Are You An Advertiser?

Only representative merchants of a community advertise in the Telephone Directory.

The Directory is their advertising medium and the telephone, always ready and close by, gives direct connection.

What better modern methods could be adopted for advertising and stimulating poor business?

Your advertisement in the directory will increase your business. The telephone directory remains always beside the best means of giving the order—the telephone.

It is permanently in the homes and offices of the leading people in the City—
