### Biographical Notes:

Individuals relevant to the collection include the following figures.

William Dickinson, Jr. (1798-1881) is the son of William Dickinson Sr. (1772-1861) and continued the salt business created by his father. He also founded the Kanawha Valley Bank in Charleston, West Virginia in conjunction with his son.

John Quincy Dickinson (1831-1925) is the son of William Dickinson, Jr. (1798-1881). After the conclusion of the Civil War he restarted the Dickinson and Shrewsbury salt company that is now the J. Q. Dickinson salt company. He also founded the Kanawha Valley Bank in conjunction with his father.

Charles Cameron Dickinson (1876-1963) is the son of John Quincy Dickinson and subsequent proprietor of J. Q. Dickinson and Company. He was Chairman of the Board at the Kanawha Valley Bank.

Turner Rust Ratrie (1909-1976) was married to Mary Price Dickinson (1914-1910), who was the granddaughter of John Quincy Dickinson. He assisted in running J. Q.

Dickinson and Company business.

### Business

The partnership of Dickinson and Shrewsbury took many forms, beginning with the Joel Shrewsbury and Company trade business in 1804 in Franklin County, Virginia. Joel Shrewsbury and Company specialized in the trade of tobacco and various goods. In 1809, the business morphed into Dickinson and Shrewsbury, continuing in the sale of general goods. In 1814, the company expanded into salt and agricultural production in the Kanawha Salines region of Virginia, now known as Malden, West Virginia. It was during this period natural gas was first discovered on the property and subsequently used in manufacture. In 1825, the firm opened a mercantile store in Kanawha. The firm continued to operate on this general model, in trust and cooperation with other local salt manufacturers, until the dissolution of the business in 1856. Dickinson and Shrewsbury was part of the Kanawha Salt Company, said to be the first business trust in America. The above summary is extracted from John Edmund Stealey, III's work, "Virginia's Mercantile-Manufacturing Frontier: Dickinson and Shrewsbury and the Great Kanawha Salt Industry" from *The Virginia Magazine of History and Biography*, vol. 101, no. 4, Oct. 1993, pp. 509–534

Sub-businesses run by J. Q. Dickinson and Company (salt and agriculture) in the early to mid-twentieth century include Malden Gas Company (natural gas), Dry Branch Coal Company (coal), the J. Q. Dickinson and Company commissary/general store, and an additional chemical manufacturing arm that may have been directly run by J. Q. Dickinson and Company rather than an independently established sub-company. Chemicals manufactured included potassium bromide and calcium chloride.

### **Scope and Content:**

This collection has been divided into three series: Time Logs and Material Production Records, Financial and Transactional Business Records, and Business and Personal Files. Time Logs and Material Production Records include time logs for workers, including tasks completed and rate of pay for both salt, natural gas, and chemical production, as well as production records and statistics for both natural gas and salt. Financial and Transactional Business Records include documents related to the sale of salt, chemicals, coal, and other materials or the purchase of materials by J. Q. Dickinson and Company. Business and Personal Files are divided by client or topic and include files containing correspondence and transactions with clients, business documents ranging from advertisements to tax documentation to correspondence received, and some personal files belonging to Charles C. Dickinson, Turner Ratrie, and John Quincy Dickinson. Files for clients generally include sales made to those clients and also include correspondence to and from sub-companies such as the Dry Branch Coal Company.

Time sheets and time records record names, rates of pay, hours worked, and tasks

worked, serving as a valuable record of labor practices in the early and mid-twentieth century. Though only a very small part of the collection, of note are documents relating to labor issues and striking by Dry Branch Coal Company workers. Documents in the 1990s generally relate to the usage of property owned by J. Q. Dickinson and Company for farming purposes.

### **Processing Notes:**

This collection was previously housed in an attic with minimal original order present. File names for folders have been maintained where extant.

### **Preferred Citation:**
