# Space Capsule Due At Fair

## The Parthenon

### Vets' Club Exhibit Set April 10-11

MARSHALL UNIVERSITY STUDENT NEWSPAPER

Vol. 63

HUNTINGTON, W. VA.

WEDNESDAY, MARCH 25, 1964

No. 51

**Outside: A Seasoned Space Traveler**

THE MERCURY 7 space capsule as it appears from the outside. Attached to the nose of a rocket, this capsule has taken astronauts John Glenn, Scott Carpenter, and Walter Schirra into orbits around the world.

**Inside: A Little Bit Like Disneyland**

AN INTERIOR view of the space capsule, displaying the many delicate instruments which make the complex mechanism function. This exhibit will be one of several on display at the annual Science Fair April 10-11.

By JOHN GARTIN  
Staff Reporter  
And PAT BLAIR  
Feature Writer

All systems are "GO" as NASA gives the "A-OK" sign for the Mercury 7 space capsule to be exhibited at the Marshall Science Fair April 10-11 in Gullickson Hall.

The Veteran's Club formulated the idea in December for the purpose of making a worthwhile contribution to the high school science fair.

To acquire permission for the space capsule to be displayed, many requirements had to be fulfilled. Contacts and telegrams were required between the Veteran's Club and NASA (National Aeronautics and Space Administration) officials. Requirements from the Washington, D. C. offices were very explicit. They required: (1) a floor exhibit of 10 feet by 10 feet; (2) expected attendance at exhibition; (3) will there be security protection for display; (4) size(s) of all doors which exhibit will pass through, and many, many more.

A major problem arose when it was learned from the NASA headquarters that the doors that give access to the gymnasium were not large enough for the capsule to pass through and therefore would have to be widened before the official decision would be given.

Representative of the Veteran's Club deliberated with buildings and grounds and it was learned from them that they would make the necessary changes in structure to allow enough room for the transportation of the capsule into the gym.

Spectators and participants of the science fair will be able to view the type of capsule that was used by astronauts John Glenn, Alan Shepard, Virgil Grissom, and Scott Carpenter.

Added attractions will be movies on the Mercury Space Program; floor exhibits of a life size space suit 6½ feet high; a large panel with a cutaway of a Mercury capsule showing the missile mechanism, controls and the astronauts in flight position; a life-size mannikin of an astronaut in the molded seat and the various surrounding equipment; a three dimensional model of the instrument panel of the Mercury capsule; charts and photographs describing some of the known requirements for manned space flight, tolerances, acceleration, and astronaut selection and training.

Also five panel exhibits with photographs and captions describing the orbital flights of astronauts Alan Shepard, May 5, 1961; Virgil Grissom, July 21, 1961; John H. Glenn, Jr., February 20, 1962; M. Scott Carpenter, May 24, 1962, and Walter Schirra, October 3, 1962.

The Veteran's Club is working with Congressman Ken Hechler's office in an attempt to bring an astronaut or a NASA official to give talks and critiques on the Mercury Space project.

According to NASA officials, the capsule is scheduled to arrive on campus on, or about April 8 or 9.

## Court's Anti-Vote Ruling Rapped

By GARY KEARNS  
News Editor

Several members of the Student Senate voiced their disapproval of the Student Court's recent decision declaring the proportional - representational voters' registration system null and void at the senate's session last week.

And it was the belief of most of these senators that the court's decision should be reconsidered.

Paul Wetherall, Huntington senior and chief justice of the Student Court, presented a second court report in as many weeks to the senate explaining the basis

of the court's decision.

Week before last the Student Senate had rejected the minority report and the majority report, which were both presented by Wetherall. Fred Reeder, Huntington junior and a justice on the court, answered questions concerning the majority report.

(Reeder has since resigned his court position. He filed Monday to run for student body president in the upcoming April 8 election).

Last Wednesday Chief Justice Wetherall told the senate that the system had been ruled unconstitutional because it "violated part of the manual which states that the number of class representatives is based upon increased enrollment."

A debate ensued with some senators questioning the theory that the Student Court possessed the power to declare a portion of the Student Government Constitution unconstitutional.

"We have original jurisdiction," Wetherall stated. "We are able to do it — and we did it."

Ken Gainer, Charleston senior and student body president, wanted to know if the Student Court should reconsider its decision.

Wetherall replied, "If you feel this way, then appeal the decision."

The senate has the right to appeal the court's decision to President Stewart H. Smith.

David Todd, Huntington senior senator, said, "You're overstepping your powers, it seems to me. If something is in the con-

stitution, then it's constitutional."

Wetherall told the senate that he hoped the matter would be taken to Dr. Smith. "If we are wrong, then I want him to point it out," he said.

He added that he would take the senate's arguments back to the court, and would present another report to the senators tonight.

During the long debate, several senators asked who or what body checked the judiciary, since the Student Government follows the setup of the national government somewhat in the system of checks and balances.

The Student Senate rejected both the court's minority and majority reports concerning its decision two weeks ago for the main reason that it was incom-

patible with the Student Government Constitution.

The proportional - representational system is a method of determining, on a percentage basis, how many senatorial representatives each class may have, all according to the number of students voting from each of the respective four classes.

Danie Stewart, Barboursville sophomore, proposed the system last spring in the Student Senate. It was to be used for the first time in the April 8 election.

The Stewart system replaced the semi - proportional system, which previously had been in existence.

The Student Senate also last week ratified Larry Bruce of Huntington as a freshman alternate senator.

### Reeder Files For Top Position

Fred Reeder Huntington junior, filed for student body president Monday to run in the upcoming April 8 general election.

Reeder, who has served as a justice on the Student Court this year, sent a letter to Student Body President Ken Gainer, Charleston senior, in which he announced his plans to run for the top Student Government office. In the letter, Reeder said that he was planning to resign from the Student Court in order to run for the student body presidency.

Students may file as candidates for student body president, vice president, a class presidency or a class senatorial seat in the Student Government Office until noon tomorrow, the deadline.

Filing began Monday at 8 a. m. All those students who have filed over the four-day filing period this week are required to attend a parliamentary lecture in the Student Government office tomorrow at 4 p. m.

A second lecture will be held the following day at the same time. It is not mandatory for candidates to attend.

### Special Hours Begin Tomorrow

Special class, dormitory, and administrative office hours will go into effect for the Easter vacation beginning Thursday, March 26.

Classes will end Thursday at noon for the Easter recess and will resume at 8:00 a. m. Tuesday, March 31. The dormitories will close at 4:00 p. m. Thursday and will re-open at noon on the following Monday. Everyone must be out of the dormitories by 4:00 p. m. Thursday.

The administrative offices will close at noon Friday, March 27, and will re-open at 8:00 a. m. Monday, March 30.

This is the last issue of The Parthenon until Friday, April 3.

## French Singers At Convocation

Varel and Bailly, France's version of Rogers and Hammerstein, will appear at Convocation, April 2, at 11 a.m. in Old Main Auditorium. They will present an elaborate French review of song and dance which will be the gayest and most colorful event of the year. Varel, Bailly, and "Les Chanteurs de Paris" will enthrall, amuse, and amaze with their delightfully French songs.

Nine years ago, Varel and Bailly engaged "Les Chanteurs de Paris" for the coral part of their act. "Les Chanteurs de Paris" were all trained under the rigorous discipline of the famous "Little Singers of Paris." They are the perfect complement to an elegant and highly musical act.

Varel and Bailly together have composed more than 100 songs, most of which have been hits. They have been recorded by Odeon in Paris, Angel Records, and RCA Victor. They work in perfect harmony because their songs are not based on theses, but are created for the sheer pleasure they may give.

Not A Mercury 7 Capsule, But . . .

INSPECTING THE remains of the "spring tonic" left over from the Sigma Phi Epsilon "Blue Mountain Blast" are Jim Thompson, Charleston senior, and Becky Mollohan, Dunbar freshman and queen of this year's dance.

## Health Drive Set By Student Nurses

The Student Nursing Association has been active in the community and on campus for three years.

During Mental Health Week, May 4-8, the student nurses will offer their services as bell ringers in the Marshall district. The annual drive is sponsored by the State Mental Health Association. The funds received in the campaign will be used to support state mental health projects. The student nurses participated in this last year too.

Last semester's club project was a toy drive. The nurses donated the 100-150 toys they received to the pediatrics ward at Cabell Huntington Hospital.

About 50 student nurses belong to this active organization. Its main purpose is to bring the freshmen and sophomore nurses closer together. Each freshman is assigned a big sister to help her when she needs it.

In April the freshmen student nurses will elect officers for next year. These girls will take their offices in May.

### CAPS AND GOWNS

Graduating seniors and graduate students should place their orders for caps and gowns in the bookstore anytime between April 6-11.

## More Plans Are Announced For Greek Week--April 2-5

Members of this year's Greek Week Commission have announced further plans for the week of April 2-5.

On Thursday evening, Fireside Chats will follow the exchange dinners. Six alumni Greek speakers will discuss the topic of the week: "Why Are Greek Organizations Declining on Campuses?". Six Greek houses will sponsor the chats: Sigma Kappa, Alpha Xi Delta, Sigma Sigma Sigma, Tau Kappa Epsilon, Sigma Alpha Epsilon, and Delta Zeta.

Friday evening will feature the annual Greek Week Dance. A Roanoke, Virginia, band, the Divots, will play from 8-12 p.m. at the Hotel Prichard, and tickets for the dance will be on sale all this week and next at the Greek houses for \$2 per couple.

As in the past, the outstanding feature of the dance will be the announcement of the Greek Week King and Queen. The Outstand-

ing Greek Commission makes the selection of the winners from seniors nominated by their particular organizations and decided on the basis of four-year activity participation at Marshall.

## MU Will Host April Conclave

Marshall will host the West Virginia Federation of Collegiate Student Government Convention April 10 and 11.

The theme for the convention is "Why Student Government?". Dr. William Butler, dean of students at Ohio University, will be the main speaker. Additional talks will be made by Dr. Stewart H. Smith, president of Marshall, and Stanley A. Shaw, dean of men.

Dick Cotrill, secretary of Student Government Affairs, will be commissioner of the bi-annual convention. Cotrill said that the chief purpose of this convention will be to elect officers for the coming term. He also hopes to obtain approval for an official seal for the federation which was drawn under his direction.

The federation is composed of the 19 junior colleges, colleges, and universities in West Virginia.

All members of the federation are expected to send delegates. Arrangements have been made to house 30 student delegates in the dormitories. If more than this attend, additional accommodations will have to be provided.

Marshall students are welcome to attend convention speeches, but must register with Cotrill, the campus co-ordinator for the federation, between 3 and 5 p.m. Friday, April 11, in the student chapel.

## Parents' Weekend Plan Entering Final Stages

By JON TAYLOR  
Staff Reporter

"At present, we are trying to resolve the final program for Parent's Weekend, May 8-10," Director of Alumni Affairs, John Sayre, reported early this week.

Numerous events will take place during the three day weekend. A play, "Life With Father", will be presented by the Speech Department under the direction of Mrs. Elaine Novak.

"Also," Mr. Sayre said, "we are encouraging all students to take their parents on a guided tour of the campus." A list with the names of the departments that will have displays will be mailed to the students prior to their parent's arrival.

Further events for interested parents will be a series of lectures of various natures at different points on campus. "The lectures," Mr. Sayre said, "will give the parents a more direct acquaintance to actual classroom experience."

A schedule of events for the weekend will be released later. The make-up of the schedule will include: numerous department displays, a social time for the parents and faculty to get acquainted, the ROTC awards, the play, "Life With Father," that will be admission free for both parents and students, and possibly a dance on Saturday evening, May 9.

The activities for Sunday, May 10, will include a non-denominational church service to be held out of doors if the weather permits. Then, that afternoon, the Mother's Day Sing will be presented by the different fraternities and sororities on campus.

Immediately preceding the sing, President Smith will address the parents in a brief welcoming ceremony.

At the conclusion of the sing, the Omicron Delta Kappa men's scholarship honorary will give its awards of recognition.

Following the awards of ODK, the winners of the sing will be announced.

After the sing, open house will be held in the dormitories and in the probably most of the fraternity and sorority houses.

Parents who come to Marshall campus will be asked to register with those in charge of the weekend at the main entrance to Old Main between the hours of 12-2 p.m.

"In conclusion, I would like to say," Mr. Sayre added, "that something the students can do is start asking their parents to visit Marshall on Parent's Weekend now. I would encourage and welcome more parent participation."

## Young Republicans Elect New Officers

The Young Republican Club met last Wednesday and officers for the organization were elected. The officers are: Danie Stewart, Barboursville sophomore, president; Jim McGlasson, Beckley sophomore, vice-president; Lynn Crislip, Charleston sophomore, secretary; Pat Austin, Cedar Grove senior, corresponding secretary; and Phil Liest, Barboursville sophomore, treasurer.

In the meeting, it was also announced that the dues for the organization would be one dollar a year instead of two. Stewart said that this was due to the fact that money from a donor was being matched dollar for dollar.

### CHEMISTRY SEMINAR

A seminar for chemistry students will be held tomorrow at 1 p.m. in Room 320 of the Science Hall. The speaker will be Dr. Fred Reynolds, representative for the Colorado School of Mines. All interested students are invited to attend.

THIS CARD OF appreciation from Mrs. Jacqueline Kennedy was received by President Stewart H. Smith. Addressed to the faculty and students of Marshall University, it is one of thousands mailed from Washington last week.

### A Case Of Spring Fever In Reverse

SPRING HAS SPRUNG and so has Diane, The onset of Spring has begun to cause the fresh stirring of enthusiasm among the long cooped up student body. No longer able to resist the urge to DO something, cheerleader Diane Meadows, Charleston junior, took to the front yard of the Sigma Kappa house for a few tentative leaps (and a few minor accidents along Fifth Ave.) to welcome back the season of baseball and young men's fancy. (photo by student photographer Julie Wiles)

## Homecoming Plans Are Not Definite Although Date Has Been Released

By GARY KEARNS  
News Editor

Nothing is definite yet concerning next fall's Homecoming, nothing, that is, except the date.

Homecoming Day this year will be Oct. 24, according to John M. Sayre, director of development and alumni affairs. Sayre disclosed the date of the annual celebration at a meeting last week on the second floor of the Student Union.

This meeting was attended by representatives from almost all of the major campus organizations. Their purpose was to get a general idea concerning Homecoming so that when the Homecoming Commission is coordinated all it will have to do will be to just begin its work.

Over the meeting hung the recent vote of the Inter-fraternity Council, the governing body of all the Greek social organizations on campus, which called for the return of the traditional floats to the Homecoming hoop-la.

And since some fraternities find it difficult to finance these floats, it was suggested at this meeting to have floats built on two scales this year.

Those organizations which could afford them could go ahead and build the usual large floats, but the fraternities which could not slip down a notch and build a smaller, cheaper float. This would permit all fraternities to

have some sort of floats.

"I have a difficult role as co-ordinator of Homecoming," Sayre explained. "I am between the student body and the administration."

"We will have to redesign the program from last year's, which was different. Our purpose will be to have something which will attract the alumni, to show them a good time for a day or two. We have to try to appeal to them—and this is not an easy thing to do."

Sayre went on to explain that this meeting was only a preliminary one, just a starter. He said that nothing final would be decided by last week's meeting. "We just represent a good cross-section of the student body," Sayre told the representatives.

He went on to say that many things could have an effect upon Homecoming, like the musicians which are contracted to appear. He could have been referring to the Bo Diddley Trio, which was scheduled to play at the big Homecoming Dance last year in Memorial Field House, but, at the last minute, sent a telegram saying that the members had had car trouble and couldn't appear.

Sayre then opened the floor to suggestions and questions.

Someone asked if competition of any sort was being considered for this year.

Sayre replied that this year's Homecoming is so far a complete blank, except for the likelihood of having the celebration's original characteristics, such as the parade and dance.

## Marshall ROTC Marksmen Cop 6th, 7th, 11th Spots

The ROTC rifle team placed 6th, 7th, and 11th in the all-over competition and second among the exclusive ROTC rifle teams in the National Rifle Association Sectional Tournament. The match was held in Morgantown with eight schools being represented with a total of 12 teams participating in the shoulder to shoulder match.

In the order in which they finished were the following team: West Virginia University (Gold Team), 1173; Indiana State, 1136; West Virginia (Blue Team), 1133; West Virginia (Red Team), 1118; Davis and Elkins, 1091; Marshall (Green Team), 1085; Marshall (White Team), 1052; W. Va. U. Air Force ROTC, 1048; California (Penn.), 1041; Denison, 1028; Marshall (Gold Team) 1007; and Potomac State College, 1004. The possible score for each four man team was 1200.

By finishing in first place with 1173, West Virginia set a new national record for four man team firing. Previously, the high was 1170.

Individual scores of the three Marshall ROTC teams were: (Green Team) Fred Haeberle, Huntington sophomore, 275; Lawrence Wolfe, St. Albans freshman, 272; James Johnson, Charlton Heights freshman, 269; Cecil Lewis, Daniels freshman, 266; (White Team) Dan Cremeans, Huntington freshman, 276; Felix Dandois, St. Albans freshman, 169; Robert Taylor, Newton freshman, 257; James DiMilte, Palisades, N. J. freshman, 244; (Gold Team) Ardogal Jafarace, Weirton freshman, 168; Mike White, Charleston freshman, 256; John Frank, Bridgeport freshman, 256; and Lance Winkler, Huntington freshman, 227.

## Marshall To Be Represented At Several April Conclaves

Four conferences will be held during the month of April at which Marshall will be represented, according to Dr. J. Frank Bartlett, dean of Arts and Sciences.

On April 1-4, the Association of Higher Education will hold a Conference of Academic Deans at West Virginia Wesleyan College. Dean Bartlett, Dean A. E.

McCaskey, and Dean D. Banks Wilburn will attend.

The North Central Association will hold a meeting in Chicago April 6-9. Dean Bartlett will be the official representative from Marshall.

On April 19-21, a Conference of Higher Education will be held in Chicago which Dean Bartlett (Continued on Page 6)

### On Campus with Max Shulman

(Author of Rally Round the Flag, Boys!" and "Barefoot Boy With Check.")

#### WELL-KNOWN FAMOUS PEOPLE: No. 1

This is the first in a series of 48 million columns examining the careers of men who have significantly altered the world we live in. We begin today with Max Planck.

Max Planck (or The Pearl of the Pacific, as he is often called) gave to modern physics the law known as Planck's Constant. Many people when they first hear of this law, throw up their hands and exclaim, "Golly whiskers, this is too deep for little old me!"

(Incidentally, speaking of whiskers, I cannot help but mention Personna Stainless Steel Razor Blades. Personna is the blade for people who can't shave after every meal. It shaves you closely, cleanly, and more frequently than any other stainless steel blade on the market. The makers of Personna have publicly declared—and do here repeat—that if Personna Blades don't give you more luxury shaves than any other stainless steel blade, they will buy you whatever blade you think is better. Could anything be more fair? I, for one, think not.)

Max Showed no indication.....

But I digress. We were speaking of Planck's Constant, which is not, as many think, difficult to understand. It simply states that matter sometimes behaves like waves, and waves sometimes behave like matter. To give you a homely illustration, pick up your pencil and wave it. Your pencil, you will surely agree, is matter—yet look at the little rascal wave! Or take flags. Or Ann-Margret.

Planck's Constant, uncomplicated as it is, nevertheless provided science with the key that unlocked the atom, made space travel possible, and conquered denture slippage. Honors were heaped upon Mr. Planck (or The City of Brotherly Love, as he is familiarly known as). He was awarded the Nobel Prize, the Little Brown Jug, and Disneyland. But the honor that pleased Mr. Planck most was that plankton were named after him.

Plankton, as we know, are the floating colonies of one-celled animals on which fishes feed. Plankton, in their turn, feed upon one-half celled animals called krill (named, incidentally, after Dr. Morris Krill who invented the house cat). Krill, in their turn, feed upon peanut butter sandwiches mostly—or, when they are in season, cheeseburgers.

But I digress. Back to Max Planck who, it must be said, showed no indication of his scientific genius as a youngster. In fact, for the first six years of his life he did not speak at all except to pound his spoon on his bowl and shout "More gruel!" Imagine, then, the surprise of his parents when on his seventh birthday little Max suddenly cried, "Papa! Mama! Something is wrong with the Second Law of Thermodynamics!" So astonished were the elder Plancks that they rushed out and dug the Kiel Canal.

Meanwhile Max, constructing a crude Petrie dish out of two small pieces of petrie and his gruel bowl, began to experiment with thermodynamics. By dinner time he had discovered Planck's Constant. Hungry but happy, he rushed to Heidelberg University to announce his findings. He arrived, unfortunately, during the Erich von Stroheim Sesquicentennial, and everyone was so busy dancing and duelling that young Planck could find nobody to listen to him. The festival, however, ended after two years and Planck was finally able to report his discovery.

Well sir, the rest is history. Einstein gaily cried, "E equals me squared!" Edison invented Marconi. Eli Whitney invented Georgia Tech, and Michelangelo invented the ceiling. This later became known as the Humboldt Current.

© 1964 Max Shulman

\* \* \*

Mr. Shulman is, of course, joshing, but the makers of Personna Blades are not: if, after trying our blades, you think there's another stainless steel blade that gives you more luxury shaves, return the unused Personnas to Box 500, Staunton, Va., and we'll buy you a pack of any blade you think is better.

#### CARD PARTY SET

Frances Tabit, president of Alpha Sigma Eta Alpha, speech correction organization, has announced a card party to be held April 2, from 7:30-11 p. m. at the Appalachian Auditorium. Admission is \$1 per person, and door prizes will be awarded and refreshments served. Those attending are asked to bring their own cards.

# Coeds' Fashions 'On Scene' For Spring

**EASY CARE AND casual** are the words for a coed's daytime wardrobe. Kay Sage, Bluefield junior, models pleated culottes and matching pin striped blouse, with roll-up sleeves and bermuda collar.

**TENNIS, ANYONE?** Joyce Harshbarger is ready to leave for the courts in navy blue bermudas and a red, white and blue sailor top. This year's nautical influence is seen in the natty tie and collar. Colors stress the all-American look.

## World's Fair, All-American Looks Are Themes For Women's Apparel

By **SHERI O'DELL**  
Feature Writer

The theme in women's fashions this spring is a combination of the all-American and "let's go to the World's Fair." The emphasis is on the casual apparel with the travel and countryside look.

In conjunction with this theme the primary color scheme is a combination of red, white, and

blue. This scheme will dominate sports wear, such as shorts, peggers, and slip-over matching tops. The tops will further the all-American theme with a nautical look.

This nautical look embodies the sailor collar and the wide tie at the neck.

In addition to the above "looks", women this spring will

look like women, thus a departure from the completely tailored appearance. This will be accomplished with loose sleeves, a few puffs and a bit of lace.

However, the tailored look will prevail in the further extension of the blazer as a wrap. The blazer, too, will be nautical in appearance with the double-breasted opening and large buttons.

The use of puffs and lace in women's clothing this spring was greatly influenced by the movie "Tom Jones," a novel by Henry Fielding. This motion picture has the distinction of being one of the few to influence fashions.

In regard to the fabrics for this spring cotton again leads the parade. Denim and seersucker follow closely, especially in line with "school" clothes and casual working clothes.

The culotte skirt and the pin-stripe blouse are dominating the scene in relation to the style of the fashions. Wide, heavy stripes and straight skirts follow closely as contenders in this department.

In attire for dressy affairs, the straight dress is again the thing with the addition of a matching overcoat along the line of the cape.

The formal dress this spring will be a continuation of the ankle length gown with the straight line. The bare shoulder, strapless look also remains in focus.

Linen will be big in the fabric line along with the combination of satin and eyelet lace for the formal attire.

Spring fashions in general will encompass flowered material both in skirts and blouses. It will also be found to a large extent in dresses.

The key-note for spring, therefore, can be summed up in two words—light and airy.

The fashions modeled in the accompanying pictures were provided by The Smart Shop.

**"YOU'LL BE LATE?"**, Kay asks in her full length yellow and white lace gown. Her bell shaped skirt is made of layers of yellow organza accented with white scallops. The empire line is highlighted by a velvet bow and streamers.

**READY FOR THE Easter parade** is Joyce Harshbarger, Milton senior, wearing a slim sheath of linen paisley print and pink linen coat. Her Easter bonnet is of pink and white flowers. Bone patent shoes and bag complete the outfit.

### University Offices Close Saturdays

Administrative offices will be officially closed on Saturdays and the regular working day will be extended from 4:15 to 4:30 p.m. effective April 1.

The action was approved by the administrative cabinet after receiving and discussing recommendations from a committee of clerical and office workers.

The offices, which presently open a half-day on Saturday, will

be open for Saturday registration periods, Homecoming, Commencement, and the Saturday morning between summer terms.

In asking for the revisions the committee said "more and more business and industry offices are closing on Saturday mornings" and that the staff moral would be boosted by bringing University hours in line with current trends.

# Big Green Gridders Begin Practice

By DAVID PEYTON  
Assistant Sports Editor

The Big Green football squad went into Spring practice Monday and as it began, Coach Charlie Snyder and his crew of assistant coaches went in search of some interior linemen that will be the deciding factor of next season's squad.

Snyder said that Spring practice was not a preparation of the squad for a game of football.

"In the spring," Snyder said, "we stress fundamentals, a review of offense and defense, and especially the development of the frosh and the reserve squads of last season."

He said that there is time for scrimmage and the older members of the squad practice with the up and coming squad much of the time.

"Another thing we do in spring practice is move some of the boys around to different positions. This is done to strengthen the team at its weak points. We start early by looking at films of last year's team. We

find those boys whom we think might be able to fill a position where we need depth."

So far, Snyder has named six changes in position for the spring session. Snyder said that Jim Brown will move from the tailback position to fullback. Jim Lewis, an end last season, will move to tackle. George Kasonovich will be switched from center to guard position. Russell Legg will go from guard to tackle, Dennis Miller will be moved from end to guard, and Martin Bartic will go from fullback to guard.

"This doesn't mean that this will be the way it will be next fall," Snyder warned. "We'll try these boys in those positions, but there still may be a problem, especially at the tackle positions. Our problem so far is not enough weight at the tackle spots. If these boys don't work out in these positions, we might possibly try someone else."

The end date for the practice sessions is not known exactly as yet due to the system under which the

Mid-American Conference operates. Coach Snyder explained by saying that the spring session is for 20 days. These 20 days must fall within a thirty-day period, not counting holidays. This gives the team a chance to pass up about 10 bad days when it can't practice outside.

"We could get in four days of practice this week, or it might be that because of bad weather, we could only get in two or three. In any case, we have until about April 29 or 30 to complete our practice."

Snyder said that it was a little early to make any type of predictions about the team, but he emphasized the fact that he was worried about the size of his tackles and that a great deal depends on the filling of these positions.

Snyder said that this practice will be an evaluation period where theories will be put into practice.

"By the time that the practice is over, we will be able to tell who is going to fit into the vacant positions and who is not," Snyder said.

# Cure 'Amateur Athlete Of Year' Again

Jim Cure, possessor of nine MU grid records and at least one Mid-American Conference record, was named Huntington's Amateur Athlete of the Year Saturday to establish yet another mark.

This was the second year in a row that the award was presented to the outstanding end on the Big Green football team. For the first time in the nine-year history of the award, it was given to the same athlete a second time.

"I was surprised," was the modest comment from the All-MAC selection for the past two years.

Cure began his assault on the Big Green record books last year, as a sophomore, and continued this past season. Every pass he catches in the coming year will either establish a new mark or add to the ones he set in the fall of 1963.

"I had no idea that I would win the award again," Cure said, "but I do feel that my game as a whole was better than the 1962 season. I didn't catch as many passes, but my blocking and defense improved."

The spring football drills got underway Monday and Cure commented before they began that he was "anxious to get started again."

He was asked did he expect to do as well in the future as he has in the past two years in the green-and-white uniform, barring injuries, of course.

"I hope so," was the lone reply to this question, but he remained with a wait-and-see attitude.

The reason for the second straight Elk's award presentation to the glue-fingered end was the fact that he had set most of the recent MU records on the grid-iron.

"It has never been the policy of the committee to penalize a past winner by not considering him for a second award. The only way a past winner can become ineligible is to turn professional," a committee spokesman said.

Cure, who hails from Gary, W. Va., came to MU as a quarterback and, to say the least, was "dejected" because he was moved to a position on the line.

"Now I'm glad things turned out the way they did," he remarked.

The standards by which Cure was picked to receive the award for the second year in a row were probably the same that helped him get selected to the first team All-MAC and the NEA honorable mention All-American squad as a sophomore. What were these standards?

He broke all existing pass-receiving records at MU along with pass-catching marks in the MAC. He finished in the top 10 among national pass receivers

both as a soph and junior. In his rookie year he ended the season in fifth position in the country and last year he finished in ninth place.

The single season marks that Cure has notched in the Big Green record books in his two years as a performer are: most yards pass receiving, 666; most pass receptions, 46; most pass receptions by a sophomore, 46; most yards pass receiving by a sophomore, 666; most pass receptions by a junior, 40; and most yards pass receiving as a junior, 543.

In the single game department he gained most yards passing against Kent State in 1962 by gaining 157. Against Ohio University in 1962 he caught eight passes to grab that record. He tied this mark several times later.

He has established a career mark for a MU gridder by catching 86 passes in his two years here.

In his first season in the MAC, Cure caught 26 passes to set a new single season record. Also, he caught the most passes in a two-year period by hauling in 48 and gaining most yards via the airways in a two-year period, 686.

ONCE AGAIN Big Green end Jim Cure was named Huntington's Amateur Athlete of the Year. Cure, shown here with the trophy that was presented to him Monday, was given this honor for the second year in a row.

## Bloom Scores At First Meet

"We're going to work like mad for the meet at Kentucky." These words from Coach Charlie Kautz, Marshall track coach, are typical of the growing enthusiasm and hard work being shown by the track squad.

In the initial action of the year for the MU trackmen, at Denison University, Weirton sophomore Robert Bloom finished fourth in the 55-yard low hurdles. This is the best showing ever for Marshall at the Denison meet. Also giving fine performances at the meet were Jim Odum, Huntington sophomore, John Bentley, Charleston junior, and Jack Mahone, Charleston junior.

The thinclads next meet will be at the University of Kentucky on April 4.

Kautz observed at the meet that a Mid-American Conference foe, Miami of Ohio, "looked awful tough."

Lack of depth in sprints, 440-yard relay, and the mile have Kautz worried. In addition, the bad weather this spring has hampered outside training thus far.

"Whenever we're ready to take time trials it seems that it rains or turns too cold."

### UNION MIX

According to Don Morris, manager of the Student Union, the Cobras will play for the mix tonight from 7:30 to 10.

# Coeds' Swimming Team Wins Meet

By NANCY BOB WRIGHT  
Teachers' College Journalist

Marshall University's coed team won the West Virginia State Invitational Women's Swimming Meet as Institute last Saturday with a score of 49 points. Concord College was second with 42 points and West Virginia State College was third with 37 points. The meet results were: 200-yard medley relay, Marshall (Wood, Otaki, Aus-

### GOLF TEAM WINS

The golf team of MU won hands down when the team defeated the Sleepy Hollow all-stars 14-4 in an exhibition match at the Sleepy Hollow golf course. Marshall's Harry Hoffer was the day's medalist with a 75. Chip Woodring was next with 79. MU opens its season at home against defending MAC champ Ohio University tomorrow.

tin, Hoover); 100-yard freestyle, Marshall (Hoover); 50-yard freestyle, Marshall (Austin), and 100-yard individual medley, Marshall (Otaki).

Also 50-yard butterfly, Marshall (Austin); 50-yard backstroke, Marshall (Hoover); 50-yard breaststroke, Marshall (Otaki), and 200-yard freestyle relay, Concord.

Team members are Linda Hoover, Huntington freshman; Brenda Austin, Huntington junior; Judy Varnum, Huntington sophomore; Peggy Wood, Webster Springs, junior, Kazuko Otaki, Japanese freshman, and Mrs. Marian Barone, coach.

Linda Hoover was considered possible Olympic material but did not enter the qualifying meet because, "I am carrying 19 hours and do not have enough time to spend practicing at least two hours a day."

POSING FOR THE underwater cameraman are (from left) Linda Hoover, Huntington freshman, and Judy Varnum, Huntington sophomore, members of the MU coed swimming team that won a meet last Saturday. This was an experimental underwater photo by The Parthenon photographer.

### Lecturer Due

**DEPUTY DIRECTOR** of the Washington Branch Office of the International Labor Organization, David S. Blanchard, will speak at 7:45 p. m. April 1 in the Science Auditorium. Economics and Political Science classes will attend in groups, and any interested students may attend. Before taking this position, Mr. Blanchard was a specialist in maritime labor problems at the ILO offices in Geneva, Switzerland.

## Campus Briefs

### HONORARY PLEDGES

Alpha Beta Alpha, library honorary, has pledged five coeds for the second semester. They are Mary Francis Whelan, Hatcher senior; Linda Kay Brown, Oceana sophomore; Mrs. Louise Rash, Huntington junior; Carol Turner, Raleigh (unclassified), and Louise Chapman, Huntington junior.

### ATTEND CONFERENCE

Three Marshall students attended the annual Intercollegiate Broadcasters Conference.

Adrian Gobel, Jerry Ashworth, and Charles J. Evans attended the conference March 20-21 in New York City.

Mr. Myers of WHTN-TV announced that \$100 of the cost of the trip would be paid by WHTN as a public service gesture.

### Local Band To Cut Record For Capitol

Ever hear of the "Invictas"? If the answer is no, it's probably because they are a relatively new group.

The "Invictas" were founded about three years ago by Carl Nestman, South Charleston sophomore. It is made up of four men and one woman. They are: Nestman, rhythm guitar; Bob Wangland, College of Wooster in Ohio, electric piano; Jim Toney, Charleston freshman, drums; Tom Sowards, St. Albans freshman, lead guitar, and Linda Fuller, a local resident, vocalist.

At present, the "Invictas" are in the process of making their first recording for Capitol Records. The songs, "I want to know right now" and "Dear Abby," were both written by Miss Fuller. They had their first recording session, which lasted 12 hours, in the WMUL studio. However, they will have to re-record because of technical difficulties.

If Capitol likes the record, they will push it. The group will possibly cut instrumentals, play background for Miss Fuller, go on promotional tours, and cut an album or two. But this all depends on what Capitol thinks of the tapes of the recording session.

# Singer Mary Travers Gives Views On Music

By PAT AUSTIN  
Staff Reporter

"Her name always appears last, but she is always first in our hearts . . . Mary!"

A burst of applause . . .

Then came Mary Travers of the Peter, Paul and Mary trio, who appeared at the Memorial Field House last Thursday night.

In the folk music concert, Mary displayed a wide vocal ability. She sang in the high pitch of a child's voice in Paul's arrangement of "Rain, Rain." In "Jesus Met the Woman at the Well," she sang in soulful and moving tones.

Singing with intensity and sincerity, the trio showed why they are considered to be among the "real folk singers" of today. Their wide repertoire of songs included Peter's creation of "Puff," and the social protest song, "Blowing in the Wind."

After the performance she talked quietly, her eyes searching the few faces around her. Asked the usual questions about where she was from, and how the group got together, Mary gently referred a reporter to the souvenir booklet about the group.

Apologetically she explained, "I hate to keep telling the same thing over and over. You can tell the truth so many times that it begins to sound like a lie."

Mary said that they did not necessarily prefer college audiences to any other. The important thing, she said, is that the crowd be receptive. It was.

The sincere artist said that she did not think that that Hootenanny television programs had helped folk music very much. She added reflectively, "It may have served to give folk music that impetus it needed to get off the ground."

Mary feels that now that "Hootenanny" is going off the air, things will be better. "After all the clamor dies down the real artists will float to the top."

Last year rash outburst of Hootenannies produced many singers who were not really folksy. The format of the television program created a false impression of folk music concerts.

Mary said that the show used audience participation. "Okay! Good! But folk music concerts are not like that." She explained that at a "folk music concert, audience participation should be an emotional and intellectual involvement."

At many of the trio's concerts half the time is spent "untraining the audience that has been trained to clap in time with the music." She added, "but, they're

### April Conclaves

(Continued from Page 3)  
will also attend.

Various faculty members will attend the West Virginia Academy of Science at Wheeling on April 22-25. The departments represented will be mathematics, chemistry, physics, zoology, botany, geology, psychology, and sociology.

### TWL MEETING

The TWL group of students going to Germany this summer will meet tonight and every Wednesday from 7:30 to 9 p.m. in the Science Hall Auditorium for orientation in preparation for their coming trip. The topic for tonight's meeting will be hotel and restaurant job opportunities.

not really clapping in time with the music.

Concerning audience response to the social protest songs included in the group's program, Mary said that at first there was some hostility in the South. She said now that that racial issue is receiving more nationwide attention, including that of Congress and the President the crowd's reception of the songs is better.

She explained that the major songs they use, "Blowing in the Wind," and "If I Had a Hammer," present questions to be thought about. Sometimes after a concert there have been people who came around and said, "I didn't agree with what you said up there." But there has never been any mass objectionable reaction to their songs.

Asked what advice she would give college students hoping to break into the field of folk music, Mary quickly responded, "I wouldn't even suggest it!"

She said emphatically, "I would ask them why?" Do you think that you really have something to offer? Do you think that you are really better than those who are already in the business. What have you got to say that hasn't already been said before?"

Seemingly appalled by the number of college students who are quitting school to break into the business, Mary explained that she is not impressed when someone learns all the music and words to song by repeatedly listening to recordings. Folk music, she said, is more than this. It is an expression of one's self. "It is to be felt."

She added that real folk music singers are those who are involved in it . . . those who have taken an interest in it from an early age.

Mary's first public singing performance was at the age of five on a picket line. She is a real folk singer.

### Papers Available In J-Department

It is a fact that few Marshall students are aware of the wide variety of newspapers available in the Journalism department. The more widely read national papers and the majority of West Virginia papers are received daily in the circulation department. They are all available for student use at all times of the day. The circulation room is the first at the bottom of the stairs downstairs in the library and is complete with desks and filing shelves so that any issue can be found promptly.

Such noted publications as the New York Times, Baltimore Sun, Chicago Daily News, Dayton Journal Herald, Los Angeles Times, Philadelphia Bulletin, and St. Louis Post-Dispatch are received. Also almost every member of the West Virginia Press Association is represented.

They are used primarily by journalism students and are paid for by the journalism department, but all students are allowed use of the room.

### Sig Eps Sell Concert Tickets

SELLING TICKETS to the Peter, Paul and Mary concert held at the field house last week is Steve Goodman, Huntington sophomore and member of the Sigma Phi Epsilon fraternity who aided with the folk-singing program. They sold \$212 worth of tickets.
