# Marshall Growth Not Limited To Buildings

By SAM NEAL  
Staff Reporter

(Editor's Note: The following article is the second in a series dealing with University growth. The next article will deal with Marshall's growth in relation to sports.)

During the past six years, since Marshall achieved university status, there have been news reports about the growth of the institution. This has developed to the point that a new record is expected every time the figures come out on enrollment, number of graduates, and the cost of higher education.

When Marshall attained University status in 1961, a

new attitude began to develop. Since then, the people of West Virginia and the Huntington area in particular, started to observe rapid changes. The face of the campus changed as new buildings began to pop up. Urban renewal added land to make the main campus extend four more blocks. The University Heights campus came into being, and now plans for further development of this land are under consideration.

This past fall, when total enrollment went past 8,000 students with 300 faculty members, plus the many others needed to maintain and administer the University, it became apparent that at least half of the Huntington com-

munity was directly involved with University affairs. This situation has placed Marshall into the foreground of the growth and development of West Virginia.

Dr. J. Stewart Allen, vice president of academic affairs, said, "At Marshall University, students are provided with academic opportunities to help them understand, then make contributions to the community. Students are encouraged to learn worthwhile spiritual, social, and economic values and to develop intellectual curiosity and the desire to continue personal and professional growth."

## Bartlett To Retire Aug. 31

By LLOYD D. LEWIS  
Editor-In-Chief

Dr. J. Frank Bartlett, dean of the College of Arts and Sciences, will retire Aug. 31, according to an announcement made by President Stewart H. Smith in an Arts and Sciences faculty meeting Wednesday afternoon.

A successor is in the process of being chosen.

Ten members were nominated for an advisory committee from the College of Arts and Sciences. Five will be elected, with the results to have been announced yesterday (Thursday).

Dean Bartlett's retirement was made mandatory by a law passed recently by the West Virginia legislature which says that all state employees must retire at age 65. The dean could, under the new law, remain on the MU staff as a teacher, but President Smith said Wednesday that Dean Bartlett does not intend to do so.

Dr. J. Stewart Allen, vice president of academic affairs, said, "Dean Bartlett has done prodigies of work for this institution and he will leave his successor a rather large set of footprints to fill."

President Smith, who called the meeting for 4 p.m. Wednesday to ask other faculty members to submit letters of recommendations for Dean Bartlett's successor, noted, "Marshall University's future will

DR. J. FRANK BARTLETT  
... Dean 22 Years

Don't Forget Feb. 14!

VALENTINE'S DAY IS approaching and reminders such as the heart boxes of candy which surround Elene Rose, Huntington freshman, can be seen in almost every department store in Huntington.

## Kissing-Good Day Due; It Smacks Of History!

By FRANCES CHIRICO  
Society Editor

A candy heart, a dozen red roses, a picture of Cupid and decorations of red and white are of prime importance around Feb. 14 each year.

During this time, the spirit of Valentine's Day engulfs the entire population of the United States. At Marshall, students prepare for this day by purchasing cards and gifts to send to their loved ones. The department stores feature displays of heart boxes of candy, valentines and paper cupids.

What is the story behind the tradition of Valentine's Day? When did it originate?

The practice of sending valentines was originated in the third century A.O. by a Roman. His name was Valentinus and he was imprisoned for giving aid to Christian martyrs. He was sentenced to death by Emperor Claudius II.

According to legend, while Valentinus was awaiting his execution, he befriended the blind daughter of the jailer and restored her sight.

On the night before he died, Valentinus penned a farewell message to the girl who had meant so much to him and signed it "From Your Valentine."

Valentinus was put to death on Feb. 14 and was buried at the Church of Praxedes in Rome. Near his grave, a pink almond tree, a symbol of abiding love, is said to have bloomed.

Thus, the name of Valentinus has come down through the centuries as the word which stands for affection among friends and love between sweethearts.

The date of his death is celebrated around the world as a day for sending valentines and remembrances of love. It has proved to be a boost to the economy of the nation as well as a day for the showing of affections.

## MU, 4 Colleges Will Develop Kanawha County Pilot Center

By KATHY SIX  
News Editor

A new student teaching program is now under way at Marshall which "will affect the student teachers more than any other innovation for a long time to come," according to Dr. Robert B. Hayes, dean of Teachers College.

He explained that Marshall has joined with four other West Virginia colleges in the M-STEP Program (Multi-State Teachers Education Project) in developing and utilizing a Pilot Center for Student Teaching in Kanawha County.

This program will enable the student to experience his student teaching away from the University and at the same time, receive qualified supervision and instruction at seminars located in that county.

### Public Schools Help

Mr. John B. Himelrick, director of M-STEP and a member of the state department of education, explained in a telephone interview, the purpose of the program, "The intent of this program is for the public schools to shoulder a greater degree of responsibility for planning and conducting of student teaching experience, utilizing personnel from colleges, public schools, and the State Department of Education."

The basis for this undertaking, he explained, is the Elementary and Secondary Education Act (ESEA) of 1964 which funded, under Title 5 Section 505, the conducting of experimental projects in teacher education. From this developed M-STEP in which are involved seven states including West Virginia. The other states are Washington, Maryland, Michigan, Florida, Utah, and South Carolina. These states are emphasizing the student teaching aspect of teacher education. The findings of each state's project will be available to the other states to serve as guide lines for further developments in teacher education.

### Pilot Center Headquarters

West Virginia's Pilot Center for student teaching will be the headquarters for supervision and seminars for students from Morris Harvey, West Virginia State, West Virginia Tech, and Concord Colleges, in addition to students from Marshall.

Students from all of these schools will be assigned to various elementary and secondary schools throughout Kanawha County and will teach from March 13 until May 19, a period of about 9 weeks.

All methods and educational courses should be finished prior to the student teaching experience, but a limited number of extra hours credit may be allowed during the student teaching experience.

### Limited Number Accepted

In initiating the program, Mr. Himelrick explained, a limited number of students would be accepted in order to give personal attention to each student. Therefore, five to 10 students from each college have been accepted. Nine secondary student teachers and two elementary student teachers from Marshall will soon be assigned from Marshall will soon be assigned

(Continued on Page 3)

## Herd Goes 5-2 In MAC Play

MU was assured of its first winning season since the 1957-58 campaign last Wednesday night when the Herd defeated a determined Kent State team, 65-61, for their 13th victory of the season.

The Herd is now 13-6 in all games and 5-2 in MAC competition. Kent State has an unimpressive 2-16 record on the year and is 0-9 in the conference.

MU coach Ellis Johnson said before the game that the Golden Flashes wouldn't be easy to beat on their home court and easy they weren't. MU led Kent by only one point at half time, 35-34.

Kent set the tempo of the game at the outset and only occasionally did they let MU step up the pace of the contest.

MU's first half performance was marred by poor shooting from the floor. As a team MU shot a below par 36.5 per cent. Several close in shots were missed in the early minutes of the game. George Stone, with his deadly turn-around jump shot, had trouble finding the range at first, but went on to be the game's leading scorer with 24 points, one point above his conference average.

Doug Grayson, 6-5 Kent forward, led the Golden Flashes in scoring with 22 points.

In contrast to last Monday's wild fouling melee against Morehead that saw for of MU's starting five foul out, MU committed only eight personal fouls in the entire Kent State game.

Guard Joe Dawson missed his second game in a row. Dawson is suffering from a case of flu.

## Seating Is Revised

Due to the large number of students turning out for the games three new rules regarding seating will be put into effect beginning tomorrow.

1. There will be no student admissions after seven p.m. After that, general admission tickets will be sold to fill the seats not taken by the students.

2. There will be no chair seats for the students in the balcony.

3. Sections 35-37-38, near the scorers table, will be reserved for students only

# Letters To The Editor

To the Editor:

I have for the past two years observed the exalted members of Greekdom, who honor Marshall University with their presence. I have for these some two years admired them for their pride of self and of organization.

This feeling of admiration which I kept concealed deep within me, has given rise to the thought that I would very much like to become a member of Marshall's Greekdom, but there are two overriding problems. My skin is a slight, but infinite shade too dark, and my hair is often like that of a humble sheep (a Biblical reference, of course).

I am fortunate enough to be able to easily afford the cost of the exaltation which Greekdom might grant me, I have the carriage and pride to be a loyal and constructive inhabitant of Mount Olympus, but my skin shade and hair texture offer too great a schism for even the majesty and courage of Greekdom to surpass.

Thus, my overwhelming desire to be exalted to the heights of Olympus has proven itself impotent at Marshall University, and because of this my only hope is that someone, who is truly of the individual makeup for which Mt. Olympus has long been admired, will prove me wrong. Feeling this way, I am sure I am not alone.

MILTON THOMAS COLE,  
Charleston sophomore

Letter to the Editor:

Recent trends concerning attitudes toward race are noticeable, especially at our basketball games.

Proud of the Southern heritage, the Pep band resounds and reveals with the familiar tune of "Dixie." Gloriously proud, the MU students yell and scream for victory. Amidst the yells for victory they consciously or unconsciously represent principles of states' rights, individual liberty and human slavery. This is what the song of "Dixie" represents and upholds.

I took a look into the past of "Dixie" and, according to the "Encyclopedia Americana," "Dixie" is a name associated in Negro minstrelsy with the Southern states. It supposedly is derived from the name of one Dixie, a large land-holding and kind-hearted slave owner on Manhattan Island in the latter part of the 1700's. His treatment of his Negroes caused them to regard his plantation as almost a paradise on earth. When any of the slaves were taken away from home (Dixie's plantation), they always pined for it — remembering its joys.

Why were they taken away? Cotton was grown in the South so slavery moved to the South. The

same ideal was taken along and the song, which the former slaves of Dixie sang of their old home, became so widespread that its origin was lost sight of and it came to be applied to the Southern home of Negroes.

Now "Dixie" is held to mean the Southern states. "Dixie" is also associated with the Mason - Dixon Line, which divided the free states from the slave states.

Since then, a new mode of music has come out under the title of "Dixieland Jazz." The Southern states may have lost the war, but they retained their pride. More than 100 years later the Southerners who uphold "Dixie" will jump to their feet in pride when Dixie is played or sung, or even whistled.

During the period of slavery, the slave no longer sang of an "earthly paradise." The only joy a slave knew would be in heaven; thus spirituals as "Swing Low, Sweet Chariot" and "Nobody Knows the Trouble I've Seen" were sung.

So years later when "Dixie" was (in its true form and meaning) non-existent for the slave, Daniel Decatur Emmett composed a song known by the same title and it was performed in New York at Mechanics Hall. It was first used as a song by the Confederates at the inauguration of Jefferson Davis Feb. 18, 1861 and later was the

Confederate song of the War Between the States.

The Southern states had a population of nine million of which 3.5 million were slaves employed mostly for picking cotton. Their lives were spent constantly working. Tired of living in "Dixie," the slaves tried as quickly as possible to flee the brutal institution of slavery; the South was the farthest thing from paradise.

The song, "Dixie," reflects a pride in the traditions of individual liberty, states' rights, and human slavery because this is the song which was sung by the Confederates who fought for those three principles.

And even today Confederate flag license tags appear on many automobiles around the town. Flags are hung on walls by students here. Cute little boys' caps depict the Confederate flag.

Now I'm not knocking individual liberty—sure it's Joe's automobile and room and he can hang anything he wants anywhere—whistle anything he wants. And states' rights aren't being trampled upon by the federal government. But will someone explain why the Pep band plays "Dixie" with three of its starting line-up players being George Stone, Bob Redd and Jim Davidson?

KATURA CAREY,  
Portsmouth, Va., sophomore

## Allocation Of \$12,987 For MU Is Announced By Rep. Hechler

An allocation of \$12,987 for loans to Marshall students has been approved by the U. S. Office of Education, Congressman Ken Hechler reported.

The new allocation, supplementing the \$213,000 announced last August, is under provision of the National Defense Education Act for the year ending July 1. The additional amount will be used during the spring and summer terms.

Students who desire financial

aid must complete applications by March 1. Applications may be obtained from the Financial Aid Office said George Fraley, financial aid officer.

The loan money is provided under a formula in which the federal agency supplies 90 per cent of the funds, matched by 10 per cent from Marshall.

Marshall has about 1,600 students receiving financial aid for the spring semester, Mr. Fraley said.

### 'We're ready for the TKE Playboy Party'

**BUNNIES AND DATES** prepare for the annual Tau Kappa Epsilon informal, Playboy Party, from 8 p.m. to midnight tomorrow at Fraternal Hall. Ready for the evening are Connie Schumacher, seated; standing (from left to right) are Eileen Shatrosky, Dan Hartley, and Joe Lardeon.

## Roaming the Green

(Editor's Note — News items for this column must be turned in to the society editor or The Parthenon office — Academic Center 317 — before 11 a.m. each Wednesday)

**Lambda Chi Alpha** will hold its pledge initiation at 6:30 p.m. today at the house. It will be followed by a stag party at St. Cloud Commons. They will have a house party after the game tomorrow.

Members of the fraternity will go to West Liberty College Feb. 17-18 to install a new chapter.

**Alpha Xi Delta** recently was honored by the fall pledge class with a redecoration of the chapter room in the sorority colors of blue and gold.

**Sigma Phi Epsilon** recently elected officers. They include Dave Life, president; Charley Kincaid, vice president; Jim Kessler, recorder; Greg Sayre, secretary, and Kent Burgess, comptroller.

Following pledging ceremonies today, there will be a party for the brothers and new pledges. They will attend the ball game tomorrow as a group. Activation for last semester pledges will be held Sunday and will be followed by a big brother-little brother banquet.

**Phi Mu** will have an informal, Cupid's Carnival, from 8 to midnight tomorrow at Riverside Country Club. Music will be furnished by the Rogues. Guests at the informal will be members of other Phi Mu chapters from Ohio and West Virginia.

**Tau Kappa Epsilon** will have an informal, Playboy Party, from 8 p.m. to midnight tomorrow at Fraternal Hall.

**Fourth Estate**, women's journalism honorary, recently initiated the following women: Susan Samuels, Barboursville junior; Ann Johnston, Huntington sophomore; Sheila Morre, Huntington junior, and Becky Thomas, Huntington sophomore.

**Alpha Sigma Phi** will hold pledging ceremonies today at the house. The brothers will attend the game tomorrow as a group. They recently elected George Downey, Huntington sophomore, vice president.

**Pi Kappa Alpha** recently elected officers. They include Ben Hale Jr., Chesapeake, Ohio, senior, president; Gene Gattrell, Sistersville senior, vice president; Jim Lewis, Huntington sophomore, secretary; Wayne Bennett, St. Louis, Mo., sophomore, pledge master and William (Doc) Richmond, Beckley senior, house manager.

**Delta Zeta** is having a spaghetti dinner from 4 to 8 p.m. Sunday at the Student Union. Members of the sorority recently visited West Virginia Institute of Technology to install a new chapter.

**Sigma Alpha Epsilon** will hold pledging ceremonies at 6:30 p.m. today at Johnson Memorial Methodist Church. They will have a party at Ricco's tomorrow after the ball game. They will have activation of last semester pledges Sunday at the Enslow Park Presbyterian Church.

## Pilot Co-Op Center Set

(Continued from Page 1)  
ed to their particular school in the county school system.

"We hope eventually," he said, "that this will be adopted throughout the state with the development of new student teaching centers." He further explained that if, for instance, students whose homes are in the Eastern Panhandle could be assigned to a teaching center in that area.

"This will enhance the whole teacher education programs in these colleges," he said, "by the fact that no more would three or four supervisors from Marshall be expected to counsel student teachers throughout West Virginia and be hampered by the time and transportation problems in getting to them."

### Intern Program Foreseen

Thinking even more in the future, Dean Hayes said, "If this concept works, the student teaching program will move away from the University and will become something of an intern program."

He explained that this would entail prospective student teachers finishing their work on campus, saving their student teaching for last, and being assigned anywhere in the co-operating states for their student teaching.

"This is still somewhere out there in the future," he said, "but it's something to think about."

The Pilot Center in Kanawha County will operate under an advisory committee composed of representatives from each of the colleges involved, from the Kanawha County Board of Education, and the State Board of Education. They are: Dr. Herbert Near, West Virginia Tech; Dr. L. V. Jordan, West Virginia State; Dr. Lawrence Nuzum, Marshall; William Doss, Morris Harvey; and Ike Mitchel, Concord. Three members of the Kanawha County Board of Education staff are Ralph Brabban, assistant superintendent for personnel; Miss Winifred Newman, assistant superintendent of elementary schools, and John Santrock, assistant superintendent of secondary schools. The member of the State Department of Education is Miss Genevieve Starcher, director of teacher preparation and professional standards.

### Dean Hayes Credited

Himelrick attributed credit to Dean Hayes and Miss Starcher for setting this program in motion.

"In early 1966," he said, "Dean Hayes and Miss Starcher prepared the initial proposal for the program and showed that they, and some others, wanted to do something to strengthen the State Department of Education and general preparation of teachers." From this proposal came the grant under the ESEA fund.

The program has another aspect which Himelrick emphasized as "vital." According to him, the M-STEP program will provide an intensive in-service program for supervising teachers assigned to the program. "Since they will assume a greater responsibility in directing student teachers," he said, "we want to help them improve their skills."

Agreeing with this statement, Dean Hayes said, "The quality of the supervising teacher must be maintained to the highest extent to match the advancement of student teaching programs."

### More Teachers Expected

Stating that next year Marshall will have 200 more student teachers than this year, he explained, "To maintain quality in supervisors and in the whole student teaching program itself, it is a must for us as well as the student

to move outside of Cabell County in the placement of student teachers."

He remarked that Cabell County was highly rated in its providing of student teaching positions, locations, and experiences, but that already, some students doing junior student teaching (Education 319 activity) are being placed where senior student teachers have been previously.

"If Marshall is to not only progress, but meet the needs of its students now," he said "we must provide better student teaching."

### Ties Must Break

"We realize," he said, "that in the future, campus ties of the students will have to be broken. It will no doubt involve sororities, fraternities, student government, dormitory government, and almost every campus activity, but the student going into his student teaching must realize his responsibility to himself and his own education."

Dean Hayes emphasized that "we are here to help the student, not hinder him. We want the students to see the conflict facing us and know the problem. Then, we will take any suggestions to help the students themselves."

Commenting on the future of M-STEP, Himelrick stated, "I think that there is no doubt that this will be a rich experience for student teachers and that, with planned expansion in September, it has a great future."

### To Send More Students

Commenting on Marshall's part in this expansion, Dean Hayes said, "Next fall we hope to send as many students as possible to the center in Kanawha County. Possibly thirty or more students from Marshall could do their student teaching there if they can find available housing."

Numerous sub-committees are presently at work on the M-STEP program and two of Marshall's faculty members head committees. Rex Gray, associate professor of education, is chairman of the sub-committee on student teaching experience on and Dr. Eric Core, associate professor of education, heads the committee on evaluation of student teaching.

Dean Hayes will address the "Orientation to M-STEP" meeting of all committee members and principals of schools involved in this program March 9 at Morris Harvey College in Charleston.

NANCY GANDEE

## MU Coed Chosen 1967 Putting Queen

Nancy Gandee, South Charleston sophomore, was chosen Miss America Putting Queen of 1967 last week in Fort Lauderdale, Fla.

Competing with young women from throughout the nation, she was judged in bathing suit competition, formal gowns, sportswear, poise and personality and won \$1,000 and an all-expense paid trip of the United States.

The pageant was sponsored by Putt-Putt Golf Courses, with contestants from each course.

A sociology major, she is looking forward to the tour and is planning to use the money to further her education.

### INTERVIEW SET

An interviewer from Prince William County, Virginia, will be on campus Feb. 20, for teacher recruitments. Openings for 300 teachers of all elementary grade and high school subject areas are being offered. A salary of \$6,000-\$9,300 is paid plus \$500 for a Master's Degree.

**Adv.**  
The Christian Science College Organization meets every Monday at 4 p.m. in the Campus Christian Center. The faculty and students are welcome to attend these meetings.

# Candidates Must File By Feb. 15

Filing for the Student Government election will be Feb. 15 from 8 a.m. to 4:30 p.m. in the Student Government Office, according to Larry Bruce, Huntington senior and student body president.

Any student wishing to run for political office this spring, must list his candidacy and pay the filing fee in the Student Government Office during the previously named hours, said Bruce.

Filing fees are as follows: student body president, \$5; student body vice president, \$4; class president, \$3; and senator, \$2.

All candidates who have not previously done so are required to attend lectures and take a test concerning Student Government.

Students who have run for office before and have attended these functions are not required to do so again, according to Bruce.

The lectures will be given Feb. 21 and 22, and the test on Feb. 23. Drawing for positions on the ballot will be held in the Student Government Office, Feb. 23.

All candidates are required to be present or represented at the drawing or they will be disqualified," said Bruce.

Campaigning officially begins Sunday, March 5. At that time posters may be put up on campus and election material may be given out. The election will take place Wednesday, March 8. Tentative plans include voting by machine in the basement of the Student Union.

## Fraternity Bids Extended Today

Fraternity rush for the second semester will come to a close as bids are distributed today from 3-5 p.m. in the Science Hall auditorium.

Smokers were held by each of the fraternities Monday through Wednesday, and the week's activities were climaxed Thursday by parties given by each fraternity.

Winter Hits Marshall Again

STUDENTS ON their way to classes are shown in this unusual shot looking down upon the steps which lead to Academic Center. The picture was taken from the eighth floor of the building.

## Bartlett To Step Down As Dean

(Continued from Page 1)  
depend a great deal on the man we select for this position."

"We need a strong man," he continued, "and we hope we can find a man on our present staff, but we won't restrict ourselves to this campus in our search."

Vice President Allen listed several qualifications for the position of the Arts and Sciences Dean. He said the candidate offered the job, "must be that rare individual" who (1) has the Ph.D. degree (2) has administrative skills as well as teaching experience (3) has "a pleasing exterior image since he will be doing much recruiting of faculty members" (4) has the knowledge of research (5) has confidence and somewhat of a national reputation in his discipline and (6) "he must be a person who is willing to work very, very hard."

Dean Bartlett, a native of Flat-

woods, W. Va., received all of his degrees — A.B., M.A. and Ph.D. — at West Virginia University in 1925, 1927 and 1932 respectively. Before coming to Marshall in 1932, the Dean was a teacher and principal at Gassaway High School. He has been dean of the College of Arts and Sciences since 1945.

Dr. Bartlett is a member of the American Chemical Society, the National Education Association and the West Virginia Education Association. He has published various articles, including those in the journal of the American Chemical Society and the West Virginia School Journal.

## Et Cetera Deadline Is Feb. 17

Contributions for the Et Cetera, student literary publication, must be submitted by Feb. 17. The contributions may be short stories, essays, poetry, or graphics.

Manuscripts, including the student's name and address, should be placed in the Old Main 317 mailbox or be given to Norman Curry, English instructor and adviser for the Et Cetera.

Anyone may enter his writings for the publication. All writing

will be judged on a competitive basis by a committee of faculty judges to be announced later.

Arline Roush, Letart senior and editor of the Et Cetera, said the publication may be sent to a commercial printer this year, and if the budget will allow, it will be distributed free. Publication is scheduled for April.

The Et Cetera was established in 1951. It first appeared as a supplement to the Parthenon.

# Big MAC Game On Tap Tomorrow

## Coach Scholler Says MU Has No Weakness

Tomorrow night's game with Bowling Green at Memorial Field House features the number one and two scorers in the MAC. The Falcon's big forward, 6-8 junior Walt Piatkowski, is currently leading the conference with a 24.7 average. Piatkowski is followed by the Thundering Herd's scoring ace, forward George Stone, with a 23-point average. Tip-off time is 8 p.m.

What does Bowling Green Coach Warren Scholler say about the Herd? "Actually, Marshall doesn't have any weaknesses. That's the big thing," Scholler told The Parthenon Wednesday in a telephone interview.

"I guess George Stone's offensive play is the toughest point. Then too, D'Antoni is a tremendous guard," said Scholler. "And Bob Redd—he has always impressed me. I think he is probably the best all-round cager in the conference. He does everything well. Always in there, he never quits—he's always moving," Scholler said.

Scholler was impressed with Bob Allen's hustle. "He really ran us on the boards (on Jan. 7). He has really improved. The entire team has improved. Let's face it, they play tough basketball," Scholler surmised.

Scholler isn't making excuses for his team. "We've had a few injuries, but there's really no excuse. Some of my bench players haven't helped as much as I hoped they would," he said. He said he couldn't get some of his reserves in because of the closeness of several of the games.

Al Dixon, 6-9 Falcon center, will be a potential threat tomorrow. However, he hasn't been very consistent. Scholler said, "Dixon? Oh well, he's so-so. I wish I could figure him out. I'd be the greatest psychologist in the world if I could. But he has improved with each game."

Scholler, looking back to Bowling Green's first meeting with MU, said he thought Al Hairston's (6-1 guard) blocked shot by George Stone was the turning point in the game. "It might have been goaltending, but it was a rough call to make and the referees had a tough time seeing it. Stone scored on the turnover and Hairston was shaken up the remainder of the game."

Walt Piatkowski was held to his lowest score of the season by the Herd.

## Coed Cage Team Scores Victory

The women's varsity basketball team opened its season with a 35-28 win over the Women's Job Corps in the Women's Gym last Thursday night, but succumbed to the University of Cincinnati, 39-36 at Cincinnati Saturday afternoon.

Marshall's foul shooting against Cincinnati added 28 points to the score while only eight points were gained from the floor. Sandy Sutherland, Scottsdale, Ariz., senior, tallied 29 points against Cincinnati and 22 points against the Job Corps for a 25.5 game average.

The team will play the First Presbyterian Church of Charleston at 7:30 p.m. tonight in the Women's Gym.

## Redskin Pins Wallace For Mat Victory

**BRUCE WALLACE TAKES** a heavy fall at the hands of an unidentified Miami University grappler as the Thundering Herd matmen went down to their seventh dual match defeat last Saturday in Gullickson Hall. Wallace, a sophomore from Middleport, Ohio, was later pinned by the Miami player.

## 8 High School Grid Players Sign Marshall Grant-In-Aids

Eight more high school football prospects have signed grants-in-aid, bringing the total signed to 17, according to Charlie Snyder, head football coach.

Those signed are Dave Cyrus, a halfback and linebacker from Coal Grove, Ohio; Richard Fee, a tackle from Middleboro, Ky., who earned All-Kentucky and All-Southeastern Kentucky Conference honors and his team's "best blocker" award; and Bill Shamel from Marietta, Ohio, a halfback.

Also signed are Don Swisher, a quarterback from Pomeroy, Ohio, and the Southeastern Ohio Athletic League's most valuable player; Mike Smith, a halfback from Ceredo-Kenova, and a member of the Class AA All-State team (he established a Huntington area scoring record with 183 points last season), and Jim King, named to the All-Eastern Ohio Class AA and All-Ohio Valley Athletic Conference teams from St. Clairville, Ohio. He was the fourth quarterback signed by Marshall this year.

Also John Allen Milam from Lorain, Ohio, Admiral King High, an all-Buckeye Conference fullback who earned honorable mention honors on the all-Ohio team. He is an alternate selection for the North squad in next summer's North-South game, and Harold Taylor, a halfback from Paintsville, Ky. Taylor scored over 100 points in his senior year with the Tigers and was sought by Virginia Tech as a defensive halfback.

## Runner Chalks Up Indoor Track Win

Greg Connelly, Baltimore, Md., freshman, finished first last Friday in the two-mile run at the Western Michigan Indoor Invitational Track Meet. His time was 9:41.

Phil Parsons, Parkersburg freshman, placed seventh in the long jump with a leap of 21 feet, 10 inches.

In the 60-yard dash, Mickey Jackson, Harpers Ferry senior, and Mike Coleman, Enstead junior, finished third and fourth in their respective heats, with 6.5 times. This qualified Jackson for the semifinals where he placed fifth.

The thinclads' next meet is the Ohio State Federation Meet at Ohio State University Feb. 17.

## SIGNS GRANT

Coach Charlie Snyder has another football signee. Harold Taylor, a 6-0 185-pound halfback from Paintsville, Ky., signed a grant-in-aid with Marshall Tuesday. He is the fourth halfback to sign from the upcoming freshman squad. Taylor scored over 100 points last year and led the Paintsville High School "Tigers" to a Class A playoff berth. He also participated in baseball, basketball, and track. Seventeen players have already signed MU grant-in-aids.

## 6 At MU Are Due At Union Tourney

Six men will represent Marshall this weekend in the International Association of College Union Tournaments at University of Maryland.

Making the trip will be William Young and Arhtur Hage, Huntington freshman, in table tennis; Jim Kirk, Delbarton sophomore, pocket billiards; Edward Seiler, Huntington senior, rail billiards; and James Kirkpatrick, Elkins freshman, and Jerry Kowalski, chess.

Don Morris, student union manager, said there is a possibility the tournament would be postponed due to the heavy snow in Md.

## Eagles Clip MU; Fouls Are Costly

By J. PRESTON SMITH  
Sports Writer

"I thought we'd win it then," said Coach Ellis Johnson, "but we made a couple of errors."

Coach Johnson was speaking about Marshall's four-point lead in the first overtime period Monday night against the Morehead Eagles. But Marshall ended by dropping its sixth game of the season, 112-98, in a double-overtime, foul-infested match that concluded Marshall's non-conference games for the season.

It was, though, an evening of second efforts that finally pitted Marshall's reserves against the superior rebounding of the Eagles.

"They didn't beat us with their regulars," Johnson noted, "they did it against our reserves. I think our reserves played real well, but the height got us."

The game was seemingly over when Marshall was down by nine points with 2:27 left to play in regulation time. But the "Herd" fought back, spurted, hustled, stole the ball and a due-or-die attempt by Jim Davidson was tipped in by George Stone in the last second that deadlocked it at 80-80.

Marshall quickly grabbed the lead early in the first overtime and clung to it as late as the 2:54 mark. But then Marshall was beset by costly errors and had to scramble to maintain another deadlock at 88-88 at the end of the first overtime.

The second overtime pitted Marshall's reserves against the superior height of Morehead. All Marshall's regulars had fouled out ace Danny D'Antoni, Morehead scored the first five points; D'Antoni hit one from the foul line, but the game was all but over as the Eagles slowly pulled away.

# Physical Facilities Not Only Sign Of MU Growth

(Continued from Page 1)

Academically, the University functions through five divisions: Teachers College, College of Arts and Sciences, College of Applied Science, Graduate School, and the Division of Adult Education.

Marshall was founded in 1837. The range of degrees has expanded greatly. Currently in the Graduate School, the master's degree is offered in 26 major fields with 10 other departments offering work in a minor field. The most recent addition is the master's degree in business administration.

To assist graduating students, the University offers a placement service. Representatives of business, industry, and the school systems interview applicants and review credentials.

Last spring, nearly 900 Marshall students received degrees. The list of alumni has grown into the

many thousands through the years. According to Dr. Allen, "The Marshall student and alumnus are drawn from every corner of the state. Their intellectual potential and services reflect Marshall's impact—now and in the future."

Dr. Allen continued, "The rapid growth of the student population has placed new demands on the faculty and physical facilities. To help alleviate the staff shortage, many part-time instructors are drawn to the campus from other walks of professional life. In several cases, these people have chosen to take on fulltime teaching responsibilities. The physical

**POETRY CONTEST**

A \$2,000 award and the publication of his manuscript is the prize for the winner of the International Poetry contest which is open to any American citizen who has never published a volume of poetry. Entries for the 1967 award must be submitted before April 1 to the International Poetry Forum, United States Award, University of Pittsburgh Press, 3309 Cathedral of Learning, Pittsburgh, Pa.

**AID DEADLINE**

Applications for scholarships and other financial assistances for next year are available in the Financial aid Office. The deadline for filing is March 1. Students who received either scholarships or loans this year must reapply for continued aid before March 1.

plant has been expanding too, but it is only the start."

One very important part of university life is cultural enrichment. More than 30 years ago, the Marshall Artists Series Corporation was formed as a non-profit branch of the university. This organization has grown into one of the state's leading cultural influences.

The Artists Series sponsors four groupings of attractions: The Community Artists Series, the student Artists Series, Community Forum, and Convocations. This season there are 33 professional attractions in the four series. They range from symphony concerts and ballet to prominent national figures and travelogues.

Marshall, being in close proximity to one of the largest chemical complexes in the country, conducts research in many areas of chemistry. Members of the chemistry faculty continually apply for patents on new operations and procedures.

Grants from the National Science Foundation, Benedum Foundation and other agencies have played an important part in the growth of research at Marshall.

The University research areas however, are not confined to chemistry, but are kaleidoscopic in nature, ranging from theatre, English, and related topics to the sciences of physics and biology.

Dr. Allen says of research, "both

the quantity and quality of scholarly writing have been advancing at Marshall." He also notes that the increasing classroom workloads on faculty members, with an increase in research activity, is of particular importance.

Marshall, through its many programs, plays a part in the growth and development of West Virginia and the surrounding area. The interplay is extensive now and shows promise of increasing in the years to come.

## STAMP OUT YOUNG LOVE

It happens every day. A young man goes off to college, leaving his home town sweetheart with vows of eternal love, and then he finds that he has outgrown her. What, in such cases, is the honorable thing to do?

Well sir, you can do what Crunch Sigafoos did.

When Crunch left his home in Cut and Shoot, Pa., to go off to a prominent midwestern university (Florida State) he said to his sweetheart, a wholesome country lass named Mildred Bovine, "My dear, though I am far away in college, I will love you always. I take a mighty oath I will never look at another girl. If I do, may my eyeballs parch and wither, may my viscera writhe like adders, may my ever-press slacks go baggy!"

Then he clutched Mildred to his bosom, flicked some hayseed from her hair, planted a final kiss upon her fragrant young skull, and went away, meaning with all his heart to be faithful.

But on the very first day of college he met a coed named Irmgard Champerty who was studded with culture like a ham with cloves. She knew verbatim the complete works of Franz Kafka, she sang solos in stereo, she wore a black leather jacket with an original Goya on the back.

Well sir, Crunch took one look and his jaw dropped and his nostrils pulsed like a bellows and his kneecaps turned to sorghum. Never had he beheld such sophistication, such intellect, such *savoir faire*. Not, mind you, that Crunch was a dolt. He was, to be sure, a country boy, but he had a head on his shoulders, believe you me! Take, for instance, his choice of razor blades. Crunch always shaved with Personna Super Stainless Steel Blades, and if that doesn't show good sense, I am Rex the Wonder Horse. No other blade shaves you so comfortably so often. No other blade brings you such facial felicity, such epidermal *elan*. Personna Super Stainless Steel Blades take the travail out of shaving, scrap the scrape, negate the nick, peel the pull, oust the ouch. Furthermore, Personnas are available both in double-edge style and in injector style. If you're smart—and I'm sure you are, or how'd you get out of high school—you'll get a pack of Personnas before another sun has set.

But I digress. Crunch, as we have seen, was instantly smitten with Irmgard Champerty. All day he followed her around campus and listened to her talk about Franz Kafka and like that, and then he went back to his dormitory and found this letter from his home town sweetheart Mildred:

Dear Crunch:

*Us kids had a keen time yesterday. We went down to the pond and caught some frogs. I caught the most of anybody. Then we hitched rides on trucks and did lots of nutsy stuff like that. Well, I must close now because I got to whitewash the fence.*

*Your friend,  
Mildred*

*P.S....I know how to ride backwards on my skateboard.*

Well sir, Crunch thought about Mildred and then he thought about Irmgard and then a great sadness fell upon him. Suddenly he knew he had outgrown young, innocent Mildred; his heart now belonged to smart, sophisticated Irmgard.

Being above all things honorable, he returned forthwith to Cut and Shoot, Pa., and looked Mildred straight in the eye and said manlily, "I do not love you any more. I love another. You can hit me in the stomach all your might if you want to."

"That's okay, hey," said Mildred amiably. "I don't love you neither. I found a new boy."

"What is his name?" asked Crunch.

"Franz Kafka," said Mildred.

"I hope you will be very happy," said Crunch and shook Mildred's hand and they have remained good friends to this day. In fact, Crunch and Irmgard often double-date with Franz and Mildred and have barrels of fun. Franz knows how to ride backwards on his skateboard one-legged.

\* \* \*

*So you see, all's well that ends well—including a shave with Personna Super Stainless Steel Blades and Personna's partner in luxury shaving—Burma-Shave. It comes in menthol or regular; it soaks rings around any o'her lather.*

**BAT VISITS CENTER**

Along with other visitors inspecting the new Academic Center, workmen found a bat in the basement early Wednesday morning. Gene W. Frum, instructor of zoology, said the bat probably became aroused during the warm spell a few days ago and flew over from Old Main. The bat, which is a common type, is being kept in a refrigerator until it is turned loose to find a new home.
