Regents request survey by U Council

The University Council met on Oct. 27 and conducted the following items of business:

1. The Council accepted the responsibility of conducting a survey of validation and refinement of institutional mission and goals. This is being done at the request of the Board of Regents. A similar study was conducted by the Council in the Fall of 1976. An Institutional Goals Inventory developed by the Educational Testing Service will be utilized. Twenty "local" goals will be included in the survey. The "local" goals will be suggested by the various groups and constituencies of the University. The Council intends to follow the format of the 1976 survey. Administrative aid in this project will be provided by Mrs. Lynne Mayer, administrative assistant to the Provost.

2. The Council reviewed the results of the survey relative to the development of a voting procedure for faculty-at-large elections. The survey showed strong support for asking the cooperation of departmental chairpersons in this endeavor. No action was taken as some points for consideration still remained.

3. There was a brief discussion of the format for departmental class schedule making. The concern was one of distribution of offerings over the full day and evening when students were interested in taking the courses at the more "popular" hours. The Council decided to drop the matter. This is not a new issue, and if an issue, is within the jurisdiction of the Academic Planning and Standards Committee, Dean's Council, and the office of the Provost.

The Marshall University Athletic Committee met at 8 a.m. Monday, Oct. 25, in the Big Green Room of Henderson Center.

Dr. Snyder reported that both options for fee increase in Athletic Fees had been presented to the Student Activity Fee Committee.

Following a discussion on the "Greenbook" statement regarding functions of the Athletic Committee, it was determined that Dr. Hicks will advise the University Council that two items on page 30 should be changed:

1. There is no longer a representative to AIAW and the "Greenbook" should be changed to reflect that deletion.

2. There is a discrepancy in whether the alumni representative is a voting or non-voting member of the committee. The current "Greenbook" states one way and the Report of Standing Committees another.

After extensive discussion concerning the wording and the intention of the charge to the Athletic Committee, as stated in the "Greenbook," Dr. Taggart moved that the chairman appoint a subcommittee to make recommendations for possible revision of the charge to the Athletic Committee and that the subcommittee include at least one permanent member of the committee.

The motion carried and the following persons were appointed to the subcommittee by Dr. Hatfield: Nay, Carter, Taggart, Sowards and Snyder. Carter will be subcommittee chairman and a report from the group is to be presented to the full committee by Dec. 1.
