**CURRICULUM COMMITTEE  
RECOMMENDATION**

**SR-02-03-(31) 61 CC**

Recommends approval of the listed **COURSE ADDITIONS** in the **COLLEGE OF NURSING & HEALTH PROFESSIONS**:

CLS 410                      Advanced Hematology and Transfusion Medicine                      4 hours  
Advanced theory and on-campus laboratory practice in clinical hematology and blood banking. Students learn in-depth diagnostic work-up and problem solving involving patients with anemia, leukemia, and bleeding disorders.

CLS 421                      Advanced Clinical Chemistry and Microbiology                      4 hours  
Advanced theory, practice, problem solving, and critical thinking in the laboratory specialties of clinical chemistry and diagnostic microbiology.

CLS 472                      Advanced Practicum in Hematology and Transfusion Medicine                      3 hours  
Advanced theory, practice, problem solving, and critical thinking in the laboratory specialties of clinical hematology and transfusion services for a minimum of 100 contact hours within a 15-week semester.

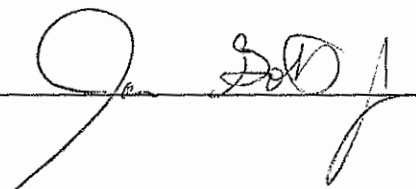

CLS 473                      Advanced Practicum in Clinical Chemistry & Microbiology                      3 hours  
Clinical rotations in clinical laboratory settings in clinical chemistry and microbiology for a minimum 100 contact hours within a 15-week semester, with emphasis on diagnostic problem solving.

CLS 499                      Seminar: Readings in Laboratory Medicine                      2 hours  
Senior seminar. Students and faculty present and critique articles from recent clinical laboratory-related publications.

**RATIONALE:**

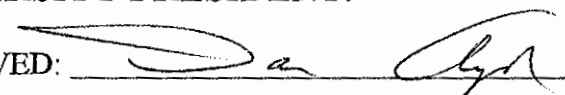

Each course is an appropriate addition to the respective programs.
