Ground Is Broken For Two Buildings

Part Of Ceremony Staged In Old Main; Need Cited For Student Union, Dorms

By HARRY FISHER
Staff Reporter

Ground-breaking ceremonies for the construction of a seven and one-half story classroom and office building and a three-story music building took place Tuesday morning at the corner of Third Avenue and 16th Street. Cold weather forced part of the ceremony to be moved into Old Main Auditorium.

After the invocation by the campus counselor, brief addresses were given by President Stewart H. Smith; Huntington Mayor Jack B. Meek; State Senator Lyle A. Smith, Democrat from Cabell County; Herbert K. Baer, secretary of the West Virginia State Board of Education; and Steve Goodman, president of the Marshall student body.

Student Union Next

President Smith said that in addition to the new building, construction would probably be started within the next year on the new Student Union. He also said he hoped that two women's and one men's dormitory could be built in the near future. President Smith told how new buildings were being financed under a new type of legislation passed in 1963 allowing for the retention of tuition fees to pay off bonds.

Mr. Baer lauded the University's growth and saw the new construction as the first of four or five large buildings on campus. Concluding his address, Mr. Baer said that Marshall had gone from a "good college" to a "good university."

Senator Smith cited the progress of the University under the leadership of President Smith, noting the construction of Gullickson Hall, the addition of University Heights, and the acquiring of university status.

Students To Benefit

Goodman said the building will make for a better academic attitude for the students.

After the University Band played "The American Legion March" and sang the "Alma Mater", the dignitaries went to the construction site for the actual ground-breaking.

Rev. William Villers, Methodist

Dr. Bernard Poindexter, Robert Nelson, and Freda Paul, state legislators from Cabell County also took part in the ceremony.

The \$3.8 million building is expected to be completed by January 1, 1967. The building will be air-conditioned, sound-proofed, and will have an underground parking area for the faculty, and will be served by escalators.

The buildings will be the new home for the Departments of Music, Speech, Art, Language, History, Journalism, Sociology, Mathematics, English, Business, Social Studies, and Geography. It will also have faculty offices and Music practice rooms and a recital hall.

Constitution Test Case Being Heard

The Student Court heard opening arguments Tuesday in the trial of Sen. Jack Hill vs. the Student Government constitution amendments.

Chief Justice Wendell English later recessed the court until last evening at 6 p. m. so that the respondent for the Senate Stephen Dare, Melbourne, Fla., sophomore, could prepare his case.

"I contend," said Sen. Hill, Huntington senior, in his opening remarks, "that those amendments ratified in the election of March 17 should be declared null and void because of certain voting irregularities."

Dare said:

"It will be my stand that those amendments were voted by regular procedure, and that they should stand as ratified."

Exciters To Sing

THE EXCITERS, United Artists recording stars, will perform at The Spring Weekend Dance at 8 p. m. Saturday in the Memorial Field House. The Exciters, whose best known recording is "Tell Him," have toured with the Beatles.

An Editorial

Thanks! You Didn't Forget

Congratulations, Marshall University! You didn't forget. Intramural fields will be included in your expansion.

Already a new women's dormitory has been completed. Buildings on the Area G lot have been razed. Groundbreaking has begun for a new classroom building on the front intramural field.

A very important part of educational achievement has not been omitted. Marshall is not forgetting about physical fitness—at least not where intramural fields are concerned.

Dirt from the foundation hole for the new classroom building will not be dumped on the Central Intramural Field until this summer. This will not prohibit playing the remaining intramural softball games. The earth will be used to build a much needed smooth playing surface on the Central Field.

Next year, the intramural football games will be played on the Area G lots while the dirt from the new foundation is getting settled and prepared on the Central Field. After the Central Field has been sufficiently prepared, sports will resume there.

The members of the intramural sports owe a hand of thanks to the planning commission for the 10-year growth plan. They have realized that intellectual achievement goes hand-in-hand with physical fitness.

The Speech and Music Departments' production has a cast of 44 students and a 34-piece orchestra. Conducting the orchestra will be Alfred Lanegger, associate professor of music.

Advance Summer Registration Set

Advance registration for the summer session will be held May 8 and 15 from 8:30 a. m. to 11 a. m. According to Luther E. Bledsoe, registrar, students will register on the second floor of Old Main.

The procedure is basically the same as for pre-registration for the fall terms. Complete information is contained in the summer session bulletin available in the Registrar's office. Mr. Bledsoe recommended that as many as possible should register in advance for the summer session since regular registration on June 9 is expected to be heavy.

SWINGING AT REHEARSALS are Tom Wilcox, Huntington senior and Judy Kirtley, Huntington freshman. Tickets will be available to the public Monday.

Tom Langfitt Is Marshall's Newest Double-Threat Star

By WOODY WILSON
Feature Writer

He was the only junior awarded first team All-MAC basketball this past season and now is leading Marshall's baseball squad in every hitting department.

This is Tom Langfitt, Washington, Pa. junior — basketball star and now baseball star.

Langfitt, when asked about playing two sports in college, said, "It gets rough sometimes

but I like both sports. I came to Marshall on a basketball scholarship but I also wanted to play baseball. An injured knee kept me from playing last year in baseball. All in all, playing two sports for me hasn't been so bad."

Langfitt was born Sept. 8, 1944 in Washington, Pa. He attended Washington High School in Pennsylvania and while there, was awarded two letters each in basketball and baseball.

During one summer in high school, he made All-State in American Legion baseball.

After graduating from Washington High School in 1962, Langfitt signed a basketball scholarship to Marshall.

In his 1962-63 freshman basketball year, Langfitt led the Little Green in scoring with an average of 15 points.

In his sophomore season Langfitt showed brilliance although hampered by an early knee injury. He led the varsity in scoring with a 15.5 average and scored 357 points in 23 games.

This past season, Langfitt's junior year, was topped off by his being named first team All-MAC. He led the Big Green team in about every department.

Langfitt's scoring average for the season ended up at 21.2 but in the conference it was 22.0, ranking behind Dave Anderson of Western Michigan only. He also led Marshall in field goals, 216; field goal percentage, 454; field goal attempted, 476; and foul shooting percentage, .786.

Now, Langfitt has turned to baseball at Marshall for the first time and is leading the Big Green squad in every hitting department.

His batting average is a respectful .286 and along with this has 10 hits, 7 runs scored, and 8 runs batted in.

Langfitt, who had a B average in high school and maintained a high C average in college, hopes to graduate from Marshall in January of 1967 with an AB degree in Physical Education.

If he continues at this pace, Langfitt will take his place along side of such greats at Marshall as Walt Walowac, Carl York, Sonny Sirianni, Hal Greer, Bill Zban, Jim Swierczek, and Leo Byrd as two sport stars.

Weary Big Green Nine Hosts Morris Harvey

Marshall's weary baseball squad, now 3-10 for the season, hosts Morris Harvey today in search of its fourth victory.

The Big Green lost its ninth and tenth games of the season Tuesday to Morehead State at Morehead, Ky. in a double header, 3-0 and 3-2.

Morehead's John Capelle topped lefty John Mullins of Marshall in the first game by throwing a four-hit shutout.

Tom Patterson, Lowell Leach, Tom Langfitt, and Dan Hatrley had the four Marshall hits. Patterson's was a double while the

others were singles.

Right fielder Don McGinnis drove in all three Morehead runs in the first game, two of them following two Marshall errors in the third inning. He had two for two at bat, one of which was a hard double.

In the second game Marshall had a 2-1 lead going into the last inning, needing only one out for a split. But shortstop Tom Langfitt threw wildly on Morehead's Jim Mastrodicasa's grounder, allowing the tying run to score. Joe Campbell, a junior center-fielder, then singled in the winning run.

Righthander Mike Fullerton took the hard luck loss in the second game for the Big Green. It evened his record at 2-2 for the season.

Harold Sargent, who pitched the last two innings for Morehead and held the Green scoreless, was credited with the second game win.

Maroon, Redskin Net Teams Here

The Big Green tennis team has a full schedule this weekend playing matches today and tomorrow at home with Miami University and Eastern Kentucky. Both matches are scheduled at 1 p. m.

Tuesday the MU netters suffered their second setback of the year, dropping a 7-2 decision to Eastern Kentucky.

Marshall's only victories were scored in singles by sophomore Gary Jefferson and in doubles by Jefferson and fellow sophomore Craig Wolverton.

The Thundering Herd played its first home match of the season yesterday with Morris Harvey College.

Golfers Lose 4th; At Kent Today

The Big Green golf team suffered its fourth setback of the season Tuesday when they were defeated by Ohio University, one of the teams the Green downed earlier in the year. The score of the match was 16-8.

Ohio captain Bobby Littler, Jr. led his team in beating Marshall by shooting a two-under-par 70 to win his match over Dick Shepard who fired a 72.

The Thundering Herd, now with an 8-4 record, thumped Ohio several weeks ago, 19-5, but the home course advantage was the prevailing factor again in Tuesday's loss.

The only victories turned in by M. U. golfers were by Joe Feaganes, Huntington junior, and Pete Donald, Huntington sophomore. Feaganes fired a 74 to down Steve Komarc 4-0 and Donald beat Bill Ritter 3-1 with a 77.

Tomorrow the Big Green linksters will travel to Kent State for a match following yesterday's triangular match with Toledo and Bowling Green.

VOYAGE TO THE BOTTOM OF THE BARREL

As everyone knows, thirteen-twelfths of the earth's surface is water. Thus we can see how important it is to know and understand our oceans. Toward this end American colleges last year embarked on a program to increase enrollment in oceanography. I am pleased to report that results were nothing short of spectacular: In one single semester the number of students majoring in oceanography rose by 100%—from one student to two!

But more oceanographers are still needed, and so today this column, normally a vehicle for slapdash jocularity, will instead devote itself to a brief course in oceanography. In view of the solemnity of the subject matter, my sponsors, the Personna Stainless Steel Razor Blade Co., makers of Personna Stainless Steel Razor Blades which give you more luxury shaves than Beep-Beep or any other brand you can name—if, by chance, you don't agree, the makers of Personna Stainless Steel Razor Blades will buy you a pack of whatever brand you think is better—my sponsors, I say, the Personna Stainless Steel Razor Blade Co. will today, because of the solemnity of this column, forego their usual commercial message.

We begin our study of oceans with that ever-popular favorite, the Pacific. Largest of all oceans, the Pacific was discovered by Balboa, a Spanish explorer of great vision. To give you an idea of Balboa's vision, he first saw the Pacific while standing on a peak in Darien, which is in Connecticut.

The Pacific is not only the largest ocean, but the deepest. The

...the Pacific was discovered by Balboa, a Spanish explorer of great vision.

Mindanao Trench, off the Philippine Islands, measures more than 5,000 fathoms in depth. (It should be pointed out here that ocean depths are measured in fathoms—lengths of six feet—after Sir Walter Fathom, a British nobleman of Elizabethan times who, upon his eighteenth birthday, was given a string six feet long. Many young men would have sunk in a funk if all they got for their birthday was a string six feet long, but not Sir Walter! String in hand, he scampered around the entire coast of England measuring seawater until he was arrested for loitering. Incidentally, a passion for measuring seems to have run in the family: Fathom's grandnephew, Sir John Furlong, spent all his waking hours measuring racetracks until Charles II had him beheaded in honor of the opening of the London School of Economics.)

But I digress. Let us, as the poet Masefield says, go down to the sea again. (The sea, incidentally, has ever been a favorite subject for poets and composers. Who does not know and love the many robust sea chantees that have enriched our folk music—songs like "Sailing Through Kansas" and "I'll Swab Your Deck If You'll Swab Mine" and "The Artificial Respiration Polka.")

My own favorite sea chanty goes like this: (I'm sure you all know it. Why don't you sing along as you read?)

O, carry me to the deep blue sea,
Where I can live with honor,
And every place I'll shave my face
With Stainless Steel Personna.

Sing hi, sing ho, sing mal-de-mer,
Sing hey and nonny-nonny,
Sing Jimmy crack corn and I don't care,
Sing Stainless Steel Personna.

I'll harpoon whales and jib my sails,
And read old Joseph Conrad,
And take my shaves upon the waves,
With Stainless Steel Personna.

Sing la, sing lo, sing o-lee-a-lay,
Sing night and noon and morning,
Sing salt and spray and curds and whey,
Sing Stainless Steel Personna.
