No student whose class standing (including examinations) falls below 75 per cent. shall be entitled to this certificate. The tuition in this department is eight dollars per term of thirteen weeks. A Normal appointment does not entitle the holder to free tuition in this course.

DEPARTMENT OF MUSIC.

Music, as an accomplishment, has become so universal as to render it an almost necessary factor in educational development. Superior facilities for its study are offered; the department is in charge of a thoroughly competent teacher of the Stuttgart method. Special attention is given to touch and position as also to Theory.

Musicales are given from time to time, where pupils are required to play without notes; and selections from the lives of noted composers or original papers are read, it being considered important that the great masters should be studied not only in their works but in their lives.

Two pianos are in the building and ample opportunity is afforded for practice.

The tuition for piano instruction is ten dollars per term of twenty-four lessons, and two dollars per term for use of piano for practice.

The following students are enrolled for the present year :

GENERAL REMARKS.

ORIGIN AND PURPOSE.

The State Normal School was established by act of the Legislature February 27, 1867. The opening sentence of the act provides:

"That there be established a State normal school, to be called the 'West Virginia State Normal School,' for the instruction and practice of teachers of common schools in the science of education and art of teaching."

Subsequently, five branches of the State Normal School were established, making six of these schools in the State. Marshall College, an educational institution of long standing and wide reputation, was made the State Normal School, its property having been conveyed to the State by the county of Cabell. The State provided ample appropriations to build the necessary additions, equip and furnish the school.

As stated in the act creating the school, its object is the training of teachers. To the carrying out of this purpose the best energies of those entrusted with its management are devoted.

LOCATION.

The school buildings are situated about one mile from the business portion of the young and growing city of Huntington, in the centre of a beautiful elevated plat containing about fifteen acres. Around the large and commodious buildings are a number of stately trees, relics of the primitive forest, so that while in close contact with the energy and activity of a busy city, one may yet

enjoy the beauties of nature which have been bestowed here with a lavish hand.

Ohio river steamers and the C. & O., N. N. & M. V. and Ohio River Railways render the school easily accessible.

TEXT-BOOKS.

All text-books and stationery needed by students may be procured in Huntington at the regular retail prices. Students should bring with them any text-books which they may possess, but are advised not to purchase any new ones until they arrive at the school.

APPARATUS.

A supply of excellent mathematical and philosophical apparatus has recently been procured. Superior facilities are thus provided for teaching such of the natural sciences as belong to our course of study. In the daily work of their various classes pupils are permitted to witness and perform interesting and instructive experiments, and from the facts thus set forth are directed to the causes and underlying principles.

In view of the law requiring the teaching of Physiology and Hygiene in our common schools, and making it one of the branches for teachers' examinations, no pains have been spared to procure the best facilities for teaching this subject. Among the apparatus provided for this purpose are Yaggy's Anatomical Chart, a complete human skeleton, and a microscope of sufficient power to show the corpuscles of the blood. These, in the hands of a thoroughly competent teacher, insure to the diligent student a thorough mastery of the elements of this important study.

LIBRARY AND READING ROOM.

A respectable beginning has been made toward a library. There are already on the shelves a number of standard works of history, biography, science, pedagogy and general literature. It is proposed to make additions to these from year to year until a library is secured fully commensurate with the wants of the school.

A reading room was opened at the beginning of the present year, and has proved to be a most useful and enjoyable feature. On its tables are found most of the leading magazines, together with a number of religious and secular newspapers and periodicals.

The privileges of the library and reading room are free to all students.

REQUISITES FOR ADMISSION.

Students expecting to enter the Junior year of the Normal course should have previously completed the usual free school course of study in Reading, Spelling, Writing, Geography and Practical Arithmetic (Ray's) and some elementary work in English Grammar.

Pupils desiring to enter the Intermediate or Senior classes will be permitted to do so, provided they can pass a satisfactory examination on all branches belonging to the preceding years.

MORAL AND RELIGIOUS.

An institution supported by public taxation and designed to serve the interests of all classes in the State must of necessity be unsectarian. It does not follow from this, however, that the principles of morality and religion upon which all sects may agree are not to receive attention. On the contrary, any system of education in which these principles are neglected and these forces not recognized must be a disastrous failure.

The exercises of each day are opened with reading the Scriptures, singing and prayer, at which all students are required to be present.

Each student is expected to attend some place of religious worship on the Sabbath, and on all occasions to treat the institutions of religion with respect. Seven separate church organizations in the city of Huntington give each pupil the opportunity of worshipping in conformity with the tenets of the denomination of his preference. The pastors of the various churches at all times manifest a kindly interest in the young ladies and gentlemen attending the school. Parents need have no fear whatever to send their sons and daughters to this school. No immoral or dissipated person will be allowed to remain in connection with the Institution.

DISCIPLINE.

In the government of the school reliance is placed not so much on rules and restrictions as upon the inculcation of the principles of sound morality, and correct deportment. In other words, the aim is to inspire the student with a desire to do right because it is right, rather than from fear of a penalty for the violation of a rule. Yet in order that there may be system and regularity in work certain rules and regulations are necessary, and to these obedience is at all times required.

There is no government worthy of the name, that has not for its basis *self government*. There is especial need for the appli-

cation of this principle in a Normal School--a school of teachers, for he who cannot govern himself will not succeed in governing others.

BOARDING.

Students can obtain ample accommodations as to both board and lodging in the college building.

The prices are as follows :

Boarding per week	\$2 75
Fuel and Light per week	25

No charge is made for use of room. Students' rooms are furnished with stove, bedstead, mattress, wash-stand, table, chairs, wash-bowl, pitcher, pail, looking-glass, lamp and window-blinds. Bed clothes and all other articles of room furniture, other than those mentioned above, must be furnished by the student.

Board may be obtained in private families at about the same rate

Students intending to board in the building should report at the college immediately upon arrival and thus save hotel bills.

EXAMINATIONS.

At the close of each term, examinations in all branches of study pursued that term will be held. The grade obtained by students at these examinations, averaged with their class standing, will be recorded as their standing on the several branches, seventy-five on a scale of one hundred being the minimum pass-grade. Reports are issued after each examination, showing the standing of pupils, department, attendance, &c.

TIME TO ENTER.

If possible students should enter school promptly at the beginning of the term, but the work is so arranged that students can be accommodated at almost any time. Special arrangements are made to suit teachers who are unable to attend more than one or two terms on account of their schools.

ALUMNI RECORD.

[The following record of the graduates of Marshall College is incomplete. The Principal has made an effort to obtain information in regard to all the members of the Alumni, but with poor success. It is hoped that by another year the list will be complete and correct. Alumni or their acquaintances are requested to furnish information and correct all mistakes]
