KEY #3 – EXPLANATION OF NUMBERING SYSTEM

Senate recommendations are numbered according to the year, the order of submission and the place of origin. For example—the first recommendation of the first year of the Chair's two-year term would be as SR-06-07-**01** (with this number increasing by one for each additional recommendation). The first recommendation of the second year of the Chair's two-year term would be as SR-07-08-**(01) XX** (with XX being the number at the beginning of the second year which follows the number at the end of the first year).
