Hayes' ruling on CLEP reported by AP&S unit

The Academic Planning and Standards Committee approved a resolution on the administering of CLEP, Feb. 14, 1975. President Robert B. Hayes disapproved the resolution, citing the following reasons which directed the decision:

1. There are three studies under way which I believe must be concluded prior to a decision which would alter the present CLEP policy. These studies are being conducted by Mr. Harless, by the Marshall University Department of English, and by a committee of the Board of Regents. The data developed in these studies are needed.

2. Prior to my decision, I would want specific action by each department involved on the alternate proposed. In moving from our present policy, I believe we must move directly to the new proposal implementation. We cannot drop the present policy and then wait for departmental action.

Commencement roles for faculty changed

The Commencement and Honorary Degrees Committee recently recommended two significant changes in the commencement procedure to President Hayes. These recommendations, both of which received his approval, were (1) that the faculty lead the academic procession, rather than bring up the rear, and (2) that the faculty be seated at the front of the Field House rather than at the rear. The Committee felt that these changes would not only foster a greater sense of participation on the part of the faculty but would, at the same time, enhance the dignity of the occasion.

The size of the '75 graduating class makes the use of tickets necessary again this year. Faculty members will be notified by the Registrar's Office when they are ready for distribution. Each faculty member will, upon request, be given a second ticket.

While the Bookstore cannot guarantee that academic regalia ordered at this late date will arrive in time for commencement, Mr. Vance (696-3622) has offered to try.

The commencement exercises will begin at 3 p.m. on Sunday, May 11, 1975.
