This collection was received semi-organized and inventoried using the existing folders and titles. Boxes 49-54 contained documents not sorted into original folders, so new folders were created to match the organization system of all previous boxes. Box 30 of the collection was missing during the inventory process due to
water damage and will be added to the end of the inventory once the associated folders, if any, have been recovered and processed.
Folders labeled <i>Miscellaneous</i> contain documents relating to organizations and/or individuals with names correlating to the preceding letter. All damaged folders were replaced by new folders and labeled exactly as the originals. Folders and topics removed from collection for being empty include the following:
