Statement to appear in catalog section on Admissions

Students who do not meet the admission standards with regard to completion of high school units of English, social studies, mathematics, or laboratory science, may qualify for admission to the Transition Program of the Community College. As Community College students, they will have the opportunity to correct admission deficiencies by satisfactorily completing developmental courses in the Transition Program. Until these deficiencies have been corrected, the students will not be permitted to register for baccalaureate program courses in the area(s) of deficiency.

Statement to appear in the Community College section of the catalog:

Transition Program:

Students who have been admitted to the Community College but who do not meet the baccalaureate program admission requirements will have the opportunity to satisfy these requirements by enrolling in developmental courses offered in the Transition Program of the Community College.

The transition courses are:

COM 095	Developmental Writing
MAT 097	Developmental Algebra
MAT 098	Developmental Geometry
SCI 090	Developmental Physical Science

These developmental courses will satisfy baccalaureate admission requirements but cannot be applied to meet any baccalaureate or associate degree requirements.
