Taxes will be discussed at workshop

“The Business Taxes” will be the topic of a free workshop at Marshall University, Tuesday evening, Oct. 14, according to Larry Kyle, director of Marshall’s Small Business Development Center.

Faculty/staff achievements

Five members of the W. Page Pitt School of Journalism recently conducted newspaper workshops at Parkersburg High School for 150 students from area high schools and junior high schools. Participants were professors GEORGE ARNOLD, GEORGE LOCKWOOD and RALPH TURNER, Panhandle advisor, and Associate Dean RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairman; V.J. TEETS, lab/med tech; and H.H. LO and C.D. RICHMOND, graduate students. RANKIN also co-authored a presentation on renal function in diabetic rats with Dr. GARY O. RANKIN, chairma...
Staff Council fills two vacancies

(Continued from page 3)

The following report on the Oct. 1 meeting of the Marshall University Staff Council was submitted by Karen Klein, stenographer.

University Council met Oct. 1 at 2:55 p.m. in the President's Dining Room in the Student Center. The following items were discussed.

Support for Higher Education: Rainey Duke, chairwoman, mentioned that a bus trip to the University of Cincinnati for high school students would leave Oct. 15 at 2:55 p.m. with a picture and brief history of an employee who has retired from the university. Ms. Rickman read a memo from Sara Parker of WBYQ requesting that WBYQ personnel receive a Discount Key Card. After much discussion, it was the consensus of the Council that WBYQ employees and all faculty members should receive a key card. It was also stipulated that both groups should designate representatives to serve on the Discount Key Committee.

Policy Bulletin #2: Copies of revised Policy Bulletin #2 dealing with personnel administration for Board of Regents employees were distributed to Council. President Rickman emphasized that every member should become familiar with its content. The bulletin will be included in the Greenbook.

Vacant Positions Filed: Ms. Rickman read a letter of resignation from Eugene Crawford of Support Services. Her employers would leave Oct. 15 at 2:55 p.m. with a picture and brief history of an employee who has retired from the university. Ms. Rickman read a letter of resignation from Eugene Crawford of Support Services. Her employers would leave Oct. 15 at 2:55 p.m. with a picture and brief history of an employee who has retired from the university. Ms. Rickman read a letter of resignation from Eugene Crawford of Support Services. Her employers would leave Oct. 15 at 2:55 p.m. with a picture and brief history of an employee who has retired from the university.

Council unanomously selected Charles Edwards, Plant Operations, to fill Crawford's unexpired term. President Rickman emphasized that we are not against SB 281, but only the part relating to the method of payment of the $36 increment. Ken Reiffelt suggested that everyone vote to correct the legislators. Suggestions were made that we set up a network of all councils in the state to evaluate our mutual concerns and coordinate efforts to accomplish our goals.

As a response to Neal's letter, a letter was drafted by Jane Vickers. After discussion, it was moved that the letter be sent to Neal with a revision to stress Council's concern regarding the potential loss of payment of $36 increment to employees terminating their employment during the year would receive the $36 increment in its entirety as salary since their income was earned prior to their leaving. The motion passed by a 16-4 vote. The letter will be revised and sent to President Rickman for approval.

Calendar Committee: Zane Capehart reported the Calendar Committee has had two meetings. The committee discussed the 13 holidays and worked toward scheduling the Christmas holidays in 1988. There will be 14 holidays, election day being the additional one.

Other Business: Jane Vickers asked if a task force had been formed to study the possibility of food service employees receiving the same benefits as classified staff. Ms. Rickman reported that this would be discussed with President Nitzsche.

The next Staff Council meeting will be held Oct. 16 at 1 p.m.

System to save money

(Continued from page 3)

will know that on very cold or hot days it needs to start sooner to get buildings ready for use. Building occupants can still adjust thermostats in their areas, overriding the equipment if necessary. The university also can make scheduling changes using a toll-free number to accommodate special events such as mid- day basketball games in the Henderson Center.

Marshall's superintendent of facilities maintenance and energy management, Alfred M. Horan, said the monitoring system will adapt to the school's widely varying heating and cooling systems, which, he said, "go from horse-and-buggy in Old Main to state-of-the-art in the Science Annex, and everything in between."

In addition, he said, the system will prolong the life of Marshall's equipment by running it only when needed and by detecting problems early. "If a boiler goes down over the two weeks Marshall is closed at Christmas, we'll get it running again by take it down instead of a phone call to the Security Office when someone sees water spraying out from a broken pipe."

Taggart to give lecture/performance

Dr. James A. Taggart, professor of music at Marshall University, has been selected to present the annual faculty lecture sponsored by the Delta Omicron music fraternity on Tuesday, Oct. 14, at 8 p.m. in Smith Recital Hall.

In a departure from traditional Delta Omicron lectures, Taggart will present a musical performance titled "The Keyboard Sonatas of F.J. Haydn."

The lecture/recital will trace the development of the sonata in Haydn's works in terms of musical form, style and orchestral technique. Five sonatas will be played in their entirety, with portions of two others adding to the demonstration.

As an alumnus of the Marshall faculty since 1970, Taggart was educated at the Royal Academy of Music in London and received his Ph. D. in piano literature and performance from the University of Iowa.

A former classical specialist, he has conducted extensive research and presented numerous recitals, workshops, lectures and masterclasses on the sonatas of Haydn, Mozart and Beethoven.

Kincaid leaving MU

Bonnie Kincaid, supervisor of parties and banquetss for Marshall University's food service department, has resigned in order to move to Palm Beach, Fla.

She has been employed with ARA Food Services at Marshall since 1971 and has coordinated numerous banquets and gatherings for the university.

Her last University Club job will be Friday, Oct. 11. "I have enjoyed working at Marshall very much and will miss the wonderful people it has been my pleasure to work with over the past 15 years," said Ms. Kincaid.

Grant workshop set

Two representatives of the West Virginia Department of Education will present a grant workshop at 1 p.m. Oct. 16 in the Marshall University Memorial Student Center. William Capehart and Carolyn Arrington will discuss the grants department makes directly to higher education, as well as advise participants on how to apply for money through county boards of education. In addition, they will meet with interested individuals by appointment.

The free workshop, part of a six-week series, will be in room 7 of Marshall's Memorial Student Center.

Individual appointments may be made by calling Dr. Robert Barnett, Marshall University grants officer, at 696-6797.

Band going to NFL game

Marshall University's Marching Band will perform the pregame and halftime programs during the National Football League's Monday night football game between the Cincinnati Bengals and the Pittsburgh Steelers on Oct. 13 at 9 p.m. at Cincinnati's Riverfront Stadium.

The appearance will be the fourth National Football League performance in the last seven years for the 220-member Big Green Marching Machine, according to Dr. Richard Lemke, associate professor of music and director of bands at Marshall.

Grad student group forming

The Marshall University Graduate Student Association will hold an organizational meeting through Steeles on Oct. 15 and 16, at 5:30 p.m. in Memorial Student Center Room 2W22, according to Dr. Leonard Deutch, acting dean of the MU Graduate School.

To obtain further details contact the Graduate School, 696-6606.
