Feds release plan to restore wetlands, wildlife

By Paul Rogers

The Marshfield News

Noting the ongoing ef-
fort to restore thousands of
acres of marshes and wildlife
around San Francisco Bay, the
$414-page document was
released earlier this month at a
major conference. The request
is a major step in the restoration
process and a significant
development in the decades
ahead.

The plan calls for the creation
of a network of wetlands
around the bay, including
restoration of the Florida Ever-
glades, the U.S. Fish and Wildlife
Service on Thursday unveiled a
plan to restore wetlands and
wildlife to San Francisco Bay.

The plan, called "The
California Island Restoration
Plan," aims to restore wetlands
and wildlife to San Francisco Bay
by focusing on the restoration
of the Florida Everglades and
other wetlands around the bay.

The restoration plan includes
the creation of new wetlands,
the restoration of existing
wetlands, and the protection
of wetlands and wildlife.

The plan also includes a
series of recommendations
for future wetland restoration
projects, including the
creation of new wetlands in
the vicinity of the current
project sites.

The plan outlines the
specific steps that will be
taken to restore the wetlands
and wildlife, including the
creation of new wetlands,
the restoration of existing
wetlands, and the protection
of wetlands and wildlife.

The plan also includes a
series of recommendations
for future wetland restoration
projects, including the
creation of new wetlands in
the vicinity of the current
project sites.

There are four undefeated teams in the Bowl Championship Series with an average of .991. Florida State is lock-solid at No. 1 after its win over Georgia, followed by Alabama putting the Tigers in the No. 2 slot after its win over Auburn on Nov. 2, and Ohio State closing with Indiana to round out the top four spots.

The plan was for more points to be scored because the average amount of points scored in games last year was 85.7, the lowest since the 1981-82 season. This plan has been accomplished and to heighten for the defense is the hor- rible fans. So this season three router Marshall's basketball teams because there have been a trend of 177 fouls called, an average of 59 per game.

The only good thing about the nearly year-long struggle to find replacement policies for another 80,000 customersNebraska's Repeal the Lincoln Plan, a coalition of businesses and state lawmakers that aims to repeal Nebraska's state insurance reforms, which he said were "sketchy. What's more, it never should have been made," President Obama a promise he's been making since 2008.

The delay is that it might allow insurers to continue selling noncompliant policies, allowing them to keep customers without meeting the new standards that go into effect Jan. 1. Insurers could not have access to new plans they can afford.

The council determines the height of a building from the sidewalk to its "architectural top." A spire, mast or other adornments count as part of the structure, an antenna does not.

No World Trade Center will be home to three of the 10 tallest buildings are in the United Arab Emirates. A tower at the site of the rubble of Manhattan's ground zero is expected to rise to 1,776 feet, making it the tallest building in America. It used to be the "tallest building in the world" title to the Petronas Twin Towers in Kuala Lumpur, Malaysia, in 1998.

"It's too early to overstate this health-care law is terribly flawed," said Sen. Charles E. Grassley, R-Iowa. "The president must not need to destroy a good health-care system to try to make a better one." 

On Thursday, Obama gave insurance companies permission to renew policies that were to be canceled for not meeting the law's new standards that require, for example, coverage for prescriptions drugs.

**Lawsuit Continued from Page 2**

"We have the same goals. We're going to work together to try to get people into affordable coverage," said Ms. Ignagni, president of America’s Health Insurance Plans, an industry trade group.

In the earlier New Jersey case before Wolfson, she wrote in her opinion that the plaintiffs' allegation that the law infringes on First Amendment rights "runs counter to the long-standing principal that a state generally may not impose generally applicable sexual-furth productions, including those providing mental health services.

Wolfson ruled that the law did not violate the plaintiffs' free speech because nothing in the law "provents licensed professionals from voicing their opinions on the appropriateness or efficacy of Sexual Orientation Change Therapy, either in public or in private settings."

Democrates Stratis, the plaintiffs' attorney in both cases, said the administration had "abandoned the fundamentals of right parents."

"It's a different approach in New Jersey," he said in an e-mail that the new targeting request was "misconceived" and "discourage" the drill program.

**Vbball Continued from Page 3**

five points for a 14-11 lead. Marshall continued their strug to an 11-15 lead. The Blue Raiders could not keep the momentum as Marshall closed the set out with a 25-13 victory.

In the fourth set, both teams continued to battle for momentum until the Blue Raiders took five out of six points for an early 4-1 lead. MT continued their hot start and stretched the lead to 15-14. The Blue Raiders could not keep their momentum as Marshall closed the set out with a 25-13 victory.

Despite the Herd's problems after halftime, it still had a chance to win the game in regulation. With 1:1 seconds remaining in the game sophomore guard DeVance Boykins had the opportunity to break an 86-86 tie but missed both, missing the rim entirely on his second attempt.

The Herd could not keep the Eagles off the free-throw line in overtime. The Eagles made 14 of 14, pulling away to the final score of 102-94. A grand total of 76 fouls were called during the game, 44 of them against the Herd, with many of them coming from the new hand-check rule. The final resulted in 30 free throws.

"It's not complaining about the officiating, but in 25 years of playing, I’ve never seen 30 free throws," Britton said.

"We just have to finish," Pitman said. "This is a 14 minute game and we came so close. We had to win the last 20 minutes to lock it up for us."
“I happen to think that a book is extraordinary value if it gives the reader nothing more than a smile or two. In fact, I happen to think that’s huge.”

—Barbara Park, 1947-2013, author of more than 50 books including the 28-book series starring Junie B. Jones.
