Steps to conserve energy outlined

Marshall University is adopting a number of steps designed to conserve energy, Vice President for Business Affairs Joseph C. Peters announced.

In a November 13 memorandum to major administrators at Marshall, Peters requested university-wide cooperation in implementing these measures:

- Turn off lights when a room or area is not being used.
- Where heat controls are available, lower the temperature to 68 degrees or below.
- In driving university-owned vehicles, keep the speed at 50 miles per hour or lower.
- Lights located in hallways, closets or similar areas should remain turned off.
- Office Christmas decorations should not include lights.

Additional suggestions to help combat the energy crisis will be made as they are developed, Peters said.

Actually, he added, Marshall has been making efforts to reduce energy consumption for more than two years, primarily as an economic matter.

Faculty Council report

The Advisory Council of Faculty to the Board of Regents met in Charleston on Nov. 19, and conducted the following items of business:

- (a) Requested the Board of Regents to consider asking each institution in the system to develop explicit procedures for faculty evaluation for the improvement of teaching as well as for purposes of promotion, tenure, reappointment, and salary increases. Evaluation guidelines were included for possible use by the institutions.
- (b) Recommended that faculty sick leave continue on an informal basis, but requested that in the event a formal policy was to be adopted, the Advisory Council wished to participate. In anticipation of a future policy, the Council prepared a list of desirable benefits for inclusion.
- (c) As the result of a meeting on Sunday, Nov. 11, of the Advisory Council with the Interim Subcommittee of the West Virginia Legislature Joint Committee on Government and Finance to study the organization and administration of the Board of Regents, the Council is making certain recommendations to the Legislative Subcommittee. While this is a continued agenda item for the next Council meeting, it was decided that one recommendation would be to amend the laws of the State to allow official faculty representation on the Board.

Other recommendations for the Subcommittee are under consideration.
