Ohio House approves 20-week abortion ban

Abortion rights advocates, left, protest in the Ohio State Capitol July 13 on anti-abortion rights supporters pass them in Austin, Texas. Ohio lawmakers have passed what they are calling the “Heartbeat” bill. This will be the strictest legislation on abortion to pass in nearly twenty years.

By Tom Jenkins

Ohio lawmakers have passed what is being called the “Heartbeat” bill. The bill states that a woman cannot get an abortion in the state of Ohio after six weeks of being pregnant. This will be the strictest legislation on abortion to pass in nearly 20 years.

The bill is being called the “Heartbeat Bill” to represent the heartbeat of a fetus. Many concern is there for the fetus at this point. It is taken as the six-week window to abort a fetus.

This year, President Keith Faber told reporters Wednesday that he believes with the new political dynamic of the country, the bill has a strong chance of being passed with the legal action.

“One, a new President, new Supreme Court Justice appointees change the dynamic, and that there was consensus in our caucus to move forward,” Faber said.

“I think it has a better chance than it did before.”

For women, this could be the beginning of changes across the country in how states will legislate abortions.

Walsh, director of the Women’s Center at Marshall University, tells students who come to her that if they are worried, then they need to utilize these representations.

“One of the things I tell people is that if they are concerned, then they need to be more vocal and engaged with their representatives,” Walsh said.

“If they’re trying to get more involved, then find political organizations or other organizations that are working toward the objectives that you want to promote.”

Walsh said she sees this as a slippery slope, not just for pro-choice legislation, but controlling people’s healthcare as a whole.

“It personally concerns me when we start limiting access to healthcare. I want those decisions to be made by a patient and their medical provider,” Walsh said.

Pro-life Ohio Governor John Kasich said he believes there are some constitutional issues with the law. He has also said there are exceptions for abortion when a woman is raped, incest or if the life of the mother is jeopardized.

The bill has been passed on to Kasich and it will be up to him if he will pass or veto the bill. If the bill is signed, then the law will become law by next year.

Following their second straight loss, the Marshall men’s basketball team returns to the friendly confines of the Cam Henderson Center for a meeting with Toledo Rockets of the Mid-American Conference.

Marshall (5-3) enters the game on a two-game losing streak, returning home after their first extended road trip of the season. The Thundering Herd dropped their last contest 96-85 to the Chattanooga Mocs. Despite the disappointing outcome, head coach Dan D’Antoni has been pleased with the start. “We’re improving from here,” D’Antoni said. “At this point last year, we were 2-6. Now, we are 5-3 in a real tough schedule. We put this schedule together with that in mind.”

The Herd have faced stiff competition in their non-conference schedule so far this season. Marshall’s opponents to date have a combined 38-25 record, with an undisclosed injury. Terrance Thompson has also received academic ineligibility. Forward half of the season due to academic ineligibility. Forward J.C. Burks is depth-wise. Projected starters include point guard CJ Burks and forward Jon Elmore, along with others and make a difference. Part Time. All Soldier. Learn more at goarmy.com/reserve.

Junior guard Jon Elmore did what he could to negate those mistakes against the Mocs. Elmore poured in 27 points, setting a new career-high in austin, as well, with 12. It marked Elmore’s first double-double since Marshall’s Feb. 28 meeting with Old Dominion. He also extended his double-digit scoring streak to eight games, the longest streak of his career. Following the loss, D’Antoni was adamant he needed to rest Elmore more, no matter how great he is playing. “Jon played well,” D’Antoni said. “I have to play him too much, I wish I didn’t.” When C.J. returns, that will take a load off, but then we have to get him rested, so he doesn’t get exhausted. He played a great game.”

The Herd will be grateful to return home. Marshall is undefeated at home so far this season, hoisting a 5-0 record Saturday’s game tips off at 7 p.m.

State Editorial: Gun control in West Virginia

Normally Published in The Charleston Gazette-Mail

around a dozen gun murders filled West Virginia news in November. In Charleston, an aging white man was charged with shooting a 15-year-old black youth in death, then telling police: “That’s another one out of the way.” The killer was found to have a pistol because he had been convicted of domestic violence.

In Boone County, police say Shako Adams shot his roommate to death, then fired at police during a long highway chase, then finally killed himself as officers approached.

In Clarksburg, police charged a high school student with entering a home, shooting a ten-year old boy, then severely wounding the boy’s mother. The then-17-year old boy who was shot is now recovering. She is expected to suffer partial blindness and paralysis.

In Logan County, a young man with tattoos on his face and entire body is charged with shooting another young man in gun murder charge.

In Kanawha County, a grand jury indicted three young men in gun murder charges.

The conservative-controlled Legislature overturned a veto by Gov. Tomblin to let almost anyone carry a loaded pistol, ready to shoot. The conservative-controlled Legislature overrode a veto by Gov. Tomblin to let almost anyone carry a loaded pistol, ready to shoot.

Ameri can people, along with people of other races and national origin, are expected to suffer partial blindness and paralysis. The governor issued a statement Tuesday expressing alarm over the danger of unconscious drivers.

To Marcus, Mikaela, Sam, Hannah, Gin, Emily and Bri, my closest friends: Thank you for encouraging me after every critique and challenging me to see the beauty in the obscure.

If you have found my identity as a photojournalist, reporter and leader in this newspaper, I owe many thanks to those who helped me find my abilities, particularly to professors Rebecca Johnson, Sandy York and Beth. Without each of you, I am where I am today.

DiCaprio meets with President-elect Trump to discuss jobs centered on preserving the environment.

By Daniel Bauernschmidt

DiCaprio and the head of his foundation met Wednesday, Dec. 7, 2016, with President-elect Donald Trump to discuss how centering jobs on preserving the environment could boost the economy.

"Today, we presented the President-elect and his admin- istration with a two-volume report — which LDP developed in collaboration with leading voices in the fields of economics and environment experts — underlining the urgency and extent of a major economic re- turn across the United States that is centered on investments in sustainable infrastructure,"said Tamminen. "Our conver- sation focused on how to create millions of secure, American jobs in the construction and operation of commercial and residential door, renewable en- ergy generation.

The Oscar-winning actor has been a strong advocate of climate change and fighting pollution, and he is committed to making the world a better place. His foundation has been involved in many charitable works, including the Caprio Foundation, which supports educational programs and environmental causes. The foundation has also been involved in fundraising and awareness campaigns to promote sustainable practices and environmental conservation.

DiCaprio has expressed his belief in the importance of environmental protection and has said that it is crucial for the survival of the planet. He has also spoken about the need for action to address climate change and has called on governments and individuals to take responsibility for our actions.

DiCaprio has been active in the environmental movement for many years, and he has worked closely with environmental leaders and organizations to promote sustainability and conservation. He has also been a vocal advocate for renewable energy and has supported policies that promote the use of clean energy sources. His foundation has invested in renewable energy projects and has supported research and development in the field.

DiCaprio's efforts have been recognized with many awards and honors, including the 2015 Green Medal from the World Wildlife Fund. He has also been named one of the 100 most influential people in the world by Time magazine.

Chance the Rapper is a revered artist. People are really, really loving him. I started listening to him around "Acid Rap" and, truthfully, I still can’t really understand why people have been loving it. This fusion grabs people, by Nature and then the Fugees), but that doesn’t mean it’s been taken as seriously as it actually should be. Even while preparing to boogie for a cause, people are still able to donate as much as they want on the "donate" tab online.

"Some obstacles are participating in the third marathon, but in his first time as a member on the committee. He is currently serving as Greek Liaison Officer. "My job is to get as many Greek life activities to popularize as possible," Ellis said. The Thunder Dance Committee is a student-led organization and include meals, themed dance hours, games, an award ceremony, and include games, races, karaoke, dancing and much more. Usually, the best mixtape albums are released since 1995 (first presented to Naughty by Nature and then the Fugees). It hasn’t been as easy as it actually was to flip hip-hop, while ability of less than 10 song artists, is still very much an art form. Now we just need to visit until we decide to put the cover of "Take Five" on a mixtape. Will Iran can be contacted at iran@marshall.edu.
