Hear ye! Hear ye! From National State and Local Leagues a clarion call urges all members to consider and suggest Current Agenda items.

The National Board report proposes the following Current Agenda:
"Support of U. S. economic policies which promote world development and maintain the strength of the American economy."

The Current State Agenda has been:
A. Study and support of measures to improve finance and organization in public education.
B. Study of the need for Constitutional revision.

The Local Item has been "continued support of City Planning."

Which of these items should be retained on Current Agenda? Which might become a Continuing Responsibility? Do you have any ideas for new items? It has been suggested that the Local Agenda item might become, "Know Your Community".

Please respond.
