GENERAL INFORMATION

All requests for information should be addressed to
The Secretary
Marshall College
Huntington, W. Va.

HISTORY

"Marshall Academy" was established in 1837, shortly after the death of Chief Justice John Marshall, of the Supreme Court of the United States, in whose honor the school was named. It was organized as a private institution. In 1856 the work of the Academy was enlarged and reorganized, and the name changed to Marshall College.

But little information concerning the early days of the institution is now at hand. None of the records of the school during the time it was an academy are preserved. From the year 1867 to the present time, however, we have a fairly satisfactory record.

At the close of the Civil War a number of the leading citizens in the southwestern part of the new state of West Virginia succeeded in having the legislature take it over as a "State Normal School." Though "Normal" in name, it was wholly academic in its work, and such it remained, with varying fortunes, save a little teaching of pedagogy, school management, and the like, until 1897, when a practice school of one grade was organized. This the State refused support; and, accordingly, it was abandoned after two years of unappreciated effort, and the school went on again wholly as an academic institution.

In January, 1902, the Department of Education was organized, and a practice school for teachers was opened. In February, 1920, by action of the State Board of Education, the institution became a State Teachers College, conferring its first degrees in June, 1921.

Under authority of the State Board of Education a further expansion of the institution was effected in June, 1924. At that time the College of Arts and Sciences was formally organized. With the College of Arts and Sciences are affiliated the two-year course in engineering, and the pre-medical and the pre-law courses.

LOCATION

The institution is located in Huntington, a city of eighty thousand population. It is easily accessible by the four trunk line railways of the state, the Ohio Valley Electric lines, the Midland Trail, and other motor roads.

Huntington is an ideal location for a college. It is a city of beautiful and hospitable homes. It is an art and civic center of note, and nowhere can a better community spirit be found. It has a large number of fine churches and fine theaters. Its numerous and varied industries also furnish abundant laboratory facilities for all social and commercial studies.

THE COLLEGE CAMPUS

The College has recently acquired about ten acres additional land, increasing the campus to about twenty-five acres. While its acreage is not large, the campus is nevertheless a notably good one. It is rectangular in shape and flanked by broad avenues on the north and south and wide streets on the east and west sides. It includes grassy lawns, fine shade trees, attractive shrubbery, beautiful flower beds, walks, drives, and playgrounds. It is in the heart of the city and unusually accessible. It is valued at about two million dollars.

Besides the campus proper the College is joint owner of a splendid modern stadium six blocks distant, where all football games are played and other open air activities are carried on.

BUILDINGS AND EQUIPMENT

In all there are twenty-one buildings on the campus. Of these, ten are used for definite educational activities, six for sorority houses, one is used for home economics practice house, and four are occupied by faculty members or college employees.

College hall is the oldest and largest building on the campus. One section of this building was erected in 1872. This building includes a dormitory and cafeteria, the college auditorium, recreation and social parlors, class rooms and business offices.

Northcott Science hall is a three-story structure of modern design devoted to the work of the physics, chemistry, biology, botany, geography, and home economics departments.

The Physical Education building was completed in 1921. It is provided with a good gymnasium floor, two swimming pools, class rooms, and offices.

Music hall is an older building which has been remodeled and enlarged to include a small auditorium for recitals, practice rooms for piano and voice students, a band room, and ten class rooms.

Champ Clark cottage is a frame building remodeled for dormitory purposes. It has rooms for about 25 girls.

A remodeled building on Fifth avenue is used by the classes in journalism.

The junior high school and grade training school buildings are neat frame structures erected for temporary use.

GENERAL ADMISSION REQUIREMENTS

(For specific requirements see regulations under Teachers College and under College of Arts and Sciences, respectively.)

Admission to Marshall College may be obtained in three ways: (a) by certificate of graduation from an accredited* secondary school; (b) by a properly certified transcript from a standard university, college, or normal school; and (c) by examination.

An applicant for admission by certificate must file with the Registrar an official statement of his credits, signed by the proper official of the school or the schools from which he comes, at least fifteen days before the date of registration. The Registrar will notify the applicant as to the acceptance of his credits. All certificates, when filed for credit, become the property of the college.

Applications for credential blanks, and all communications in regard to admission, should be addressed to the Registrar.

Graduates of second-class high schools are allowed not more than 12 units of credit, and cannot be admitted to college until three or four additional units have been earned in a first-class high school or its equivalent.

Entrance examinations are offered at the beginning of each semester, if demanded. No student is permitted to take an entrance examination in any subject for which he has college credit. All candidates for entrance examinations must notify the Registrar at least one week before the examinations are to be given.

No credit, either high school or college, is allowed for teaching experience.

Students entering from other colleges must meet the entrance requirements of this college, and must have certificates of honorable dismissal from the institution last attended and official statements of credits. A student's statement of credits must show the descriptive title of each course, the year in which the work was done, the number of weeks the course was pursued, and the number of credits allowed thereon. A transcript presented for advanced standing should come direct from the institution issuing it; and, when accepted, it becomes the property of the college. Under no circumstances is credit of collegiate grade allowed for work done in a high school.

Examinations for advanced standing must be taken within three months after the opening of the semester. Each candidate for examination must secure a permission card at the Registrar's office at least five days before the date of examination.

Every student at Marshall College is entitled to one official transcript of his record free; for each additional copy of his record he will be charged \$1 for an original copy and 25 cents for each carbon copy. No transcript will be issued if the College has a financial claim against the student. An application for a transcript of credit should furnish the date of last attendance at Marshall College, and a married woman should give both her maiden and married names.

*Accredited schools are standard four-year high schools or preparatory schools as classified by the Departments of Education of the various states, or any of the regional accrediting agencies, such as the North Central Association of Colleges and Secondary Schools.

ASSIGNMENT AND CREDITS

1. A student who enters at the beginning of a semester may be assigned as much as sixteen semester hours, but not more, except by special permission of his Dean.

2. If a student enters late, the maximum assignment of sixteen semester hours is reduced; and to receive credit for eighteen weeks work in any subject assigned, he must pass, satisfactorily, an examination on all the work covered by the class up to the time of his entering. In laboratory subjects all "make up" work must be done hour for hour in the laboratory.

3. *A student who leaves school without giving notice of good cause therefor is allowed no credit for work done that semester or term. If it is necessary for a student to leave school before the end of the semester or term, he should see each of his teachers about his work, make a statement of the reason for his going, and satisfy the conditions for getting credit for what has been done.*

4. A regular student at Marshall College who fails to make at least nine hours credit in any semester is not eligible for enrollment the succeeding semester.

5. Eight hours is the maximum credit allowed for work done during any school year by a teacher in service, regardless of whether the work is done by correspondence, in extension class, or in residence.

GRADING SYSTEM

The series of grades employed for rating students' work is the following:

A—Honor grade; given for ability and performance of exceptionally high order. Among a representative group of college students work of quality A will generally be found in from 3 to 10 cases out of a hundred.

B—Excellent; given for ability and performance distinctly better than average in quality. Among a typical group of college students work of quality B will generally be found in from 15 to 20 cases out of a hundred.

C—Good; given for ability and performance of medium or average quality. Among a typical group of college students work of quality C will generally be found in from 40 to 50 cases out of a hundred.

D—Lowest passing grade; given for ability and performance of quality fair to poor. Among a typical group of college students work of quality D will generally be found in 15 to 20 cases out of a hundred.

F—Failure. Among a typical group of college students work of quality F will generally be found in 3 to 10 cases out of a hundred. An F may not be removed from the record except on evident error on the part of the instructor; to receive credit, the work must be repeated *in class* and successfully passed.

I—Incomplete; signifies that student was unable, on account of illness, or for other equally good reasons, to do some of the last exercises of the class work, and that student may be able to earn grade higher than D by completing the work of the course. I automatically changes to F if work is not completed within one semester.

W—Withdrawn from course; can be used only in case student has been officially dropped from course on notice from Dean to registrar or instructor. No such drop notice is issued for a student in school later than four weeks after enrollment.

For statistical purposes the numerical equivalents of the several grades are as follows: A, 3 points for each hour of credit; B, 2 points for each hour of credit; C, 1 point for each hour of credit; D, F, I, no points. Candidates for graduation must have at least as many points as hours to their credit.

CLASSIFICATION OF STUDENTS

Students who have completed not less than ninety hours of college work are classified as Seniors.

Students who have completed not less than fifty-eight hours and not more than eighty-nine hours of college work are classified as Juniors.

Students who have completed not less than twenty-six hours and not more than fifty-seven hours of college work are classified as Sophomores.

Students who have completed the high school or secondary course and not more than twenty-five hours of college work are classified as Freshmen.

DIVISIONS OF THE SCHOOL YEAR

THE SEMESTER

The work of the institution is organized on the semester basis. The first semester opens early in September and continues eighteen weeks; the second semester opens immediately after the close of the first semester and continues eighteen weeks. The regular summer session is a half semester in length.

THE SUMMER SCHOOL

The principal summer term opens on the Monday following the close of the second semester of the regular year.

The faculty is composed of the regular teaching staff and a number of exceptional men and women secured from other colleges and universities.

Several grades in the training school and one or two rural schools are operated during the summer term in order to give Normal students and teachers the advantage of observation work and practice teaching.

STUDENT EXPENSES

BOARD

Young ladies who are not living at home or with relatives are required to room and board in one of the college homes. Young men secure rooms in places approved by the faculty committee. A dining room and cafeteria are available for the young men. Board and room average about \$7.00 or \$7.50 a week.

BOOKS

The cost of books varies from \$10.00 to \$15.00 a session.

COST

It is the aim of the College to hold all living expenses down to the lowest reasonable minimum. Wholesome food is provided in the dining rooms, but fancy food cannot be furnished at the prices charged. The institution buys at wholesale and manages its service carefully. It returns to the student every cent invested in board, not even making a charge for the cost of fuel or cooking utensils. The charge for rooms is barely sufficient to pay for heat, light, and repairs. This policy is pursued in conformity with the State's avowed purpose of providing educational facilities for all of its people as nearly free as possible.

THE PURPOSE OF MARSHALL COLLEGE

The institution has had a long career of honorable service. As an academy it took high rank. As a teacher training school its service was extended over a still larger portion of the state. Whether in its academic or professional work, it has always maintained a high standard

*Checks for fees should be made payable to "Marshall College."

†An additional fee of \$10 a semester is charged students from other states except during the *summer* term, when fees for students from all states are the same.

of social ideals, and those ideals have become crystallized in the best type of a state-wide citizenship.

The fundamental purpose of the institution is to render the best possible service to the people of the state whose creation it is. Rapidly increasing demands upon it have led to substantial expansions in the college. However, no influence of increasing numbers of students, added courses of study, or greater projects will be allowed to obscure the basic idea of the development of strong, clean, efficient men and women, the type of citizens who stand as a sheet anchor of orderly and beneficent government.

COLLEGE MORALE

In college life morale is important. Listlessness and loafing are educational sins. Intense interest and hard work are essential to success. A dominant purpose tends to develop a strong personality which is itself one of the desiderata of a general education. Marshall College will do its utmost to help students find themselves, to assist them in the formation of all helpful habits, and to encourage them in their work. It does not invite the attendance of students who may come without a serious purpose.

Parents are warned against the harmful effects of frequent home visits by students. The home visit is pleasant, but it diverts the student's attention from his work. Cutting the class at the end of the session or entering a day late militates against the best results. A full day's work is assigned each student for every day of the session, and the student who misses a single day suffers a loss.

Social activities and diversions of all kinds should be limited during school sessions. The College makes proper provision for agreeable and wholesome social life, but it cannot tolerate the continued presence of any to whom a high life purpose and the advantages of a clean and wholesome social life do not appeal. The great majority of the students enrolling here are young men and women of fine character and habits and the college is under obligation to protect them from the damaging influences of moral or intellectual profligates.

RULES OF THE BOARD OF EDUCATION

GOVERNING STUDENTS

1. Students are subject to the rules and regulations made by the school for their guidance and government; for any failure to comply with such regulations, a student may be punished, suspended, or expelled as provided by the Board.

2. Students in attendance at any state school may be transferred to any other state school; but no student shall be admitted to a state school unless he presents a recommendation for admission to said school with an official certificate of his credits earned in the school from which he transfers.

3. No student shall be permitted to carry more than sixteen semester hours of work, at any time, except by special permission of his Dean—and not more than eighteen hours without the permission of the College Council. Two laboratory hours shall count as one semester hour.

4. Each regular student shall carry at least twelve semester hours.

5. When a student has received his assignment, he cannot change it except by permission of his Dean.

6. Minimum resident requirements for graduation: For standard normal diploma, at least one year of work, two-thirds of which must be done in actual residence. For the A. B. degree, at least one year's work in residence, one semester of which must be in the senior year. A "year in residence" must represent not less than thirty-six weeks' work in residence, with not less than 24 hours credit.

REGULATIONS CONCERNING ROOMS AND BOARD

No student is permitted to board or room anywhere except in a place approved by the College authorities; and should any one be found in a place not approved by the committee, he will be notified at once to move, on penalty of being dropped from school.

Young men and young women are not permitted to room in the same house.

The advice and approval of the Dean of Women must be had, also, in all matters of importance connected with the boarding and rooming of young women.

Students are not permitted to room at any place in which the proprietors are not willing to conform to rules and regulations prescribed by the College. In case the rules are not observed, students will be required to change their rooming places.

Students who do not reside at home are expected to get permission when leaving the city. This rule is made to protect the student and to make it possible to find him in case any urgent call should come for him. While this rule is not made absolute, it will be considered a breach of good faith and confidence for students not to observe it. The purpose of the rule is reasonable and should appeal to every student and parent. Girls apply to the Dean of Women for the necessary permission.

Students desiring to change their boarding places or their rooms are required to notify the Secretary and the Registrar. This is a very important requirement, and its observance must be strictly adhered to.

STUDENT HOMES

College Hall stands on the elevated central portion of the spacious campus. It is joined to the main building on the west, a wide central hallway on the first floor extending the full length of the two sections. The residence hall contains seven suites and thirty-four rooms, accommodating one hundred thirty-five students. A sewing room and kitchenette are provided for the use of the young women. A good infirmary is maintained where students who are sick are properly cared for.

Champ Clark Cottage on Third Avenue accommodates twenty-four students.

Everett Hall on Eighteenth Street, a block and a half from the campus, offers accommodations for twenty-four young women.

Besides these halls the Sigma Sigma Sigma, the Delta Xi Delta, the Theta Rho, the Delta Sigma Epsilon, the Pi Kappa Sigma, the Kappa Theta, the Alpha Sigma Alpha, and Kappa Tau Phi sororities maintain chapter houses—under supervision of the College authorities—which accommodate about fifteen students each.

Young ladies who wish to engage rooms in any of the college halls should make application several weeks in advance of the date when they expect to enter. No rooms are considered engaged until the deposit of two dollars (see Rooms and Room Rent on page 24) has been made.

All correspondence concerning reservations for rooms for women, whether in the dormitories or in private homes, should be addressed to the Dean of Women, Marshall College, Huntington, W. Va.

GOVERNMENT IN WOMEN'S HALLS

Beyond the expectation that the life of our students shall conform to the requirements of promptness and fidelity to duty, and show that considerate regard for others which characterizes refined womanhood, we have but few fixed rules.

Our residence halls have Student House Government Associations which, with the direction of the Dean of Women and the House Directors, exercise proper oversight over the young women resident in them. The Student Council of this Association enforces such regulations as are considered necessary to good order, good habits, and the best educational results for the group.

By a persistent disregard for regulations the student will forfeit her right to the privileges of the halls.

TO PARENTS

We call special attention to the following ruling of the State Board of Education:

"It is hereby ordered that, so long as there is room for them in College Hall, all women students under 21 years of age, except those who room and board at home, *are required to room and take their meals in College Hall*; if under 21 years of age, and there are no rooms available in College Hall, then they shall room in Champ Clark Cottage or Everett Hall, so long as there is room for them. Exceptions to this rule may be made only with the approval of the President and the Dean of Women."

Every parent who realizes the importance of protecting young girls away from home, in a city, will appreciate this ruling of the State Board.

When parents or guardians send their daughters, or wards, here, they must send them subject to our government; for, while they are under our care, we must decide what is best for them.

When students desire special permission to attend a social function or to remain away from the hall over night, they must secure permission from the Dean of Women.

Girls who do not have rooms in the college halls are under the same general regulations as the girls in the halls. They must conform to general rules in force in the college halls. When they desire to attend social functions of any kind, they must secure permission from the Dean of Women just as if they lived in a college hall.

CONVENIENCES

All residence halls are heated by steam, and lighted with electricity. Hot and cold water are supplied throughout these buildings.

There are direct trolley and bus connections with all parts of the city and with adjoining towns.

All three halls are supplied with telephone and telegraph connections.

ROOMS AND ROOM RENT

The rooms are furnished with single beds, mattresses, closets, dressers, chairs, tables, light, and heat. Students are required to furnish their own bedding (except the mattress) and towels, and are required to keep their rooms clean and in order. *Each student is required, also, to provide herself with her own hot water bottle, soap dish, spoon, two glass tumblers, a small pitcher for drinking water, and a napkin ring.*

All breakage of whatever kind, whether to furniture or equipment, is paid for by the occupants of the room in which the breakage occurs.

Room rent is \$20.00 a semester. Two dollars of this amount is payable when the room is engaged, and the balance at the time of registration. The deposit of \$2.00 is forfeited if the room is not claimed.

TABLE BOARD

Charges for table board are at the rate of \$5.00 a week:

For the entire semester in advance.....	\$90.00
Summer term, nine weeks.....	45.00

Should a student prefer to pay his board in installments, he may pay in the following manner: \$22.50 upon entrance and \$22.50 on the first of each month thereafter until the full amount of \$90.00 has been paid.

No reduction is made in table board for short absences (a few days) at the opening or close of a "semester" or "term" or for the Thanksgiving or the Easter recess.

The cafeteria serves good food at cost prices. Some pay more, some less, than the dining room charge of \$5.00 a week.

CORRESPONDENCE WORK

As far as her facilities permit, the College offers each year certain courses by correspondence. The work is of college grade and college credit is given for it. Only those may enroll who are eligible for college work.

Not more than eight hours of credit can be earned during a year, nor can more than two subjects be carried at one time.

The fee is \$5.00 per credit hour, payable to Marshall College. The subjects offered vary from year to year. Information will be sent upon request.

EXTENSION CLASSES

Marshall College desires to be of service to those communities in which groups wish to organize themselves into extension classes. The number of such non-resident classes that can be conducted by college instructors is limited by the capacity of the teaching staff to carry on the work.

The minimum size of a class is placed at fifteen registrants, but the number required will depend in part upon the distance their instructor has to travel. The fee is five dollars per semester hour. For such a course the class is required to meet for sixteen two-hour periods, usually at regular intervals of one week. Students who desire credit for the course are expected to enroll not later than the second class meeting. Outside preparation is required for extension classes just as for residence classes.

STUDENT EMPLOYMENT

Huntington offers many opportunities for students who wish to support themselves in part during their residence in school. There are nearly always openings for those having experience in stores or offices, in caring for children, or assisting in housework. Professor Lucy E. Prichard is chairman of the Committee on Student Employment. Applications for assistance should be addressed to the committee, in care of Miss Prichard.

APPOINTMENT COMMITTEE

To assist superintendents throughout the state in securing teachers adapted to their needs, the work of recommendation is placed in the hands of the Appointment Committee. This committee consists of the Dean of the Teachers College, members of the faculty who are in a position to know intimately the work of each student both in training school teaching and in classroom work. Complete records regarding previous experience of students, the grades for which they are especially prepared, photographs, and detailed statements from the instructors concerning ability and personality are kept on file in the office of the committee. These records are sent out, upon application, to the superintendents, or can be referred to by them when they visit the College.

While a personal interview with the prospective teachers at the school is to be preferred, the committee makes every effort to make discriminating selection of students for positions when so requested.

A like service is rendered for students in the College of Arts and Sciences.

THE LIBRARY

The library contains a collection of about 25,000 books to which substantial additions are being made from time to time. Books in which readings are assigned are kept "on reserve," and their use is limited to short periods. All other books are free of access to students. The free use of its books is one of the most important services of the modern library.

In March, 1925, this library was made a government depository. It receives, as soon as published, most of the United States documents, containing valuable reference material.

Some two hundred periodicals are received regularly, and are placed where everyone can read them. They comprise most of the current magazines of a general nature, and the leading technical and professional magazines relating to the various courses offered.

A juvenile library is installed in the junior high school building, to be used by the children of the training school and by students preparing to teach in the grades.

FRESHMAN WEEK

Five hundred or more freshmen are now enrolled by the College each year. To afford this large group of first matriculates a better opportunity for personal counsel with teachers and deans before their decisions with reference to their work are made, Monday and Tuesday, September 8th and 9th, are set aside as a partial "Freshman Week."

Upper classmen will complete their enrollment on Wednesday, and class work will commence Thursday morning. Students are urged to be prompt and thorough in making the necessary preliminary arrangements for their work.

The women's dormitories will be open for students Sunday evening, September 7th.

SCHOLARSHIPS AND STUDENT LOANS

Marshall College deems it a privilege to be permitted to assist worthy young people in obtaining a coveted education. Through its friends the College has acquired loan funds which are available to the extent of two or three thousand dollars each year. In fact, the College stands ready to say to any earnest healthy boy or girl who has completed his high school course and has a small amount of money to start on that it can show him a way to obtain a full college education. Inquiries from this class of students are welcome.

Applications for scholarships should be addressed to the Scholarship Committee, of which Dr. C. E. Hedrick is chairman. Scholarships are awarded primarily to students who have proved their ability in the classroom. The following scholarships are available for 1930-31:

Woman's Club Loan Scholarship, value \$150—to be awarded to a student who could not otherwise attend school.

The Marshall "Class of 1889" is permitting its class fund of \$225 to be used for student loans till it may be increased materially, at which time a more permanent disposition of the fund may be decided upon.

The Junior Department of the Woman's Club of Huntington contributed, in 1925, \$100 as the beginning of a loan fund for students needing temporary aid. Preference will be given to students above freshman standing.

The Osceola Burns Scholarship Loan Fund was established in 1925 as a memorial to Mrs. Burns by her daughters, Mrs. Jed B. Bebbie, Mrs. Vernon Carter, and Miss Elizabeth Burns, who contributed jointly \$150 as the beginning of a loan fund for worthy students.

The Don Chafin Scholarship Fund was established by Mr. Chafin in 1924 and is loaned to students of promise and ability, preferably from Logan County.

Daughters of the American Revolution Loan Scholarship, value \$400, to be awarded to members of the junior and senior classes in need of financial aid. Preference will be given to applicants majoring in American history and civics.

THE

MR. AND MRS. JAMES WASHINGTON BURGESS LOAN FUND

As a memorial to her parents, Miss Frances C. Burgess established in 1928 a loan fund of one thousand dollars for worthy and promising students of junior and senior standing who need temporary financial aid. The fund is to be loaned without interest.

LUCILE DRUEN MEMORIAL

In honor of their classmate, Lucile Druen, the members of the Home Economics Club of Marshall College of the year 1926 raised a fund of seven hundred twenty-five dollars. This money is to be loaned to worthy students at three per cent interest; and the income is to be used as a gift scholarship to stimulate the interest of high school students of West Virginia in home economics.

THE D. B. SMITH MEMORIAL

In honor of her deceased husband, a loyal and devoted friend of Marshall College, Mrs. D. B. Smith, on July 23, 1925, turned over to the College the sum of one thousand dollars, to be known as the "D. B. Smith Memorial." This money is to be invested in perpetuity and the income used by the College in assisting worthy students.

THE PAUL MORGAN MEMORIAL

In memory of their son, John Paul, a student in the pre-medical department of the college, who was killed in an airplane accident in the summer of 1927, Mr. and Mrs. W. S. Morgan of Mason county, have given the college \$1000 as a scholarship fund, the income from which is to be awarded annually to some worthy student preparing for the medical profession. Paul Morgan was a noble example of young manhood and an ideal student.

THE MRS. JAMES LEWIS CALDWELL MEMORIAL FUND

As a memorial to her mother, Mrs. Mary O'Bannon Smith Caldwell, Mrs. Charles Wellington Watts established in June, 1928, a fund of \$400 annually for an indefinite time. This fund will be used for student loans till it may have materially increased, at which time a more permanent disposition of a portion of it may be decided upon. In the awarding of the loans preference will be given to junior and senior students who have established high scholastic records.

ATHLETICS

Marshall College believes in clean athletics and will not tolerate either dishonesty or professionalism in her sports program. High ideals of sportsmanship shall always be as much of a goal as high score records.

The following rules quoted from the by-laws of the West Virginia Athletic Conference constitute the minima of requirements for students representing Marshall College in inter-school athletic contests:

"Section 1. To participate in intercollegiate contests a student must be regularly enrolled in not less than twelve semester hours work or its equivalent and must be making passing grades in at least eight hours work. To be eligible any semester, he must have made passing grades in at least eight hours work his last preceding semester. In institutions

operating on the twelve-week term plan a student must pass eight term hours to be eligible the following term. (Attendance during summer terms shall not be counted in the application of this rule.)

"Sec. 2. Withdrawal from the institution in the course of any semester or term for any cause shall debar from participation in intercollegiate athletics until the work of that semester or term or its equivalent shall have been successfully completed by the student so withdrawing. Exceptions to this rule may be considered by the Eligibility Committee upon the recommendation of the institution from which the student has withdrawn.

"Sec. 3. To be eligible to represent an institution, a student must enroll in that school within two weeks after the beginning of the semester or term in which he plays.

"Sec. 4. No student shall represent an institution who has represented another institution offering collegiate work until he has completed a year's residence work in the new institution, except in case of graduation in any course from a junior college or normal school.

Migrants from institutions shall be ineligible to participate in non-conference games. (Graduation from a short course shall not be deemed "graduation" in the application of this rule.)

"Sec. 5. No student shall play on a college team unless he has completed fifteen units of high school work, or on a junior college or normal school team unless he has completed twelve units of high school work.

"Sec. 6. No student shall play on a college team for more than four years, or for more than three years on a junior college team as a college student. This rule should not apply to a student from a junior college or normal school who enters a degree-conferring institution.

"Sec. 7. No student holding a degree from a collegiate institution shall be eligible to participate in intercollegiate contests.

"Sec. 8. A student who engages in a contest under an assumed name shall be permanently ineligible.

"Sec. 9. Any player who participates at any time with a recognized professional athletic organization shall be declared ineligible. Any player who participates with a semi-professional organization during the collegiate season of that particular sport shall be ineligible to represent the institution in the particular sport for the college year."

ASSEMBLY

A general assembly of faculty and students convenes in the college auditorium each Wednesday morning at 10:00. Ten minutes of the hour are devoted to a devotional exercise, and the remainder of the period is given over to addresses, musicals, student programs, and the like. This is the one opportunity for a mass assembling of the entire faculty and student body. All faculty members and all students are expected to attend this meeting.

STUDENT GOVERNMENT

The traditions of Marshall College uphold a high standard of personal conduct to which repeating generations of students readily conform. The idea is dominant, and the authorities are rarely called upon to deal with the problems that sometimes disturb school life. More recently a system of student government has been developed, which not only affords training in the principles of citizenship but renders valuable assistance in the maintenance of right character ideals and helpful work habits. It is an atmosphere in which desirable traits develop naturally, and the undesirable find it difficult to survive.

TEACHERS COLLEGE ORGANIZATION

Ten departments of instruction are maintained in Teachers College, as follows: Art, Biology, Education, English, Geography, History, Home Economics, Library Science, Music, Physical Education.

In addition, certain special courses in other fields are presented as Teachers College courses without creating departments within the College. These courses, and certain special methods courses, are taught by members of the faculty of the College of Arts and Sciences through the courtesy of the dean of that College; these instructors are listed as affiliated members of the faculty of Teachers College.

PURPOSE

Teachers College is Marshall College organized for the purpose of preparing teachers. Its curricula are to be regarded as vocational in purpose. Nevertheless, these curricula, like those of the College of Arts and Sciences, consist for the most part of courses in academic subjects matter; they differ from those of the College of Arts and Sciences primarily in the respect that they include professional courses for teachers, and that the selection of subject matter courses is made with a view to meeting the needs of teachers.

WHAT STUDENTS REGISTER IN TEACHERS COLLEGE

Those students who desire to qualify for a teacher's certificate, issued by the State Department of Education, on the basis of college credits, register as members of Teachers College.

Students registered in Teachers College pursue one of the curricula outlined in this section of the catalogue, under the general guidance of the Dean.

Subject matter courses needed by Teachers College students, and not offered in Teachers College, will be taken from the schedule of the College of Arts and Sciences.

College of Arts and Sciences students will be admitted to courses on the Teachers College schedule, but they will be limited to a maximum of eight hours in education courses, and certain courses are open to Teachers College students only. A student who has earned Education credits in excess of eight hours cannot be transferred to the College of Arts and Sciences.

ENTRANCE REQUIREMENTS

By regulation of the State Board of Education any graduate of a first class high school in West Virginia, with credits as required in any one of the curricula provided for high schools, may enter upon a teacher training curriculum. Any student with 15 units of credit applicable upon one of the high school curricula may be admitted conditionally to teacher training work, but not more than 32 semester hours of college credit may be taken before the requirements for high school graduation have been met in full.

Experienced teachers over twenty-one years of age who lack entrance credits may be admitted to Teachers College for such work as they are qualified to take; but before receiving a diploma or a degree, they shall meet the full entrance requirement. These are special or unclassified students.

In order to insure adequate preparation of teachers in certain fundamental subjects, students who are admitted to any of the curricula for elementary teachers must attain a definite standard in the following subjects: English composition and spelling, arithmetic, and penmanship. Students who fail to meet the required standards in these subjects will be required to do additional work for which no collegiate credit will be given.

Before a new student in Teachers College may have his schedule approved by the Dean at registration time, he must present to the Dean a certificate from the Registrar, showing the entrance credits that have been accepted, and the number of hours of college credit accepted from other colleges. The Registrar must have at least four weeks, after the receipt of transcripts of credit earned in other schools, in which to prepare the certificate mentioned.

The above requirement may be temporarily suspended provided the student submits to the Dean the Registrar's certificate that entrance credits have been presented, apparently in proper shape, but presented too late for proper examination. In such cases, the certificate required by the preceding paragraph must be submitted to the Dean within four weeks after the opening of the term, or the student's schedule will be subject to cancellation.

DEGREE AND DIPLOMAS

Teachers College diplomas are of two grades, those awarded at the end of a four-year course of study, and those awarded at the end of a two-year curriculum. The diploma for the four-year course gives to its possessor the A. B. (bachelor of arts) degree. The two-year course leads to the Standard Normal diploma and certificate. These curricula are outlined on pages which follow.

The four-year curricula are sufficiently flexible to permit the student to select some particular kind of educational activity as a future career, and to prepare especially for it. At the same time, its demands are sufficiently broad to guarantee good general preparation. Early selection of a definite professional plan, and adherence to that plan, are urged upon prospective teachers.

CORRESPONDENCE AND EXTENSION CLASS CREDITS

By regulation of the State Board of Education, not more than 24 hours of correspondence and extension class work can be credited toward a degree, and not more than 12 hours toward a standard normal diploma. By regulation of the American Association of Teachers Colleges, not more than 15 hours of correspondence credit may be applied toward a degree.

Not more than 8 hours of credit may be allowed for correspondence and extension class work done in any one school year, and not more than 6 hours of this may be by correspondence.

No student may be registered in Marshall College and in another college at the same time without the consent of both institutions.

STANDARD TWO-YEAR CURRICULA FOR ELEMENTARY TEACHERS

Three standard normal curricula are offered, for lower grade teachers, for upper grade teachers, and for rural teachers, respectively.

*Student may exercise option between courses so marked in his curriculum, taking only one of them. Education 115 may be taken only by prospective teachers of kindergarten or first grade.

†Electives must be consistent with the idea of preparation for teaching in elementary school, and are subject to the dean's approval.

Observe that present requirements are 68 hours. For short course certificate be sure to take all that is listed for first year, with necessary second year work to meet present requirements.

Students who obtain 3 hours of Education 200 and 250 or 251 by taking them in summer must take another 2 hour course in Education; the dean must approve this selection. Neither more nor less than 20 hours in Education may be counted.

Before graduation the student must have earned as many grade points as hours of credit.

FOUR-YEAR CURRICULA IN ELEMENTARY EDUCATION

Three four-year curricula in elementary education are offered, preparing teachers for elementary schools, principals for elementary schools, and supervisors for rural schools, respectively.

Certain requirements are common to all three of these curricula:

(1) The student must complete 60 semester hours of credit above requirements for the standard normal diploma. (2) Of the 60 hours, at least 48 must be earned in courses in 300 and 400 series; half credit only will be allowed on courses in the 100 series taken in the junior year, and on courses in the 200 series taken in the senior year; courses in the 100 series taken in senior year will give no credit toward graduation. (3) Before graduation the student must have earned as many grade points as hours of credit.

The 60 hours of work required in the last two years of each curriculum in elementary education are listed below. The requirements stated are based on the assumption that the student has met the present requirements for graduation from standard normal curriculum; in case of teachers who met earlier standard normal requirements, the dean will make an adjustment in the requirements for the last two years of the four-year curriculum. These curricula lead to the A. B. degree.

Electives applied on any curriculum must be consistent with the purpose of that curriculum.

FOUR-YEAR CURRICULA FOR HIGH SCHOOL TEACHERS

GRADUATION REQUIREMENTS

(1) Completion of 128 semester hours of credit above entrance requirements.

(2) One year of science is required. Any one of the pairs of courses marked * in the list below will satisfy the requirement. Prospective high school teachers who did not present at least two units of mathematics for entrance must earn enough college credit in mathematics to make the equivalent of two units; six hours are equivalent to one unit.

(3) Education courses are not to be taken before the junior year; not less than 20 hours, and not more than 24 hours, may be counted toward degree with high school certificate.

(4) High school teachers must be prepared to teach at least two subject groups. No person can be certificated to teach one subject group or field only, or to teach a single subject, except as indicated in the following list. The subject combinations are listed on the assumption that the subject named first will be regarded as the first teaching field, although that is not obligatory; the subject matter preparation in any field is the same regardless of whether it is the first or the second teaching field of the student; however, the professional work of the student is affected by his choice of first teaching field. Marshall College offers preparation in the following combinations: art; art and social studies; biology and mathematics; biology and social studies; commerce; commerce and social studies; English and French; English and art; English and Latin; home economics; home economics and biology; home economics and chemistry; home economics and art; mathematics and physical sciences; music; music and English; music and French; physical educa-

tion; physical sciences and biology; social studies and English; social studies and French; social studies and Latin; social studies and mathematics; social studies and physical sciences.

(5) Graduation may require more than 128 hours in the case of some combinations of subject groups. The student who enters with deficiency in English or mathematics may find it impossible to meet all requirements within 128 hours.

(6) Graduates of the standard normal curriculum who desire afterward to qualify as high school teachers will find that it is impossible to do so in two years of additional work. The exact amount of additional time required will vary with the combination of high school subjects. Twelve hours in secondary education courses must be taken, as follows: Education 310, 3 hours; 320, 2 hours; 402, 2 hours; 440, 3 hours; 450, 2 hours.

(7) Of the 128 hours presented for graduation at least 48 hours must be in courses in 300 and 400 series; not more than 40 hours may be from the 100 series.

(8) Before graduation the student must have earned as many grade points as hours of credit. No person will be recommended for high school certificate to teach any subject group whose scholarship in that field is below C.

(9) Half credit only will be allowed on courses in the 100 series taken in the junior year, and on courses in the 200 series taken in the senior year; courses in 100 series taken in the senior year will give no credit toward graduation.

(10) A student who has had high school work in a foreign language may not receive college credit for repeated work in that language. One year of high school language work is equivalent to the first semester of a college first year course; two years of high school language work are equivalent to the first year course in college.

TRAINING SCHOOLS

Marshall College maintains on the campus the Marshall Junior High School (seventh, eighth and ninth grades) and the Marshall Elementary School (grades one to six). Each grade of the elementary school is in charge of a critic teacher. The junior high school is conducted on the departmental plan.

The training schools serve the purpose of a laboratory for the Department of Education. Observation and practice teaching are done in the training schools under the direction of the supervisors and critic teachers. To supplement these facilities, arrangements have been made for high school observation and practice teaching in the Huntington city schools.

TEACHERS COLLEGE

COURSES OF INSTRUCTION

Courses intended primarily for freshmen are numbered from 100 to 199; such courses are open to sophomores unless departmental description of any course expressly excludes sophomores; not open to juniors and seniors. Courses intended primarily for sophomores are numbered from 200 to 299; such courses are open to freshmen and juniors unless departmental description of any course expressly excludes freshmen or juniors; not open to seniors. Courses intended primarily for juniors and seniors are numbered from 300 to 399; such courses are open to sophomores unless departmental description of any course expressly excludes sophomores; not open to freshmen. Courses intended primarily for seniors are numbered from 400 to 499; such courses are not open to freshmen, sophomores, or juniors. Exceptions to the statement that a course is "not open" to certain students may be made by the dean, after authorization by head of the department concerned when, in the dean's judgment, admission to the course is of vital importance to the student's general plan.

NOTE: "I" after a course title indicates that the course is offered in the first semester of the college year; "II," that it is offered in the second semester; "IV," that it is offered in the summer session; and a course without the semester indicated is not regularly offered. Many courses are offered more than once a year.

RESTRICTIONS

No credit is allowed for less than one unit in a foreign language, chemistry, or physics.

No credit is allowed for penmanship or spelling as separate subjects.

Unless the school is organized on the hour recitation basis, unprepared subjects receive half credit.

†A secondary unit is the equivalent of nine months' (two semesters) work in any subject of recognized standard educational value, recitations not less than five times a week and not less than fifty minutes in length.

ORGANIZATION

Departments Arranged in Groups

The various departments of the College of Arts and Sciences are grouped as follows:

- Group A: Language, English, and the Arts.
English, Latin, French, Spanish, German, Greek, Art,
Speech, Music, and Physical Education.
- Group B: Mathematics and the Natural Sciences.
Mathematics, Physics, Chemistry, Geology, Geography,
Botany, Zoology.
- Group C: History and the Social Sciences.
History, Sociology, Economics, Commerce, Political Science,
Journalism, Philosophy, Psychology, Bible, Library
Science, and Education.

Through the requirement of a minimum number of hours from each group it is hoped that over-specialization will be avoided, while through the requirement of a maximum number of hours in a particular group an opportunity is afforded for intensive study in closely related subjects.

THE BACCALAUREATE DEGREE

The degree of Bachelor of Arts (A. B.) is conferred by Marshall College upon students who have completed a four-year course (128 hours) in the College of Arts and Sciences. The term "hour" is used conventionally to signify one recitation a week throughout the semester of eighteen weeks, or an equivalent of that. A lecture or recitation is regularly fifty-two minutes in length, and the outside work of the student is estimated at an average of two hours for each class recitation. In laboratory work each exercise is approximately two hours in length, with outside study to make it as nearly as possible equivalent in its demands to the conventional "hour" defined above.

MINIMA GROUP REQUIREMENTS

- Group A: Language, English, and the Arts.
1. Six hours must be earned in English 101 and 102 (freshman English composition).
 2. Four hours must be earned in English 107 and 108, (formerly listed as Literature 101 and 102).
 3. Twelve hours must be earned in a foreign language, which may be the same language or another than the one offered for entrance. Less than a year's work in a foreign language may not be offered for graduation.
 4. Two hours must be earned in Physical Education 101 and 102.

Group B: Mathematics and the Natural Sciences.

- 20 hrs.
1. Eight hours must be earned in laboratory courses in botany and zoology.
 2. Twelve hours must be earned in the non-biological sciences: namely, chemistry, physics, mathematics, geology, geography, and home economics.

Group C: History and the Social Sciences.

- 12 hrs.
- Twelve hours must be earned in two of the following subjects: history, economics, political science, philosophy, psychology, and sociology.

OTHER REQUIREMENTS

Candidates for graduation must have at least as many quality points as hours to their credit. Of the 128 hours required for the degree, at least 48 must be offered from some one of the groups given above, which will be designated the student's major group, and at least 24 from a second group, which will constitute the minor group. In no one of the groups may more than 72 hours be credited toward the degree.

At least 48 of the 128 hours required for the degree must be earned in courses numbered from 300 to 499.

Not more than 8 hours of Education may be elected from the Teachers College. Recommended courses for the temporary teaching certificate are: Education 310, 320, and 301 or 340.

The above mentioned courses meet the requirements of the American Medical Association, on whose accredited list we now stand. Candidates for admission to the pre-medical work should include in their high

school subjects: Latin two units, mathematics 2 units (algebra 1, geometry 1), physics 1 or chemistry 1. Students are strongly urged to present also: French 2 units or German 2 units, and botany 1 unit or zoology 1 unit.

A certificate is awarded upon completion of sixty-four hours of work included in the above curriculum in order to meet the requirements of sixty hours as a minimum for admission to most medical colleges. It is highly desirable that freshmen indicate the medical college they intend to enter, since colleges vary somewhat in certain requirements.

The following electives, strongly urged by the Council on Medical Education, are offered for those who can carry extra credits, or for those who would wisely spend *three years* in preparation to meet the exactions of the best medical colleges: Chemistry 305, 401; Psychology 101, 304; Botany 202, 303; Zoology 300, 301, 306, 307; Physics 300, 301, 302, 303.

We are also able to present courses to meet the requirements according to the recent ruling of the Dental Educational Council of America calling for six semester hours in each of the following: English, biology, physics, inorganic chemistry, and three semester hours of organic chemistry, and electives to make a total of sixty hours as preparatory for *three years* in any leading school of dentistry.

Candidates for admission to this department must present a certificate of graduation from an accredited high school, with 15 units of credit. This work must include algebra 1½ units, plane geometry 1 unit, solid

geometry $\frac{1}{2}$ unit, and it should include 1 unit of physics and 2 units of one foreign language. High school students looking toward this profession are also advised to present credit for trigonometry, mechanical drawing, and shop work. Deficiencies in algebra and solid geometry may be made up in college. Students offering less than $1\frac{1}{2}$ units of algebra must make up the shortage before entering the class in college algebra (Mathematics 127). When credit in solid geometry is not offered, it must be made up before the beginning of the second year. The department endeavors to make such reasonable adjustments as may be necessary to meet individual needs. See Requirements for admission on pag 67).

A certificate (not a degree) is given on the completion of the two years of engineering work.

ELECTIVE

If the student expects to complete a course in one of the branches of engineering indicated below, he must choose electives from those listed under that head.

Civil: Applied Mathematics 202, 203, 204, 207; Geology 210; Economics 241, 242; Commerce 206, 207, 210, 320.

Mechanical: Economics 241, 242; Commerce 206, 207, 210, 320; Physics 300, 301, 302, 303; Applied Mathematics 203, 204.

Electrical: Economics 241, 242; Commerce 206, 207, 210, 320; Physics 300, 301, 302, 303; Applied Mathematics 203, 204.

Mining: Applied Mathematics 202, 203, 204, 207; Geology 210; Chemistry 203, 204; Physics 300, 301, 302, 303; Economics 241, 242; Commerce 206, 207, 210, 320.

Chemical: Chemistry 203, 204, 301, 302, 401, 402; Physics 300, 301, 302, 303; Economics 241, 242; Commerce 206, 207, 210, 320.

The following electives are available for those students who are candidates for both the engineering certificate and the A. B. degree; Mathematics 431, 435; Physics 209, 210, 211, 212, 304, 305.

This department is open to all students who have met the regular college entrance requirements. It is strongly recommended that the 15 units prescribed for entrance include 2 units Latin and 2 units in social sciences, in addition to the required American history, civics, and mathematics.

The special curriculum prescribed and advised for the pre-law student has two purposes in view:

The first purpose is to meet the entrance requirements of any of the standard law schools, and with additional courses given in the junior and senior years, to meet the four-year requirements of other law schools.

The second purpose is to give the student the most necessary preliminary knowledge of new words and phrases, of old terms with prescribed and limited meaning, and of such new methods of study as will enable him to undertake the technical study of the law with a greater degree of intelligence and understanding.

The department also aims to give the student a foundation for a broad cultural background for his study and a thorough introduction to the current problems of the laws as a social institution. To meet this purpose carefully selected courses in history, sociology, psychology, philosophy, political science, and economics are either prescribed or advised.

COURSES OF INSTRUCTION

Courses intended primarily for freshmen are numbered from 100 to 199; such courses are open to sophomores unless departmental description of any course expressly excludes sophomores; not open to juniors and seniors. Courses intended primarily for sophomores are numbered from 200 to 299; such courses are open to freshmen and juniors unless departmental description of any course expressly excludes freshmen or juniors; not open to seniors. Courses intended primarily for juniors and seniors are numbered from 300 to 399; such courses are open to sophomores unless departmental description of any course expressly excludes sophomores; not open to freshmen. Courses intended primarily for seniors are numbered from 400 to 499; such courses are not open to freshmen, sophomores or juniors. Exceptions to the statement that a course is "not open" to certain students may be made by the dean, after authorization by head of the department concerned when, in the dean's judgment, admission to the course is of vital importance to the student's general plan.

NOTE: "I" after a course title indicates that the course is given in the first semester of the college year: "II," that it is given in the second semester; and a course without the semester indicated is not regularly given.

BIBLE

210. Old Testament History. Two hours. I
A study of the historic portions of the Old Testament, beginning with Genesis and ending with the Fall of Jerusalem in 586 B. C.
211. New Testament History. Two hours. I
A study of the life of Christ and the history of the early church as recorded in Acts.
212. The Gospel of John. Two hours. II
An intensive study of the character and teaching of Jesus, according to John.
213. Jesus and the Problems of Life. Two hours. II
A study of the principles of Jesus in their relation to present day problems.
302. Outlines of Church History. Two hours. II
A study of the outstanding events in the History of the Church, beginning with the Acts and coming down to the present day situation.
310. The Hebrew Prophets. Two hours. I
Messages and work of the outstanding prophets.
312. The History and Literature of the Apostolic Church. Two hours. II
The origin and development of the early church in the light of the Book of Acts and the Epistles of Paul.

BOTANY

203. General Botany. Four hours. I
The structures and functions of the plant and a general survey of the plant and a general survey of the plant kingdom.
204. An Introduction to Systematic Botany. Four hours. II
This course gives a general acquaintance with the lower plants and is a useful foundation for students who intend to take up biology or medicine.
302. General Bacteriology. Four hours. I, II
A general study of the bacteria, yeasts and moulds, intended to meet the needs for subsequent studies in domestic science, sanitation, and medicine.
306. Nature Study. Three hours. I
Deals with living plants and animals in relation to their surroundings. A thesis and field work are required. Open to students majoring in biology.
403. Mycology and Plant Pathology. Four hours. I
A systematic study of the fungi and the diseases caused by them. Field trips are planned for the first part of the semester.
Prerequisite: Botany 204.
404. Plant Taxonomy. Four hours. II
The identification and classification of the flowering plants and ferns of the tri-state region. Each student will prepare a small herbarium, and field trips will be planned to introduce the student to methods of field work.
Prerequisite: Botany 203.

CHEMISTRY

101. General Chemistry. Four hours. I, II
Prerequisite: Algebra.
102. General Chemistry. Four hours. II
Prerequisite: Algebra and Chemistry 101.
103. General Chemistry. Five hours. I
Covers the theory of general chemistry, the non-metals, and methods of detection of acid-forming radicals. Designed for students in medicine.
Prerequisite: Algebra.
104. Elementary Analytical Chemistry. Five hours. II
Covers the simpler principles of qualitative and quantitative analysis, practice in balancing of reactions, and stoichiometry.
Prerequisite: Chemistry 103 or Chemistry 201.
201. Advanced General Chemistry. Four hours. I
Covers fully the theory of general chemistry and the non-metals.
Prerequisites: Algebra and high school chemistry.

202. Advanced General Chemistry and Quantitative Analysis. Four hours. II

Covers the metals, the theory of analysis, oxidation and reduction reactions, and ionization. Knowns and unknowns. Normal and standard solutions.

Prerequisite: Chemistry 201.

203. Qualitative Analysis. Five hours. I

Prerequisite: Chemistry 102.

204. Quantitative Analysis. Five hours. II

Volumetric and gravimetric analysis. The class room work includes chemical calculations. This course familiarizes the student with typical analyses and lays the foundation for further analytical work. Special emphasis is placed on applications to industrial science.

Prerequisite: Chemistry 203.

301. Organic Chemistry. Four hours. I

Covers the paraffin series and derivatives.

Prerequisite: Chemistry 203.

302. Organic Chemistry. Four hours. II

Covers the unsaturated carbon compounds and the benzene series, and their derivatives.

Prerequisite: Chemistry 301.

303. Advanced Quantitative Analysis. Four hours. I

Complete analysis of limestone, gypsum and other mineral products, clays and soils.

Prerequisite: Chemistry 204.

304. Advanced Quantitative Analysis. Four hours. II

Analysis of foods, drugs, coal, iron and steel, waters, etc. Credit will be given more than once if work is not duplicated.

Prerequisite: Chemistry 204.

305. Physiological Chemistry. Five hours. II

A practical course for domestic science and medical students, and those who contemplate becoming trained nurses. The subject of essential foods and dietetics, digestion and metabolism, the blood, and the urine are studied.

Prerequisite: Chemistry 301.

307. Elementary Physical Chemistry. Four hours. I

Biological and medical bearings of physical chemistry for students in medicine, pharmacy, home economics, etc.

Prerequisites: Physics, Analytical and Organic Chemistry.

310. Pandemic Chemistry. Four hours. I, II

This course covers the salient features of the various branches of chemistry. It is designed for those who want to obtain a bird's-eye view of chemistry and know its importance to everyday life.

401. Physical Chemistry. Five hours. I

This course deals with such topics as the gas laws, kinetic theory, phase rule, theory of electrolytic dissociation, etc. The laboratory work embraces molecular weight determinations by vapor density, freezing, and boiling point methods, study of solutions, solubility, conductivity, etc.

Prerequisites: Physics 207 and 208, Chemistry 204 and 302, Mathematics 127 or 223.

402. Electro-Chemistry. Five hours. II

Special attention is given to the applications of electricity in the metallurgical and chemical manufacturing industries.

Prerequisites: Physics 300 and 301, Chemistry 401, Mathematics 224.

COMMERCE**101. Principles of Shorthand. (Gregg). Three hours. I, II**
Three hours a week required in typewriting laboratory.**102. Dictation. Three hours. II**
Three hours a week required in typewriting laboratory.
Prerequisite: Commerce 101 or its equivalent.**111. Principles of Accounting. Three hours. I****112. Principles of Accounting. Three hours. II**
Prerequisite: Commerce 111.**120. Introduction to Business. Two hours. I, II**
Required of all students with major in business.**200. Commercial Correspondence. Two hours. II**
Prerequisite: English 101 and 102, or 103, or Commerce 203.**203. Business English. Two hours. I**
A study of English structure and use—words, sentences, and discourse for effective use in business.**205. Commercial Law. Three hours. I**
A general and complete course in contract, sales, agency, and property laws.**206. Law of Contract. Two hours. I**
Intensive course in contract, agency, sales, bailments, and negotiable instruments, banking, and guaranty.**207. Law of Property. Two hours. II**
Intensive course in partnership, corporation, real estate, and bankruptcy laws.**210. Essentials in Money, Banking, and Investment. Two hours. II**
Not open to freshmen.**214. Cost Accounting. Three hours. I**
Prerequisite: Commerce 111 and 112.

231. Principles of Selling. Two hours. I
270. Principles of Insurance. Two hours. I
300. History of Commerce. Two hours. II
309. Credits and Collections. Three hours. I
A study of credit granting, collections, and adjustments.
310. Banking Theory. Three hours. I
Prerequisites: Commerce 120, 205, 210; Economics 241 and 242.
311. Accounting Theory and Practice. Three hours. I
Prerequisite: Commerce 111 and 112 and preferably Commerce 313.
312. Accounting Theory and Practice. Three hours. II
Continuation of Commerce 311, with like prerequisites, including 311.
313. Mathematics of Accounting and Investment. Two hours. II
Prerequisites: Commerce 111 and 112, and Mathematics 120 or its equivalent.
330. Principles of Advertising. Three hours. I
Prerequisite: Commerce 231 and preferably Art 202.
334. Investments. Three hours. I
Prerequisites: Commerce 205, 210, and Economics 241 and 242, or Economics 240.
340. Principles of Marketing. Three hours. II
Prerequisites: Commerce 205, 210, and 231; and Economics 241 and 242, or Economics 240.
342. Market Analysis. Three hours. II
Prerequisites: Commerce 200, 210, 231, and 340; and Economics 241 and 242, or Economics 240.
400. Corporation Finance. Three hours. II
Prerequisites: Commerce 205, 210, 111, and 112, and preferably 311, 312, and 313.
404. Secretarial Training. Two hours. I
Prerequisites: Commerce 101, 102 and 200, and English 101 and 102, or English 103.
405. Office Practice. Two hours. II
Prerequisite: Commerce 404.
406. Personnel Management. Two hours. II
Open only to juniors and seniors.
411. Auditing. Three hours. I
Prerequisites: Commerce 111, 112, 205, 210, 311, and 312.

ECONOMICS

241. Principles of Economics. Three hours. I
Introductory course in economic fundamentals. Not open to freshmen.
242. Principles of Economics. Three hours. I, II
Continuation of 241. Not open to freshmen.
315. Statistics. Three hours. I
Open only to juniors and seniors.
346. Labor Problems. Three hours. II
Prerequisite: Economics 241 and 242. Open only to juniors and seniors.
403. Public Finance. Three hours. II
Prerequisites: Commerce 205 and 210; Economics 241 and 242; also preferably Commerce 400.
441. Advanced Economic Theory. Three hours. II
Prerequisite: Economics 241 and 242. Open only to juniors and seniors.

ENGLISH

101. Freshman English.* Three hours. I, II
Principles of composition; outlining and paragraphing; practice in written composition.
Prerequisite: Three years of high school English.
102. Freshman English.* Three hours. I, II
Principles of composition; study of models; practice in written composition.
Prerequisite: English 101.
107. English Literature. Two hours. I, II
From the beginning to the 18th century. Required.
108. English Literature. Two hours. I, II
From the 18th century to Swinburne. Required.
201. American Literature. Two hours. I
A study of the chief American poets.
204. Romanticism of the Nineteenth Century. Three hours. I
Prerequisite: English 107 and 108.
209. Eighteenth Century Poetry. Three hours.
A study of classicism.
Prerequisite: English 107 and 108.
Not given in 1930-31.

*Required of all freshmen in the College of Arts and Sciences.

231. **Advanced Composition.** Two hours. I
The work of this course consists of practice in description; the study of literary types of exposition; essays, with special emphasis upon the familiar essay.
Prerequisite: English 101 and 102.
232. **Short Story Composition.** Two hours. II
The first part of the course will consist of the study of the types of the present day short story. The second part will be practice in writing short stories.
Prerequisite: English 101 and 102.
300. **Pre-Shakespearean Drama.** Three hours.
A study of the origin and development of the drama to the time of Shakespeare.
Prerequisite: English 107 and 108.
Not given in 1930-31.
301. **Shakespeare.** Two hours. I
A study of the chief comedies of Shakespeare.
Prerequisite: English 107 and 108. English 300 advised.
302. **Elizabethan Dramatists.** Three hours. II
Exclusive of Shakespeare.
Prerequisite: English 107 and 108. English 300 advised.
304. **Shakespeare.** Three hours. II
A study of the chief tragedies of Shakespeare.
Prerequisites: English 107 and 108. English 300 or 301 advised.
305. **Tennyson.** Three hours. I
Prerequisite: English 107 and 108.
310. **Milton.** Three hours.
A study of the complete poems of Milton, with special regard to *Paradise Lost*.
Prerequisite: English 107 and 108.
Not given in 1930-31.
311. **Carlyle.** Three hours.
Special attention to *Sartor Resartus*, some of the essays and a study of his political economy.
Prerequisite: English 107 and 108.
Not given in 1930-31.
318. **Browning.** Three hours. I
A study of the shorter poems.
Prerequisite: English 107 and 108.
319. **Browning.** Three hours. II
A study of the longer poems.
Prerequisite: English 107 and 108. English 318 advised.

320. A Study of Poetry. Two hours. II
Types and forms of poetry and poetic composition.
Prerequisite: English 107 and 108, and at least one other course in poetry.
321. Wordsworth and Keats. Three hours.
Prerequisite: English 107 and 108.
Not given in 1930-31.
323. Shelley. Three hours.
Prerequisite: English 107 and 108.
Not given in 1930-31.
411. Chaucer. Three hours. I
A study of the *Canterbury Tales*. Chaucerian grammar.
Prerequisite: English 107 and 108. Knowledge of Anglo-Saxon advised.
412. Chaucer. Three hours. II
A study of the minor poems of Chaucer, with a rapid reading of some of the *Canterbury Tales* not covered in English 411.
Prerequisite: English 107 and 108. Knowledge of Anglo-Saxon advised.

FRENCH

121. First Year French. Four hours. I
Essentials of grammar, phonetics, reading.
122. First Year French. Four hours. II
Continuation of French 121.
223. Modern French Fiction since 1800. Three hours. I
Prerequisite: French 122.
224. Modern French Drama (1830-1920). Three hours. II
Prerequisite: French 223.
251. Advanced Grammar and Composition. Two hours. I
Prerequisite: French 122.
252. Advanced Grammar and Composition. Two hours.
Prerequisite: French 251.
327. Seventeenth Century Literature. Three hours. I
Prerequisite: French 224.
328. Seventeenth Century Literature. Three hours. II
Continuation of French 327.
351. Phonetics and Oral French. Two hours.
Prerequisite: French 224 and Advanced Grammar.

355. **French Civilization and Culture.** Two hours.
Prerequisite: Two years of French.
425. **Eighteenth Century Literature.** Three hours.
Prerequisite: French 328.
426. **Eighteenth Century Literature.** Three hours.
Continuation of French 425.
437. **Romantic Drama.** Three hours.
Prerequisite: French 328.
438. **Romantic Drama.** Three hours.
Continuation of French 437.
441. **General Outline of French Literature.** Two hours.
Prerequisite: French 328.

GEOLOGY

209. **Advanced Physiography.** Three hours. I
A general discussion of geological forces and their results, dealing mainly with the dynamic and structural aspect of the subject. The interpretation of topographic maps.
Prerequisite: Sophomore standing.
310. **Dynamic Geology.** Three hours. I, II
A detailed review of the natural forces as are operative on the terrestrial globe, with a discussion as to their results. Laboratory.
Prerequisite: Sophomore standing or Geology 209.
311. **Introductory Mineralogy.** Three hours. II
The physical properties, occurrences and associations of minerals individually and as aggregates in rocks are studied. Laboratory.
Prerequisite: Geology 312.
312. **Historical Geology.** Three hours. I, II
The stratigraphic relations, paleogeography and life of the successive geologic periods, with special reference to the continent of North America are studied.
Prerequisite: Geology 310.
315. **Engineering Geology.** Three hours. II
Geologic problems in the engineering field, with materials of construction are reviewed.
Prerequisite: Geology 310.
316. **Economic Geology I.** Three hours. II
A study of the origin, occurrence, geologic and geographic distribution, and uses of the non-metallic mineral deposits.
Prerequisite: Geology 311.

317. Economic Geology II. Three hours. I
The study of the origin, occurrence, uses, and distribution of the metallic mineral deposits in time and space.
Prerequisites: Geology 316 and Chemistry 101.
410. Stratigraphy and Paleontology. Three hours. I
Stratigraphic horizons and their age by means of guide fossils are studied in detail. Laboratory and field work.
Prerequisite: Geology 317.

GERMAN

101. Beginners' Course. Four hours. I, II
102. Beginners' Course. Four hours. I, II
Prerequisite: German 101 or one unit high school German.
203. Reading, Composition, Conversation. Four hours. I, II
Prerequisite: German 102.
204. Reading, Composition, Conversation. Four hours. II
Prerequisite: German 203.
213. Scientific German. One hour. I
Prerequisite: German 203.
- 303-304. Classics and Modern Writings. Three hours each. I-II
- 401-402. German Writers and Literature. Two hours each. I-II

GREEK

- 201-202. Beginners' Course. Five hours each. I-II
Beginners' book with some reading from the *Iliad*.
209. Hellenic Civilization. Three hours. I
A brief survey of the evolution of Greek Civilization in the Aegean area and its subsequent diffusion among other peoples. No knowledge of Greek required. Not counted toward language requirement.
- 301-302. Selections from Homer. Three hours each. I-II.
Prerequisite: Greek 201 and 202.

HISTORY

105. English History. Three hours. I
The political and legal history, with sufficient attention to social and economic conditions to furnish a background, of England from the earliest times to the restoration of Charles II in 1660.

106. English History. Three hours. II
A continuation of the preceding course. Special emphasis is placed on Anglo-American relations and the development of the British Commonwealth of Nations.
215. American History. Three hours. I

423. **European History.** Three hours. I
Modern Europe (1815-1871). European development from the Congress of Vienna to the foundation of the German Empire at the close of the Franco-Prussian War.
424. **European History.** Three hours. II
Modern Europe (1871 to the present time). The historical background, fundamental causes, and progressive development of events and issues involved in the World War.

JOURNALISM

101. **Survey of Journalism.** Two hours. I, II
A comparative study of American newspapers.
- 201-202. **Reporting.** Three hours each. I-II
Fundamentals of reporting, news gathering and news writing.
- 210-211. **History of American Journalism.** Two hours each. I-II
The establishment and development of the American press from 1704-1928.
- 301-302. **Copy Reading, Editing.** Three hours each. I-II
Practice in editing, headline writing, and make-up.
304. **Editorial Writing.** Two hours. II
Practice in writing newspaper editorials and a study of their technique and purpose.
- 306-307. **Advanced Reporting.** Three hours each. I-II
Practical experience in specialized news writing. Assignments for Huntington newspapers are given regularly.
- 308-309. **Feature Writing.** Two hours each. I-II
Practice in writing special articles for newspapers and magazines. Students are encouraged to sell their manuscripts to current publications.
- 330-331-332-333. **Newspaper Building.** Two hours, four semesters.
This course is open to staff members of student publications only, and two hours credit is given at the end of each semester to staff members of students publications who have done at least four hours practical work each week throughout the semester, or its equivalent.

341. **Psychology of News Interest.** Two hours. I
A study of the readers' interests and the manner of editorial interpretation in the handling of topics.
402. **Law of Libel.** Two hours. I
Emphasis is given to the study of the law of libel of West Virginia.
410. **Journalism Seminar.** Two hours.
Thesis.

LATIN

111. **Beginners' Course.** Five hours. I, II
(Caesar or equivalent.)
112. **Intermediate Course.** Five hours. I, II
Latin 111 and 112 are intended primarily for those whose interest is in English or the modern languages; also for those preparing for the study of law or medicine.
Prerequisites: Latin 111 or one year high school Latin.
203. **Cicero. Selected Orations.** Three hours.
Prerequisites: Latin 112 or two years high school Latin.
204. **Selections from Cicero and Sallust.** Three hours.
Prerequisites: Latin 203 or two and one-half units of high school Latin.
210. **Roman Civilization.** Three hours. II
No knowledge of Latin required. This course will not count toward language requirement.
- 214-215. **Vergil's Aeneid I-VI.** Three hours, two semesters.
Prerequisite: Four units high school Latin.
307. **Cicero: Selected from His Letters.** Three hours.
Prerequisite: Four units of high school Latin.
308. **Horace: Odes and Epodes.** Three hours.
Horace as an exponent of his age.
Prerequisite: Four units high school Latin.
309. **Livy: Selections from his History.** Three hours.
Prerequisite: Four units high school Latin.
310. **Horace: Satires and Epistles.** Three hours.
Horace, the man, the satirist and philosopher.
311. **Studies from Augustan Poetry.** Three hours.
Selections from the Augustan poets other than Horace.

318. **Mythology.** Two hours.
A study of the most important myths and their influences. No knowledge of Latin required. This course will not count toward the language requirement.
320. **History of Latin Literature.** Two hours.
Readings in translation from the works of the best known Latin writers. No knowledge of Latin required. This course will not count toward the language requirement.
328. **Advanced Prose Composition.** Two hours.
401. **Juvenal, Martial, and Pliny.** Three hours.
The social life at Rome at the close of the first century.
402. **Vergil's Aeneid, Books VI-XII.** Three hours.
A study of the poem as a whole with careful reading of the last six books.
Prerequisite: One year college Latin or four units high school Latin.
403. **The Roman Stage.** Three hours.
Selected comedies of Plautus and Terence.

MATHEMATICS

120. **Algebra.** Four hours. I, II
Topics of elementary algebra reviewed in addition to the work of advanced algebra.
Prerequisite: Algebra one unit.
121. **Solid Geometry.** Three hours.
Open to students not offering the subject for entrance.
Prerequisite: Plane Geometry one unit.
122. **Trigonometry.** Four hours. I, II
Prerequisites: Algebra $1\frac{1}{2}$ units of Mathematics 120; Plane Geometry.
126. **Trigonometry.** Three hours. I
Engineering students take this course in connection with Mathematics 127.
Prerequisites: Algebra $1\frac{1}{2}$ units; Geometry $1\frac{1}{2}$ units.
127. **College Algebra.** Three hours. I
Engineering students take this course in connection with Mathematics 126.
Prerequisites: Algebra $1\frac{1}{2}$ units; Geometry $1\frac{1}{2}$ units.
223. **College Algebra.** Four hours. I, II
Prerequisite: Trigonometry.

224. Analytic Geometry. Four hours. I, II
Prerequisites: College Algebra and Trigonometry.
315. Calculus (Differential). Three hours. I
One hour of conference required in addition to the three hours.
Prerequisite: Analytic Geometry.
316. Calculus (Integral). Three hours. II
Attendance at one hour of conference required in addition to the three hours.
Prerequisite: Mathematics 315.
325. Differential Calculus. Four hours. II
Prerequisite: Analytic Geometry.
326. Integral Calculus. Four hours. I
Prerequisite: Mathematics 325.
421. Solid Analytics. Four hours.
Prerequisite: Mathematics 325.
425. History of Mathematics. Three hours.
Prerequisite: Twelve hours of college mathematics.
431. Theory of Equations. Four hours.
Prerequisite: Mathematics 325.
435. Differential Equations. Four hours.
Prerequisite: Mathematics 326.

Applied Mathematics

110. Mechanical Drawing. Two hours. I
Care and use of drawing instruments, lettering, mechanical perspective, and tracing.
111. Mechanical Drawing. Two hours. II
Orthographic projection, practical problems using working drawings.
Prerequisite: Applied Mathematics 110.
201. Plane Surveying. Three hours. II
Methods of using the tape, level, and transit in making plane surveys.
Prerequisites: Mathematics 126 and Applied Mathematics 110.
202. Advanced Surveying. Two hours. I
City and topographic surveys. Field and office work.
Prerequisite: Applied Mathematics 201.

203. **Engineering Problems.** One hour. I
An elementary course in the analysis of simple engineering problems and the application of mathematics to their solution. To train the student in recording engineering computations.
Prerequisites: Mathematics 126 and 127 and Applied Mathematics 110.
204. **Engineering Problems.** One hour. II
Prerequisite: Applied Mathematics 203.
207. **Structural Drawing.** Two hours. I
For civil and mining engineers. Steel details and structures.
Prerequisite: Applied Mathematics 111.
208. **Descriptive Geometry.** Three hours. I
A study of the representation of lines, planes, surfaces, and solids, with practical applications.
Prerequisites: Mathematics 121 and Applied Mathematics 110.
306. **Analytical Mechanics (Statics).** Three hours. II
Statics of material point and of rigid bodies by graphic and algebraic methods of analysis; chains and cords; centers of gravity; and moments of inertia of plane figures.
Prerequisites: Mathematics 315 and registration in Mathematics 316.

PHILOSOPHY

201. **Problems of Philosophy.** Three hours. I, II
An introduction to the methods and chief problems of philosophy through a reading of some of the easier philosophical classics. Recommended as a prerequisite to further study in philosophy. Not open to freshmen.
211. **Problems of Philosophy.** Four hours. I, II
Same as 201, except that a more extended survey is made. Not open to freshmen.
303. **Ethics.** Three hours. I
The nature of right and wrong, the conditions of happiness, and the chief moral problems of human conduct.
304. **Logic.** Three hours. II
A study of the nature of knowledge, the laws of reasoning, and the principles and methods of scientific proof. Recommended for pre-law students.
306. **Esthetics.** Two hours.
A psychological and philosophical study of nature of beauty, and a consideration of the elements of beauty in each of the important arts. Given in 1930-31.

311. Survey of Ancient and Medieval Philosophy. Three hours. I
A study of the origin and development of the fundamental problems of philosophy.
Prerequisite: Three hours in philosophy.
312. Survey of Modern Philosophy. Three hours. II
Continuation of 311; a study of the chief philosophers of the modern period, from Descartes to Hegel.
Prerequisite: Three hours in philosophy.
320. Comparative Religion. Three hours.
A study of the development of religion, and of the principal non-Christian religions, primitive, national, and advanced. Given in 1931-32.
330. Chinese Philosophy and Civilization. Two hours.
A survey of the philosophy, history, culture, and civilization of one of our most important neighbors, with special attention to her present transformation and situation.

PHYSICS

201. General Physics. Two hours. I
Mechanics and heat. Arranged primarily for pre-medical students, and for those who do not wish a further knowledge of the subject.
Prerequisites: One year each of algebra and geometry.
202. General Physics Laboratory. Two hours. I
Required of all students taking Physics 201.
Prerequisites: One year each of algebra and geometry.
203. General Physics. Two hours. II
Electricity, sound, and light are studied. A continuation of Physics 201.
Prerequisites: Physics 201 and 202.
204. General Physics Laboratory. Two hours. II
Required of all students taking Physics 203. Continuation of Physics 202.
Prerequisites: Physics 201 and 202.
205. General Physics. Three hours. I
Mechanics and heat are studied. Arranged primarily for engineering students, and for those who intend to take advanced courses in the subject.
Prerequisite: Plane trigonometry.
206. General Physics Laboratory. Two hours. I
Required of all students taking Physics 205.
Prerequisite: Plane trigonometry.

-
207. **General Physics.** Three hours. II
Electricity, sound, and light are studied. Continuation of Physics 205.
Prerequisites: Physics 205 and 206.
208. **General Physics Laboratory.** Two hours. II
Required of all students taking Physics 207. Continuation of Physics 206.
Prerequisites: Physics 205 and 206.
300. **Electricity and Magnetism.** Two hours. I
A study of the mathematical theory and practical applications of electricity and magnetism.
Prerequisites: Physics 207 and 208, Mathematics 315 or 325, and enrollment in Mathematics 316 or 326.
301. **Electrical Measurements.** Two hours. I
Required of all students taking Physics 300.
Prerequisites: Physics 207 and 208, Mathematics 315 or 325, and enrollment in Mathematics 316 or 326.
302. **Electricity and Magnetism.** Two hours. II
A continuation of Physics 300.
Prerequisites: Physics 300 and 301.
303. **Electrical Measurements.** Two hours. II
Required of all students taking Physics 302. A continuation of Physics 301.
Prerequisites: Physics 300 and 301.
304. **Light.** Three hours. II
A study of the mathematical theory and practical applications of light and other forms of radiant energy.
Prerequisites: Physics 207 and 208, Mathematics 315 or 325, and enrollment in Mathematics 316 or 326.
305. **Light Laboratory.** Two hours. II
Required of all students taking Physics 304.
Prerequisites: Physics 207 and 208, Mathematics 315 or 325, and enrollment in Mathematics 316 or 326.
306. **Elements of Mechanics.** Three hours. I
The principles of statics and dynamics, with solutions of problems.
Prerequisites: Physics 207 and 208.
307. **Mechanics Laboratory.** Two hours. I
Required of all students taking Physics 209.
Prerequisites: Physics 207 and 208.

308. **Heat.** Three hours. II
Heat as energy and the processes and effects involved in its production, distribution and utilization.
Prerequisites: Physics 207 and 208.
309. **Heat Measurements.** Two hours. II
Required of all students taking Physics 308.
Prerequisites: Physics 207 and 208.
310. **History of Physics.** Three hours. II
An historical study of pre-Newtonian, classical, and modern physics. The development of the theory involved in its elementary branches is emphasized.
Prerequisites: Physics 207 and 208.

POLITICAL SCIENCE

101. **Introductory Course.** Two hours. I
An orientation study of principles, methods and nature of political science.
102. **Introductory Course.** Two hours. II
A continuation of 101, although students are admitted who have not had 101.
201. **American Government and Politics.** Three hours. I
Course deals with history, development, powers, limitations, and practical working of our national government.
Prerequisite to all advanced courses in Political Science.
202. **American Government and Politics.** Three hours. II
A continuation of 201 dealing with state and local government.
Prerequisite to all advanced courses in Political Science.
204. **Comparative European Governments.** Three hours.
A study of the political systems of principal countries of Europe.
223. **Public Administration.** Three hours.
A comparative study of administration in the United States and leading states of Europe.
224. **Political Parties.** Three hours.
Origin, history, composition, organization, policies, functions, and activities of political parties in the United States.
301. **Municipal Government.** Three hours. I
History, development, problems, machinery, and forms of city government in the United States and Europe.
302. **Municipal Administration.** Three hours. II
A continuation of 301 dealing with the functions of the city.
323. **American Constitutional Law.** Three hours. I
Analysis and discussion of the leading cases interpreting the Federal Constitution.

324. American Constitutional Law. Three hours. II
A continuation of Political Science 323.
325. Introduction to Jurisprudence. Three hours.
A study of the nature, sources, and development of law.
401. International Law. Three hours. I
Deals with the origin, sources, subjects, and objects of international law.
402. International Relations and World Politics. Three hours. II
A study of the nature, principles and problems of relations between states, together with agencies of control.
425. History of Political Theory. Three hours. I
Survey of ancient, medieval, and modern political thought.
426. Recent and Contemporary Political Theory. Three hours. II
Deals with contemporary political theories as pluralism, socialism, guild socialism, syndicalism, etc.
427. American Political Theory. Three hours.
Development of political thought in America from colonial times to the present.
450. Seminar. Two hours.
Research study for major students only.

PSYCHOLOGY

- ✓ 101. Elementary Psychology. Four hours. I, II
An introductory course, prerequisite to subsequent courses in psychology. Principles of general psychology, including sensation, instinct, emotion, memory, attention, imagination, and the fundamental learning processes. Recommended for pre-medical students.
- 112 ~~102~~ Elementary Psychology. Three hours. I, II
A continuation of Psychology 101, with special emphasis on the fundamental principles and experiments in the general field of psychology.
Prerequisite: Psychology 101.
105. Psychology of Orientation. Two hours. I, II
A course in the application of economical methods of learning, methods of study, and adjustment. Open only to students recommended by the dean.
- ✓ ~~202~~ Psychology of Emotion. Two hours. I
A study of the theories of emotion, its origin, and relation to instinct and feeling; its significance in both normal and abnormal behavior; and its function in life.

208. Abnormal Psychology. Three hours. II

A consideration of abnormal mental phenomena and unusual manifestations of the mind. Topics: sleep, dreams, multiple personality, hypnosis, automatic writing, hysteria, hallucinations, the complex, and other disorders of the personality. Recommended for pre-medical students.

Prerequisite: Psychology 101 or 305.

302. Social Psychology. Three hours. I

A consideration of instincts as a basis of human behavior, and a study of emotion, habits, motives, crowd psychology, customs, and other phenomena in relation to human conduct.

Prerequisite: Psychology 101 or 305.

303. The Problem Child. Three hours.

See Psychology 303, Teachers College.

304. Clinical Psychology. Two hours. II

A practical laboratory study of diagnostic mental tests. An advanced study of the Binet-Simon Scale, and an intensive training in case study and diagnosis with training in clinical reports.

Prerequisite: Psychology 101 or 305, and 201.

305. General Psychology. Three hours. II

For juniors and seniors who have not had Psychology 101. The conditions and nature of mental activity and the fundamental principles of psychology and its relation to other subjects.

307. Psychology of Adolescence. Three hours.

See Psychology 307, Teachers College.

406. Theory of Intelligence. Three hours. II

A consideration of the nature of intelligence; individual differences; mental levels; distribution and growth of intelligence; mental age; relation of intelligence to social efficiency.

Prerequisite: Six hours of psychology.

411. Genetic Psychology. Three hours. I

A comparative study of the origin, growth, and development of mind.

Prerequisite: Six hours of psychology. Social work or teaching experience may count as part prerequisite.

~~412.~~ ¹¹² Applied Psychology. Three hours. II

A consideration of the applications of psychology to the professions, industries, business, and the problems of everyday life in general.

Prerequisite: Six hours of psychology. Experience in personnel work may count as part prerequisite.

SOCIOLOGY

100. Introductory Course. Two hours. I, II
A general introduction to the field of the social sciences in the nature of a survey of social institutions.
102. Introductory Course. Two hours. II
A continuation of course 100 with emphasis upon social processes, the development of human society, human nature and the social order.
Prerequisite: Sociology 100 or equivalent.
132. Rural Sociology. Two hours. I, II
A study of the structure and development of rural society; rural psychology; communication and socialization; rural organization; rural leadership; and the various rural social institutions.
201. Outlines of Sociology. Three hours. I, II
A course designed to acquaint the student with the general principles underlying human association. It is basic to the further courses in both applied sociology and social theory. Not open to freshmen.
210. Social Origins and Social Development. Three hours. II
A consideration of the origin and development of social institutions; the beginnings of race; the development of language, religion, the family, the State; also customs, traditions, and beliefs.
Prerequisite: Sociology 201.
225. West Virginia Rural Social Life Problems. Three hours. I, II
A consideration of local and state rural social problems. The development of country life conferences; community scoring and rating plans, school district organization policies; rural social survey work.
Prerequisite: Sociology 132.
230. Community Organization. Two hours. II
The fundamental nature of the community and its place in modern social life. Development of social agencies in communities, elements of community planning, analysis of conflict and cooperative groups in the community.
Prerequisite: Sociology 201.
232. Urban Sociology. Two hours. I
A treatment of the sociology of urban communities of various sizes and of different types of composition. Urban social types, occupational types, the social pathologies of city life, and a general consideration of urban influence in all social progress.
Prerequisite: Sociology 132 or 201.
302. Social Psychology. Three hours.
See Psychology 302.

308. The Family. Two hours. I

The structure of the primitive family and its relation to early social organization; the changes occurring in the family structure; the relations of the family to State, and to economic and social institutions.

Prerequisite: Sociology 201.

311. Problems of Poverty. Three hours. I

A course in general social pathology. A treatment of the social problems arising out of sickness, old age, dependency, unemployment, the homeless, the destitute, and the generally ineffective members of society.

Prerequisite: Sociology 201.

315. Problems of Delinquency. Two hours. I, II

The chief social backgrounds and problems of the young delinquent. This course is intended to assist in an understanding of the unadjusted and maladjusted boy and girl commonly called a problem.

Prerequisite: Sociology 311.

320. Criminology. Three hours. II

A treatment of the individual and social factors in crime; the historical development of crime and theories concerning criminals. A study of the modern methods of the treatment of criminals and crime prevention.

Prerequisite: Sociology 201 or 311.

340. An Introduction to Social Work. Three hours. II

The aims, methods, and purposes of social work will be treated through text and field work among the social agencies of Huntington.

Prerequisites: Sociology 201, 230, 308, and 311.

401. Population. Three hours. I

A study of the major problems of population movements, immigration, and assimilation. Population growth and decline, quality and quantity factors, and concentration and distribution will be related to the larger affairs of city and country.

Prerequisites: Sociology 132, 201, 232.

421. History of Social Thought. Three hours. II

A study of the development of social thought from the earliest civilizations to the present times. The contributions of the ancient and mediaeval thinkers to the streams of social thought which gave rise to the science of sociology will be studied. Analysis will be made of the developments of modern sociology.

Prerequisites: Sociology 201, 311, and 401.

SPANISH

101. **Beginners Course.** Four hours. I, II
Grammar and easy prose.
102. **Intermediate Course.** Four hours. I, II
Continuation of 101.
201. **Contemporary Prose.** Three hours. I, II
Prerequisite: 102.
202. **Contemporary Drama.** Three hours. I, II
Prerequisite: 102.
203. **Grammar and Composition.** Two hours. I
Prerequisite: 102.
204. **Grammar and Composition.** Two hours. II
Prerequisite: Spanish 203.
301. **Modern Literature.** Three hours. I
Prerequisite: 201 or 202.
302. **Spanish-American Prose.** Three hours. II
Prerequisite: 201 or 202.
305. **Advanced Composition and Conversation.** Two hours. I
Prerequisite: Spanish 102.
306. **Advanced Composition and Conversation.** Two hours. II
Prerequisite: Spanish 305.
401. **Classic Literature.** Three hours. I
Prerequisite: 301.
402. **Spanish-American Literature.** Three hours. II
Prerequisite: 302.

SPEECH

101. **Oral Reading and Informal Speech.** Three hours. I, II
The basic speech course.
102. **Speech Construction.** Three hours.
Prerequisite: Speech 101.
200. **Oral Interpretation of Literature.** Three hours.
Prerequisite: Speech 101.
201. **Advanced Address.** Two hours.
Prerequisite: Speech 102.
205. **Argument.** Two hours.

206. **Parliamentary Law.** One hour.
Practice in the conducting of deliberative assemblies.
207. **Business and Professional Speech.** Three hours.
- 225-226-227-228. **Intercollegiate Debate.** Two hours, four semesters.
Open only to members of Intercollegiate Debate Squad. Not more than 2 hours (one semester's) credit given in any year. For 1930-1931 register for Speech 228.
230. **Speech Psychology.** Two hours. I
313. **Play Production.** Two hours. I, II
Emphasis on the physical and mechanical.
314. **Direction and Rehearsal.** Three hours. II
315. **Oratory.** Two hours.
316. **Play Writing.** Two hours.
317. **Shakespeare.** Two hours.
A reading course in literary appreciation with frequent reference to the principles of speech psychology and dramatic technique as revealed in the plays.
400. **Scenic Design.** Two hours.
Prerequisite: Speech 313.
402. **Current Problems.** Three hours. I
A seminar course for advanced students on topics of the hour.
405. **Principles of Acting.** Two hours.
406. **Extempore Speech.** Three hours. II

ZOOLOGY

110. **General Zoology.** Four hours.
An introduction to the zoological sciences, dealing with the structure and functions of representative types of animals, and such general subjects as development, adoption, and heredity. Intended primarily for students who have not had biology or zoology in secondary schools.
203. **Entomology.** Three hours. I
Intended to give the essential facts concerning the taxonomy, life histories, anatomy, economic importance of insects.
205. **Invertebrate Zoology.** Four hours. I
A systematic study of the lowest forms of animal life, dealing with morphology, physiology, and ecology.
Prerequisite: Biology 107 or high school biology.

-
206. **Comparative Vertebrate Anatomy.** Four hours. I, II
A morphological study of vertebrate animals, with emphasis on the comparison of gross structures of the major groups.
Prerequisite: Biology 107 or Zoology 110 or Zoology 205.
207. **Ornithology.** Two hours. II
Study of the structure, nesting habits, migrations, economic importance, and esthetic values of birds.
300. **Histology.** Three hours. I
A study of the structure of animal tissues, including laboratory technique, in the making of permanently stained slides of these tissues.
Prerequisite: Biology 107 or Zoology 110 or Zoology 205.
301. **Embryology.** Four hours. II
A study of the development of the fish, frog, and chick embryos.
Prerequisite: Biology 107 or Zoology 110 or Zoology 205.
305. **Human Anatomy.** Three hours. I
A study of the structure of the human body, intended largely as preparatory work for advanced studies in medicine, hygiene, physical education, and other kindred subjects.
306. **Human Physiology.** Three hours. II
A study of the functions of the human body illustrated by laboratory experiments on vertebrate animals.
Prerequisite: Zoology 305.
307. **Genetics.** Three hours. II
A general introductory course in studies in heredity, evolution, and eugenics. A cultural and preparatory course for those wishing to pursue teaching, home making, practice of medicine and other related vocations.
Prerequisite: Biology 107, or Zoology 110 or 205.

MUSIC SCHOOL

Requirements

All fees for lessons in applied music are payable in advance for the semester or term. Rates are listed on page 20 of this catalog. Students must secure cards from the Registrar's office before presenting themselves for enrollment in the Music School. Teachers are not permitted to give instruction until receipt for payment of fees is presented.

No deductions are made for absences except in cases of illness lasting more than three weeks when a rebate of three-fourths the fee for the time lost will be granted. Students enrolling at any time previous to the third week of any semester will be charged the full fee for that semester. Students enrolling thereafter will be charged a proportionate amount of the full fee.

A maximum of six hours of practical music may be credited towards a degree, provided the student has met in full the entrance requirements of the College, provided also that the courses in Harmony (Public School Music 120 and 121) listed on page 67 are also successfully taken. On advice of the department of music, advanced courses in harmony, analysis, or counterpoint may be substituted for courses 120 and 121. Two half-hour lessons a week with their practice shall count as one credit hour. Students registered for credit will be graded in the same way as are college students in general. The classification of a student is based on actual efficiency, not on the amount of time devoted to any grade.

Instruction in instrumental or vocal music may be taken by students not otherwise connected with the College.

HARMONY

The course in Harmony covers two years. See Public School Music Courses.

HISTORY OF MUSIC

Work in history of music and appreciation is begun at the opening of the third year and is required throughout the junior and senior years as a part of the course. The class recites twice a week during the junior year and once a week during the senior year.

The first year's work is a general survey of music and musicians from the ancient days up to and including modern times.

The second year's work deals in detail with the most important biographies of composers and the analysis of special forms of composition.

THEORY OF MUSIC

Theory of music, including such subjects as scale building, time values, meter, phrases, phrasing, form, etc., will be given in class lessons, or, where that is not practicable, in the individual lesson.

PIANO

In piano three courses of study are offered, one leading to a teacher's certificate at the completion of the work of the junior year, and a second one leading to a diploma at the completion of the senior year. A post-graduate course is offered for those who wish to become especially proficient. Strict adherence to a fixed list of studies is not required. The needs of the individual student are considered and the studies varied accordingly, but in each class studies selected must be worked up to the tempo indicated by the metronome mark. Another course based on the Progressive Series of Piano Lessons will be given to those who desire to take it. This course, which includes theory of music, harmony, history of music, piano playing, and interpretation, is edited by such men as Godowsky, Josef Hofmann, and Edgar Stillman Kelly.

For the sake of convenience the courses are divided into four years, but it should be understood that it does not necessarily follow that a student will complete the work in this length of time. As a matter of fact, it often takes considerably longer.

No student can register for credit who cannot acceptably do the work involved in Piano 201. To ascertain this a practical examination involving major and minor scales played with the accent of four, major arpeggios, and one composition of the degree of difficulty of Grade IV will be given, for example, Grieg's *Dance Caprice*, Schubert's *Allegro Moderato in F*, and Godard's *Au Matin*.

All music students except those in the Preparatory Year are required to take one semester in Elementary Theory.

Elementary work in harmony and in history of music is required as a part of the work of the Sophomore Music year.

Candidates for teachers' certificates in piano must complete the work of the first four years, together with one year's work in harmony and one year's work in history of music. They must be able to read music accurately at sight in reference to fingering, time, notes, phrasing, and expression. They must also be able to play at least one given piece studied without the aid of the instructor. They must also give a recital from memory, with the assistance of one other musician.

Candidates for Diplomas must complete the work of the five years, and must take advanced work in Harmony, Theory and History of Music. They are also required to give in public entirely from memory, a recital consisting of only the best standard piano selections as well as one composition studied without the aid of the instructor.

Student recitals, open to the general public, are held at frequent intervals during the college year. All music students are required to attend these recitals.

Preparatory Years

Technical exercises. All major and minor scales. All triad arpeggios. Studies by Le Couppey, Burgmuller, Heller, Clementi's Sonatinas. Sonatas by Haydn. Miscellaneous compositions.

Sophomore Year

201. First Semester. One hour.

Technical exercises. All scales in similar and contrary motion. Major scales in tenths, sixths and thirds at tempo of M. M. 112, four notes in one beat. Six major and minor triad arpeggios at tempo of M. M. 112. Bach's Two Part Inventions. Sonatas by Hayden and Mozart. Miscellaneous compositions.

202. Second Semester. One hour.

Technical exercises. All major and minor scales in tenths, sixths and thirds at tempo of M. M. 120. Six more major and minor triad arpeggios at tempo of M. M. 120. Octavo exercises. Bach's Two and Three Part Inventions. The easier sonatas of Beethoven. Miscellaneous compositions.

Junior Year

301. First Semester. One hour.

Technical exercises. Major and minor scales with tenths, sixths and thirds at tempo of M. M. 132. All diminished seventh arpeggios and half of the dominant seventh arpeggios. Tempo of M. M. 132. Kullak's Octave studies. Studies by Cramer. Sonatas by Weber and Beethoven. Compositions by Chopin, Schumann, Mendelssohn, etc.

302. Second Semester. One hour.

Technical exercises. All major and minor scales in tenths, sixths and thirds in contrary motion. Major and minor scales in similar motion at tempo of M. M. 136. All dominant seventh arpeggios at tempo of M. M. 136. Kullak's Octave studies. Studies by Jansen and Haberbier. Sonatas by Beethoven. Chopin's Nocturnes, Waltzes and Polonaises. Bach's Well Tempered Clavichord.

Senior Year

401. First Semester. One hour.

402. Second Semester. One hour.

Technical exercises. All major and minor scales in tenths, sixths and thirds at tempo of M. M. 154. All major and minor scales in double thirds. Studies by Chopin and Debussy. Concertos by Beethoven, Schumann, Liszt, etc.

Graduate Year

Advanced technical exercises. Scales in double sixths. The greater sonatas of Beethoven. Bach's Chromatic Fantasia and Fugue. Studies by Chopin and Liszt. Chopin's Ballads, Scherzos and Polonaises. Concertos by Schumann, Liszt, Rubenstein, Brahms, etc.

VOICE

No student can register for credit in Voice who is not able to pass an examination covering the Freshman Year described below, and to sing acceptably songs such as those listed. Students registered for courses 103, 104, 203, and 204, must also carry successfully courses in harmony, piano, and at least one modern language. The study of one modern language must be continued through the junior year's work. Two lessons a week with six hours of practice count for one semester hour of credit.

Courses

103-104. Freshman Year. No credit.

Scales and arpeggios in groups of seconds, thirds, and fourths at a tempo of M. M. 80. Six exercises from Concone, *Opus, 9*; songs of the difficulty of *Ihr Bild*, Schubert; *The First Violet*, Mendelssohn; *Du bist wie eine Blume*, Schumann; *In the Time of Roses*, Reichardt. Schubert, Schumann, and Mendelssohn may be sung in English.

203-204. Sophomore Year. One hour, two semesters.

Technical work continued with scales and arpeggios at increased speed. Classical songs in German, French, and Italian.

303-304. Junior Year. One hour, two semesters.

Advanced technical and interpretative study. Repertoire of arias and songs of all countries and periods. Oratorio.
