COALFIELD DEVELOPMENT CORPORATION (CDC)

The CDC "believes in developing the potential of Appalachian places and people as they experience a scary moment of economic transition." The CDC began because of concerns about poor housing in Wayne, WV, as well as the large unemployment problem. The CDC partners with many public and private entities. Together they realized that charity would not address all of the problems so the CDC initiated the Quality Jobs Initiative, an on-the-job training and mentorship program. It employs trainees full-time to construct affordable housing, to deconstruct dilapidated housing, and to build and sell furniture from reclaimed building materials. The students graduate from the program and move on to permanent jobs.

Another program started at the West Edge Factory in the Westmoreland neighborhood of Huntington where the CDC has a solar training program that teaches former coal miners and others how to install solar panels. It partners with Solar Holler, a company from the Eastern Panhandle that works to make solar panel installation more accessible and affordable in the state.

For more information, link to the CDC and Solar Holler's websites.

SUSTAINABILITY FAIR - May 20

Marshall University's Sustainability

Department will host the 3rd annual Huntington Sustainability Fair from 10 a.m. to 4 p.m., at the Wild Ramp and Charles Holley Gazebo in Huntington's Central City. The event is free and open to the public. The Huntington Sustainability Fair is a cooperative effort by Marshall University Sustainability Department and many other organizations. The Fair is family-friendly and will include music, artisans, workshops, hands-on demonstrations, exhibits, and farmers/growers.

Marshall's sustainability department is also issuing a Green Challenge in connection with the fair. "Take the Green Challenge and get some Green Swag! By downloading the Green Calendar from the Marshall University Sustainability Department website or Facebook page, performing each challenge and being among the first 10 to bring your checked sheet to our booth at the fair, participants can win a cool bag of green and sustainable items."

The League will sponsor a table at the Huntington Sustainability Fair. We would like for two volunteers to be in each time slot to staff the table. Please notify Helen Gibbins if you can help staff the League's table -- gibbins@frontier.com or 304-736-3276.

THE LEAGUE'S RIGHT TO VOTE-- READERS THEATER

Several years ago the Huntington League developed a Readers Theater that covers the history of the Right to Vote. We must be vigilant to prevent blocking the right to vote because some states continue to pass restrictive laws.

The League offers our program to organizations that would like to know more about the history of voting and modern day efforts to restrict the right to vote. Please contact Laura Deveny, 304-638-9667, if you would like to schedule our program for a presentation.

HEALTH CARE

The LWVUS is active on legislation concerning
the repeal the Affordable Care Act. It reiterates the
League's support for quality affordable health care
for all Americans, protections for those with
preexisting conditions, and prevention of
discriminatory costs for women. The LWVUS Board
has recently approved a new Google discussion
group on Health Care Reform. The discussion will
include behavioral health, and welcomes ideas,
resources, successes, and questions. To receive an
invitation to the group, please contact Linda
Hawkins - abitahawk@gmail.com or Linda Mahan -
Lmahan78@gmail.com
