# Two New Buildings Sought By Marshall

By **DANNIE FIELDS**  
Managing Editor

Marshall University will request funds from the 1967 Legislature for a new engineering-science building and a new communications center as a result of a recent trip to Morgantown by Dr. J. Stewart Allen, vice president of academic affairs.

Dr. Allen, who went to West Virginia University to review data of a space study made of Marshall last year, found that Marshall is badly overcrowded.

He found that the university is supposed to handle a maximum limit of 4,600 students. Last year it processed a total of 5,441.

"This means that we are operating at 140.2 per cent

efficiency in terms of classroom space," said Dr. Allen. "And even with the official enrollment figures still being processed, we are expecting the burden to be even heavier this year."

The engineering and science building will actually be an extension of the present science building. Engineering classrooms are being housed in temporary quarters because Main Annex, where it was previously located, will be torn down to make room for the new classroom building.

The communication center will house the new Educational television center, the campus radio station, the audio-visual center, a motion picture photography lab to process film for the educational television center, and a

combined newsroom operation.

"The space study, made for a report to the Joint Committee on Higher Education, was too late to make a request for last year's appropriations," said Dr. Allen.

The study showed Marshall to be behind many of the state colleges in most of the per capita allocations, and far behind in the area of physical equipment.

"This area, where we were eighth of nine colleges, is where we're really hurting," said Dr. Allen.

The area includes all of the physical materials needed to instruct, and hence process, a student.

Dr. Allen said that although the study showed a great disparity between its figures and what actually exists, no study of this type can be 100 per cent efficient.

## Enrollment Reaches High Of 8,138

By **LLOYD D. LEWIS**  
Editor-in-Chief

The registrar's office has released figures showing that Marshall's current enrollment — full and parttime and including branches and extensions — is a record 8,138 students, a 13.5 per cent increase over this time last year.

President Stewart H. Smith said of the situation, "In view of the student housing shortage, this enrollment is larger than anticipated."

Dr. Smith also pointed out that additional part-time faculty members have had to be employed to teach the new students, who represent an all-time high for the University.

And now another big annual question can be answered: are there more men or women on campus?

The statistics state the facts coldly: there are 3,806 full and parttime men on the main campus and — don't hold your breath, guys — 3,397 women here.

The full-time enrollment is 2,485 women and 3,038 men on the Huntington campus and they are taking a total of 83,117 full-time hours of credit.

A further breakdown of the figures shows there are 955 freshmen women and 1,191 freshmen men attending classes with 751 sophomore women and 775 sophomore men, 445 junior women and 539 junior men, 304 senior women and 460 senior men, 16 female and 54 male graduate students, and 14 female and 19 male unclassified students.

Arts and Science College leads Teachers and Applied Science colleges with 1,843 men and 686 women enrolled, for a total of 2,529 students. Teachers College comes in a close second, listing 1,658 women and 851 men full-time students, for a total of 2,509.

Applied Science has 290 men and 125 women, while the Graduate School has 54 men and 16 women.

Marshall's Logan Branch lists 153 women and 134 men, including 88 full-time women and 91 full-time men. The Williamson Branch, meanwhile, has 125 women and 103 men, which includes 61 fulltime women and 82 full-time men.

Extension courses in various fields have 420 students enrolled. These courses are taught in Pineville, Charleston, Williamson, Logan, Point Pleasant, Montgomery, Beckley, Ravenswood and St. Marys, W. Va.

**Fancy Twirling, Strutting With Band**

**GAY HILL**, Martinsburg freshman, one of Marshall's feature twirlers, leads the band onto the field at Morehead University during Saturday afternoon's half-time rehearsals (photo at left). In photo at right, Gay practices before the game. (Other photos, Page 7). (Photos by Thomas Johnson, staff photographer.)

### Sonis Outlines Changes

## Senate Gets Proposed Constitution

The presentation of the proposed Constitution of Marshall University was made by Larry Sonis, sophomore class president and chairman of the Student Constitutional Committee, to the Student Senate last Wednesday.

One major change in the structure of the Constitution would include a new method of apportioning senators. Instead of being elected by academic classification, senators would be elected from various areas of campus

life and interest.

These would include four senators from dormitories, four Greek representatives, five town residents, eight senators-at-large including two from each academic classification, and one graduate senator. This system, according to Sonis, is designed to draw representation from different groups on campus.

The new Constitution includes the election of a vice president for each of the academic classes as well as the president of each separate class. The vice president would be determined as the candidate who received the second highest number of votes for president.

Numerous other changes have been placed in the new Constitution which will be discussed and voted upon tonight by the Senate.

Campus unification and stu-

dent interest are the keystones of the proposed Constitution, according to Sonis.

"By itself, the document is neither a solution or a reformation," he said. "It is rather an opportunity—a chance for student government at our school and during our tenure to invoke self-improvement."

### Rally Set Friday

The Robe, men's leadership honorary, will hold a pep rally Friday at 7 p.m. in the field between 18th and 19th Streets.

The rally, to create spirit for the game between Marshall and Eastern Kentucky at Fairfield Stadium on Saturday, will be highlighted by a bonfire and snakedance. Cheerleaders, majorettes, band, and football team will be featured.

### Dr. Smith Looks At Campus Issue

In the second of a series of discussions, President Stewart H. Smith tells his views on the social issue of morality vs. immorality. See Page 2.

### Parthenon Editors Appointed

PRESIDENT STEWART H. Smith congratulates Lloyd Lewis (left), Princeton senior, newly appointed editor-in-chief of The Parthenon, and Dan Fields, Lavalette junior, managing editor.

**Dr. Smith Discusses Social Issue**

**'We Wish... To Encourage Morality'**

(Editor's Note: This is the second in a series of discussions by President Stewart H. Smith on the social issues of immorality, use of drugs, and alcoholism.)

By PRESIDENT STEWART H. SMITH

Questions pertaining to sex, morality and personal freedom are not new. They are as old as history. Your parents and grandparents faced the same questions as you do, only they were rarely discussed openly. Like you, they had to make moral decisions about physical relationships which were just as perplexing as the ones you must face.

Today, the issue of premarital sex is widely discussed. If we are to believe all that is written we should have to conclude that little restraint is shown by young people. Some critics, for example, believe that immorality is much more prevalent today among college students than in former years. Others disagree. Frankly, I think such polemics miss the point, although they have occupied moralists for many years.

Rather, we should ask ourselves where we intend to take a stand in regard to morality and immorality. You, as students, will be forced to take such a stand during your years at Marshall. We, as administrators, must likewise make clear our position in regard to these matters. Our position is clear. We wish to do everything possible to encourage morality and to discourage immorality.

It should be clear that the college cannot control the sexual behavior of its students. It can only state, in the most unmistakable terms, its expectations about acceptable behavior on campus.

The college should not intrude needlessly within the veil of a student's private life but only when the student's conduct makes it appear that the college condones or excuses immorality. It should also be recognized that bor-

derline cases can and do occur when a student believes that he is acting within this veil of privacy.

The Committee on the College Student, in its book, "Sex and the College Student," has stated:

"The university's approach to specific violations goes far toward establishing student understanding of the intentions of the institution and its grasp of their needs. No set of rules can ever cover the multitude of interpretations or the number of borderline or unusual incidents that occur. In these borderline incidents particularly, the real values and intentions of the administration become apparent. It is here that the student perceives the degree of maturity really expected of him; he learns whether or not he is being treated with respect, and whether or not his integrity is assumed."

Our position on immorality is as explicit as we think it should be. As stated in the Student Handbook, "the University requires that the student maintain a pattern of social behavior in keeping with good taste and high moral standards."

This is the policy. However, we recognize that there will always be some cases which are not covered by any policy. In such instances, each case will be reviewed on an individual basis with the benefit of any doubt being assumed in favor of the student.

But our concern should not be restricted to immoral behavior, as so often happens. Rather, I think a college or a university has the responsibility to help students develop value standards and moral codes. Toward this end we should have more discussions of moral questions on our campus in which students, faculty and administrators participate.

Insofar as most Marshall students are concerned, I believe that they have been taught by their parents to accept the moral codes sanctioned by society. I believe

that most of them have a deep concern for each other.

There are some, of course, who are seeking only immediate self-gratification without thinking about their future, or about the effects that their conduct will have on others. They look upon premarital sex as something exploitable. In doing so they reflect not only a lack of morals but a lack of maturity as well.

All religious and moral codes regard sex as the summation of feeling and the climax of love between men and women to be expressed after marriage. I believe in these codes. I also believe that much trouble could be avoided if parents talked honestly with their children about the issues involved. This lack of communication between parents and their children has led to the confusion, rebellion and charges of adult hypocrisy that we often read about.

In the absence of parent-child communications there is a need for the kind of teaching that puts into perspective the value of human life apart from instant gratification of personal desires. We need to make a reappraisal of the American concept of "pursuit of happiness." What some youths regard as "pursuit of happiness" is moral degeneracy and a misunderstanding of the nature of love.

I think that this kind of teaching can help students make the right decision when situations arise which tempt the flesh. As Dr. Smiley Blanton, a well-known psychiatrist, has said.

"Every day of your life, no matter how sheltered you are, you face some choice in which the wrong action is so seductive, so plausible, so pleasurable that it takes a conscious act of the will to reject it. Temptation is universal, as old as the Garden of Eden. Much of your happiness or unhappiness depends on your ability to handle it—instead of letting it handle you."

(NEXT: College students and drugs.)

**Letters To The Editor**

To The Editor:

It is with my best possible judgment and after much consideration that I have decided to resign from the presidency of the West Virginia Confederation of Collegiate Student Governments. My decision is effective immediately.

I am leaving this office primarily because of the element of time. Being heavily involved in local activities and classroom work, I would not be able to contribute an adequate amount of effort to the WVCCSG. If I honestly thought I would have the needed time, I would continue; but I do not, and I think it is both fair and expedient that I resign.

I remain eager to devote what quantity of work I can to the organization. As I find the time, I shall be more than happy to participate in the affairs of this potentially successful statewide network. Though I haven't the schedule required of an effective president, I would like to serve in some con-

structive manner.

I extend to every college and university in the state my sincere hope for the success and development of the West Virginia Confederation of Collegiate Student Governments.

LARRY SONIS,  
Charleston Sophomore

To the Editor:

Each year Marshall students are criticized for failing to give wholehearted support to their varsity football team. It is thus encouraging when a significant display of school spirit occurs at an athletic event.

Such was the case last weekend at the Morehead vs. Marshall contest in Kentucky. Although only a small segment of our student body was able to attend this game, one campus organization went out of its way and brought two buses of enthusiastic supporters.

I am speaking of Lambda Chi Alpha fraternity. If other members of the student body generated the amount of genuine spirit that this group showed last Saturday, we would have little if any difficulty in demonstrating campus unity to other colleges and universities.

I extend my congratulations to the Lambda Chi's and I urge them to continue their vigorous backing of our Thundering Herd.

LARRY SONIS,  
Sophomore Class President

**A Few Moments Of Quiet Study**

WITH BOOK in hand, this University student, photographed in the auditorium of Science Hall, escapes the campus world outside for a few moments of quiet study. The photograph was taken through the auditorium's door window.

**ORCHESTRA REHEARSALS**

Marshall University Community Orchestra will hold its weekly rehearsals at 7:30 Tuesday evenings in room 109 of the Music Building, according to Alfred P. Lanegger, associate professor of music. More string players are needed for the first concert Nov. 12 at Keith-Albee Theater. All interested persons should contact Professor Lanegger or Dr. Lawrence C. Kingsbury, professor of music.

**Dean Of Students Says \$3,000 Grant Lacks Candidates**

No candidates have been named for the Benedum Foundation student counseling training grant this semester, according to James R. Vander Lind, associate dean of students.

"Because of the late date on which we received the grant," Dean Vander Lind explained, "there were not enough qualified candidates available when we wanted to initiate the program." The candidates are expected to be named next semester.

Dean Vander Lind said that the Office of Student Affairs has received a \$3,000 grant from the Claude Worthington Benedum Foundation for the purpose of establishing an internship program in student personnel work.

Marshall will cooperate with Ohio University in training two candidates for the Ph. D. in counseling. Each will receive \$1,500.

"The program is open to students who have as their goal student personnel work in higher education," Dean Vander Lind said.

Students interning in this program will work for a semester at Marshall in the Office of Student Affairs to gain experience in financial aid, student housing, counseling, working with all phases of student activity, such as student government, sororities, and fraternities.

**ON VACATION**

Dr. J. Frank Bartlett, dean of the College of Arts and Sciences, is on vacation and will not be in his office this week. He will return to campus Monday.

CHECKS CASHED

SPECIAL CHARGE ACCOUNTS FOR STUDENTS

## New Staff, Plans Due For C. J.

A bigger and better Chief Justice is planned for 1966-67, according to James Martin, director of information and publications.

"Last year's problems were due to a collapse of an experimental structure within the framework of the Chief Justice," Mr. Martin told the Student Senate last Wednesday. He also said that this unfortunate situation resulted in emergency publication of the 1965-66 edition.

At the request of President Stewart H. Smith, Mr. Martin asked the Senate to consider a late summer delivery date for the 1966-67 Chief Justice. This change in date would allow for a substantial discount from the publishing company and would allow for the inclusion of spring sports and activities.

Part of the savings made possible by the later delivery date would be used to mail the publication to graduating seniors at their request. The Senate approved the later delivery date for 1966-67.

A new format including more pictures and an enlarged sports section are planned, according to Mr. Martin. He also said that all groups will be represented equally.

Students and faculty who missed yearbook portraits during regular registration are urged to have their photographs taken within the next week or 10 days at Ma'Del Studios.

Other students and faculty, including graduate students, may arrange for yearbook portraits Sept. 23-30 at the Student Union. A representative from Ma'Del Studios will have a booth in the Student Union during that period.

Key staffers for the 1966-67 Chief Justice staff were also approved by the Senate. Al Butto, Weirton junior, will serve as editor-in-chief; Sherry Allen, Beckley junior, will be managing editor; and Jim Jordan, Omar junior, will be business manager.

These three officers will appoint other staff members to assist in compiling the publication. Mr. Martin will serve as editorial adviser.

## Graduate Record Exams Announced

Dates of Graduate Record Examinations (GRA) have been announced by the Educational Testing Service at Princeton, N. J.

The national program will begin its 1966-67 testing program Oct. 29, 1966, at centers throughout the United States. Five additional tests will be given Dec. 17, Jan. 21, Feb. 25, April 22, and July 8.

The Examination is required or recommended of candidates for admission to many American graduate schools and of applicants for graduate fellowship awards. The exam offers an aptitude test of general scholastic ability and advanced tests of achievement in 21 major fields of study. Candidates may take the aptitude test and one advanced test on any one of the six testing dates.

An advanced test in geography will be offered for the first time this fall.

Information on the GRA may be obtained from the Graduate School or directly from the Educational Testing Service, Box 955, Princeton, N. J., 08540.

### Computer Center Receives Gift

A NEW COMPUTER donated by Appalachian Power Company is accepted by Dr. J. Stewart Allen (left), vice president of academic affairs, and George Mendenhall, director of the Computer Center, from Bob King (right), administrative assistant of Appalachian Power Company.

## Power Company Gives IBM Computer To MU

A gift of an IBM 650 Electronic Data Processing system has been made to Marshall University by Appalachian Power Company.

The equipment was accepted Friday morning at the new university maintenance building by Dr. J. Stewart Allen, vice president of academic affairs; George Mendenhall, director of the Computer Center, and Ray Cumberledge, assistant registrar.

Hugh D. Stillman, Huntington division manager of Appalachian Power explained that the company had been using the computer on its accounting and operating procedures but after installing a more sophisticated system the machine was phased out of the operation.

"This freed the 650 system and after conferences with Dr. Smith and other Marshall officials, we found that the university could put it to good use," Stillman added.

Marshall is already using a smaller computer system, and the new equipment will allow the school to expand its operations. The new equipment will be installed in the basement of Old Main, adjacent to the existing equipment.

University officials say the new data processing system will be used to complement the present 1620 system.

The Computer Center, located in the basement of Old Main, is used for administration, research and instruction. The center makes its facilities available to area businesses and institutions by special lease arrangements.

The equipment was shipped from Roanoke, Va., and is now being installed at the university. The system consists of three machines and seven control panels weighing nearly 7,500 pounds.

### TICKETS AVAILABLE

"Half a Sixpence," the opening event on the Artists Series calendar for the year, will be Monday and Tuesday at Keith-Albee Theatre. All full-time students may obtain a ticket by presenting their activity card and I. D. card in the rear of Old Main Hall from 8 a.m. to 3 p.m. Monday and Tuesday.

### Housing Problem Is Solved--Cohen

The housing problem has been solved for the fall term, according to Ken Cohen, housing director. All students have been housed in dormitories or in off-campus housing.

All the dormitory spaces are filled to capacity. Off-campus, there are 74 men living in the Hotel Prichard and 48 men in Rowley Hall, a former medical clinic located on Sixth Avenue. Other students are living in private homes or apartments.

Near the 16th Street entrance to the campus, two new private women's apartment buildings are housing approximately 80 girls.

Preliminary plans for the construction of four additional floors on South Hall have been approved by the State Board of Education. The addition will accommodate 268 more students to raise the dorm's capacity to 500.

Plans are also being made to renovate Hodges Hall and Laidley Hall. Plans are also being made for the construction of a Twin Towers dormitory on the Kroger lot.

## MU Parking Problem Viewed By Dr. Allen

By BARBARA RAINS  
Staff Reporter

"The Marshall parking problem is not so severe as at other schools."

This was a comment on the parking situation on campus by Dr. J. Stewart Allen, vice president of academic affairs and member of the Space and Physical Facilities Committee.

The new influx of students creates more cars and more traffic. Dr. Allen explained that the main reason for the parking problem was the compact layout of the campus. There are limited lots set aside for parking, and they are all on the outskirts of the campus.

Parking in the Science Hall parking lot has been hampered by the Library construction work. Dr. Allen said this was temporary, and the majority of the spaces will be returned.

On completion of the new classroom building, underground parking will lighten the faculty parking load.

Most of the campus parking is zoned. Dr. Allen listed these zones as:

- A — Behind Northcott and Student Union (loading and unloading).
- B — Beside Old Main (campus vehicles, faculty).
- C — Science Hall (faculty).
- D — Gullickson Hall (campus vehicles).
- E — South Hall (students).
- F — Kroger Lot (students).
- G — Maintenance Building (students).

Parking permits may be obtained from Steve Szekely, superintendent of buildings and grounds in the Maintenance Building.

Dr. Allen added that these permits were free to the student.

The Space and Physical Facilities Committee, headed by Joseph Lichtenstein, associate professor of Education, is working to create more parking spaces.

Dr. Allen said, "I am commenting as a member of the administration interested in the parking

problem. There is no college with an increasing enrollment that does not face a greater demand for parking space."

## Fulltime Male Students Need Draftee Form

All fulltime male students registered with the Selective Service who have not already done so should report to the Registrar's Office to register for a Student Certificate of College Attendance.

All fulltime undergraduate male students should report to the Office of the Registrar to complete an SS-109 form. Fulltime graduate students registered with the Selective Service also should report to complete an SS-103 form.

These forms are completed only by individual student request and are the official notification to the Selective Service of college attendance.

Deadline for completion of these forms is Friday. Male students who have not yet registered with Selective Service should report to the Office of the Registrar to fill out an SS-109 form as soon as possible following registration with Selective Service.

ANSWERS 1. Half-way. After that, he is running out of the woods! 2. Three! And that's just about the story of the popularity of TOT Staplers. Students are buying them like crazy, because next to a notebook and a pencil, they're the hand-est little school item you can own!

# ROTC Enrollment Triples Since 1951

By BOB WITHERS  
Feature Reporter

The Marshall campus seems to be well protected this year as the Military Science Department welcomed the largest enrollment on record. Some problems are expected due to the increase.

According to figures released by Lt. Col. Patrick H. Morgan, professor of military science, the battalion has 505 cadets, a 170-man increase over last year. Incoming freshmen totaled 300, a figure which resembles last year's entire enrollment. There are 129 sophomores, 53 juniors, and 23 seniors.

Inclement weather forced the initial drill meeting into Old Main Auditorium, a policy that will be followed this year due to the increase. In past years the battalion has met by individual companies in classrooms on the second floor of Gullickson Hall on rainy days, but company strengths of 65 to 75 men will prohibit this.

In connection with crowded conditions throughout the University, the battalion has been given a different drill field, located between 18th Street and the 20th Street Baptist Church, and between College Avenue and Fifth Avenue. Physical education classes have been scheduled on all other fields appropriate for drill use.

A new company has been created to handle the load. In addition to Headquarters, Alfa, Bravo, Charlie, and Delta, this year Echo Company has joined the battalion.

The enrollment should provide adequate participation by ROTC personnel in extra-curricular activities sponsored by the Military Science Department, according to M. Sgt. Richard R. Giles, instructor of military science. These activities include the Drum and Bugle Corps, Pershing Rifles, Counterguerrillas, Scabbard and Blade Honorary Military Society, and the ROTC athletic and recreation program.

The jam has caused other problems, also. More sections of freshman and sophomore military science classes were added and extra chairs line the aisles in the classrooms. The supply room has requisitioned additional uniforms, textbooks, and weapons.

The local ROTC unit was organized in September, 1951, to prepare officers for duty in the Ordnance Corps, with an initial enrollment of approximately 150 cadets. In 1954, the curriculum was changed to general military science in order that cadets might select a branch of the Army for which they are best suited.

The ROTC Department handles many extra-curricular activities, such as the Military Ball, one of the outstanding social events on campus.

## HOME EC MEETING

The Home Economics Club will entertain prospective members at 4 p.m. Sept. 28, in room 114 of Northcott Hall. Diane Farley, Willow Wood, Ohio junior, is the president.

DAVID FROST  
... Guest Columnist

## WMUL Starts Season Oct. 2

WMUL-FM, Marshall's own radio station, will begin its broadcast year Oct. 2 at 1 p.m. The format of the opening broadcast will consist of classical music.

This year the station will be managed by Ann Bauer, Huntington senior, with Barbara Hensley, Huntington junior, as program director. Anyone interested in radio should attend the organizational meeting in Room S-13 at 11 a.m. tomorrow.

Announcers, engineers and continuity writers are needed by the station. No prior experience is necessary.

WMUL-FM is an educational radio station with programs produced and directed by the students of Marshall University. Popular, classical and folk music, along with special features, are broadcast weekdays from 3 to 10 p.m. at 88.1 on the FM dial. Classical music exclusively is broadcast on Sunday from 1 to 5 p.m.

## 2,400 Students Placed In Jobs

During the past two years, more than 2,400 students have been given part-time employment through the facilities of the Placement Office, and Robert P. Alexander, director of placement, says that if the past is any indication, the job prospects for the coming year are "good to above average." Mr. Alexander said that students wishing part-time employment during the school term should contact his office at once. Those students interested in summer employment next year should start looking on Dec. 1.

In a report issued by the Placement Office, the criteria used by employers who visited the campus followed these lines: academic record, personality, leadership in extra-curricular activities, military status, work experience, marital status, recommendations, and the company test.

The report stated that although many college male graduates were being classified 1-A after graduation, the trend was to be more lenient toward these students.

## Eyes Election

# Student Body VP Speaks Out

By DAVID FROST  
Student Body Vice President

The primary order of books and beanies having been disposed of, it is now time for the Freshman class to choose its student leaders.

Although the past two weeks have been hectic ones, crowded with trials and new experiences, a great deal of enthusiasm and interest has been generated, and certainly, questions are part of that interest. Here, then, I hope, are a few of the answers.

Every student desiring to have his name placed on the ballot, must, of course, register with the Election Commission. The registration period extends from Monday, October 3 to Wednesday, October 5, and all election filing is done in the Student Government Office.

As is required by our Constitution, all candidates must take the Student Government orientation test. Lectures providing candidates with the needed information will be given at 4 p.m. Oct. 5-6 in the Science Hall Auditorium. It must be noted that these two lectures are required, and that an unexcused absence is grounds for disqualification.

On Oct. 7, the test will be administered in the Science Hall again at 4 p.m. Results of the test will be posted on campus and all candidates are urged to score as high as possible.

Official campaigning begins Oct. 9 at 2 p.m. and reaches its peak on election day, Oct. 12.

The campaigning process itself usually includes the standard usage of signs, speeches, smiles and whatever else the candidates ingenuity can contrive. In addition, the Election Commission will set up engagements where the candidates can speak directly to campus groups.

Of course, this is only a brief sketch, and, no doubt, many of your questions remain unanswered. It is for this reason I hope that those interested in running for office will come to the Student Government Office and talk with us personally.

## Sororities, Fraternities Rush To Continue Through Sept. 30

This is the height of the rush season for both the sororities and fraternities.

The sororities began the rush season with a fashion show Sept. 10, however formal rush did not begin until the following Monday with the coke parties which lasted through Friday. The dutch treats, which were held on Friday and Saturday, concluded the first week of sorority rush activities.

The second parties began Monday and third parties will be held tomorrow at the time specified by the various sororities.

Silence will begin tomorrow

## INSURANCE INSTRUCTORS

William D. Skiles, staff manager for Commonwealth Life Insurance Co., and Hencie E. Merz, agent for Commonwealth, have been selected to teach life insurance training classes at Marshall this fall. The Life Underwriter Training Council has provided the course since 1947. The 26-week course, designed to help career life underwriters keep abreast of latest developments in life insurance, is part of a two-year program. Classes will be held weekly from October to May.

night after the parties and continue until Sunday at 3 p.m. when the rushees will receive their bids in the office of Mrs. Lillian H. Buskirk, associate dean of student affairs.

The fraternities started their rush Monday and will continue through Sept. 30. Each fraternity will hold two smokers. No invitation will be issued for these smokers and no registration is needed. Any interested male may attend and leave his name at the fraternity house.

The fraternities and sororities have their own rules for rush. Sororities require an upperclassman to have at least a 2.2 average from the previous semester to be eligible for rush, and a freshman must be admitted without warning.

Fraternities require an upperclassman to have at least a 2.0 average from the previous semester or an overall average of 2.0. Freshmen must be in good standing to rush.

## Soto's Father Dies At Home

Sandy Soto Sr., 84, retired coal miner and father of Joseph S. Soto, vice president of business and finance and secretary of the State Board of Education, died at 5:30 a.m. Monday at his home in Colcord, Raleigh County.

The body is at Valley Funeral Home in Whitesville, and the funeral will be in the Colcord Presbyterian Church. Other arrangements were incomplete at press time.

## MU Latin Courses Rated As Superb

Dr. Louise P. Hoy, chairman of the department of classical languages, reports that an American Classical Association committee on the training of teachers of Latin is reviewing the program of Latin instruction at Marshall.

Chairman of the committee, Sister M. Bede Donelan says the Marshall program has been recognized as among the best in the country.

Dr. Hoy pointed out that two Marshall graduates, of the Classical Language Department, have received scholarships and fellowships to Tufts University and Indiana University.

The American Classical Association met recently in Bowling Green, Ky.

## Freshman English Takes New Light

Revision of the English 101 syllabus to place emphasis on the study of the English language has been done this semester according to Dr. A. Mervin Tyson, professor of English and chairman of the English Department.

The new textbook includes discussions of the history of the English language, the dictionary, semantics, dialectal studies, comparison of British and American English, phonetics, and new linguistic attitudes.

Dr. Tyson said that students will do research on the English language and then write themes about their studies. He added that the work in English 101 will provide a background for English 102 and its study of literary types.

## Student Lobbyist Group Is Planned

A student lobbyist group is being formed of nine or 10 students for the purpose of informing legislators, chief administrators, and Gov. Hulett Smith of Marshall's needs, according to Larry Bruce, student body president.

All upperclassmen are urged by the Student Government to apply. Deadline for applications is Sept. 28 at 4 p.m. Applications may be obtained in the Student Government Office.

# Herd Defeats Morehead In Opener

**FULLBACK ANDY SOCHA (33)** picks up yardage around end in the fourth quarter of Saturday night's game against Morehead State. Making the tackle are **Tommie Gray (33)** and **Gary Virden (50)**. Marshall struck late in the final quarter to score a 27-20 victory in the season opener for the Herd. Note scoreboard in background. Staff Photo by Thomas Johnson.

## 'Fantastic' Running Of Jackson Attributes To 27-20 Victory

By **JIM JOHNSON**  
Sports Writer

"Fabulous" and "fantastic" were the adjectives Coach Charlie Snyder used in describing the determined running of star wingback Mickey Jackson in the Big Green's 27-20 opening win at Morehead State University last Saturday.

Jackson scored twice on runs of 83 and seven yards, and set up a third touchdown with a 52-yard punt return. Second in total yards rushing, Jackson tallied 71 yards in 13 carries to fullback Andy Socha's 78 yards in 15 carries. Jackson also had punt returns 20, 83, and 52 yards for a 51.66 average.

Commenting on the game, Jackson said it "had to be my most exciting contest. I was especially impressed with the way they (Morehead) fought back and matched us with every score." Asked about his open-field running ability, the fleet, Harpers Ferry senior said, "You have to be able to take in the whole field at a glance, so if you see a big wall of opposing tacklers it is time to reverse your field."

"The game plan," explained Coach Snyder, "was to open up early. This is exactly what we did. Gilbert (Herd quarterback) had a little bad luck with his early passing game, but I was well pleased with his first varsity game."

Gilbert completed seven passes in 15 attempts for 54 yards. This included a 10-yard pay-dirt pass to end Ken Simpson. Fullback Andy Socha, MU's leading ground gainer, provided the Herd's other touchdown with a 37-yard end sweep.

Summing up the defensive play, Coach Snyder said, "We have a lot of problems to iron out and not all of these mistakes can be contributed to inexperience." Bruce Wallace, Dennis Parker, Vic Ferrari and Herb Young were cited for their outstanding defensive play. Young suffered a torn ligament in the last play of the game.

The Thundering Herd takes on Eastern Kentucky University Saturday at 8 p.m. (EDT) in Fairfield Stadium.

### BAND BEING FORMED

A pep band is being formed to play for all home basketball games, announced Howard L. Bell, assistant professor of music. The nucleus of this band will be made of members of the University Marching Band, however Professor Bell said the pep band is open to any one who would like to join.

**HAL GREER**  
... '76'ers star

## Pro Teams Play Here Sunday

The city of Huntington and Marshall University will pay homage to Hal Greer when the Philadelphia '76'ers and the Boston Celtics meet in Memorial Field House Sunday, Sept. 25, at 7:30 p.m. Greer, a 1960 graduate of Marshall, is now playing professional basketball with the '76'ers.

The proceeds of the game will be used by the M. U. Alumni Association for Alumni sponsored programs, scholarships, loans and in the faculty recognition fund.

Governor Hulett Smith will present an award to Greer on behalf of the state.

Huntington Mayor Robert Robertson has proclaimed Sunday as Hal Greer Day and the Alumni Association and Downtown Improvement Group will honor Greer with special recognition.

"Most schools have fields on their campuses," said Cook.

Cook said that most of the players have returned and would be playing this season. If the freshman team is established, games between other freshman teams and the varsity team would be set up.

## Frosh Squad Dream Of New Baseball Coach

Baseball Coach Jack Cook announced Monday that an establishment of a freshman baseball team would profit the varsity team in the future. A freshman team would keep those freshmen players active during that one year they cannot play on the varsity and would give him a better look at the players, Coach Cook said.

In a meeting yesterday, Coach Cook met for the first time with the team as a whole unit.

Coming to Marshall from Huntington High School with a record of 178 wins, 39 losses and three state championships in the last six years, Coach Cook feels that it is Cook met for the first time with older men in a higher class of baseball.

Being the first full-time baseball coach in Marshall's history, Coach Cook added that a full-time baseball coach would help the team in that he would have more time to work with the men, get to know them better and have time to evaluate their abilities.

Fall practice will begin Sept. 26 at St. Cloud Commons, said Coach Cook. Coach Cook hopes to build interest in the team to attract a higher attendance at the games, but commented that the time element of getting down to the field in the West End of Huntington would discourage some students.

He also said that the field being at such a distance from the school, almost an hour back and forth, would be to the loss of the team's

**DENFENSIVE END Herb Young (87)** is carried from the field by **Trainer Ed Prelaz (left)** and an unidentified Morehead official after injuring his knee in Saturday night's game against Morehead State. Young is not expected to see action in Saturday's home opener against Eastern Kentucky University at Fairfield Stadium.

## Swim Team For Marshall? Dream May Become Reality

Marshall University has a chance to get in the swim, that is if at least 15 male swimmers come out for a new swimming team.

Danny Hyre, Clarksburg sophomore, has volunteered his coaching services and Dr. Frederick A. Fitch, professor of physical education, will serve as faculty advisor. The idea of a swimming team at Marshall is not a new one, but due to the work of Hyre it may become a reality. Hyre, who coached the Chestnut Hill and Lake Floyd swimming teams this summer, came back to school with the thought of promoting a swimming team at Marshall. Deciding to start at the top, he went to MU's Director of Athletics, Neal B. (Whitey) Wilson. Mr. Wilson co-operated by furnishing a promise of a schedule if the team materialized. Now it is up to the students. Interested male students may contact Hyre at 1402 5th Ave., or phone 522-9432. Dr. Fitch can be contacted at Room 107 A Gullickson Hall or phone Ext. 323. Deadline for try-outs is scheduled for Oct. 1.

### MU HOME GAMES

Marshall will play five home games this season. The dates and game times are Eastern Kentucky University, Sept. 24 at 8 p.m.; Miami University, Oct. 15 at 8 p.m.; University of Louisville, Oct. 22 at 2 p.m.; Western Michigan University, Oct. 29 at 2 p.m. and Kent State University, Nov. 2 at 2 p.m. All games will be played at Fairfield Stadium.

# Fifty-Eight New Members Join Staff

To meet the University's bulging enrollment and expanded services, 58 new faculty and staff members have joined the campus family.

Newcomers, their positions and their highest academic degree are: Mrs. Roberta Renn Absher, instructor in English, M.A., West Virginia University; Richard Lowell Adkins, assistant professor of Engineering, M.S., Ohio State University; Miss Sara Anderson, professor of Business Administration, Ed.D., Indiana University; Donald W. Beistel, assistant professor of Chemistry, Ph.D., University of Delaware; Mrs. Lucy Berg, instructor in Modern Languages (Spanish), M.A.T.S., University of New Mexico.

Alfred Wayne Blatter, assistant professor of music, M.M., University of Illinois; James Otis Brumfield, instructor in Biological Sciences, M.S., Marshall University; Hilbert H. Campbell, assistant professor of English, Ph.D., University of Kentucky; Emory W. Carr, instructor in Modern Languages (German), M.S., West Virginia University; Richard R. Carroll, instructor in Economics, M.S., Florida State University.

Robert W. Glick, instructor in English, M.A., Memphis State University; Jack Wallace Cook, instructor in Physical Education, M.A., Marshall University; Larry T. Coyer, instructor in Physical Education and assistant football coach, A.B., Marshall University; Norman Curry, instructor in English, M.A., West Virginia University.

Barry Philip Davis, assistant instructor, Laboratory School, B.A., University of Montana; Fred DeMaio, sergeant major, instructor in Military Science; Thomas R. Dorworth, instructor in Psychology, M.A., Marshall University; Mrs. Rosemary Walker Dunne, instruc-

tor in Modern Languages (French), M.A., Ohio State University; Miss Alice Estervog, assistant professor of Art, M.Ed., University of Minnesota; Chester N. Fannin, assistant professor Education, M.A., West Virginia University.

Mrs. Nancy Glaspell, instructor in Nursing, B.S., Alderson-Broadus College; George James Harbold, professor of speech, Ph.D., Ohio State University; Mrs. Louise Plymale Hutchinson, supervisor of certification, M.A., Columbia University; Richard Jennings, instructor in English, A.B., University of Kentucky; Miss Carolyn Karr, instructor in Social Studies, M.A., Marshall University; James Richard Keller, instructor in Mathematics, B.S., Marshall University; Habeeb Albert Khayat, assistant professor of Political Science, Ph.D., American University.

David Lindsley, instructor in Business Administration, M.B.A., University of Michigan; Capt. Bruce D. MacLean, assistant professor of Military Science, B.S., University of Massachusetts; J. Timothy McMahon, instructor in Business Administration, C.P.A., American Institute of Certified Public Accountants; Robert F. Maddox, instructor in History, M.A., Marshall University.

Miss Mary Eleanor Marshall, instructor in Physical Education, M.S., University of Tennessee; Chalmers Edward Means, assistant professor of Education, M.S., Bucknell University; Stephen Nymick, acting director of Placement, B.B.A., Marshall University; C. Denis Ortlbe, instructor in Business Administration, M.B.A., University of Missouri; Thomas A. Parnell, assistant professor of physics, Ph.D., University of North Carolina; Mrs. Virginia Glynn Payne, assistant professor of Education, M.S.E., University of Arkansas.

William J. Powell, instructor in English, M.F.A., State University of Iowa; Ishwar Pradip, assistant professor of Botany, Ph.D., Louisiana State University; Joe L. Roberts, assistant professor of Chemistry, Ph.D., University of Cincinnati; Robert Ellis Rowsey, instructor in Biological Science, M.A., Marshall University; Robert Savage, instructor in English, M.A., State University of Iowa; Wesley Lee Shanholtzer, instructor in Physics, M.S., West Virginia University.

Miss Judy Kay Smith, instructor in Speech, M.A., Marshall University; Theodore L. Soistmann, Jr., assistant professor of Education, D.Ed., University of Tennessee; Harry Sowards, assistant professor of Education, M.A., Marshall University; Charles Ross Stephen, assistant professor of Geography, M.A., Marshall University; Phil Edward Suiter, assistant professor of Education, M.A., Marshall University.

Martin Sytsma, associate professor of Economics, Ph.D., University of Rotterdam; Mrs. Joan Brand Townsend, instructor in English, Williamson Branch, M.A., Marshall University; Mrs. Kathryn Venables, instructor in Sociology, M.A., Marshall University; Mrs. Carole Allen Vickers, assistant professor of Home Economics, M.A., Marshall University; Harold W. Watkins, instructor in Science, Logan Branch, M.S., Marshall University.

Warren Stewart Way, instructor in Physical Education and assistant basketball coach, M.A., West Virginia University; Mrs. Jane Flaherty Wells, instructor in English, M.A., Marshall University; Duncan Williams, associate professor of English, M.A., Oxford University; Frank S. Willis, director of food service, B.S., Cornell University.

## Gemstone Collection Donated To Museum

The Geology Museum was the recipient during the summer of a large private collection of cut and polished gemstones, which have now been placed on display. This collection, totalling over 100 specimens, includes emeralds, aqua-marines, sapphires, garnets, tourmalines, rubies, zircons, spinels, and citrines, as well as other lesser kinds.

The various stones occur in all colors, and are cut in various shapes and sizes, ranging from one-half carat to as large as 40 carats, the latter being an unusually fine garnet.

This collection was donated to the Geology Museum by Richard Juergens of Juergens & Anderson, a prominent gemstone company in Chicago. The specimens represent a portion of Juergens' private collection amassed by him during the past half century. W. A. Thompson

of the local firm of Reuschlein Jewelers, and Marshall alumnus, was instrumental in obtaining the collection from Juergens.

With the addition of these specimens, the Geology Museum now has among its exhibits what may be the most complete gemstone collection in this region of the United States. Nearly every kind of gemstone is represented, usually with the cut and polished gems exhibited along with rough natural examples of the respective stones as found in the ground. There are also examples of synthetic stones exhibited for comparison.

The museum is located on the third floor of the Science Building, and is operated as a part of the Geology Department. It is open on week days from 8:30 to 4:00 p.m.

### REVIEW SLATED

Dr. Hilbert H. Campbell, assistant professor of English, will have a review of Lodwick Hartley's "Laurence Sterne in the Twentieth Century" published in the October issue of "Papers of the Bibliographical Society of America."
