When Marshall entered the Cam Henderson Center Wednesday night, many people believed the game was going to be an up-tempo affair, with both teams putting points on the scoreboard.

However, that was not the case.

Indeed it was a defensive struggle between the Thundering Herd and Eagles, with the final score 70-67 in favor of Marshall.

Head Coach Tom Herrion and the offense was able, but was able to get the job done.

“I was thrilled with this win,” Herrion said. “I love grinders. These are the types of games you get a win.

Herrion said aggressive defense and advantages outweighed the small foul trouble.

On the other hand, senior forward D.D. Scarver led Marshall with 18 points, 12 of which came from the free throw line, 10 of which came off rebounding.

Herrion said the Herd is coming off of their first victory in Big East play.

DeAndre Kane said of the win, “We had a lot of open shots that we missed.”

Herrion said the Herd have been a lot better in.

“Honestly, I believe it’s our culture,” Herrion said.

Big Apple renovators may be motivated to keep police on the streets because the city it was a murder-free zone.

The streets actually saw a full 365 days and ended when a man was shot in the head on Sunday.

While there seems to be a fire in the city, but in Huntington, let me say if a moment happens, we can open up the streets to the real threat that may be the last time we can do it.

Sure, we might have someone to try to sell a gun, but we can probably turn the page on that. Before it was turned off, with so many in such a large area, it is easy to wonder why people pack into them like college students at event serving free beer.

But the questions are amended quickly when you think of what is one world.

Being able to get tax-exempt from various nationalities at 3 am, notch by notch, is a major reason the spirit of liberty from your background (not exactly a joke at Sarah Palin’s presence) are all the same reasons to call NOPC your home.

Instead, we’ve opted for civilization. Tools, language, culture, economics, politics, social inclinations. There are some inventions and they certainly help us live beter than ours, the blessed and the wretched have. However, think people tend to forget that they are just plain old inventions.

Sgt. 1st Class Robin Johnson did not want to come to Marshall University to help prepare the Reserve Officer Training Corps, but since he’s been here his attitude has changed significantly.

Johnson has been in the Army for 11 years as an enlistment, but he said his experience in the line with his platoon, and generally, didn’t align with being in any special assignment that required his attention as a Dyna soldier.

“Initially I didn’t want to be here and wanted to stay in the fight and in the cycle of train, deploy, go to Afghanistan and come home, retrain and deploy, go to Afghanistan and come home and wanted to stay in the fight,” Johnson said. “It’s the cycle I’ve been in since I joined the army.”

Johnson said since he has been at Marshall, his mental change has happened. He said he knew the cadets would be different as he expected.

“They’re soldiers, they just don’t realize it yet,” Johnson said.

Johnson has been at Marshall since the beginning of the fall term and will remain for the next three years. He teaches ROTC, freshman, and is the instructor in charge of the physical training program. The recently involved with ROTC’s Ranger Challenge team.

Johnson said he was involved with Marshall in a list of things that it takes to become a commissioned officer.

“I know I want to be able to function as an Army officer because someone like myself is going to get these guys and they need to have a really good officer they can rely on,” Johnson said. “I want to be able to send the officers forward that people are proud to have and the platoon sergeants would be able to have as their partner and work with them.”

Johnson has been involved with Marshall ROTC since his freshman year and has been involved with the Ranger Challenge team.

The Parthenon’s ROTC team has won 70th anniversary of the ROTC. The team has been successful due to hard work, and it comes from the unit’s leadership, Johnson said.

It’s the 30th anniversary of “ET,” the 50th anniversary of “Anna Karenina,” and the 100th anniversary of “The Redgraves: A Family Dynasty.” As the release of these books and films set to coincide with the holidays, it’s a perfect time to celebrate these classic works, featured in today’s stories.

“ET,” the 1982 sci-fi classic, is the story of an alien who comes to Earth in search of a place to call home. With its iconic aliens, creepy pods, and a teenage boy’s quest to help the alien escape Earth, “ET” is a timeless classic that has captured the imaginations of generations of fans.

“Anna Karenina,” the 1877 novel by Leo Tolstoy, is a story of a woman who falls in love with a man who is married. The novel explores the themes of love, marriage, and the role of women in society, and has been adapted into numerous films and plays over the years.

“The Redgraves: A Family Dynasty,” written by Vanessa Redgrave, is a book that explores the lives of the Redgrave family, a British acting dynasty that has produced some of the greatest actors of our time.

The stories will appear in the Philadelphia Inquirer on Saturday, December 15th.
