The State Superintendent of Free Schools is authorized to issue to the student completing this course a Diploma, which will be received at the State University as equivalent to its Preparatory Course.

No student falling below a class standing (including examinations) of *eighty per cent.*, shall be entitled to a Diploma.

DEPARTMENT OF MUSIC.

Music, as an accomplishment, has become so universal as to render it an almost necessary factor in educational development. Superior facilities for its studies are offered; the department of Instrumental music is in charge of a thoroughly competent teacher. The Modern German Method is taught, particular attention being given to technique.

Musicales are given from time to time, where pupils are required to play without notes; and selections from the lives of noted composers or original papers are read, it being considered important that the great masters should be studied, not only in their works but in their lives.

Three pianos are in the building, and ample opportunity is afforded for practice.

The tuition for piano instruction is ten dollars per term of twenty-four lessons, and two dollars per term for use of piano for practice. For vocal instruction, twelve dollars per term.

The following students are enrolled for the present year :

Mansfield, Florence
Peters, Viola
Robertson, Anna

Saunders, Julia
Wilson, Alma
White, Bertha
White, Nettie

HEALTHFULNESS.

The question of healthfulness is an important factor in selecting a school to attend. The situation of Marshall College is very important in this respect. Its natural location and its improved sanitary arrangements are all conducive to health. There has not been a case of serious illness at the College for a number of years.

TEXT BOOKS.

All text books and stationery needed by students may be procured in Huntington at the regular retail prices. Students should bring with them any text books which they may possess, but are advised not to purchase any new ones until they arrive at the school.

APPARATUS.

A supply of excellent mathematical and philosophical apparatus has recently been procured. Superior facilities are thus provided for teaching such of the natural sciences as belong to the course of study. In the daily work of their various classes, pupils are permitted to witness and perform interesting and instructive experiments, and from the facts thus set forth are directed to the causes and underlying principles.

LIBRARY AND READING ROOM.

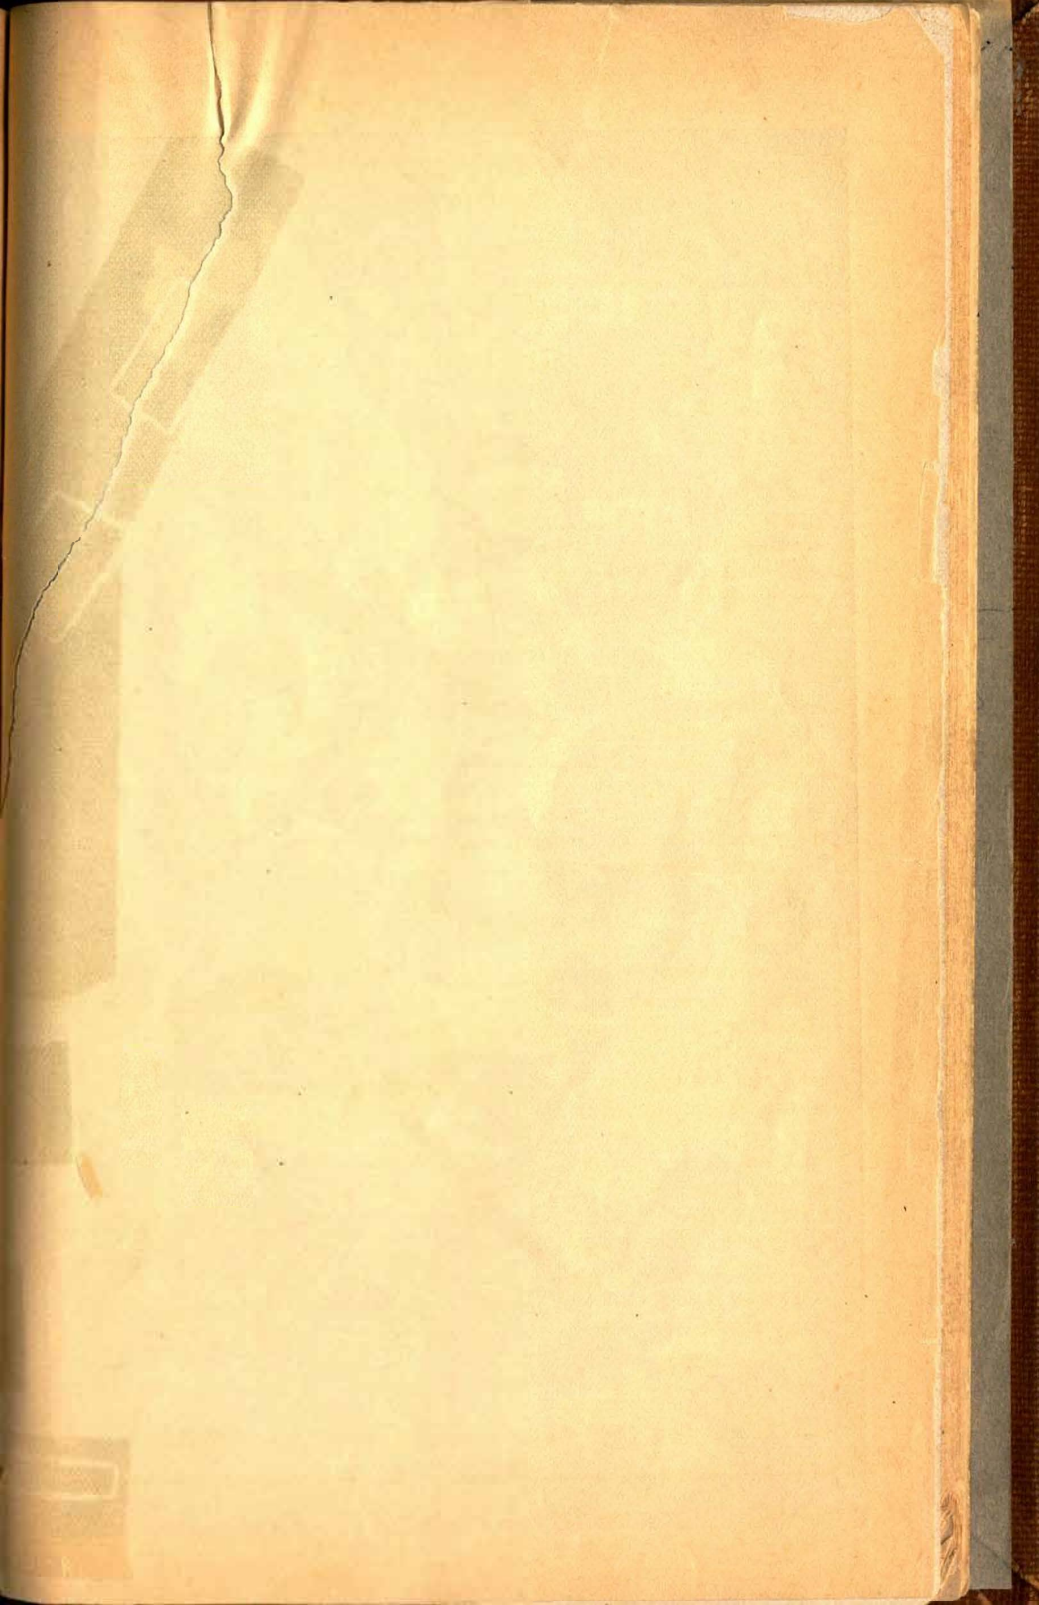

A respectable beginning has been made towards a library. There are already on the shelves a number of standard works of history, biography, science, pedagogy and general literature. It is proposed to make addition to these from year to year until a library is secured fully commensurate with the wants of the school.

A reading room was opened a few years ago and has proved to be a most useful and enjoyable feature. On its tables are found most of the leading magazines, together with a number of religious and secular newspapers and periodicals.

The privileges of the library and reading room are free to all students.

LITERARY SOCIETIES.

There are in connection with the institution two Literary

Hyperion Literary Society.

Erosophian Literary Society.

societies: the Hyperion composed of young ladies and the Erosophian composed of young men. The members of these societies take great interest in their work and find them of great help in a literary way and in the cultivation of the art of speaking in public. The societies are encouraged by the faculty in every proper way, and all students are urged to join them.

REQUISITES FOR ADMISSION.

Students expecting to enter the Junior year of the Normal Course should have previously completed the usual free school course of study.

Pupils desiring to enter the Intermediate or Senior class will be permitted to do so, providing they can pass a satisfactory examination on all the branches belonging to the preceding year.

MORAL AND RELIGIOUS.

An institution supported by public taxation and designed to serve the interests of all classes in the State must of necessity be unsectarian. It does not follow from this however, that those principles of morality and religion upon which all sects may agree are not to receive attention. On the contrary, any system of education in which these principles are neglected and these forces not recognized must be a disastrous failure.

All students boarding in the building, are under direct care of the teachers at all times.

Students in attendance at the school, not boarding at the building, are looked after carefully, and parents and others interested are promptly notified of any improper conduct or inattention to study.

No student of immoral character is allowed to remain in the school.

Punctuality, industry, and the full performance of all work required will be insisted upon. Civil, gentlemanly and lady-like conduct will be expected of every student.

The daily work of the school is begun by religious exercises, upon which every student, unless specially excused, is required to attend. The different religious denominations have their churches, pastors and Sunday Schools in the city, and these are means of good influence on students.

The fear is sometimes expressed that students attending school in a city like Huntington, are in more danger of being led off from the paths of right conduct than in smaller places. No greater mistake can be made. There is certainly no more danger of the formation of bad habits by students if proper care is taken in Huntington, than in small villages. On the other hand, there are many influences for good, morally and spiritually, that from the nature of the case are not found in smaller towns.

BOARDING.

The college dormitory is allotted exclusively for the use of young lady students.

Water supplied from the city water works is on every floor of the building; bath rooms and toilet rooms in dormitory.

The building is lighted by gas throughout and heated by the best hot air system. Students' rooms are furnished with bureau, washstand and set, bed with spring mattress, table, chairs, etc. Students are required to furnish their own bed clothes, pillows, towels, and napkins.

Students boarding at the College are under the direct care of the Principal and teachers, who reside in the building.

The cost of board in the building is as follows:

Board per week, if paid monthly in advance.....	\$2 75
Board per week if not paid in advance.....	3 00
Fuel and light fee per week, payable in advance each term.....	25

A deposit of two dollars may be required of each student boarding in the building as a damage fund. This will be refunded on the student's departure if there has been no damage to room or furniture.

Board for young men may be obtained in private families at about the same rates as the above.

It is desirable that the Principal be notified in advance of the arrival of students.

It is recommended that parents send to the Principal money for the expenses of their sons or daughters at school. The Principal will receipt for it in every instance, and render an itemized account each term.

OTHER EXPENSES.

The expenses for board as above, with an incidental fee of \$1.00 per term, is all the necessary expense of Normal pupils, except for washing and books, both of which are small items.

The Normal student having no expense for tuition, can attend school at Marshall College at a cost very much below that charged for the same grade of work in similar schools elsewhere.

It is claimed for Marshall College, in common with the other Normal Schools of the State, that it offers to teachers or to those preparing to teach, superior advantages at a minimum cost.

EXAMINATIONS.

At the close of each term, examinations in all branches of study pursued that term will be held. The grades obtained by students at these examinations, averaged with their class standing, will be recorded as their standing on the several branches, seventy five per cent. on a scale of one hundred being the minimum pass grade. Reports are issued after each examination, showing the standing of pupils, deportment, attendance, etc.

TIME TO ENTER.

If possible, students should enter school promptly at the beginning of the term, but the work is so arranged that students can be accommodated at almost any time. Special arrangements are made to suit teachers who are unable to attend more than one or two terms on account of their schools.

ALUMNI RECORD

(The following record of the graduates of Marshall College while not complete is by far the fullest yet published. Miss Fannie C. Burgess, Historian of the alumni association assisted by Miss Kate Ware, Secretary of the Association, has obtained the information here given. Walter Bould, (Certificated Teacher,)	- - - - -	Shorthand and Typewriting.
L. E. Morris,	- - - - -	Prin. Tel. Dept.

Our aim in establishing this institution was to give young men and women the best possible advantages for acquiring a practical education which they will use in after years. With this end in view, we used every precaution in selecting our environments. By special arrangements with the Board of Regents of Marshall College, the State Normal School, we secured large and commodious apartments in the college building.

The object of establishing this school as an adjunct of Marshall College was three fold.

1. To give the best advantages to those whose general education has been neglected. For this purpose we have made arrangements by which any of our students may enter the normal or academic departments free of charge for tuition, and also have free use of the well equipped library and reading rooms.

2. Because of the moral and intellectual atmosphere which naturally pervades a large institution of learning.

3. In order that our students may have free access to the well equipped gymnasium, as well as the large and beautiful campus and exercise grounds of Marshall College.
