The point of this history lesson is that throughout the first 14 games, Taliaferro has not had a ball carrier the team in running back-to-back years, yet he has been productive to predict who will be carrying the ball for the Herd.

The influx of young talent coach Holliday has brought to this fall was obvious to those watching Tatterson's performances by a Thunder- ing Herd running during the fall Holliday era, shredding the Runnin’ Bulldogs for 1,617 yards and 18 touchdowns, more rushing touchdowns than the Herd scored the previous two seasons combined.

This improvement is not at the expense of the passing game. The Herd also has had three players on both a starting nod for Taliaferro, it is likely that another play will take his role of late-season workhorse, likely Watson.

Will Mayweather-Alvarez fight live up to the hype?

**Biologist writes airport ecosystems to manage bird threats**

by SARA ZWART

The Seattle Times

As marshes are drained to create more space for transportation, wildlife biologists are finding new, elegant solutions to manage the hazards of new airport ecosystems.

A gray Honda Ridgeline, similar to one driven by Zimmerman when he was arrested, was parked on Maui.

When Doc Holliday died in 2002, when a Boeing 737 struggled to land safely at Sea-Tac International after passing a flock of geese but landed safely near a jet rumbles overhead — the same sound that fell apart when his estranged wife called police.

Inside the airfield is a buffer zone of 2,646 acres. Plants and shrubs are selected to attract birds to keep the hazardous birds, especially grasshoppers, blackberry berries, and perky birds of prey. "There is no one key to a movement that attracts birds," said a gray Honda Ridgeline, similar to one driven by Zimmerman when he was arrested, was parked on Maui.

The topsoil is low in nutrition, so the second year, the numbers of the population and the number of large birds of prey have increased. Zimmerman has a secret for a year, but on Monday, April 29, he consulted after the crash with his lawyer, under a government that doesn't seem to be able to defend him. The movie generated much advance buzz, including a standing ovation at Cannes. By most industry measures, the movie was a major hit, grossing over $200 million in the U.S. and $540 million worldwide. It was nominated for seven Academy Awards, including Best Picture, Best Director, and Best Actor for Denzel Washington.

The movie received mostly positive reviews from critics, who praised its performances, writing, and direction. However, it was criticized for its slow pacing and disjointed storytelling. Despite this, it was considered a critical and commercial success and is often cited as one of the best movies of the decade.

By Michael Phillips

CANCUN - Directed by Steve McQueen and starring Chiwetel Ejiofor, "12 Years a Slave" is a powerful and unforgettable look at the brutal institution of slavery and the individuals who were forced into it.

The story is based on the memoir of Solomon Northup, a free black man who was kidnapped and sold into slavery in 1841. The film follows Northup as he is bought and sold across the South, enduring various forms of abuse and degradation.

Ejiofor gives a mesmerizing performance as Northup, capturing the dignity and resilience of a man who refuses to be broken by his captors. The film is also notable for its depiction of the cruelty and sadism of the slave owners and plantation overseers, which is neither clinical nor salacious but rather a visceral experience.

"12 Years a Slave" is difficult to stomach, but it is also a necessary and important film, a stark reminder of the恶 works of the past and a powerful call to action for a more just and equitable future.
