Cockrille appointed dean of student affairs

Dr. Donnalee A. Cockrille has been appointed dean of student affairs at Marshall University, effective May 1. Announcement of the appointment was made by MU Vice President for Administration K. Edward Grose.

Cockrille has been serving as interim dean of student affairs since last June. She has been a Marshall staff member since 1988. "We're extremely pleased an individual with Dr. Cockrille's qualifications, experience and knowledge of Marshall University has agreed to accept this key position on a permanent basis," Grose said. "She has done an excellent job as interim dean and we look forward to continuing to work with her during the years ahead."

Cockrille earned her bachelor's degree in education from West Virginia State College, her master's in counseling from Marshall and her doctorate in curriculum development and educational administration from West Virginia University. She also is a graduate of Southern Police Institute in Louisville, Ky.

Prior to joining the Marshall staff, she worked at Prentera Mental Health Center, served as crisis intervention project director for the Huntington Police Department and taught in Kanawha, Wayne and Preston counties.

At Marshall she also has served as coordinator of women's and returning students' programs and interim associate dean of student affairs.

She has been involved in a variety of professional and community organizations and has been a member of the West Virginia Council for the Social Studies, the Women in Higher Education Association, the West Virginia Counseling Association, the West Virginia Association for Student Personnel Administrators and the National Association for Curriculum Development. She has served on the boards of directors of Big Brothers and Big Sisters and Contact Crisis of Huntington.

Cockrille is the recipient of a number of service awards, including the Susan B. Anthony Award in 1990, the Women's Faculty Recognition Award in 1991 and the Claude and Alma Rowe Research Award for Excellence Through Equity, awarded by the West Virginia University Center for Women's Studies in 1992.

Ashland Oil president will be guest speaker

Paul W. Chellgren, president and chief operating officer of Ashland Oil Inc., will be the featured presenter for the 1994 Marshall University MBA Association Distinguished Speaker Luncheon on Wednesday, April 27, at noon in the Ohio Room at the Radisson Hotel.

There will be a charge of $7 for the luncheon which is open to the public.

The MBA Association is made up of Marshall University students working toward their master's degrees in business administration.

Chellgren joined Ashland Oil in 1974 as executive assistant to the chairman of the board and chief executive officer. In 1977 he was named administrative vice president of Ashland Chemical Company in Columbus, Ohio, and became a group vice president of that division the following year.

He was named senior vice president and group operating officer of Ashland Oil Inc. in 1980 with responsibility for Ashland Chemical Company, Ashland Coal Inc. and Ashland Development. He was elected senior vice president and chief financial officer in 1988.

In 1992 Chellgren was elected president and chief operating officer and a member of the board of directors of Ashland Oil Inc. He also is a director of Ashland Coal Inc. and former chairman of the board.

Chellgren received his bachelor's degree from the University of Kentucky and his master's degree from Harvard University. He also received a diploma in developmental economics from Oxford University in England.

Prior to joining Ashland Oil, Chellgren was an associate with McKinsey and Company in London, England, and Washington, D.C.; served as an operations analyst in the office of the secretary of defense in Washington, D.C.; was an administrative assistant for Boise Cascade in Boise, Idaho, and division general manager.

MU receives $661,745 in equipment from NSF

Marshall University has received equipment worth $661,745 from the National Science Foundation, according to Charlotte Weber, executive assistant for federal programs at Marshall University's Research and Economic Development Center.

The university obtained the equipment through the National Science Foundation's warehouse clearance program in Lanham, Md. Marshall was permitted to participate in the federal program because of NSF grants held by Dr. Michael Norton, associate professor of chemistry; Dr. Michael Castellani, assistant professor of chemistry; Dr. Suzanne Strait, assistant professor of biological sciences, and Dr. Protip Ghosh, professor of geology.

Weber said the equipment, which includes highly technical items such as a gene assembler and a chromatograph, will be utilized in research activities and in the classroom.

This is the third time in the past year Marshall has been
Library Associates to meet this evening

Former West Virginia Governor Cecil H. Underwood will be the guest speaker for the annual meeting of the Marshall University Library Associates on Thursday, April 21, at 7:30 p.m. in the Memorial Student Center Alumni Lounge.

The meeting will be open to the public free of charge, according to Dr. Kenneth Slack, executive secretary of the MU Library Associates.

Underwood has had a long and distinguished career in public service. After graduating from Salem College (now Salem-Teikyo), he taught biology at St. Marys High School. While teaching there he began his political career when he was elected to the first of his six terms in the West Virginia House of Delegates in 1944 at the age of 22.

In 1946 he went to work at Marietta (Ohio) College as an assistant to the president. In 1950 he became vice president for public relations at Salem College. He received his master's degree from West Virginia University in 1952. In 1956 he took a leave of absence from Salem to run for governor.

He was the youngest governor in the nation when he served in that office from 1957 to 1961.

Underwood, who also served as president of Bethany College and has received several honorary degrees, continues to work with numerous organizations and groups dealing with education and economic development in West Virginia.

The Marshall University Library Associates organization was formed to provide support for Marshall's libraries, enhance the prestige and service of the institution and, in so doing, advance the cultural and economic status of the Tri-State region.

Anyone interested in the development of the library is welcome to join the organization. The current membership includes community leaders and residents and Marshall faculty and staff.

To obtain further details about Underwood's presentation or the Marshall University Library Associates contact Slack at Marshall University, 696-3097.

Ashland Oil president
(Continued from page 1)

in Los Angeles, Calif., and was general manager of Universal Capital Corporation in Kansas City, Mo.

He currently serves as a director/trustee of PNC Bank, Kentucky Inc., the University of Kentucky, Centre College and the American Petroleum Institute and is a member of the National Petroleum Refiners Association and the Society of the Chemical Industry.

Chellergren also is a member of the University of Kentucky Fellows, chairman of Leadership Tri-State, a director of the Foundation for the Tri-State Community, vice chairman of the National Foundation for Advancement in the Arts, director and secretary/treasurer of American Friends of University College, Oxford, and a trustee and former president of the Huntington Museum of Art.

To obtain further details or make luncheon reservations contact Sue Ferrell at Marshall University's College of Business, 696-2315. Reservations should be made by Friday, April 22.

Health to be discussed

Members of the Marshall community are invited to a free lecture Friday, April 22, by Joseph Piscatella, who has written widely acclaimed wellness books including "Controlling Your Fat Tooth" and "Choices for a Healthy Heart."

His presentation, "Life is Not a Dress Rehearsal," will begin at 7:30 p.m. in St. Mary's Hospital Room 2109. The talk will focus on the relationship of lifestyle habits to health and longevity. Refreshments will be provided and door prizes will be awarded.

Piscatella also will speak to health professionals at 9 a.m. Saturday in the hospital's sixth-floor classroom. His topic will be "Controlling Your Fat Tooth: The Key to Dietary Compliance."

The two events are presented in conjunction with the opening of the School of Medicine's Lipid Clinic. The clinic will specialize in cholesterol problems, according to Dr. Robert Touchon, chief of cardiology at Marshall and director of the clinic. It is the only one of its kind in the area.

MU receives equipment
(Continued from page 1)

permitted to participate in an NSF warehouse clearance program. Weber said the university has received more than $1 million worth of scientific equipment from the National Science Foundation through its participation in the three clearance programs.

"Once again, the university received a large amount of computer equipment and specialized scientific instruments that will be available to our faculty and students to aid them in their research efforts," said Weber. "The equipment list is quite varied and includes several items that the university eventually would have had to purchase.

"This program has brought excitement and enthusiasm, as well as much needed equipment, to the university," she said. "However, it is important to note that Marshall University's continued participation in the warehouse clearances relies on the successful attainment of National Science Foundation grants."

Weber said she would like to encourage Marshall faculty members to apply for National Science Foundation grants whenever possible.

Fulbrights available

The official opening of the 1995-96 Fulbright grants competition for graduate study and research abroad in academic fields and for professional training in the creative and performing arts is May 1, 1994.

Applicants must hold a bachelor's degree or equivalent by the beginning date of the grant. Creative and performing artists are not required to have a degree but must have four years of relevant training or study. Candidates in medicine must have an MD or equivalent (e.g. DDS, OD, etc.).

To obtain further details contact the Office of the Associate Vice President for Academic Affairs, Old Main Room 110, or phone 696-5442.
Secretaries’ program to be held April 27

The seventh annual Secretaries’ Day Program and Secretaries’ Briefing produced by the American Management Association will be held at Marshall University on Wednesday, April 27, from 8:30 a.m. to 3:15 p.m. in the W. Don Morris Room in Memorial Student Center.

The program has been designed for all office support secretaries, executive secretaries, administrative assistants and aides, office managers, information processing coordinators and others who provide secretarial or administrative support for one or multiple bosses, according to Richard Hensley, director of continuing education in Marshall’s Community and Technical College.

“This program will feature practical training that can be applied immediately back on the job,” said Hensley.

Prior to the national AMA videoconference, Marshall’s Office of Continuing Education and Department of Human Resources will sponsor a local program.

Mathematics Awareness Week will be observed

"Mathematics and Medicine" will be the theme for Mathematics Awareness Week being observed April 25-29 at Marshall University.

The theme highlights the critical involvement of the mathematical and computational sciences in mathematical biology and in developing new technologies and decision-making tools in medicine, according to Dr. Judith A. Silver of Marshall’s Mathematics Department.

She said mathematics researchers are making many contributions in the field of medicine ranging from building a realistic three-dimensional model of the heart to analyzing DNA to studying the virus that causes AIDS.

The national observance of Mathematics Awareness Week seeks to showcase the significant contributions mathematics makes to American medicine. The national program is being sponsored by the Joint Policy Board for Mathematics which represents the American Mathematical Society, the Mathematical Association of America and the Society for Industrial and Applied Mathematics.

Marshall’s chapter of Pi Mu Epsilon mathematics honorary society will show mathematics videos in the Memorial Student Center Lobby from 11 a.m. to 1 p.m. throughout the week. There will also be a display on "Mathematics and Medicine" on the fifth floor of Smith Hall.

Dr. Susan DeMesquita, associate professor of physiology in Marshall’s School of Medicine, will make a presentation titled "Mathematics and Medicine" on Monday, April 25, at 4 p.m. in Memorial Student Center Alumni Lounge.

Dr. Michael Castellani, associate professor of chemistry at Marshall, will make a presentation titled "Chemical Applications of Group Theory" on Wednesday, April 27, at 4 p.m. in Smith Hall Room 511.

All of the presentations will be open to the public free of charge. To obtain further details contact Silver at Marshall University’s Department of Mathematics, 696-3044.

Registration will begin at 8:30 a.m. followed by welcoming remarks at 8:50 a.m. A workshop titled "Lighten Up!" will begin at 9 a.m.

The workshop will examine the place of humor in our lives and discuss the psychological, emotional and physical benefits of laughter.

A workshop titled "Super Woman Syndrome: Handling Stress While Juggling Career and Family" will begin at 10:30 a.m.

Following lunch, the national AMA briefing will begin at 1 p.m.

The briefing will help participants learn how technology, economic changes and the new emphasis on teamwork are creating more opportunities for them; develop new skills for a new age, including team dynamics and managing conflict; and join the empowered team, helping their organization recognize and capitalize on the talent of the support staff.

Several nationally prominent speakers and business owners and managers will take part in the briefing which will be moderated by Lee Thornton, an associate professor at Howard University, journalist and former White House correspondent for CBS News.

Participants will be able to question the featured speakers and presenters via telephone.

The program will end at 3 p.m. with closing remarks and a drawing for door prizes.

There will be a $15 registration fee for Marshall employees which will include materials, lunch, refreshments and a continuing education unit certificate.

The registration deadline will be Monday, April 25.

To register or obtain further details contact Billie Weis in Marshall University’s Office of Continuing Education, 696-3113.

Judges still needed

Marshall University faculty and staff members are needed to serve as judges for the West Virginia State Social Studies Fair which will be held Friday, May 20, from noon to 4 p.m. at the Huntington Civic Center.

Dr. Mahlon Brown, retired MU faculty member and coordinator of the fair, said winners from county social studies fairs throughout the state will be participating in the event.

"We are still way short of the number of people we need," said Brown. "This event showcases both Marshall and Huntington and we want to put our best foot forward. You can help us do that. It will be a rewarding and exciting afternoon."

Persons interested in serving as judges should contact Barbara Lanham, 696-6610.

Weill to be honored

A retirement party in honor of Dagmar Weill, associate professor/librarian, will be held Tuesday, May 3, from 2:30 to 4:30 p.m. in the Hoffman Room in James E. Morrow Library.

Everyone is invited to attend and pay their respects to Weill who is retiring after working 16 years at Marshall University.
Exhibits to close gallery’s spring events

Two weeklong exhibitions will close the spring semester activities at Marshall University’s Birke Art Gallery, according to Dr. Marilyn Laufer, co-director of the gallery.

All of the works in the exhibitions have been completed by Marshall seniors as part of their degree requirements.

Works from seven artists will be featured in the first exhibition which will run from Saturday, April 23, through Thursday, April 28.

A reception will be held on Sunday, April 24, from 5 to 7 p.m. in the gallery for the following artists with works in the exhibition: Dawn Adams of Chapmanville, Ruth Hurley of Glen Dale, Aimee Barclay of Charleston, Chris Doolin of Catlettsburg, Ky., Diane Dukes of Huntington, Virginia Kayser of Huntington and Vince Harper of Walton. Adams, Hurley and Barclay are candidates for bachelor’s degrees in art education. Doolin, Dukes, Kayser and Harper are candidates for bachelor of fine arts degrees in graphic design.

The second exhibition will be held Saturday, April 30, through Thursday, May 5.

It will feature the works of Heidi Flinn of Huntington, Valerie McSparin of Charleston, Donita Pepper of Ansted, Ben Sturgill of Petersburg, Bonnie Charles of Huntington, Amy Hinkle of Buckhannon and Linda Carter of Ashland, Ky. Flinn, McSparin and Pepper are candidates for bachelor of fine arts degrees in graphic design. Sturgill and Charles are candidates for bachelor of fine arts degrees in Printmaking. Hinkle and Carter are candidates for bachelor of fine arts degrees in photography.

A reception for artists in the second exhibition will be held Saturday, April 30, from 4 to 6 p.m. in the gallery.

Laufer said on behalf of the MU Art Department and the Birke Art Gallery, she would like to invite everyone to attend the exhibitions which celebrate the hard work, talent and accomplishments of the students.

Both exhibitions will be open to the public free of charge. Birke Art Gallery is open Monday through Friday from 10 a.m. to 4 p.m.; Monday evening from 7 to 9 and Saturday from noon to 4 p.m.

To obtain further details about Birke Art Gallery programs contact the Marshall University Art Department, 696-6760.

Castellani receives $8,000 grant supplement

Dr. Michael P. Castellani, associate professor of chemistry, has received an $8,000 supplement to his National Science Foundation grant.

The supplement will allow Philip Alexander, a chemistry teacher at Buffalo Wayne High School, to work in Castellani’s laboratory this summer.

Alexander, who will receive the 1994 Chemistry Teacher of the Year Award from the Central Ohio Valley Section of the American Chemical Society later this month, will be examining organochromium catalyst systems at Marshall.

In 1992 Castellani received grants totaling $104,000 from the NSF and the Petroleum Research Fund to study chemical reactions.

Music recitals planned

Guest artists and faculty members and students in Marshall University’s Department of Music will present a number of concerts and recitals during April, according to Dr. Donald A. Williams, department chair.

All of the programs will be held in Smith Recital Hall on the Marshall campus. The schedule includes the following:

April 23--Claudia Wooten (clarinet) senior recital at 8 p.m.
April 25--Marshall University Symphonic Band concert at 8 p.m.
April 26--Marshall University Chamber Choir concert at 8 p.m.
April 27--Monica Egermayer (violin) junior recital at 8 p.m.
April 28--Marshall University Jazz Ensemble concert at 8 p.m.

All of the programs will be open to the public. Many of the programs will be presented free of charge.

To obtain further details contact the Marshall University Department of Music, 696-3117.

Wellcome lecture set

Dr. Russell Hilf of the University of Rochester Cancer Center will interact with Marshall faculty, staff and students next week through the Wellcome Visiting Professorship Program, according to Dr. Richard Niles, chairman of biochemistry and molecular biology.

Hilf will present the Wellcome Lecture at 4 p.m. Monday, April 25, in room 465 of the Science Building. His topic will be “Hormonal Regulation of Breast Cancer.” The lecture is open to all members of the Marshall community.

While at Marshall, Hilf will meet individually with basic sciences faculty members. At 8 a.m. Tuesday, he will speak to physicians on “The Potential of Photodynamic Therapy in Cancer” at Medical Grand Rounds at St. Mary’s Hospital. At noon Thursday, he will present a biomedical sciences seminar on “Estrogen and Anti-Estrogen Interactions with Response Elements.” The seminar will be in room G-O3 of Marshall’s Medical Education Building in the VA Medical Center complex.

Hilf, a professor of biochemistry and of oncology, is interim director for basic science at the University of Rochester Cancer Center. He currently has federally funded projects on interaction of estrogen receptor with DNA and photoirradiation-sensitive cell sites in mammary tumors. He has published more than 220 articles and book chapters.

He is associate editor of Cancer Research, a grant reviewer for the National Science Foundation, and a member of the Scientific Advisory Panel of the American Institute for Cancer Research.

Wellcome Visiting Professorships are designed to stimulate interest in the basic medical sciences and communication among researchers in those fields. Marshall received one of 24 professorships awarded for 1993-94.
Literacy program will be held on campus

A national videoconference titled "Technology: New Tools for Adult Literacy" will be presented free of charge at Marshall University on Thursday, April 28, from 1 to 3 p.m. in Smith Hall Room 518, according to Richard Hensley, director of continuing education at Marshall's Community and Technical College.

A national panel of educators and literacy program specialists will present and discuss a variety of current technology applications including computer hardware and software, the benefits of using technology, cost-effective options available to meet the demands of both large and small literacy programs and innovative applications of technology already in place in adult literacy programs throughout the nation.

The program, sponsored by the Public Broadcasting Service, also will feature a unique experimental networking component that will give literacy practitioners the opportunity to continue the dialogues begun during the videoconference and access databases and other information on adult literacy issues.

This feature will allow participants to learn more about and experiment with electronic networks, participate in an on-line discussion group, access materials related to the videoconference and other materials relevant to technology and adult literacy and access databases of adult literacy software.

Hensley said the program is important for anyone involved in literary programs and adult education. He said nearly half of the adults in the United States have inadequate literacy skills to function effectively in their work and personal lives and that an overwhelming number of adults who need literacy services never receive any.

The program is being presented in partnership with the National Center on Adult Literacy, the U.S. Department of Education Office of Vocational and Adult Education, the Adult Learning Service of PBS, the American Association of Community Colleges and WHYY-TV in Philadelphia.

To register or obtain further details contact the Continuing Education Office in Marshall University's Community and Technical College, 696-3113, or the Tri-State Literacy Council, 523-9451.

Auditions scheduled

Auditions for three summer productions by the Marshall University Theatre will be held May 4 at 6:30 p.m. in the Fine and Performing Arts Center Room 224.

The auditions are not restricted to Marshall students and are open to everyone. Entrance to the auditions will be available only through the Sixth Avenue side of the building.

Presentations will include "On Golden Pond" to be presented June 16-18, featuring parts for three men, two women and one 13-year-old boy; "Lips Together, Teeth Apart" to be presented July 7-9, featuring parts for two men and two women; and "Park Your Car in Harvard Yard" to be presented July 28-30, featuring a part for one woman.

Season ticket packages will be available beginning May 18 at the Box Office. Sales for individual shows begin 11 weekdays prior to the opening nights. All performances will be held in the Francis-Booth Experimental Theatre and begin at 8 p.m.

To obtain further details about the auditions or tickets contact the Marshall University Theatre Department, 696-2787.

Dissertation to be defended

Jeff Smith, a candidate for the Marshall University-West Virginia University doctoral degree in educational administration, will defend his dissertation on Friday, April 29, at 1 p.m. in Memorial Student Center Room 2W10.

Dr. Neil L. Gibbins, program coordinator, said observers are welcome to attend but seating will be limited.
Marshall faculty and staff achievements

Dr. JAMES W. HOOPER, director of the Center for Environmental, Geotechnical and Applied Sciences and Weisberg professor of software engineering, has served as president of ANCOST Inc. for the past year. As president he presided over the 12th annual National Conference on Ada Technology held March 21-24 in Williamsburg, Va. During the conference he was presented an award for his service to ANCOST. His current term on the board of ANCOST continues through 1996. HOOPER also presented a paper titled "An Ada Software Engineering Migration Training Plan" which was co-authored by Drs. AKHTAR LODGHER and HISHAM AL-HADAD of the Department of Computer Science and Software Development. LODGHER presented a paper titled "Making Ada Interesting and Fun for Undergraduates" which was co-authored by AL-HADAD. LODGHER also serves on the ANCOST board. He served as co-chair of the Technical Program Committee during the recent conference and will serve as chair of that committee for the 1995 conference.

Dr. D. ALLAN STERN, professor in the Safety Technology Program, was master of ceremonies at the 12th annual MU Safety Conference held March 21-22. He attended the 45th annual conference of the West Virginia Driver and Traffic Safety Association held March 24-25 in Charleston. STERN also participated in Huntington's first Youth Safety Conference held April 13 at the Huntington Civic Center. Approximately 400 people in making those important decisions. Marshall's Board wiil conduct a seminar titled "First Step: An Overview of Student Life," which was co-authored by AL-HADDAD. LODGHER and STERN also serve as chair of that committee for the 1995 conference.

Returning student seminars set

Marshall University’s Office of Returning Students’ Programs will sponsor a series of three “First Step” seminars in May for adults who are interested in returning to school.

All of the seminars, open to the public free of charge, will be held from 5:30 to 7 p.m. in Prichard Hall Room 143.

The first program on Tuesday, May 3, will give an overview of adult education and the college admissions process, according to Frances Fanning-Greller, interim coordinator of returning students’ programs.

Financial aid opportunities and study skills will be the focus of the second program on Thursday, May 5. Participants also will be introduced to the growing number of computer laboratories on the Marshall campus.

Fanning-Greller said the third seminar on Monday, May 16, has been designed for people who are undecided about a college major or career. It will focus on campus services that can assist people in making those important decisions. Marshall’s Board of Regents bachelor’s degree also will be discussed. The BOR degree program grants college credit for life experiences.

“Sometimes the thought of going back to college, or starting college, after having graduated from high school many years ago is confusing or even frightening,” said Fanning-Greller.

“People may not have a clear idea about what they want to do, how they’ll pay for college or how they’ll be able to handle the classes and study load. That’s where we can help. The Office of Returning Students’ Programs is here to help with every step a returning student makes on campus if he or she needs us.”

Registration for the seminars is preferable but not necessary. To register or obtain further details contact the Marshall University Office of Returning Students’ Programs, 696-3112.

Tri-State area high school students attended the program.

Dr. SUZANNE DESAI, chair of the Marketing Department in the College of Business, attended the annual meeting of the International Association of Business Disciplines (IABD) held April 7-10 in Pittsburgh. She conducted a workshop titled "Creative Ways to Encourage Intellectual Contributions and To Develop An Appetite For Them." She also acted as a discussant for a paper titled "Retail Selling: Is It Truly Deficient?" with written comments for participants. In addition, she presented two refereed papers which will appear in the Proceedings of the IABD. The papers are titled "Mr. Mom and Other Male Supermarket Shoppers: Are They Taking Over and Changing the Rules?" and "Product and Packaging Disposals A Channel Perspective--Might The Buck Stop At The Purchasing Professional's Desk?" DESAI will be presenting a paper titled "Confused Retail Image? An Exploratory Study and Framework for Future Research" at an international conference on Recent Advances in Retailing and Services Sciences which will be held this May in Canada and is being sponsored by the Canadian Institute of Retailing and Services Studies and the European Institute of Retailing and Services Studies.

Two related presentations were made at the Sea Literature Sessions of the American Culture Association on April 8 in Chicago by Dr. JOAN TYLER MEAD, interim dean of the College of Liberal Arts, on "Melville’s ‘Billy Budd’ (s)" and by Dr. JOHN H. MEAD, professor of music, on "Benjamin Britten’s Opera ‘Billy Budd.’" Dr. JOHN H. MEAD also was invited to appear as guest artist for the premiere performance of Sterling Cossaboom’s "Statement and Transformations for Alto Trombone and Piano" on April 13 in recital at Southeastern Missouri State University, Cape Girardeau, Mo. He also performed "Cabaret Waltz," the second movement of Emeritus Professor PAUL W. WHEAR’s "Burberry Red-Concerto for Alto Trombone, Strings and Percussion." Both compositions were written for MEAD on the alto trombone.

Auction to benefit scholarship

A silent auction of art works produced by Marshall University artists and artists from throughout the community will be held Thursday, Friday and Saturday, April 28-30, from 7 to 10 p.m. in the Marshall University Fine and Performing Arts Center Lobby and Francis-Booth Experimental Theatre.

Proceeds from the auction will go to the Garth Brown Memorial Arts Scholarship at Marshall.

People interested in purchasing art works on display will submit a written bid. High bidders will be notified on Sunday, May 1. There will be minimum bids set for the art works.

To obtain further details contact Earline Allen in the Marshall University Art Department, 696-2902.
