No. 35

Meetings Draw Faculty During Yule Holidays

Marshall faculty members were on the move during the month of December. Dr. Jack R. Brown, professor of English, attended the Edmund Burke Symposium in Washington, D. C. Dec. 6 and 7.

Three members of the English Department attended the sessions of the annual convention of the Modern Language Association of America in Chicago Dec. 27, 28, and 29. Those who made the trip were Dr. Jack R. Brown, professor of English, Bradford L. Jenkins, instructor in English, and Mrs. Louise T. Kirby, instructor in English.

William G. Cook, assistant professor of economics, attended meetings of the Industrial Relations Association and the American Economic Association in Boston on Dec. 26-29.

Curtis Baxter, professor of English, attended the meetings of the International Concert Managers Association and the University and College Association of Concert Managers in New York City.

Prof. Dominic Bisignano, English Department, discussed "Marxian Literary Criticism in Italy" at the last meeting of the Interdisciplinary Honors Seminar on Jan. 7. Dr. Eugene Hoak, chairman of the speech department ended this semester's lecture series with a discussion of "The Impact of Communism upon the Theatre of Europe" on Jan. 14.

Debate Tourney Set At Marietta

Marshall debate teams will enter a tournament at Marietta College on Feb. 1.

The debate tournament will consist of four rounds of debate on the national question dealing with federal scholarships for college students.

A radio announcer will also be taken to enter the radio announcing contest.

Dean Honored

DR. A. E. McCASKEY, dean of the College of Applied Science, has been honored as Engineer of the Year by the Huntington Engineers Club. Dr. McCaskey was presented a plaque last Friday by Col. H. J. Skidmore, outgoing president of the club. Dr. McCaskey received the award because of his active participation in the club's activities during the past year.

They'll Appear In 'Hamlet'

APPEARING IN the University Theater production of "Hamlet" are John Burke, Huntington senior, as Hamlet, and Karen Dille, Chesapeake, Ohio, junior, as Ophelia. The play opens at 8:15 p. m. tomorrow and closes Saturday in Old Main Auditorium. (See other photos page 4.)

Some Reaction Noted To Report On Smoking

By FRED TURNER
Staff Reporter

Marshall students were asked what they thought about the results of the cigarette tests that were run by 10 scientist headed by the U. S. Surgeon General.

Students were asked what the survey meant to them and what bearing, if any, it has on their smoking habits.

Jim Marnell, Huntington senior: "The survey has no bearing on my smoking. I'll keep smoking as long as I want to." Then he asked, "Have you got a light?"

Jim Finley, Huntington junior: "I'm a non-smoker and it doesn't concern me. The people who do smoke are the ones it does concern. It is up to the person whether he should smoke or not."

Ted De Alba, Huntington sophomore: "No comment on the survey. But I just can't see putting all of that smoke in my

lungs. I just don't feel that it is the healthy thing to do."

Sannie Lee Guertin, Huntington freshman: "I don't think that people should listen to the reports about the cigarettes. I don't think it is good for the health, but I do think it is good for the national economy."

Dr. John L. Martin, Marshall professor: "I only smoke in moderation. I think that those that do not have the habit should certainly avoid it."

University Applies For Science Grant

Application for 6,217 from the National Science Foundation has been made by Marshall for undergraduate instructional scientific equipment. The amount requested will be matched by the University through sale and trading of obsolete scientific equipment.

The majority of the funds will be used to acquire single-pan balances to replace balances used in the freshman chemistry and analytical chemistry laboratories. Other sums of money will be used to buy accessories for existing major instruments.

'Hamlet' On Stage Starting Tomorrow

Production Slated For Three Nights; Cast Of 20 Is Headed By John Burke

By FRANCES ALLRED
Editor-In-Chief

Curtains will go up at 8:15 p.m. tomorrow for the University Theatre production of "Hamlet." The play will run through Saturday in Old Main Auditorium.

Students and faculty will be admitted free and students must show activity cards. Faculty members may obtain season passes. Tickets will be sold at the door.

The play will be presented as a local observance of the 400th anniversary of its author, William Shakespeare.

The cast of 20 is being directed by William Kearns, assistant professor of speech. John Burke, Huntington senior, will play Hamlet. Ralph Hensley, Ashland, Ky., senior, is cast as the King; Karen Dille, Chesapeake, Ohio, junior, as Ophelia; Al Ross, Beckley senior, as Polonius, and Tom Wilcot as Horatio.

Other cast members include Mike Leckie as Laertes, Robert Edmunds as Rosencrantz, Larry Covey as Guildenstern, Larry Walton as Marcellus, John Sargent as Bernardo, Vince Gonzalez as Francisco, and Lynn Slaven as the Queen.

Sets for the production were designed by Al Ross and lighting plots were designed by Mike Carroll.

The original script of "Hamlet" plays for four and one-half hours, but Marshall's production will run no longer than the usual full-length play.

The play, which is probably the most familiar to students of any of Shakespeare's works, concerns the efforts of Hamlet to gain vengeance for the killing of his father and the emotional difficulties which beset him.

This is the second production this academic year of the University Theatre.

Station WMUL Sets Schedule

By JOANETTE VEAZEY
Teacher's College Journalist
WMUL Radio plans to follow a program schedule second semester very similar to the one used now.

According to Adrian Gobell, Fair Lawn, N. J. senior, and program director of WMUL, the schedule will be basically the same, only with more emphasis on the educational aspect. The "Mosaic" program (4 to 5 p.m.) will include more interviews, stories, points of interest and travel, plus great speeches of history.

Next semester's schedule will also include the usual "Candlelight" program from 5 p.m. until 6 p.m., and the "Night Class" of symphonic music from 7 p.m. until sign off.

"This semester's schedule has been more or less on a trial basis, but it definitely has proven to be a very satisfactory schedule," said Gobell.

The newest addition at WMUL is the FM transmitter designed and installed by Paris Wiley, Barboursville freshman. It is now possible for the girls of Prichard Hall to tune in WMUL-FM on their AM sets.

WMUL has plans to install similar transmitters in all the other dormitories, but it involves much planning.

To Smoke Or Not To Smoke?

TO SMOKE OR NOT TO SMOKE? That is the question that popped up last Saturday as a result of a government report on the habit. Mulling over an answer are Steve Foster, (left), Beckley senior, and a nervous Joe Thomas, St. Albans sophomore.

\$2,000 Awarded In Scholarships

Scholarships totaling over \$2,000 have been awarded for second semester to 12 students.

The winners listed with their respective scholarships are: Ellis N. Nemer, Parkersburg senior — Gloria Brothers Scholarship; George A. Gallian, Huntington sophomore — Allied Chemical; Martha A. Dodd, Fayetteville — National Science Foundation and Jr. League of Huntington; Don K. Riffe, Crab Orchard freshman — W. Va. Consumer Finance; Annabell Napier, Rainelle freshman — General; Judy K. Cunningham, South Charleston senior — General; William F. Huss, Jr., Huntington sophomore, Shirley A. Layne, Charleston sophomore, Ellen F. Newcomb, Baileysville freshman, Bobbie K. Webb, Rock Creek sophomore, Ronald L. Markin, Ona sophomore, and William C. Dressler, Hinton junior — C. W. Benedum winners.

According to Frank White, who is in charge of scholarship appropriations, there are three more scholarship recipients. He stated that these awards are given by various companies and individuals, as well as established scholarship foundations.

John Forbess Dies; Graduated In 1963

Second Lt. John Dexter Forbess, 23, a 1963 graduate of the Marshall University Reserve Officer Training Corps program, died Friday morning in Walter Reed Hospital, Washington, D. C., after an illness of several weeks.

At Marshall Forbes had been a member of the Physics Club and was also a member of the Huntington Bird Club and was choir director of Bates Memorial Presbyterian Church.

He was a son of Mrs. Florence Forbess of Huntington and the late Roy Dexter Forbess. His widow is Mrs. Joyce Reese Forbess.

Funeral services were conducted Monday at Chapman's Mortuary. Burial was in Ridgeland Cemetery.

New ROTC Aide

M/SGT. ALEX MacKenzie assumes command as Sgt. Major of the Military Science Department replacing M/Sgt. Clarence L. Sims who retired after 20 years of active service. A native of Washington, D. C., Sgt. Mackenzie entered the Army in 1940. He was assigned to the Army Aviation Maintenance Center in Mannheim, Germany before coming to Marshall.

Campus Briefs

FACULTY MEN TO MEET

The Faculty Men's Club will meet at 8 p.m. today in the north parlor of Old Main. Dr. Walter Perl, associate professor of German, will give a brief report on the current theater season on Broadway. After the report there will be competitive duplicate bridge, chess and checkers.

RESEARCH FUND

Faculty members interested in summer research grants should contact Dr. Harold E. Walker, vice president of academic affairs, regarding the preparation of a research proposal and grant application. Ten such grants were received by Marshall faculty members in 1963.

Pre-Registration Friday, Saturday In Gullickson Hall

Part-time, as well as full-time students, may take advantage of pre-registration to be held Friday and Saturday.

Luther Bledsoe, registrar, told the Parthenon he would like to see more part-time students participating in the pre-registration activities if at all possible. He feels that some of them probably think that the only time for them to register is during the Friday night registration.

He says that if more part-time students took advantage of pre-registration the load for nighttime registration would not be so heavy.

Mr. Bledsoe says that the response of the full-time students has been very good this year and he would like to see such a response from the part-time students. These students may go through the regular pre-registration procedures and pick up a time card in the registrar's office for completion of registration.

3,000 Student Jobs Available At Fair

Approximately 3,000 positions will be available for qualified college students to serve as hospitality service aides for the Brass Rail restaurant chain in the 1964-65 New York World's Fair.

The operations of the Brass Rail Service will cover numerous positions. Personnel for these positions will include openings in refreshment and souvenir stands; specialty restaurants; and catering for special pavilions.

Those students who are interested in a position with the Brass Rail are requested to contact the Placement Office in Old Main for application blanks.

ROTC Cadets Receive NRA Awards

FIVE ROTC Cadets are shown accepting the NRA Collegiate Qualification Awards from Lt. Col. Patrick Morgan and Sgt. James Baker. From left, they are Robert Taylor, Michael White, Fred Haberle, Larry Wolfe, and Tom Johnson. Not pictured are Cecil Lewis, Daniel Cremeans, Ardogal Jafarace, who also received swords. (Photo by Student Photographer James Johnson).

Metropolitan Opera Audition On Feb. 8 Open To Students

Have you ever had a dream of someday singing at the Met? Well, now's your chance.

Auditions for the Metropolitan Opera Company will be staged Feb. 8 at the Huntington Woman's Club at 1201 Huntington Ave.

According to Mrs. Walker Long, director of auditions for the Metropolitan Opera in the Tri-States area, several MU students have already expressed interest in auditioning. She said that entries are also expected from other colleges in West Virginia, Ohio and Kentucky.

Mrs. Jane Shepherd, associate professor of music, is chairman of the auditioning committee. Other judges will be David Lloyd, concert artist and teacher at West Virginia University, Evan Whallon, conductor of the Columbus Symphony Orchestra, and Mrs. Victor Zenetozzi, singer at Morehead, Ky.

Mrs. Long said that all students at Marshall are eligible to try out. Any interested student may contact Mrs. Shepherd in the Music Department.

2 GROUPS TO MEET

The Student Education Association and Kappa Delta Pi, education honorary, will hold a joint meeting at 7:30 p.m. today in the Campus Christian Center. There will be a guest speaker and refreshments will be served.

Letters To The Editor

Dear Editor:

I was both shocked and ashamed when I read the article of January 10, "Editorial Opinions" by Kay Sage and Sam Stanley. This article pointed out the writers' reasons for the lack of school spirit at basketball games.

It may be true that students who attend the games cannot sit in lean-back chairs but to offer this as a basic reason for lack of spirit is most immature. Do these same people actually think of discomfort when Marshall has a winning team? When I attended Marshall, people would stand during the entire game for lack of seating space and did so willingly, win or lose.

As for crowded half-time conditions I should think the students would be grateful for the recent trend of greater attendance and support from the general public.

I myself have attended all games for the past two seasons and sit on "those hard wooden benches" out of choice. Frankly, I have not noticed the "turmoil the students go through" as mentioned, but have observed the embarrassing silence so imminent from the student section when Marshall has a period of play without scoring.

Unfortunately, I think the true answer seems to be that the students do not cheer to inspire the team, but rather expect to be inspired by the team before they are able to cheer.

LOIS BROWN
Huntington, W. Va.
(Class of '54)

Psychology Class Applies Theories

Students of Prof. John A. Jensen's abnormal psychology class are concluding a six-week practical application of classwork with patients at the Huntington State Hospital.

Each student was assigned a patient at the hospital and has gone once a week for six weeks to talk with them. They have had the opportunity to visit all wards of the hospital.

The patients assigned to the students aren't affected by any particular illness, but by a different type of problem.

Tina Sonis, Charleston sophomore, who is one of the students participating, commented "I think it's good for the students as well as the patients and it makes the field of psychology more interesting to me. It's an experience everyone should go through. There are a great number of people who are not aware of the conditions that exist in a mental hospital."

Senate Studies Civil Service Proposal

By GARY KEARNS
News Editor

What is the Civil Service System? How will the Student Government be changed if and when it comes into effect? And most important of all, will the Student Government be better off or worse off because of it?

According to Dick Cottrill, Huntington junior and secretary of Student Government Affairs, the Civil Service System would be a real lift to the campus government.

Cottrill, who is one of the five secretaries composing the Student Cabinet, first ran into such a system when he attended the West Virginia Federation of Student Government Convention last year at Morgantown.

Cottrill learned while at the convention that such a system was in effect in the student government of West Virginia University and that its effect was good.

He brought the idea back to Marshall and, in so doing, was responsible for the instigation of the movement here.

The Student Government studied the system last year and even worked to put it into the realm of reality. Now, it looks like it will be put into effect this year. It at least has a good chance.

At last week's senate session Cottrill stood before that legislative body and presented a report on the inauguration of the system here. The report, which was accepted by the senators, was an explanation of the Civil Service System, presenting a study of the findings of the Student Government Affairs Committee and expounding upon how the system if approved, will change the present setup of the campus government.

Cottrill said that the system would affect the president, his cabinet, and all the numerous commissions and committees which fill out the bureaucratic corners.

SWANN FRANCOIS

Articles Printed

TWO MARSHALL faculty members' articles were published in national magazines recently. William Francois (right), assistant professor of journalism, was the author of a story on article writing specialization in the January edition of *Writer's Digest* and Mrs. Margaret H. Swann, counselor of the Laboratory School, wrote "The Changing Role of the School Counselor" for the December issue of the *School Counselor* magazine. The *Counselor* is published by the American School Counselor Assn. Eric P. Thorn and Charles Houston, both assistant professors in English, wrote book reviews for Charleston newspapers during the holidays. Professor Thorn reviewed Jose Maria Gironella's "One Million Dead" in the *Sunday Gazette-Mail*. The "Letters of F. Scott Fitzgerald", edited by Andrew Turnbull, was reviewed by Professor Houston in the *Charleston Gazette*.

To make the Civil Service System active here, Cottrill went on, the Constitution would have to be amended and the Student Government manual changed. This was to be accomplished by the presentation and the passing of five motions — two to amend the Constitution and three to change the manual.

However, since then one of these motions has been split in half, producing six motions, three of which will call for constitutional amendments.

The original three manual changes stand.

Cottrill explained that the three basic purposes of the system would be to create more participation in the Student Government through the Civil Service Committee, a name which the present Student Cabinet would therefore go by; delegate more duties and authority to this committee's commissioners, who are presently called secretaries, and to put into effect an evaluation system of all members of the government's executive branch.

The latter would consist of, in effect, of everyone being graded regularly by his immediate superior.

For instance, the president of the student body would be responsible for the commissioners, the commissioners would evaluate the co-ordinators of all the committees which come under them and the co-ordinators would, in turn, grade the committee members.

The five original motions were read last week in the senate by Elaine Thompson, Charleston senior senator and a member of the Student Government Affairs Committee, but further action was prevented because many of the senators had not been given copies of the five motions in advance for the benefit of studying them in order to ask intelligent queries. However, prior to tonight's session all of the solons will have received copies.

The motion will again be read this evening and discussion is expected. Between now and the next scheduled session of the Student Senate on Feb. 5, the Parliamentary Affairs Committee will also study the motions.

And when the senate actually does meet again it will vote upon the motions.

If they pass they will then go before the student body for a vote, and the student body must approve them before the Civil Service System can be instituted on campus.

The student-wide vote on the system is expected to be included on the same slate as the amendment that the Student Court recently nullified. The date of this election is still up in the air.

Will the Student Government

be better off or worse off with the Civil Service System?

Most of the people in the campus government who have said anything at all about the system, and most of them have, have expressed ardent opinions for it—from the president on down.

In fact, senators both past and present have spoken eagerly on behalf of such a system. For instance, Bill Calderwood of Charleston, who graduated last year and who served in the senate in his senior year, has termed the present setup "a mess."

The current vice president of the student body, Marna Paulovicks, Wheeling senior, has expressed favorable words for the Civil Service System, and didn't make it a secret in a recent interview that she held high hopes for such a program here.

And so did Student Body President Kenny Gainer, Charleston senior.

The president, also in a recent *Parthenon* interview, said that he was "all for it. It will definitely be a help to future presidents of the student body," Gainer added.

"It will help him in the setting up of his appointments," the president said. "Both the senate and the cabinet should be praised for the work they've done so far in revamping the manual.

"Under the new system a press secretary will most likely be appointed to handle all of the publicity of the commission in the Student Government. This will bring about publicity co-ordination, since each commission and committee have separate people to do this now.

"This will be a big job, but it will also be a big help. It will form a more distinct chain of command," Gainer went on.

The president added that if you wanted to you could compare this press secretary with Pierre Salinger in the national government.

When Gainer was questioned about the talk of the Student Government establishing a

House of Representatives, he said that he really didn't feel that Marshall's student body was quite large enough for such a complex form of campus government.

Under the Civil Service System the first appointments of any future student body presidents will be concerned with the members of his cabinet, the commissioners.

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and "Barefoot Boy With Cheek.")

A GUIDE FOR THE GUIDERS

One of the most interesting academic theories advanced in many a long year has recently been advanced by that interesting academic theorist, E. Pluribus Ewbank, Ph. D. who holds the chair of Interesting Academic Theories at the St. Louis College of Footwear and Educational Philosophy. Dr. Ewbank said in the last issue of the learned journal, the *Mount Rushmore Guide to Scholastic Advancement and Presidents' Heads*, that we might be approaching the whole problem of student guidance from the wrong direction.

Dr. Ewbank, a highly respected pedagogue and a lifelong smoker of Marlboro Cigarettes, (I mention Marlboros for two reasons: first, to indicate the scope of Dr. Ewbank's brainpower. Out of all the dozens of brands of cigarettes available today, Dr. Ewbank has had the wit and taste to pick the one with the most flavorful flavor, the most filtracious filter, the most soft soft pack, the most flip top Flip Top box: I refer, of course, to Marlboro. The second reason I mention Marlboro is that I get paid to mention Marlboro in this column, and the laborer, you will agree, is worthy of his hire.)

But I digress: To return to Dr. Ewbank's interesting theory, he contends that most college guidance counselors are inclined to take the easy way out. That is to say, if a student's aptitude tests show a talent for, let us say, math, the student is encouraged to major in math. If his tests show an aptitude for poetry, he is directed toward poetry. And so forth.

She set the entire math department agog

All wrong, says Dr. Ewbank. The great breakthroughs, the startling innovations in, let us say, math, are likely to be made not by mathematicians—whose thinking, after all, is constrained by rigid rules and principles—but by mavericks, by nonconformists, by intuitors who refuse to fall into the rut of reason. For instance, set a poet to studying math. He will bring a fresh, unfettered mind to the subject, just as a mathematician will bring the same kind of approach to poetry.

By way of evidence, Dr. Ewbank cites the case of Cipher Binary, a youth who entered college with brilliant test scores in physics, chemistry, and the calculus. But Dr. Ewbank forced young Cipher to major in poetry.

The results were astonishing. Here, for example, is young Cipher's latest poem, a love lyric of such originality that Lord Byron springs to mind. I quote:

*He was her logarithm,
She was his cosine.
Taking their dog with 'em,
They hastened to go sign
Marriage vows which they joyfully shared,
And wooed and wed and pi r squared.*

Similarly, when a freshman girl named Elizabeth Barrett Sigafoos came to Dr. Ewbank to seek guidance, he ignored the fact that she had won the Pulitzer prize for poetry when she was eight, and insisted she major in mathematics. Again the results were startling. Miss Sigafoos has set the entire math department agog by flatly refusing to believe that six times nine is 54. If Miss Sigafoos is correct, we will have to re-think the entire science of numbers and—who knows?—possibly open up vistas as yet undreamed of in mathematics.

Dr. Ewbank's unorthodox approach to student guidance has so impressed his employers that he was fired last week. He is currently selling beaded moccasins at Mount Rushmore.

* * * © 1964 Max Shulman

We, the makers of Marlboro, know only one kind of guidance: the direct route to greater smoking pleasure. Try a fine, filtered Marlboro, available wherever cigarettes are sold in all fifty states of the Union.

Tribute To Local Pianist Set Sunday

By KAREN WICKLINE
Teachers College Journalist

In the spring of this year, one outstanding student in the Department of Music will receive a cash award for achievement and scholarship from the newly-established Stella Krimsky Memorial Fund.

According to Harold E. Walker, vice president of academic affairs, the fund was established by a gift to the Marshall Scholarship Foundation by Joseph Krimsky in memory of his wife.

A concert in tribute to the late Mrs. Krimsky will be presented next Sunday by eleven musicians, six of whom are members of Marshall's Department of Music. The concert will begin at 3 p.m. in the Huntington Woman's Club.

The late Mrs. Krimsky was a Huntington pianist and was well acquainted with members of the Marshall music faculty.

Hamlet Begins Thursday

PRINCE Hamlet is played by John Burke, Huntington senior, in the production commemorating the 400th anniversary of William Shakespeare.

DUELING WITH Laertes (Mike Leckie, left) is Hamlet (John Burke) in a scene from the University Theater production of "Hamlet". The production opens at 8:15 p. m. tomorrow in Old Main Auditorium and will run through Saturday. From left are Larry Walton, Lynn Carroll, Barbara May, Tom Wilcox, Lynn Slavin, Ralph Hensley, Sandra Lilly, and John Sargent.

POURING POISON in to the ear of a guard (John Sargent) is Stanley Witofsky. Looking on are the King (Ralph Hensley) and Sandra Lilly. The cast is made up of 20 members.

BURYING OPHELIA (Karen Dille), Laertes ponders the death of his sister. At left is Al Ross who plays Polonious, father of Ophelia and Laertes (Mike Ross).

LAERTES, PORTRAYED by Mike Leckie, Huntington junior, warns his sister Ophelia, portrayed by Karen Dille, Chesapeake, Ohio junior, of the intentions of Hamlet. In the background are Ralph Hensley, Lynn Slavin, Larry Walton and Barbara May.

IN A DRAMATIC scene, Laertes (Mike Leckie, left) and Hamlet (John Burke) duel. The play involves the efforts of Hamlet to gain revenge for the death of his father.

LET'S GO BIG GREEN seems to be the slogan of the MU fast break leader Butch Clark. The ball handling wizard led his team to a 10 point lead early in the first half before the Redskins caught fire. Behind Clark is Miami's Skip Snow.

TRYING TO PUT a point across to the referee is Big Green Coach Ellis Johnson in one of his few trips out of his chair. This incident came right at the close of the first half when Johnson was arguing about his rights when conferring with a player.

Kent State Downs Big Green In Conference Grappling Match

The MU wrestling team, recovering from a 21-9 defeat at the hands of Kent State, will try to break a losing streak when MU meets Glenville State today at 7 p.m. at Gullickson Hall.

Big Green wrestling coach Ed Prelaz said that the loss to Kent State Saturday was a result of the lack of conditioning time after the holidays.

"We only had four days after the Christmas vacation to get in condition," Prelaz said. "We've never beaten Kent, but I thought that we would do a better job than we did against them."

MU grapplers took only three of the eight matches with the Golden Flashes. Winners for MU were Tom Busby, 147 pounds; John Toler, 167 pounds, and Bob Pruett, 177 pounds.

The men from MU met a rash of pins from the Kent wrestlers. Though Marshall won none of its matches by pins, three MU grapplers found themselves the bottom men on the heap. They were Dave Cramp, 123 pounds; Jim May, 130 pounds, and Bob Owens, heavyweight.

Though Coach Prelaz commented that it will take about three weeks for his team to be in tip-top shape, the team will make a try at it tonight in the match against Glenville State. Prelaz said that there would probably be some changes in the MU lineup for tonight's bout, especially in the 167-177, and heavyweight classes. He said that Alex Sansosti, 167 pounds, and Larry Coyner, 177 pounds, are leading contenders for their weights.

Big Green Falls To 'Skins; Cold Shooting MU Downfall

By JERRY REED
Sports Editor

The Big Green was scalped by the Miami Redskins 75-60 Saturday although the MU cagers gave the squad from Ohio quite a scare in the first half.

MU pulled out to a quick 10 point lead in the first period of play. The Greenies caught the Redskins flatfooted in this period with their run-and-shoot type of ball compared to the slow deliberate style of the Miami club.

As usual the big factor in the loss was the rebounding. But this key almost turned the tide for the Big Green because forwards Tom Langfitt and Walt Smittle along with center Bruce Belcher scrambled for the rebounds in the first half.

Guard Butch Clark led the fast break as well as ever and this quick style of game pulled the MU squad up in front in what came close to being the upset of the year in the Mid-American Conference.

"I'm real pleased with our fast break," Coach Ellis Johnson remarked, "and I think it is working well for us when we can get the ball."

Bad passes towards the end of the first period started the Big Green on a long cold spell and this was when the 'Skins took over for good.

"We've run into so many cold spells," Johnson said, "I've never seen a team like this in my life when it comes to cold shooting spells."

In the first 15 minutes of the second half the Miami team outscored the Big Green 29-10 and pulled out to a 25 point edge, 66-41.

"We stopped what we had seen when scouting the Miami club," the coach said, "but they changed their offense in the second half and we couldn't get adjusted quick enough."

"We're just not experienced enough to change defenses that fast," Johnson added.

"Sometimes our players have mental lapses," the MU mentor noted, "and this has certainly hurt us."

Both coaches agreed that defense and rebounding were the key factors in the game.

"What we're planning on doing about it is try to make the boys aware of the job that has to be done under the boards — especially the defensive boards," Coach Johnson said.

"I think we're playing about as well as we are physically capable of playing," the coach commented, "and we'll just have to continue to be patient and try to work things out."

Miami's Coach Dick Shrider felt that his team was not up mentally but added that he did not want to take anything away from MU's play because according to him MU played "good, hard basketball."

"This Marshall team is as scrappy as any team I've seen come out of Marshall in a long time," Coach Shrider said.

"Two big reasons for the win was that Charley (Dinkins) started jumping and Jeff (Gehring) switched positions and that helped him tremendously," Shrider noted.

"We played about eight or nine minutes of good ball in the second half and this was certainly the difference," the Miami mentor said, "because Marshall was in that terrible scoring drought."

Leading the scoring parade

MU Frosh Win Second After Dropping Four

Assistant Sports Editor

The Little Green basketball team won its second game of an otherwise losing season last Saturday by taking the cagers of the junior varsity of West Virginia State 92-68.

And according to Coach Sonny Allen this second win over the squad from State adds evidence to the theory that rebounds determine winners in basketball.

"We've been shorter than all the other teams we've played except West Virginia State," Allen said, "and therefore we just haven't been getting the rebounds and they've been beating us. State is the only team that even begins to compare to us in height and because of the similarity, we get our share of rebounds against the team. Therefore we've won two games from them this season."

The box score of the game backs up Allen's statement. The Little Green had 65 rebounds to State's 47.

"This situation of lack of height has been bothering us all," Allen added, "and about all we can do about it is to try to correct our mistakes and do the best we can. If you have a short team, you just can't make too many mistakes."

But considering everything,

Allen said that he was pleased with the performance of the Little Green as a whole. "The freshmen are improving all the time and for some of the boys, it was their best game to date."

One of the greenies that Allen singled out as being one of his better games was big 6-6 Bill Pfielstricker, the tallest member of the team. Pfielstricker captured captured 24 of the Little Green's 65 rebounds and made 16 points in the game, the third highest shooter.

Honors for the number one scorer in the game was split between a cager from State and Bill Whetsell of MU. Both had 27 points.

Allen said that the game showed that the Little Green had good team balance. He mentioned the fact that four of the five starters were in the double figures in the scoring column. In addition to Pfielstricker and Whetsell, Jim Madison had 14 points for the greenies while Keith Blankenship had 10.

MU hit 43 per cent of their field goal attempts while State's team hit only 31 per cent. In the free throw column the Little Green made 71 per cent of their gratis shots while State captured only 53 per cent of their shots at the line.

was Miami's Gehring with 18 markers followed by him teammate, Charley Coles, with 14 points. Tops for MU in the scoring department was Belcher with 14 points while Langfitt added 12 points and Clark tossed in 10 counters.

The win put Miami in first place in the MAC while MU stayed in the cellar with an 0-3 conference mark. Overall the Greenies are 2-5 not counting yesterday's encounter with the Morris Harvey Golden Eagles (after The Parthenon's press time). The series standing between the two schools now stands at 23-16 in favor of the 'Skins.

Women's Team Invited To Play In Cage Tournaments

The Women's Physical Education Department has received three Basketball Tournament invitations for next semester.

A team of 12 will play against West Liberty, Morehead State, and Fairmont State Colleges. Women interested should consult Dr. Alta Gaynor, department chairman.

*here is a book
that is
helping us
to
get along
with others*

Satisfying human relationships can make a big difference between success and failure in college. Whether it's a roommate, a professor, your family, or friends, you want to get along well with them. We are learning a lot about this through our study of the Christian Science textbook, Science and Health with Key to the Scriptures by Mary Baker Eddy. You can, too.

We invite you to come to our meetings and to hear how we are working out our problems through applying the truths of Christian Science.

CHRISTIAN SCIENCE ORGANIZATION
Marshall University
17th Street at 5th Avenue
Huntington
Meeting time: 6:30 p.m.
2nd and 4th Wednesday
Meeting place: Campus Christian Center
Science and Health is available at all Christian Science Reading Rooms and at many college bookstores. Paperback Edition \$1.95.

Closeup Of Student Body President

'I Tried To Do My Best'--Gainer

By GARY KEARNS
News Editor

Kenny Gainer, Charleston senior and student body president, isn't particularly concerned how campus history will rack him up as a president.

"Being a student is the important thing," he says. "Who will really care what kind of a president I was, say five, 10 or even one year from now. But I have tried."

He has.

Gainer was born in Charleston 22 years ago and grew up there. He is a 1960 graduate of Charleston High School where he served as the president of the Booster's Club and business manager of the Charlestonian, the yearbook.

The sixth of a Parthenon series on Student Government leaders should fittingly end with Kenny, for he is THE student leader here at Marshall. He is the president and the most important student on this campus.

And it isn't strange at all that he is, for his father is a mighty important guy, also.

Denzil L. Gainer is the state auditor of West Virginia, so you see it sort of runs in the family.

Kenny's rationale for choosing Marshall as the university he wanted to attend was a good one. "I just didn't have any desire to go to West Virginia University," he said.

"I had heard a lot about Marshall, and I have had no regrets about coming here. You know, he added, "if somebody had told me when I was a freshman that I would be president of the student body in my senior year I would have laughed."

Gainer is majoring in marketing and retailing in the Business Department and minoring in economics. He will graduate in May. "At least I hope and plan to," he added.

"I'm going into the insurance business," Gainer said. "I'm already a licensed insurance agent. I took my state examination last August. It's a requirement that you have to be 21 to get this."

As for hobbies he plays the guitar and piano a little.

"I like all types of music," Gainer continued. "I worked for the past two years at a downtown record shop. This job was in connection with my major on the co-op plan. I had to give this job up though when I was elected student body president

last spring. I just didn't have the time."

Kenny continued that he has learned to appraise all kinds of music, but fervently added that he was not a country and western fan, however.

The president's campus activities include membership in the Robe, men's honorary, and Sigma Phi Epsilon, where he has held several offices.

He first entered the campus political arena in the spring of his sophomore year when he ran for a junior seat in the Student Senate. He got it.

Why did he choose to run in this election, an election which signaled his entrance into an area which would eventually thrust him to the top?

"I have always been interested in politics," Kenny said, and I knew that if I won or not I would still meet a lot of new people. I suppose that my father's job has helped generate this interest quite a bit. I have been around the State House all my life. I guess it's just in my blood."

Then last spring Kenny ran for the student body presidency, with Miss Paulovicks as his running mate.

"I did not have it in mind when I first came to Marshall to run for anything, either the senate or much less the presidency," he said. "I have heard it said of some people that that was the only reason they came to Marshall, that their main objective from the first moment they set foot on the campus was a Student Government position. This was not true of me. In fact, it was the most distant thing from my mind."

Gainer said that he ran for the office of president by heeding the urgings of fellow senators and from other friends.

He went on to say how well he thought that the senate has done so far this year. "They have accomplished some really good things," he said, "such as lengthening the dorm hours for the women. This action alone is definitely a feather in the Student Government's cap."

On the cabinet: "Well actually, I do work with them more than the senate, and I agree with Marna that this year's Student Cabinet has done exceptionally well. For instance, a system of keeping records for the coming year has been inaugurated. This

will be a great aid."

The interview then turned to Gainer's most ulcer-provoking incident so far this term. What was it? Discrimination.

"This was undoubtedly the most difficult decision that I have yet faced. It wasn't something that I did on the spur of the moment, either. And even though I had much advice from other people on this I knew that I had to make the decision myself and suffer the consequences if there were any."

There were none.

President Gainer continued: "I feel that I did the right thing. If the resolution had passed the senate over my veto I would not have fought it any further. I had made my position clear. The senate could have done with it whatever it had wanted to."

"I discussed this problem with several people. But my decision was not pressured out of me by anyone or any group . . . The final decision was entirely mine."

Gainer went on to say that he is very pleased with the new class ring deal. He is the only student serving on a four-man committee which has the responsibility of choosing a designer and a pattern of the new class rings.

"This was begun last year," said Gainer, "but it did not start rolling until this year. President Smith's cabinet approved the new design just before Christmas. This design will be copyrighted."

"I hope that the new ring will be here for many years to come," he continued. "The ring will be made available for the coming May graduates. Over-the-counter sales are expected to begin next month — we hope."

Gainer also was full of praise for the new chief justice of the Student Court, Paul Wetherall, Huntington senior. "Both the court and the chief justice have done an outstanding job of reorganization and strengthening the court system. This was one of the major aims of Marna and myself," the president added.

But he went on to say that he was very disappointed with the reception of the 1963-64 Student Directories.

"The Student Government had it printed for the first time in two years," Gainer stated, "and they just haven't been selling. We can't get rid of them and

KEN GAINER

last year everyone was crying for them.

"If the sales do not increase we will recommend that no directories be printed next year."

(The remaining copies of the Student Directory are presently on sale at the counter in the Student Union for 50 cents.)

Kenny said that he would like to have all or most of the state candidates for both state and national posts to come to the campus and to attend an open meeting of the senate. This would be for the purpose of providing the students with an opportunity of questioning the various political aspirants.

"It would also help kill some of the public apathy, I believe,

Books Necessary For Honors Plan

Fagus, women's leadership honorary, is asking all honoraries and clubs on campus to donate at least one book to the Honors House library. Books are to be turned in to the Dean of Women's office no later than 4 p. m. Feb. 15.

The inside cover page of the book should contain the name of the organization and its president and sponsor. The organization will receive recognition of its gift at the Honors Day assembly.

UNION ACTION

The regular mix will be held Wednesday evening and the movie "Broken Lance" starring Spencer Tracy, Robert Wagner, and Richard Widmark will be shown Friday evening followed by a mix.

in this election year. If these candidates come it would be sometime this spring, possibly before the May primary," he added.

Gainer also said that he was definitely for the lowering of the state's voting age from 21 to 18.

"I would be the first to admit," he said, "that there are strong arguments both for and against this. And I was very disappointed that the governor did not mention this in his call to the legislature. I felt that he included some very less important things on it."

In wrapping up the interview, GaGiner said that the job of being student body president has been a tremendous experience. "The contacts, meeting so many different people, has made it well worthwhile.

"This job hasn't been a bed of roses, it hasn't been either all good or all bad. But we've learned greatly from our mistakes.

"I do not plan to take an active part in the upcoming spring campaign, though. I will not endorse or combat any of the candidates. However, this is going to be hard, for like I say, it's in my blood."

PITTSBURGH PLATE GLASS COMPANY

Chemical Division

INTERVIEW DATE:
Monday, January 20

Opportunities available in six plants: Barberton, Ohio, New Martinsville, W. Va., Lake Charles, La., Corpus Christi, Texas, Bartlett, Calif., and Beauharnois, Quebec, Canada.

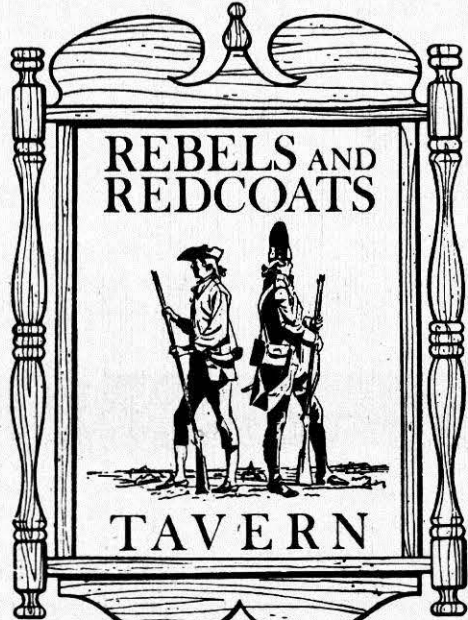

Producers of heavy industrial chemicals: Soda Ash, Chlorine, Caustic Soda, Anhydrous Ammonia, Titanium Tetrachloride, Barium, and other chlorinated products.

Research, analytical, plant problems, supervision, design, maintenance, plant layout, and standard procedure opportunities open for men in these categories:

BS, MS, Ph.D Chemists; BS, MS Chemical Engineers; BS, MS, Electrical and Mechanical Engineers; BS Industrial Engineer and Civil Engineers;

DR. D. BANKS WILBURN, dean of the Teachers College, attempts to explain a question to one of approximately 50 faculty members who attended a general meeting to discuss new programs in teacher education last week at the Science Hall Auditorium. Tentative plans call for new teacher education specialties and majors to be instituted in the fall of 1964. Various faculty committees will begin work on the programs Feb. 1.
