Bad Luck Sign On Pre-Registration

LOOK OUT! FRIDAY the 13th may be doubly unlucky for Patty Geene, St. Albans sophomore. Not only is it pre-registration day, but she's about to get a paint shampoo.

Ill-Fated Day Arrives

Be Wary! This Is Friday The 13th

By RICK TOLLEY
Staff Writer

Two of the "blackest, most foreboding" events of the year have by some quirk of the calendar fallen at the same time. Today is Friday the 13th, and it's registration time again.

Actually, everyone is not really doomed, it is only the disgust and confusion of getting all the classes on our schedule, along with the gossip and tales of the ill luck brought by Friday the 13th, which makes days like today seem so "hopeless."

There are many stories dealing with the tradition of today's date. Both the day of the week, and the day of the month have tales behind them which may explain the tradition.

As we all know, Friday was the day of the crucifixion of Christ, and it is one of the most used explanations for the day of bad luck. One piece of American folklore tells of a shipbuilder who laid the keel of a brig on Friday. That night his wife had a dream of bad omens, and begged him to tear up the keel and lay it again on Saturday. The shipbuilder was hard-headed and went on with his building. Eventually the ship was finished, and it was launched on that day. Soon afterward the ship, named FRIDAY OF WILMINGTON, sailed from port on Friday, and one week later it disappeared during a terrible gale.

The number 13 has a greater connotation of bad luck than does

the day of the week. One old tale says that if 13 people meet in a room, one of them will be dead before the end of the year. All over Europe the number 13 is feared, and in France it is impossible to find the house number or room numbered 13. Even in the United States, it may be noted that tall buildings rarely have thirteen floors.

Don't panic, however; the day is well along its course. It will soon be over and you can "thank your lucky stars" (if you fall under the sign of one) that it didn't occur during exam week.

Fledgling Editors Will Test Wings

Students To Work On Sunday Paper

Putting theory into practice will be the task of ten journalism majors who will write, edit and lay out at least a full page in the Huntington Herald-Advertiser Jan. 28.

This program is part of the journalism department's emphasis on translating book knowledge into practical experience.

Mr. William Francois, assistant professor of journalism and instructor of the class, said that this is the first time in his knowledge that the copy editing class has actually gone to one of the downtown newspapers to publish an entire page, although many of the journalism students frequently write for the daily papers.

Members of the copy editing class, Journalism 301, include John Hines, Huntington senior; Carol Newman, Wayne senior; Patty Poliskey, St. Albans junior; Lindsay Smith, Huntington senior; Lucy Wallen, Huntington junior; Margaret Williams, Sharples junior; Ralph Turner, Huntington junior; William Tow, Man senior; Joe Workman, Princeton senior; and Mrs. Susan Moss, Huntington senior.

Miss Poliskey, who worked for the Charleston Daily Mail last summer, will be in charge of the copy desk.

The page will include feature stories written by journalism students and articles on the United High School Press which is scheduled for Feb. 10 and 11.

LAST PAPER

This is the last issue of The Parthenon this semester. The next issue will be published on Feb. 1.

The Parthenon will not be printed during final examinations, or between first and second semester.

Copyeditors' Chief

PATRICIA POLISKEY, St. Albans junior and journalism major, will direct student copyeditors when they put theory into practice on the copy desk of the Huntington Herald-Advertiser Jan. 28.

Mr. Raymond Brewster, executive editor of the Huntington Publishing Company, and Mr. George Clark, editor of the Huntington Advertiser and Herald-Advertiser, have announced that the page laid out by the class will have a special printing for distribution to some 300 delegates and teachers expected to attend the annual UHSP convention.

This practical application of copyediting skills is the culmination of a semester's work which included work on The Parthenon and laboratory work on Associated Press wire copy. Professor W. Page Pitt, chairman of the journalism department, indicated that he hopes that the experiment can be repeated at the end of each semester.

Although this is the first time that the copyediting class has participated in such a program, the Radio and Television News Writing class prepares two news programs for a local television station each semester.

Club Offers An Opportunity For Conversation In French

By BOB SMITH
Feature Writer

If your ambition is to speak French without an English accent, give up! However, if you are satisfied with just being able to speak it, join the French Club.

The club has proved helpful in the past to many students as a sideline in their studies, according to Dr. Alma Noble, associate professor of French. The only requirement one must meet in joining the club is being a student in any French class.

Professor Noble said that the main purposes of the club are to give the student added information about French culture and also to acquaint him with a better knowledge of conversational French.

Club meetings are characterized by outside speakers who have traveled in France, illustrated

color slides, short plays, French music, and lots of French conversation between members. Two traditional social events, a Christmas party and a spring picnic, are held each year.

The club was founded in 1915 by Elizabeth W. Colwell. This year's membership of 80 represents one of the largest in its history.

Three Fulbright Scholarships have been awarded to French Club members. The most recent was to Gloria Brothers, a 1960 Marshall graduate who is now studying in France. The scholarship is for one year with all expenses paid.

Dr. Noble and Virginia Parrish, professor of French, are the club's advisers. It meets once a month, usually on Wednesday at four p.m.

Final Exams Slated Next Week

FIRST SEMESTER final examinations will run from Monday to Friday of next week with three test periods scheduled each day. Above is the schedule of examinations which lists the time of examinations according to the regular time of the class. The exams will be given at the regular class meeting place.

Woods, Hardesty Fill Behind-The-Scene Jobs

By DOROTHY LOCKE
Staff Reporter

Two major employees of the Student Government who are rarely heard about are the executive secretary and the business manager. These two relieve much of the burden of the student body president said Bill Wortham, Huntington senior.

Nancy Woods, Moundsville junior, serves as executive secretary and Mrs. Kay Moss Hardesty, Huntington senior as business manager. They both applied for their paid positions and were appointed by the student body president.

"I don't think anyone on campus realizes what a business Student Government is," said Mrs. Hardesty, whose duties include meeting with various Student Government commissions and committees to help them prepare their budgets, preparing the budget for the Student Government, making monthly reports to the Student Senate, and running between the Student Government office and the treasurer's office with checks, requisitions, and bills.

Mrs. Hardesty, who is an accounting major and hopes to work in tax accounting for the federal government, enjoys the experience she gets working with the bookkeeping system. She also has the inside story on nearly everything that happens on campus. She spends about 10 hours a week in the office and feels that she has "met, or at least seen, every freshman on campus."

According to both coeds, people come into and call the office every day to ask questions or just talk. Mrs. Hardesty added that people should feel free to come to the Student Government office to ask questions.

Miss Woods spends about 12

to 15 hours a week keeping Student Government records and Cabinet and Senate minutes, preparing the agenda for Senate proceedings, performing clerical duties for the student body president, and acting as filing officer for candidates for office. This is her second year as executive secretary.

Miss Woods has been a counselor in Freshman Dormitory for two years and is a member of Et Cetera and Psi Chi psychology honorary. She was graduated from Moundsville High School and is majoring in psychology with political science and philosophy as minors. After graduation she plans to go to graduate school to become a clinical or experimental psychologist.

Mrs. Hardesty is a graduate of Lewisburg High School. She will graduate from Marshall in May with minors in economics and speech. She is chaplain of Alpha Xi Delta social sorority.

Her past activities include Life Planning Week co-chairman, member of Campus Christian Fellowship and Baptist Student Movement, counselor in Freshman Dormitory, and treasurer of Alpha Xi Delta.

Two \$1,000 Grants Set By Group

Two \$1,000 fellowships will be available to members of Alpha Lambda Delta, freshman women's scholastic honorary, the National Council has announced.

The Alice Crocker Lloyd Fellowship and the Adele Hagner Stamp Fellowship for graduate study will be awarded for use during the 1961-1962 academic year.

Applicants will be judged on scholastic record, recommendations submitted, the soundness of the applicant's project and purpose, and to some extent on need.

Any member of Alpha Lambda Delta graduating in 1958, 1959, or 1960 who has maintained the scholastic average throughout her college career is eligible. Graduating seniors may apply if they have maintained this average to the end of the first semester of this year.

Applicants must be planning to do their graduate study in a college having an Alpha Lambda Delta chapter.

Application blanks and information sheets may be obtained from the National Fellowship Chairman or the Dean of Women.

The application must be filled out by the applicant herself and submitted to the Fellowship Chairman before Feb. 15. A complete official transcript of undergraduate work must be sent.

An Editorial

Students Can Help Out In University Campaign

Do you want "University status" for Marshall?

Each student can help Marshall attain the status which it deserves by asking their parents and friends to support "Marshall University" by letters and talks with their legislators.

The West Virginia Legislature convenes this month and NOW—during the semester break—is the time to seek the support of parents and friends.

Why does Marshall deserve to be named a University?

Marshall College, at the present time, has a larger enrollment than many universities. There are 20 states which now have smaller state universities in addition to their main state university. If Marshall becomes a university it would neither detract from or compete with the other state colleges or with West Virginia University.

The Kreger-Anderson report, made by two distinguished educators in 1957 following a thorough study of the administration and organization of the college, stated that "Marshall College has now reached a degree of complexity and educational eminence that clearly takes it out of the 'college' class as an institution of higher education." And, in 1958, a team of administrators, representing the North Central Association of Colleges and Secondary Schools, described Marshall as "a complex university-type institution."

Changing the name of Marshall College would merely reflect administrative and organizational changes which have been made over a period of years. President Stewart H. Smith has stated, "The sole purpose behind this suggested change is to enhance the educational and institutional services of Marshall." Changing the name of the college would not be new.

Marshall College now has a College of Arts and Sciences, a Teachers College, a College of Applied Science, a Graduate School, and a Division of Adult Education. There are several well-known universities, such as Washington and Lee and Xavier University, which have only two colleges or divisions.

Help Marshall College gain "University Status"! Seek the support of your parents and friends during the semester break. Ask them to write or talk to their legislators urging "U-status" for Marshall. You, too, can have a part in making Marshall a "University" in name, as well as in fact.

SUSAN ATKINSON
Editor-In-Chief

Coed Given Scholarship

Donna Jean Jordon, Huntington freshman, is the recipient of the Annual Class of '60 Scholarship given by that class to an outstanding freshman.

The class of '60 is the first one to give a scholarship to a student on behalf of the class as a whole. This was to take care of her first semester tuition and fees, but since circumstances prevented the class from collecting all of the money at that time, it was not awarded until the second semester.

The scholarship was based on the student's high school record,

particularly academically and the need for financial assistance. Donna attended Huntington East High School, and is a business administration major.

SNEA Elects Aids

Nancy Parsons, Ripley junior, has been elected president of the campus chapter of the Student National Education Association.

Other new officers include Judy Hockman, Paw Paw junior, vice president; Loretta Bennett, Parkersburg sophomore, secretary, and Click Smith, Huntington senior, treasurer.

War Is Over! He Made It!

Dr. Sam Clagg, professor of geography, had an unusual experience recently.

At midnight, the telephone rang. When he answered, the long distance operator asked: "Are you the Sam Clagg who used to be with the First Marine Division?"

"Yes," came the sleepy reply.

"Did you serve as a Pioneer officer with the combat engineers during World War II?"

Dr. Clagg said he had.

He was promptly connected with two former Marine sergeants in Scranton, Pa. Both served with Dr. Clagg during battles in the Pacific, but were separated from the division before the end of the war.

Their reason for calling? It was more than 15 years since they had left their unit and returned to the States. Had Dr. Clagg made it through the war?

There then followed a 45-minute reunion—at long distance rates.

Journalism Graduate Courses Offered Here For First Time

Graduate credit in journalism will be offered next semester for the first time in Marshall's history, according to Professor W. Page Pitt, chairman of the journalism department.

A course in the publication of the high school newspaper, Journalism 528 and 428 is an Arts and Science class but designed for English majors in Teachers College who are required to take library science or journalism. This course will fulfill that requirement.

If taken for undergraduate credit, the class is numbered 428, but the graduate course is numbered 528. The classes run concurrently and if taken for undergraduate credit the class cannot be repeated for graduate credit.

It is a three hour course and meets at 10 a.m. on Tuesdays and Thursdays with a laboratory to be arranged. The lab requirements will be done in conjunction with The Parthenon

There is no prerequisite and anyone eligible to take a 400 course can schedule this class. Arts and Science students may take it as an elective. Although designed for Teachers College students, the course is not listed as an education course.

Professor Pitt pointed out that Journalism 428 and 528 takes the place of Journalism 328, formerly a two-hour class on the high school newspaper.

CJ SEEKS HELP

Wanted . . . several students to work on the 1961 Chief Justice. The Chief Justice staff is busy at work preparing copy, pictures and other material for the year-book, but they are in need of students to work on the organization section in particular. Any interested student should apply to the Chief Justice office on the second floor of the Student Union.

Be perspicacious!

Not this: a student who studies drowsily no matter how much sleep he gets.

This! Perspicacious . . . sharp! NoDoz keeps you awake and alert—safely!

If you find studying sometimes soporific (and who doesn't?) the word to remember is NoDoz. NoDoz alerts you with a safe and accurate amount of caffeine—the same refreshing stimulant in coffee and tea. Yet non-habit-forming NoDoz is faster, handier, more reliable. So to keep perspicacious during study and exams—and while driving, too—always keep NoDoz in proximity.

The safe stay awake tablet—available everywhere. Another fine product of Grove Laboratories.

Steel Girders Add To Changing Campus Scene

THE CAMPUS SKYLINE is changing every day. The steel girders outline the new mens' dormitory building, scheduled for completion in September. The project is two weeks ahead of schedule, according to Comptroller Fred Smith. (Photo by student photographer, Joe Workman.)

Interviews To Be Held After Semester Break

Several placement interviews will be conducted on campus after semester break. All students interested should make an appointment in the Placement Office.

Mr. Leon S. Olson, representative from the Allied Chemicals Corporation in New York, will be on campus Jan. 26 to interview chemistry majors and engineering majors with chemistry electives. Mr. Thomas E. Cleaver, Agency Personnel Management Specialist for the U. S. Army Auditing Agency will be on campus Jan. 31 and Feb. 1 to interview accounting majors.

On Feb. 1 and 2, Mr. R. H. Donaldson, Personnel Manager of the Goodyear Tire and Rubber Co. in Berea, Ohio, will interview students majoring in Liberal Arts for general sales and engineering majors for industrial sales. There will be a group meeting for those interested on Feb. 1 and individual interviews on Feb. 2.

Two other interviews will be conducted on campus on Feb. 2. They are with Anne Arundel Co. Schools in Annapolis, Md., with Mr. Robert Shaffner, director of personnel interviewing. The

salary range will be from \$4500 to \$7300 and there are no restrictions as to major. Mr. C. H. Cubbon, representative from the Industrial Relations Department of Union Carbide Chemicals Co. in South Charleston, will be interviewing those interested in doing summer camp counseling.

'Diabolique' Slated For Art Galleries

The famed and highly successful horror film, "Diabolique", will be the main feature shown at the Huntington Galleries Sunday at 2 and 4 p.m.

Though it may produce nightmares among the younger set, more sophisticated youngsters as well as adults can count on thrills galore as the suspense builds steadily through gruesome (and some humorously incongruous) episodes to a smashing climax. To those who know the ending: don't reveal it.

For a change of pace, myopic Mr. Magoo is to be shown in "Troubled Indemnity".

\$150 Per Semester Available For Undergraduate Research

By DIANE STEVENSON
Feature Writer

Petroleum Research Fund is offering \$150 per semester to two undergraduate students for research in the field of organic chemistry, according to Professor Allen W. Scholl, professor of Chemistry and head of the chemistry department.

Applications for the grants must be turned in to Dr. M. D. Barnett in room 325A, Science Hall by Jan. 20.

At the present time there are 3 graduate students in the chemistry department working on research material, that will be classified "top secret" by the government if they are successful.

Other graduate research projects include a study of the physical

properties of plastics conducted by Robert Morris, an employee of Union Carbide in South Charleston. His research project is entitled "Completed Molecular Weight Distribution of Polypropylene Glycol."

Don Plymale, an employee at the International Nickel Company is experimenting with alloys and the different colors they give off when placed near a light. The title of his project is "Influence of Flowing Gases on the Initiation Spectrum of Nickel Alloys."

Robert Bennett is studying the rate at which alcohol reacts with a chemical base.

Tharol McClasky is determining how strong phenolic acids are when different groups are substituted on the molecules.

One-Stop Shopping makes it easy to make the right buy at your Chevrolet dealer's!

No need to look farther than your Chevrolet dealer's to find the car you're looking for. There under one roof you can pick from 30 models—almost any type of car for any kind of going. A whole new crew of Chevy Corvairs for '61, including four wonderful wagons unlike any built before in the land. Thrifty Chevrolet Biscaynes, beautiful Bel Airs, elegant Impalas and six spacious Chevy wagons—all with a Jet-smooth ride. Come in and choose the one you want the easy way—on a one-stop shopping tour!

New '61 Chevrolet IMPALA 2-DOOR SEDAN

Here's all anyone could want in a car! One of a full line of five Impalas with Chevy's sensible new dimensions, inside and out.

New '61 Chevrolet 4-DOOR BISCAYNE 6

NOW—BIG-CAR COMFORT AT SMALL-CAR PRICES

These new Biscaynes—6 or V8—are the lowest priced full-sized Chevies. Yet they give you a full measure of Chevrolet roominess.

New '61 Corvair 500 LAKEWOOD STATION WAGON

One of Corvair's wonderful new wagons for '61, this 6-passenger Lakewood gives up to 68 cu. ft. of storage space.

New '61 Chevrolet BEL AIR 2-DOOR SEDAN

Beautiful Bel Airs, priced just above the thriftiest full-sized Chevies, bring you newness you can use. Larger door openings, higher easy-chair seats, more leg room in front, more foot room in the rear.

New lower priced 700 CORVAIR CLUB COUPE

Corvair brings you space, spunk and savings in '61. Thriftier sedans and coupes with more luggage space. That rear engine's spunkier, too, and there's a new gas-saving rear axle ratio to go with it.

See the new Chevrolet cars, Chevy Corvairs and the new Corvette at your local authorized Chevrolet dealer's

Big Green Edged By Miami, 71-68

The Redskins of Miami, playing clutch basketball, eked out a 71-68 victory over the Big Green Wednesday night, dropping Marshall to a 1-4 Mid-American Conference record.

In an exciting game that went down to the wire, Miami overcame a 62-57 deficit with less than six minutes to go, then went into the lead by one point,

Cribbage Title Won By Fugate

By ROGER HUTCHINSON
Sports Writer

The intramural score sheet lists a new championship, in cribbage, and nine new basketball games have been added to the books. Toddy Fugate of Pi Kappa Alpha, won the cribbage championship by defeating Sig Ep's Tom Chapman 2-1.

Monday night's intramural basketball play saw four teams post victories. The Collegians started the night's play by defeating the Generals 46-32. John Jones of the Collegians led with 14 points. In the second game, PKA No. 3 fell by the wayside, 50-27 when Ron Lambert, with 14 points, led SAE No. 3 to victory. Third on the night's agenda was a close one with ROTC No. 1 beating the Rebels 46-44. In the final of the evening Wagner of Podunk U. led his team, with 25 points, to a 63-62 victory over the Old Timers.

Five games were played last Tuesday night with the Faculty posting the highest score of the evening by defeating Varsity M No. 1, 81-61. Milhoan and Lambert for the Faculty, each scored 24 points. In the other games, Jim Spenser of Virgils Gang tossed in 17 points to lead his team to a 48-32 victory. Larry Legrand, with 23 points, helped the Pussy Cats defeat Sig Ep No. 4, 73-57; Bill Johnson's individual 18 points helped the Hill Billies swamp SAE No. 5, 41-12 and Norman Mullins of PKA No. 1 grabbed 17 to lead his team to a 66-54 victory over KA No. 1.

Matmen To Meet Kent Tomorrow

Marshall will be host to the Kent State wrestling team tomorrow at 2 p.m. in the old gym. The Kent State crew poses a threat to Coach Ed Prelaz's men as they were second in conference wrestling last year.

Coach Prelaz said that the match promised to be a good one because Kent will have a good team. He didn't know how many of last year's Kent team would be present this year.

Marshall's lineup for the match will be essentially the same as for the Toledo match except in the 137 pound class which is in the balance between Ron Easley, Logan sophomore, and Pete Shaftron, Huntington sophomore.

The remainder of the line-up will see Jim Mattern, Parkersburg junior, in the 123 pound class; Bill Cyrus, South Charleston junior, at 130; Phil Harris, Webster Springs sophomore, at 147; Ralph May, Chapmanville junior, at 157; Dick Thomas, Huntington junior at 166; Alpha Mayfield, Dellslow senior, at 177; and Rober Jefferson, Barboursville sophomore, in the heavy weight class.

63-62 with 3:56 remaining. Using a stall, the Redskins built their lead to 66-62. Marshall closed the gap to 66-64, Miami scored a bucket, then Lou Mott hit on two free throws to narrow the margin to 68-66 with 45 seconds left.

An all-court press won Marshall the ball, but it was stolen in a clutch play by the Redskins' Benson, who was fouled and made the score 69-66. Charley Moore scored a basket, but Vern Lawson of Miami was intentionally fouled and sank two free-throws to ice the game.

Top scorer for Marshall was Jim Gallion with 15, who subbed for Bob Burgess. Burgess injured his ankle in the second half, but returned to the battle to chalk up 14 points. Mickey Sydenstricker and Tex Williams each garnered 14 points.

Early in the game, Miami led the Big Green by 10 points, but the half ended with Miami on top 39-36.

Marshall closed the gap and went ahead in the second half, but in the closing minutes surrendered the lead and couldn't wrestle it back again.

Burgess Is Tops!

BOB BURGESS, captain of the Big Green, is the leading rebounder in the Mid-American Conference and is second in the nation with an 18.5 average.

Golf Team Tryouts Planned In March

The Marshall golf team will have its first tryouts in early March, said Coach Larry Snyder. The linksmen will have the same squad it had last year and will be among the top contenders for the championship of the MAC.

Ohio University lost five of its members and will not dominate the conference as in the past, said Jim Ward, one of last year's starters.

Coach Snyder, now assistant pro Guyan Country Club, was the Bobcats' number two golfer.

Rockets, Marshall Meet Tomorrow In Key Tilt

With its second Mid American Conference game out of the way, the Big Green tackles the MAC leader tomorrow.

Toledo, prior to last Wednesday's action, boasted an 8-1 record.

The Rockets are averaging 72 points per game and 78 points per game in conference action. Up till Wednesday, the Big Green was putting an average 65 points per game through the hoops in MAC action and were sporting a 70-point average.

Dr. Michael Josephs, assistant basketball coach, said that the Big Green netters will be playing one of the best balanced teams in the nation.

The coach said, "they have three good scorers in Jerry Galicki, Jim Miller and George

Patterson. The Rocket's balance is so good that they can substitute easily and not lose a scoring combination. Their reserves are strong and the men on the floor will not shoot unless there is a man underneath the boards, and will not shoot if they don't have the shot and position."

Marshall will use both man-to-man and zone defense, according to Dr. Josephs.

The Rockets have walloped Western Michigan by 30 points and topped Miami by 20 on the Rockets court. Last year the Rockets took both games from the Big Green.

They play many strong non-conference team, such as Dayton, Duquesne, Drake and Detroit. They are co-favorite with Ohio University to win the MAC.

They're Ready For Inaugural Parade If....

ONE HUNDRED ROTC CADETS will leave for Washington, D. C. next Thursday to march in the Presidential Inaugural Parade—if \$1,400 is raised to pay expenses. Capt. Bliss W. Wilder will be convoy commander to and from Washington. Assisting him will be Sfc. Samuel Bergin. Lt. Col. Thomas M. Ariail, professor of military science, will also accompany the unit.

\$900 Now In Kitty For ROTC

The campaign to raise funds to sponsor the ROTC contingents' trip to Washington D. C. for the inaugural parade is progressing well, according to Dr. C. A. Hoffman, local physician in charge of the drive.

The drive, which will close Saturday morning, has already netted \$900 in subscriptions. Dr. Hoffman said that by the closing time, there should be adequate funds to provide for the trip. A minimum of \$1,400 was set by President Stewart H. Smith, according to A. E. McCaskey, dean

of the college of applied science and co-ordinator of the drive.

Because the Army could not get permission to use federal funds to sponsor the ROTC unit's trip, the citizens of Huntington

undertook the task of raising the necessary funds.

All contributions are being accepted by Dr. Hoffman, and the checks should be made payable to the Marshall Foundation, Inc.

Good-By Gifts For Sarge

SFC. HARRY W. JONES, instructor in military science and tactics, has left to serve for 13 months in Korea. He holds a transistor radio, given to him by the senior ROTC class in a ceremony this week on the drill field. This is one of several gifts given to him by the detachment and corps. He had been at Marshall four years. Standing by is Maj. Anthony Cararie, assistant professor of military science and tactics.

Nine Are Elected As SAE Officers

Sigma Alpha Epsilon has recently elected new officers who will serve during the second semester.

The officers are Don McNew, Ripley senior, president; Bob Bledsoe, Webster Springs senior, vice president; Charlie Ferrell, Logan sophomore, treasurer; Dave Daniels, Huntington junior, recording secretary; Richard Moses, Whitesville junior, corresponding secretary; Selby Wellman, Huntington sophomore, herald; Bill Harmon, Huntington sophomore, chronicle; Jack Wortman, Huntington senior, chaplain, and Paul Backett, Huntington junior, warden.

Professor Corrie Gives Bee-Attitude

Economics Professor George Corrie—known as one of the wittiest persons on campus—cut loose with these quips in one of his ever laughing classes.

Speaking of nature, he said, "By all the rules of aerodynamics the bumble bee can't fly. But the bee doesn't know this so he goes ahead and flies anyway."

In reference to test grades, the jolly economists related, "You (students) know what you are worth but you're hoping that I think you're worth more than you know darn well that you are not."
