Boehm receives honor

Dr. Edward G. "Ned" Boehm Jr., Marshall University vice president for institutional advancement, was honored April 23 by the Marshall University Alumni Association as an Honorary Alumnus.

Louis A. Peake, MUAA president, said Boehm is only the 22nd individual to receive the honor. "These awards are reserved for very special people who are not Marshall graduates but who give so much of their time and talent to the university that they seem like alumni," Peake said.

Boehm, who also serves as executive director of The Marshall University Foundation Inc., joined Marshall's administration in the fall of 1989 after 10 years at Texas Christian University.

A native of Washington, D.C., Boehm earned his B.S. degree from Freeburg (Ill.) State University. He received his M.Ed. and Ed.D. degrees from The American University in Washington, D.C., where he served as an assistant vice chancellor for enrollement management before becoming associate vice chancellor for academic affairs.

"Dr. Boehm has represented Marshall University through his involvement with numerous organizations," Peake said. "He has been honored many times. He was named the West Virginia Outstanding Fund Raising Executive for 1993. He led Marshall to receive a prestigious Circle of Excellence Award in Educational Fund Raising from the Council for Advancement and Support of Education (CASE). Marshall was one of 75 higher education institutions nationwide and the only West Virginia institution to be honored by CASE.

"Texas Christian's loss was definitely our gain," Peake continued. "I know being an alumni board member at the time, it was much discussed as to what type of relationship there would be between the alumni association and this person. I can unequivocally state that Dr. Boehm is the best advocate we could hope for.

Fellowships available

Residential fellowships for scholars are being advertised by the National Humanities Center, according to Dr. Leonard Deursh, dean of the MU Graduate School.

Applications for Summer 1995 through May 1996 will allow humanities scholars to study with other scholars at the center which is located in the Research Triangle Park in North Carolina.

Selection is determined by the NHRC in negotiation with the fellows. The application deadline is Oct. 15, 1994. To obtain further details contact the Graduate School Office, Old Main Room 113.

Marshall student gets first Bruce scholarship

Nunudhi A. Shasroy of Russell, Ky., is the first recipient of the Lawrence E. Bruce Memorial Scholarship by Marshall University.

Dr. Clair W. Matz, Marshall professor of political science and director of the university's Center for International Studies, announced the award during a Political Science Department awards dinner.

"The scholarship was initiated by West Virginia Secretary of State Ken Hechler in memory of Bruce, president of the U.S. Committee for UNICEF; a Huntington native and a 1967 Marshall graduate, who died Dec. 25, 1992. The merit-based scholarship is awarded to juniors or seniors who have excelled in interest in a career in international affairs, humanitarian service, or concern for children in the Third World.

A native of India, Mrs. Shasroy worked for the Gandhi Food and Clothing Drive through various India Associations while living in Cincinnati, Ohio. Since moving to Kentucky, she has been a volunteer for the Tri-State AIDS project, doing fundraising for AIDS patients in Kentucky, Ohio and West Virginia.

For eight years, Mrs. Shasroy and her husband have sponsored a child through Christian Children's Fund. They also established a scholarship fund at Kumaran's Children's Home in Bangalore, India. Each year the top three writers, ages 8-14, in different categories receive cash awards or books to encourage them in learning and creative writing.

MU Theatre to present "Golden Pond" June 16-18

The Marshall University Theatre will present "Golden Pond" by Ernest Thompson. Preview performances are at 7:30 p.m. Friday and 8 p.m. Saturday, June 16-17, in the Francis-Booth Experimental Theatre in the Fine and Performing Arts Center. Tickets may be obtained at the Box Office, 305-2878.

"Golden Pond" is a Pulitzer Prize winning play set in the countryside that explores the relationship between a father and his son, who come to terms with the loss of his wife. She died two years earlier in the same hospital where he is taken for treatment of cancer.

The audience is taken on an emotional journey with this humorous and touching play. This production is directed and designed by Dr. Dickson West and produced by Dr. Robert Deaver Drinko Jr., the 22nd individual to receive the honor.

Gould will direct center

Marshall University Vice President for Academic Affairs Alan B. Gould will become executive director of the new John Deaver Drinko Center for American Political institutions and Civic Culture Aug. 1, according to MU President J.Wade Gilley.

Gould will also serve as a Distinguished Professor of History, teaching on a half-time basis.

"Dr. Gould was instrumental in developing the Drinko Center and will also serve as the executive director," Gilley said. "This is an exciting time for Marshall and it is a great opportunity for him to join us in an exciting role.

"I have known Alan for many years and I have great respect for him and his academic background," Gilley said. "I am very excited about having him join our faculty and look forward to working with him.

Gould received a BA degree from Brown University in 1966 and his doctorate from The University of Chicago in 1972. He is the author of four books and has authored many articles for professional journals.

The Marshall Centre for American Political Institutions and Civic Culture is a collaborative research project funded by the federal government and the private sector and is planned to take advantage of the option. Completing a payroll deduction plan also have the option of mailing their checks directly to the Parking Office, 696-6406.

Harless receives award

Dr. James Harless, director of admissions, has been selected as the Marshall University Employee of the Month for May, according to Bill Burdette, chairman of the MU Employee Relations Committee.

Harless has worked for the university for 30 years.

He was nominated for the award by Kay Hession, senior administrative secretary in the Admissions Office, and his fellow staff members in the Admissions Office.

Speaking on behalf of the Admissions Office staff, Hession said, "Dr. Harless is a caring individual, not only to his own staff but to each and every student, parent and visitor who enters our office for assistance. The admissions staff can easily remember the many times he has expressed in the appropriate manner his understanding, cooperation and concern during a personal or family crisis.

"Dr. Harless' dedication to Marshall University is shown daily as he communicates with students, parents and visitors coming to our office. There is no problem too great or too small for him to offer his assistance in getting the problem resolved. His rapport with the MU staff and administrators is the same. Everyone always receives the same warm, friendly smile and his laughter echoes throughout the halls of Old Main. Dr. Harless is no doubt one of the most received people on campus and in the Huntington area.

Hession also cited Harless' annual "Strawberry Reception" (Continued on page 2)
In a related announcement, Hooper said Dr. Anthony B. Szwilski, formerly an environmental engineer for the Kentucky National Resources and Environmental Protection Cabinet, has accepted an invitation to join the center's staff as professor of environmental science and engineering.

Szwilski's responsibilities will include teaching graduate courses in environmental science/engineering as well as government and private sector research and collaboration on environmental projects. He will teach the Environmental Regulations and private sector research and collaboration on environmental science and engineering.

Szwilski's qualifications include service on several international projects including the planning and design of a new university campus for Swri­jaya University in Palembang, Indonesia, where he also established a Center for Energy Studies and an Energy Research Laboratory. He worked on the development of the Peruvian Mining Research Institute and, while a student at the University of Birmingham, worked for the Anglo-American Cor­poration in Nchanga Mine, Zambia.

He has held associate professor positions at the University of Kentucky and the University of Alberta, Edmonton, Canada.

"I've always tried to teach at least one course a semester even while serving in administrative positions," he said. "This new as­signment will make it a lot easier projects throughout the world, has served as consultant on major projects and also has experience in the classroom. We expect him to make important contributions to our programs."

National Safety and Training Center at Yinjiao, China, and served as an independent consultant in mine geomechanics, mine safety, health and environment, rock mechanics, mine design and property evaluation.

Szwilski also received a fellowship to the University of Pennsylvania and a Fulbright fellowship in Germany. He has served as consultant on major projects and displayed high regard for the Marshall program.

"We are delighted to recommend this program to people in the business community and would recommend that the state seri­ously consider the INCOnet Advantage Program as a model for adoption by the PEIA (Public Employees Insurance Agency)," Cunningham said in his letter to Caperton.

With INCOnet, insurance rates actually declined this year for traditional coverage available to former workers, he said. After climbing an average of 18 percent a year, the rates dropped 1 percent.

"The PPO [preferred provider organization] has allowed us to maintain a high quality of medical care while establishing cost control that did not formerly exist," Cunningham said.

Because INCOnet is so customized, it does not fit neatly into existing categories of health care plans, according to Wallace.

"Like a PPO, INCOnet offers enrollees a lower cost if they use network doctors, who have agreed to provide care within certain financial guidelines.

"Unlike traditional PPOs, however, INCOnet does not require patients to patch together a health team from a list that includes a few physicians and specialists with a long list of doctors and an administrator. I appreciate President Gilley's willingness to permit me to do so."

Establishment of the John Denver Drinker Center for American Political Institutions and Civic Culture was announced April 7 during a daylong academic Career Day at Marshall honoring Drinker and his wife, Elizabeth. Its mission is to address problems arising from the fragmentation of American society and the loss of shared values, responsibilities and respect for others.

Gould, whose teaching career spans more than 30 years, said he was pleased to have the opportunity to head the Drinker Center in its initial stages. "I've tried to always teach at least one course a semester even while serving in administrative positions," he said. "This new as­signment will make it a lot easier projects throughout the world, has served as consultant on major projects and also has experience in the classroom. We expect him to make important contributions to our programs."

"We believe that this kind of partnership helps keep costs under control while actually improving patient care," he added.

during National Secretaries Week, his recruitment of students on behalf of Marshall and his involvement in professional organiza­tions.

Harless will receive a plaque and $100 for being named Em­ployee of the Month and will be eligible for the Employee of the Year Award.

Marshall University President J. Wade Gilley and his wife, Nanna, provided funds through a grant to establish the Employee of the Month and Employee of the Year program.

"I am very pleased to have a person of Dr. Tony Szwilski's experience and ability on our staff," said Hooper. "He has worked on environmental engineering projects throughout the world, has served as consultant on major projects and also has experience in the classroom. We expect him to make important contributions to our programs."

Marshall faculty and staff achievements

Dr. MAURICE A. MUFSON, professor and chairman of the Department of Medicine, presented a workshop on "Creating Alliances at the Local Level" at the 1994 winter meeting of the Association of Professors of Medicine (the national association of the chairs of departments of medicine at U.S. medical schools) held March 3-5 in San Francisco. Dr. Charles Bryan, professor and chair of the Department of Medicine at the University of South Carolina, was co-presenter. MUFSON was an invited participant at the Federated Council for Internal Medicine Symposium, "Internal Medicine and Health Care Reform: Implications for Subspecialty Training," held March 5-6 in San Francisco. He also had an article titled "Pneumococcal Infection" published in the April 1994 edition of Current Opinion in Infectious Diseases (7:178-183).

Dr. WILLIAM DEEL, director of campus technology, recently spent seven days in Zimbabwe. DEEL, as chairman of the board, represented the United Methodist Publishing House at the official dedication of a new United Methodist university, Africa University, and the formal opening of the Cokesbury Bookstore on the campus. MARTHA DEEL, administrative assistant in the Office of the Vice President for Finance, accompanied her husband on this trip. They also spent five days vacationing in London on their return from Zimbabwe.

Dr. TERRY SHEPHERD, associate professor in the Division of Health, Physical Education and Recreation, made a presentation titled "Overtaking and Nutrition in Athletics" at the annual meeting of the West Virginia Athletic Trainers Association held April 29 in Charleston.

Dr. ROBERT KRIEBEL, associate professor of business education and office administration in the Division of Adult and Technical Education, recently returned from the 11th International Conference on Technology and Education held at the University of London's Institute of Education. During the conference, he made a presentation titled "The Revolution in Education: The Teacher's Role and the Impact on Teachers' Roles." While in the United Kingdom, KRIEBEL was able to visit public schools, universities and businesses to analyze the use of technology regarding multimedia, information networks and various computing platforms.

Dr. WILLIAM J. RADIG, professor of accounting, attended the 1994 meeting of the Northeast Regional American Accounting Association held April 28-30 in Buffalo, N.Y.

Dr. WILLIAM A. EDWARDS, executive director of Marshall University's Center for International Programs, has been elected chairman of the West Virginia Small Business Development Center Advisory Board. The purpose of the board is to advise, counsel and confer with the director of the Small Business Development Center on matters pertaining to the operation of the SBDC.

Dr. ROBERT P. ALEXANDER, distinguished professor of management, spoke at the annual Hosers Banquet at Poca High School on May 17. He presented a motivational talk titled "You Can Be Better Than You Are/It Is As You Will" to more than 250 students and parents.

Marshall University music professors Dr. BEN MILLER, Dr. EDMUND BINGHAM and Dr. ANN MARIE BINGHAM performed at the joint conference of the North American Saxophone Alliance and the Southeastern Composers League held May 18-20 at Morgantown. The trio performed two compositions commissioned by the BBM Percussion Ensemble (Frank Crisol and "Divertimento" by Frank Francis). The conference provided an opportunity for composers and musicians to perform and hear new compositions which featured the saxophone either as a solo instrument or in combination with other instruments. MILLER also presented a two-day residency at West Carrollton (Ohio) High School May 23-24. During the residency, he worked with the West Carrollton Concert and Jazz Bands, performed as a featured soloist with both groups and presented percussion clinics for junior and senior high school percussion students in the West Carrollton and surrounding school districts. The residency was sponsored in part by the Pearl Drum Company of Nashville, Sahban Cynthia Makers of Canada and Mike Balter Mallets of Northern Ill.

Dr. JOHN SZAREK of the Pharmacology Department was invited to make a presentation at the 10th annual meeting of the Heart and Lung Institute held May 3-4 at Reston, Va. His presentation was titled "The NIH/PHIL Collaborative Project: Functional changes in rats after chronic ozone exposure." He also presented a poster titled "Structural and functional features of airways after chronic ozone exposure."

The following faculty made presentations at the ninth International Conference on Vitamin D held at Orlando, Fla., in May: Dr. WILLIAM B. RHOTEN, professor and chairman of the Department of Anatomy, Cell and Neurobiology at the School of Medicine, presented a paper titled "Does Calbindin-D28K Buffer Intracellular Free Calcium?"; Dr. IOOR N. SERGEEV, research assistant professor in the Department of Anatomy, Cell and Neurobiology, presented a paper titled "Video Imaging of Intracellular Calcium in Insulinoma Cells: Effects of 1,25(OH)2D3." Dr. GEORGE K. MUTEMA, a fellow in the Cell Regulatory Biology Research Program sponsored by the National Science Foundation and the State of West Virginia (Dept. of Anatomy, Cell and Neurobiology), presented a paper titled "Regulation of Calbindin-D28K by Parathyroid Hormone inMDBK Cells." MUTEMA and ROTHEN also had a paper titled "Occurrence and Localization of Calbindin-D28K in Kidney and Cerebellum of the Slender Turtle, Trachemys scripta" published in the June issue of Anatomical Record (239:185-190).

Dr. NEIL ARNESSON, director of Marshall University's Center for Economic Education and executive director of the West Virginia Council on Economic Education, attended the Stock Market Game National Symposium held June 2-5 in Minneapolis, Minn. The symposium, sponsored by the Securities Industry Foundation for Economic Education and the Securities Industry Association, provided information on how to expand the game and how to involve local businesses.

WINSTON A. BAKER, director of residence services, has been appointed to the Journal Board Committee of the Association of College and University Housing Officers-International for the 1994-95 year, according to Harry LeGrande, president-elect of the association.

Dr. MAUDIE KARICKHOFF, director of clinical experiences in Marshall University's Tischler Education, will attend the American Home Economics Association's 85th annual meeting and exhibition, "Global Transitions: A Profession Responding to Challenges," being held June 18-23 in San Diego, Calif. Approximately 2,500 home economists and representatives from business, the media and public agencies around the world are expected to attend the meeting. Alrod will participate in a panel of three 30-minute sessions on video gram tracks that focus on the meeting's theme and incorporate AHEA's priority areas: diverse families, investment in youth, changing social values and aging.

MU employees honored for years of service

The 10th annual Marshall University Service Awards Luncheon for MU staff members was held Tuesday, May 10, in the W. Don Morris Room in Memorial Student Center.

Special awards were presented by MU President J. Wade Gil­ ley to retirees and persons with 40, 30, 25, 20 and 15 years of ser­ vice to Marshall University.

The following staff members were honored for their years of service to Marshall University:

For 10 Years of Service: Betty Bebd, Thelma Blake, Carolyn Endicott, Patricia Gehart, Delbert Harless, Charlene Hawkins, Al Horan, Yvonne Keeter, Frank Lambert, Susan Lewis, Lynn Mayfield, Rosona Napier, Vickie Nary, Newatha Perry, Christine Qualls, Donald Salyers, Karl Shanholtzer, Freda Sommerville, Cynthia Warrens and Phyllis York.

For 25 Years of Service: Lois Eyer, Ezekiel Mills, Annie Smith and Joyce Wright.

For 30 Years of Service: Jim Harless and Lola Stratton.

For 40 Years of Service: Edna Ball.

Retirees (eligible as of May 1, 1994): Ida Conner, Zanna Crager, Donna Darby, Doris Harshbarger, Pauline Jackson, Ernest Lambert, Lewis Sowards and Marie Spradling.

Fifteen years of service, left to right, seated, Martha Deel, Marivel Mathews, Ernestine Osburn, Joyce Adkins, Brenda Benford, Ida Chapman; second row, Sally Wells, Vickie Scites, James Faulkner, Faye Malone, Margaret Shelton, Lynette Boyes, Edward Dzierzak, Belinda Callicott, Katherine Coffey, Lana Early, Martha Hagan, Adrian Lawson, David Fenney, Barbara Roberts, Joann Jordan, Ray Welty, Arissa Prichard and Rodell Wilkinson.

Twenty years of service, left to right, seated, Betty Beard, Car­ olynn Endicott, Newatha Perry, Freda Sommerville, Cynthia Warren and Phyllis York; standing, Charlene Hawkins, Ros­ ona Napier, Donald Salyers, Al Horan, Vickie Nary, Lynn Mayfield, Susan Lewis and Delbert Harless.

Thirty years of service, Lola Straton and James Harless.

Forty years of service, Edna Ball.

Twenty-five years of service, Joyce Wright.
Marshall University’s "Marshall Plan" to modify its curriculum and strengthen graduation requirements has been endorsed by the University of West Virginia Board of Trustees.

A resolution adopted by the board during its May 6 meeting at Lewiston station is in part:

"Whereas, the faculty and administration at Marshall University are proceeding to develop a plan to make the undergraduate degree at the university stronger, unique and appropriate for the competitive world of the 21st century, and

Whereas the University of West Virginia Board of

Marshall University football means business

Marshall University football had an $18.6 million impact on the Cabell County economy last season, according to a report released by MU College of Business Dean Calvin A. Kent. And that includes only regular season games, not the three post-season playoff games and the national championship game.

"Football has the same economic affect as a major industrial plant in the county," Kent said. "At a time in which there is concern about the economic future of the Huntington area, Marshall football is a major growth industry."

Had the four post-season games been included, the impact of Marshall football would have been even more significant, Kent said.

The study concluded Marshall football created $10.6 million in increased wages and compensation and 560 full- and part-time jobs in the county.

Initial economic impact of the Thundering Herd’s regular season was found to be $9.5 million, with personal income raised by $5.4 million and 360 jobs created. Standard multipliers used to determine secondary spending and jobs created resulted in the figures for the entire impact overall, $10.6 million in personal income and 560 jobs.

The study was done by the Center for Business and Economic Research in the College of Business and the West Virginia Statistical Analysis Center (WVSAC) in Marshall’s Research and Economic Development Center. Authors of the report, in addition to Kent, are Gregg Davis, director of the Center for Business and Economic Research, and Professor Girmingham Belle, director of WVSAC. The study was based on extensive questionnaires completed by 651 individuals attending regular season games, detailing their expenditures related to the games. Attendance figures for the regular season games was nearly 160,000 and each of those attending spent an average of $8.50 per game, in addition to ticket purchases. Expenditures included food and drink, lodging, travel costs, specialty clothing, souvenirs and other items.

Those expenditures have a ripple or multiplier effect in that those attending spent an average of $17.97 per game in the local community. Expenditures included food and drink, lodging, travel costs, specialty clothing, souvenirs and other items. Those attending spent an average of $17.97 per game in the local community.

The plan calls for a "capstone experience" for each graduating student including senior theses and comprehensive examinations. It also includes scientific and technological literacy, global studies, a narrowed and focused range of electives, a new Bachelor of Integrated Science and Technology degree program and an alternative track for teacher education.

Giley said he hopes to have all the changes effected in time for the Class of 2000, which will begin studies at Marshall in the fall of 1996.

Former professor dies

John Hawes Miller Jr., 69, a former professor of Spanish at Marshall University, died June 6 in Cabell Huntington Hospital. He was the husband of Maria Teresa Marti Miller. He was born Dec. 8, 1924, in Huntington. He graduated from Huntington High School in 1943 and then served in the U.S. Navy during World War II.

In 1949, he received an A.B. degree in geology from Marshall. In 1952, he received an M.A. degree in education major in Spanish and in 1965 he received a master’s degree from Ohio State University.

Miller had a long and rewarding career as a teacher. He taught Spanish, Portuguese and civics in Huntington and Milton High School, Huntington High School, Marshall University and Michigan State University. He also taught bilingual education in the Lansing (Mich.) Public School District. After teaching at Lansing, Miller returned to Marshall where he again taught Spanish language and civilization until his retirement.

He also is survived by a son, Marc, and daughter-in-law, Laura Miller, of Shotts; two daughters, Maria Rosa and her husband, Glenn Geortzian of Monona, Wis., and Morterrza Miller of Pitts­burg, Pa.; two sisters, Katherine McDaniel and Mary Janice Wil­liams, and a brother-in-law, Bill Willits, all of Shotts; a sister-in-law, Rosa Maria Marti of Huntington; two grandsons and four granddaughters.

Library hours announced

Marshall University’s James E. Morrow Library will observe the following hours during the regular summer terms, according to Josephine Flidler, director of libraries:

Monday to Thursday-- 7:45 a.m. to 10 p.m.; Friday-- 7:45 a.m. to 4:30 p.m., Saturday-- 9 a.m. to 4 p.m., Sunday-- 5 to 10 p.m.

"The computer laboratory Mr. Myers provided has been a tremendous help to our students and staff," Guyer said. "It was very difficult to walk across campus with students looking for an available computer in one of the laboratories only to find none available.

When Mr. Myers was visiting us one day, he asked how we use computers in our treatment programs. We explained that various computer programs helped students compensate for deficits in written language and that we needed someone to help us purchase more computers," Guyer said. "Mr. Myers said, "I’ll be that person."

"They needed the computers. They were really at a disadvantage without them, so I made sure they got what they needed," Myers said.

A 1932 Youngstown (Ohio) State University graduate, Myers donated more than $400,000 in 1991 and 1992 toward construction of the H.E.L.P. facility that was built and furnished totally with private funds. He retired in 1968 as associate chief, appellate division, with the Huntington office of the Internal Revenue Service, after 32 years with the federal government.

The Lima, Ohio, native said he felt compelled to support the H.E.L.P. program after reading a news article that described its impact on students with learning problems.

The nationally recognized H.E.L.P. program has assisted approximately 1,000 students since the program began. The students’ learning disabilities have included dyslexia, problems in concentrating, and lack of ability to organize one’s activities. The majority of students in the program are dyslexic.

The H.E.L.P. students come from 31 states and three foreign countries. Many of them selected Marshall because of the assistance available through H.E.L.P.

In November 1993, Marshall President J. Wade Gilley named the program Marshall’s third Center of Excellence.

Department name changed

"Educational Leadership" will be the new designation of Marshall University’s Division of Instructional Support and Leadership Studies, according to Dr. Carol A. Vickers, dean of the College of Education.

The new name is more descriptive of the curriculum and disciplines housed in the division and explained that the new title is widely used to describe such programs throughout the state.

The name change was approved by the Marshall University Faculty Senate and MU President J. Wade Gilley.

Letter of appreciation

Dear Marshall Faculty and Staff:

Many thanks to my friends on the faculty and staff for the flowers, letters, cards and kind wishes you sent during my hospitalization and convalescence. I appreciate them greatly.

Sincerely,

Jean Gilliland
