thus permitting applications from a wide spectrum of backgrounds as well as allowing flexibility in the selection process.”

The committee has scheduled its next meeting for Sept. 19 at 6 p.m. in Marshall’s Memorial Student Center. Judge Dennis R. Knapp, a member of the Marshall Advisory Board, is serving as committee chairman and Dr. Morton is working with the group as coordinator.

The committee is to recommend three to five candidates to the Board of Regents, which will make the final selection.

Following the Aug. 21 committee meeting, Dr. Morton commented, “The screening is going very well and according to schedule. We have some excellent candidates and I’m personally very happy with the way the selection process is moving.”
