Academic Planning and Standards met on Nov. 12, and approved the following changes:

1. The following appointments were received from the College of Business: Dr. Roland Madison, Library Advisory Committee, and Dr. Joseph LaCascia, Honors Convocation Committee.

2. APSC approved the Doctoral Degree in Clinical Psychology. Concerns were voiced in the following areas: understanding by departments involved concerning commitments and obligations; additional work loads for psychology faculty, and need for additional personnel and financial support from the University.

3. The Subcommittee on Curriculum and Program presented the following which were approved:

   a. A catalog change request approved from the Department of Biological Sciences was accepted as amended:
      After paragraph six under Biological Sciences (Page 62, 1980-1981 Catalog) add this information:

         Graduate students must complete either as undergraduates or prior to admission to candidacy the following core of courses or equivalents:

         Organic Chemistry (CHM 327 or 355-356 and 361 Statistics (Math 220 or PSY 222) Plant Morphology (Bot 415 or 515/516)
         Cellular Physiology (BSC 406/506) Genetics (BSC 407/507) General and Field Ecology (BSC 306 Biological Literature (BSC 666)

   b. Delete the sentence, “Each candidate must submit three hours of work in seminar.” Substitute for it, this statement:

      Each candidate must submit one semester hour credit in Biological Literature (BSC 660) and two semester hour credits in Seminar (BSC 661-662)

4. The following course additions, changes, or deletions were approved:

   a. Additions:

      EDA 790 “Research Colloquium in Educational Administration” — 3 cr. hrs.

      ART 41553 “Twentieth Century Art II” 3 cr.
      SPEC 602 “Communications Consultation Strategies” — 3 cr. hrs.

   b. Changes:

      BSC 660 “BSC 660 - Seminar” — 1 hr.

   The policy Subcommittee recommends that the incompleted course with a partial grade should be approved by the Registrar’s Office. At the end of the time period the grade, if not changed by the professor, should be changed to an F and each student notified of this change.

   The subcommittee also recommends a change in the catalog wording:

   “An I grade (Incomplete) is given to students who do not complete the course because of illness or for some other valid reason and is not considered in determining the quality point average. The student has the responsibility of completing the work satisfactorily, and if this is done the final grade may be any one of the four passing marks. All incompletes must be made up within a period not to exceed twelve months. The professor must indicate to the student and the appropriate department chairman the time period in which the makeup work must be completed and the specific work required. If an incomplete is not made up within the specified time period, the makeup work is unsatisfactory, the grade becomes an F. An I grade may also be removed by repeating the course within the twelve-month period.”

   This policy would be in effect by Fall 1982.

   5. A student grade appeal recommendation was received from the Hearing Sub-Committee, Paul M. Churton, Charles K. Connector, Jr., Dan R. Moore, Sandra W. Wilkinson, James S. Williams, Paul D. Stewart, Eugene F. Crawford and Marc Williams.

   Any questions or comments on the above should contact Dr. Bruce Arndt, chairman or Sarah Denman, secretary.

MU United Way givers, gifts increase

Marshall University’s campus-wide United Way fund drive netted $15,754.89 for a 9.6 percent increase over the 1980 drive. According to Mr. Thomas S. Bishop, vice-president of marketing, who was co-chairman of the drive.

Not only did the dollar figure increase but the total number of contributors exceeded last year’s, said Bishop, who shared the chairmanship with Dr. Mahlon Brown, Social Studies Department head.

“I think this rather remarkable in view of today’s uncertain economic climate,” Bishop said. “Marshall’s faculty and staff contributors—who numbered 1,817—should be proud of themselves for their community support,” he added.

Anyone who was overlooked in the drive canvass or who simply forgot to send in his or her card may still do so.

The number of contributors from the main campus (excluding the School of Medicine) was up 6 percent from the previous year, according to Bishop’s statistics. The main campus also increased its giving by 7 percent over the 1980 dollar total. Comparisons of 1981 with 1980 giving which include medical school figures are not possible as the school was not on the 1980 campus drive.

“Would like to single out one very special group, the Food Service Workers, whose contribution rate was the highest, more than 95 percent,” Bishop said. Bishop also praised the area coordinators who helped circulate and collect the pledge cards. They included:

- Ernest Cole, finance; Dr. Paul Frary, College of Business; Barbara Kanes, economics; Neil Alford, accounting; Lettle White, management
