Benedum Foundation awards grant

Marshall University's School of Medicine has received \$475,000 from the Claude Worthington Benedum Foundation for a special graduate medical education program, according to a joint announcement by MU President Robert B. Hayes and School of Medicine Dean Robert W. Coon.

The funds are earmarked for continued development of the school's Combined Residency/Practice Program over the next two and a half years. Previously the Benedum Foundation awarded the school \$100,100 to assist in establishing the new residency program.

"Benedum Foundation support is not new to the medical school, or to Marshall University itself," Dr. Hayes said. "Over the years, the foundation has assisted the university with student scholarship funds, faculty research funds and in innumerable other ways.

"Also, the Benedum Foundation was among those special friends who stepped forward to help us purchase Doctors' Memorial building for the school's use," the president continued. "Its support of this new program is indicative of the Benedum Foundation's longtime concern for the welfare of the people of southern West Virginia. We at Marshall University are most appreciative," Hayes added.

Dean Coon added, "The real beneficiaries of the Benedum grant will be the people of West Virginia, because this generous support will assist the medical school in fulfilling its commitment to improving the availability and quality of health care in the underserved areas of this state."

The Combined Residency/Practice Program is an innovative approach to graduate medical education conceived by Dr. David K. Heydinger, the school's associate dean for academic and clinical affairs.

Offered in Family Practice, Internal Medicine, Obstetrics/Gynecology, Pediatrics and Psychiatry, it is a five or six year program, depending on the specialty selected, which consists of alternating periods of residency study and community practice.

Located in Pittsburgh, the Claude Worthington Benedum Foundation was established in 1959 at the death of Michael L. Benedum, co-founder of the Benedum-Trees Oil Company, and is dedicated to his philosophy of helping people "to help themselves" with education and increased educational opportunity being the first step toward self-help. Paul R. Jenkins serves as executive vice president for the Foundation.

INVITATION

All faculty and staff—current or retired—are invited to attend the annual Faculty-Staff Party hosted by President and Mrs. Robert B. Hayes, from 8 to 11 p.m. on Friday, Sept. 11, in the Multi-Purpose Room, Memorial Student Center. Music for dancing will be provided by the Gentlemen III. Those attending may bring their spouse or a guest.
