**PHYSICAL FACILITIES & PLANNING COMMITTEE  
RECOMMENDATION**

**SR-99-00-18 (PFPC)**

Recommends that the west end of Parking Lot F (3rd Avenue) be restriped during the Summer of 2000 to provide slanted parking slots of 9' width.

**RATIONALE:**

Most of the spaces in the lot are too narrow, causing obvious problems. Current spaces have a head width of 9' but the approximate 60 degree slant of the lines reduces the parking space to approximately a 7'8" width (spaces vary in size). The City of Huntington Engineering Department accepts 8' as the minimum width and it is considered too narrow. A 9' width space is acceptable with a 10' width space preferred.

Since the West 3rd Avenue F Lot is being expanded, no loss of spaces should occur due to the increase in the width and less damage to adjacent vehicles should occur.
