Regents approve MU projects

The West Virginia Board of Regents, meeting Tuesday in Charleston, approved a \$14.9 million budget allocation for Marshall University for 1975-76, an increase of 5.2 per cent over the current budget.

The board also approved an \$11 million capital improvements program under Phase I of the university's Campus Facilities Plan. At the same time, Marshall was requested to submit specific plans next fall for an \$8 million Phase II capital improvements program.

Phase I plans approved by the board include:

- Parking, including land purchase, \$2,620,000.
- Construction of a College of Business building, \$5,422,673.
- Baseball and recreation field, including land purchase, \$810,000.
- Renovation of Old Main's west section, \$1,663,341.
- Renovation of the Old Dining Hall for Community College use, \$200,000.
- Demolition of several structures, \$147,000.
- Improvements to campus lighting and walkways, \$150,000.

The board did not act on a \$3.6 million Phase I proposal for an addition to Gullickson Hall or a \$450,000 Gullickson renovation. Chancellor Ben Morton was quoted later as saying, "Basically, the decision to delay action on the Gullickson Hall

projects was made because if some other action regarding Marshall's physical education facilities is decided upon, that would alter the need for expansion and improvement of the existing building."

Possible construction of an arena is one of the alternatives listed in Phase II of the Campus Facilities Plan.

Of the Phase I elements approved, all but the Old Main renovation, demolition and sidewalk and lighting projects are scheduled to be underway by 1976 under the proposal submitted by the university.

The board also approved purchase of several parcels of land on Third Avenue for parking development at a total cost of \$137,750. Also approved was employment of Don Leckie Realty Co. to appraise two properties on 5th Avenue.

Action was deferred on a program proposal to offer a Master of Science degree in Criminal Justice. It will be included in the board's new programs review.

The board also acted to increase student enrollment fees at the various schools in the system. At Marshall, Undergraduate student enrollment fees this fall will be \$165.50 for residents and \$640.50 for non-residents, up \$21.50 and \$46.50, respectively, from current fees. Graduate student fees will be \$180.50 for in-state students and \$670.50 for out-of-state students, up \$21.50 and \$146.50, respectively.

First year a success for MU Emeritus Club

The Emeritus Club of Marshall has ended its first year on a note of success, according to Dr. Donald N. Martin, club president.

Martin said the club has continued to grow with each meeting, citing that the final meeting of the academic year, held April 16, attracted 39 people.

That meeting also saw the reelection of Martin as president and Bernice Dorsey as vice president. Charles Runyon was elected treasurer for the coming year.

Martin said the next meeting will be held in September at a date and place to be announced.

FACULTY WINS TROPHY-The Marshall University faculty donated 70 pints of blood during the academic year to gain possession of the campus blood donor trophy. The trophy, which moves to the winning campus unit each year, was won by residents of Twin Towers dormitories last year. The Marshall Office of Volunteer Experiences (MOVE), a branch of Student Government, coordinated the four blood drives this year. Shown at the trophy presentation are, from left, President Robert B. Hayes; James Accord of Huntington, representing second-place Sigma Alpha Epsilon fraternity (42 pints); Karen Hall of Milton, student blood drive chairman; Dr. Sam Clagg, chairman of the University Council, who accepted the trophy on behalf of the faculty, and Jeff Pollitt of Vienna, W.Va., representing Sigma Phi Epsilon, winner of the third campus drive.

Actions of Regents advisory unit reported

The Advisory Council of Faculty of the West Virginia Board of Regents met April 18, 1975, and conducted the following items of business:

1. The Council will conduct a system-wide survey in the early fall to learn of group insurance needs of the faculty and staff.
2. The Council asked the Chancellor to provide information on sabbatical leaves to college and university faculty since 1970. An appropriate course of action will be determined after examining the data and pertinent information.
3. The AAUP request to consider changes in Policy Bulletin 36 was put aside until such time as application of the policy reveals a need for revision. A discussion relative to this decision generated the following observations:
 - a. There is a growing tendency to consider faculty as simply employees rather than as members of a profession.
 - b. The Regents have a responsibility to uphold the interests of the faculty and the profession as well as to represent the public. In essence, there is a dual responsibility.
 - c. Some concern was expressed about the legalistic

attitudes enveloping higher education.

4. The Council recommended that the diploma awarded for the Board of Regents' degree be granted under the Board of Regents heading instead of in the name of the various institutions. The Council members said they believed that the Regents degree diploma should not be the same as that received by the bachelor's candidates in the regular four-year program.
5. The Chancellor reported that the current program review is not an effort to destroy general education or liberal arts but to evolve the strengths and resources of institutions into more career education. The review has produced rumors, fears, and some unwarranted expectations. He noted that he must be sensitive to the ideas of costs and productivity. The Chancellor stated categorically that the Board will not act on this matter in an arbitrary or capricious manner.

MU faculty, students form 'language bank'

A "language bank," designed primarily to aid foreign visitors to West Virginia and the Tri-State Area, has been formed by several Marshall University students and faculty members.

The language bank is a free translation service which utilizes volunteers in the community who speak a second language, according to Dr. Corazon Almalel, chairperson of the Marshall Council for International Education (MCIE).

"We are establishing a card file on the volunteers and their languages so that when a request comes in for a certain language skill we hope to be able to pull a card and quickly find assistance," said Ms. Almalel, who also is a professor of

modern languages.

While the bank may not be able to meet every request, it has surprised Ms. Almalel to learn how many different languages are represented on the Marshall campus and in the Huntington area.

"We're still working on our files so I don't know the exact number, but I'm sure we will be able to use every bi-lingual volunteer available," she said.

Persons in need of the language bank's services or who might want to volunteer their language skills may contact Ms. Almalel at 696-6730, or Dr. C. W. Matz Jr., assistant professor of political science, at 696-6636.
