Rental Of Union For Outsiders Ceases In Fall

By SUSAN ATKINSON
Society Editor

The renting of the Student Union to outside groups will be discontinued starting September, 1960, Don Morris, Student Union manager, announced.

The decision was reached Wednesday by Mr. Morris after conferring with President Stewart H. Smith, Comptroller Fred Smith, and other members of the Student Union Board. It came about because of the continued interest on the part of the students to the week-end programming that has been in effect this school year.

According to Mr. Morris, the Union will be used for outsiders only on rare occasions. This will come about only when it is of public relations benefit to the school such as: the State High School and the Catholic High School tourney dances, the United High School Press Convention and the High School Science Fair dances. Some of these dances will be open to the students if there is not a large crowd with the different organizations.

In his statement, Mr. Morris said:

"Over a period of years the Union was forced to rely on the income from rentals to outside groups to meet the obligations of maintenance, utilities, payments on bonds outstanding and general upkeep. The Union is now in a solvent condition and it is believed that we can now 'hold the line' with the loss of rental revenue and still not increase the prices at the fountain."

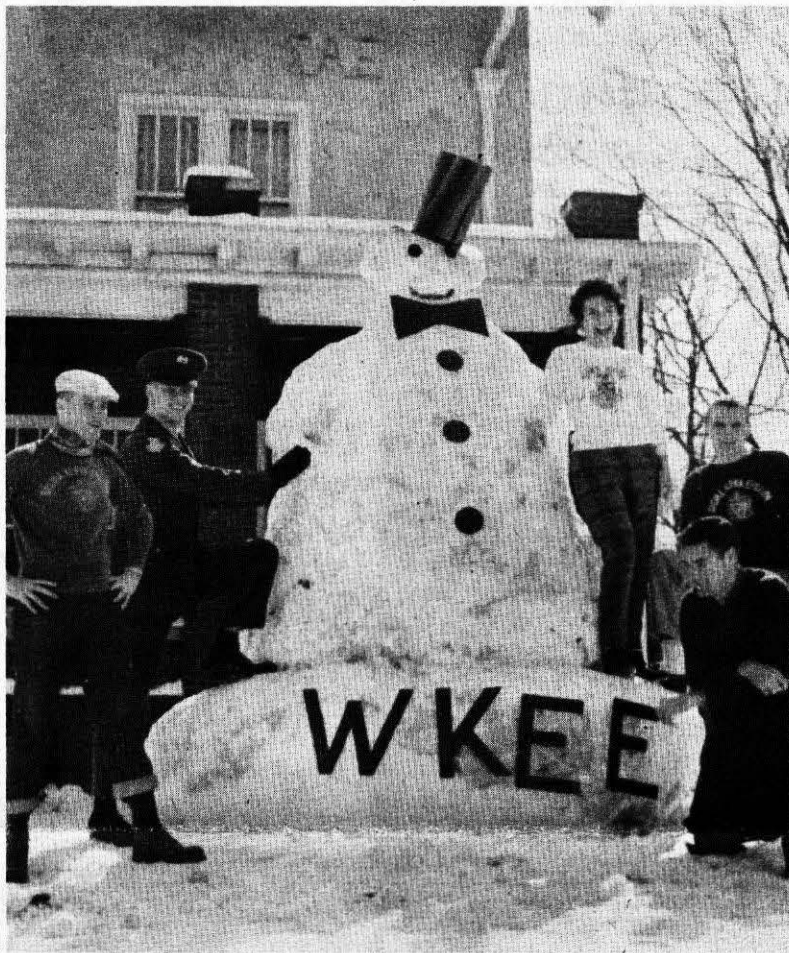

"There are still almost \$100,000, in bonds outstanding on the new additions to the building which were made in 1954. However, almost half of this sum has been raised and is drawing interest in local banks until such time that the bonds come due."

"It is hoped that the students continue to support the week-end activities to warrant the change in policy. Activities Director William Gillespie will welcome suggestions as to new programming. He is now in the process of selecting an Activities Committee from a cross-section of the student body."

WHAT?

Dr. Alex Darbes, associate professor of psychology was lecturing on deafness and asked his class if anyone were deaf.

Before anyone could answer, one fellow was heard in a clear voice asking, "What did he say?"

The Biggest Snowman In Huntington

SIGMA ALPHA EPSILON fraternities entry in the city-wide "biggest snowman" contest, sponsored by local radio station WKEE, won the contest and a \$20 prize. The snowman was approximately 12 feet high and 6 feet in diameter at the base. Jane Aylor, Huntington junior and SAE Sweetheart, adorns the winner while SAE members (left to right) Vern Scandola, Welton junior; Howard Sutherland, Matewan senior; Don Warnoch, Huntington senior and Conrad Smith, Huntington junior smile in victory.

Monday's Forum To Feature Noted British Author Waugh

British author and world traveler, Alex Waugh, will address the Community Forum at 8 p.m. Monday in Old Main Auditorium. The title of Mr. Waugh's talk will be, "Tales of a Wayfaring Writer."

Mr. Waugh was born in 1898 into a ready-made journalistic background. His father was a

well-known publisher and his sister, Evelyn Waugh, an author in her own right.

Educated at Sherborne and Sandhurst, Mr. Waugh served in World War I and while a prisoner of war in a German prison camp gathered the material for his novel, "The Prisoner of Mainz."

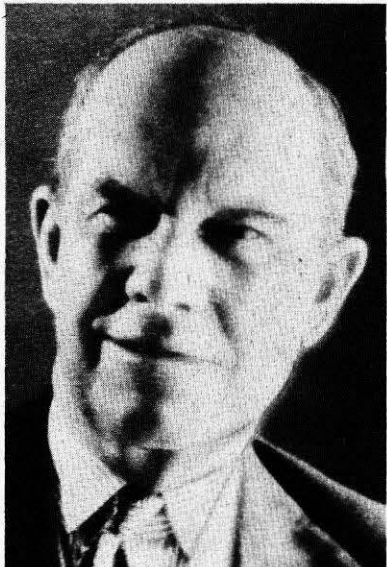

He has traveled around the globe searching for new material for his novels. The South Seas and the Orient are not strangers to him.

He is described by his friends as a warm friendly man entirely at home in any part of the world. And he has an abundance of friends in every corner of the world.

PLAY DAY SET

The annual WAA-sponsored play day will be held April 2, according to Frances J. Smith physical education instructor.

There will be 140 to 200 high school representatives in this annual play day. The program will include tournaments and other recreational activities.

ALEX WAUGH
... "Wayfaring Writer"

Conditions Laid Down By ROTC, Philosophy

Efforts to install the Honor System in the Departments of ROTC and Philosophy have come to an abrupt half—at least temporarily.

The halt occurred when the chairmen of the two departments decided they would not want the Honor System installed without a definite assurance that both the administration AND the faculty approve.

Lt. Col. Thomas M. Arial, chairman of the ROTC department, said, "We would rather not go further in this matter until the system has received a vote of confidence from the entire faculty."

"We are perfectly willing to try the system as long as it has the approval of both the administration and faculty."

"In other words, we don't want to try the system until we feel sure it's wanted."

Dr. Lloyd Beck, chairman of the philosophy department said, "I haven't refused to allow the Honor System to be installed in the Philosophy Department. But, I hesitate to experiment with the system until, and unless, I have received an announcement from administrative sources supporting and sanctioning the Honor System experiment."

It had been previously indicated that only the approval of the departmental faculty would be needed in order to give the Honor System a trial run in the Philosophy and ROTC departments.

Commenting on this new development, Student Body President John Karickhoff, Spencer senior, said, "This delay comes at a crucial time, but I think it may be best in the long run."

KARICKHOFF EXPLAINS

He said that he understands the position of the two department chairmen, is that they don't want to initiate any program that might be contrary to the wishes of the faculty and administration.

He said there is no indication of a lack of enthusiasm on the part of students in the two departments.

Until the present problem is ironed out, Karickhoff said, further class meetings with students in the two departments will be postponed.

PAMPHLETS DISTRIBUTED

He said he hoped the faculty's opinion could be determined within the next two weeks. In the meantime, the Honor Commission has distributed pamphlets explaining the Honor System to all faculty members, and will try to present them with whatever information is desired.

(Continued on Page Four)

Honor System Hit Through Pamphlet

"Hearsay, poetry and Biblical quotations characterizing the Honor Commission's propaganda should be replaced by some intelligent answers to students," states a pamphlet being circulated on campus.

The publication, in lengthy opposition to the system is being distributed by an unknown source.

The pamphlet says, "A very small number of students are in favor of the system."

"The group which did the investigating of the Honor idea never paid much attention to schools which tried it and found it wanting," the pamphlet claims. "The emphasis has been upon colleges and universities which still have the system, most of which are private, denominational, military or large well-endowed universities. The cards seem to have been somewhat stacked."

Athletics Unit Told To Curb Expenditures

By RON HUTCHISON
Sports Editor

President Stewart H. Smith has instructed the Athletics Department to "practice every possible economy" during the remainder of the school year, it was learned this week.

Neal "Whitey" Wilson, acting athletic director during the absence of Robert Morris, said Wednesday that only 10 basketball players, rather than the usual 14, will fly to the St. Francis game at Altoona, Pa., Saturday night.

Other "economies" are expected, but the extent is not known yet.

"I hope they won't have to discontinue any Spring sports," Dr. Smith said, "although they might have to have a shorter program."

The Athletic Department's financial outlook will be made clearer after a routine audit of the books is completed by Comptroller Fred Smith and an auditor.

Reason for the economy drive, according to President Smith, goes back to January when the treasurer's report showed "more outstanding bills than assets."

President Smith then asked that economy measures be put into effect.

Spring sports which could be affected include baseball, golf, tennis and track.

5 Students Draw Year Suspensions

Three male students have been suspended from Marshall for one-year periods following thefts from the Men's Dormitory, according to President Stewart H. Smith.

No prosecution by the City of Huntington is planned, it was announced.

SNEA MEET

The Student National Education Association has scheduled a meeting for 6:30 p.m. February 23 in the Science Hall Auditorium.

Been Inoculated? Campaign Slated

By KEITH MARKINS
Staff Reporter

"You planned your life last week; preserve it this week." This is the slogan being used by the Pre-Med Fraternity in a campaign to get students to take advantage of free immunizations which are available at the health clinic.

The purpose of the campaign, which will take place during the week of Feb. 22-26, is to attempt to get the majority of students inoculated against such diseases as diphtheria, typhoid, tetanus, polio, small pox and Asiatic flu, by making them aware that the shots are available and are theirs for the asking.

The health clinic buys the vaccine with money from student health fees and each student is entitled to these inoculations without further charge with one exception; the student must pay \$1.00 for each polio shot, the reason being that the health clinic must pay the same to the polio foundation. However, if a student does not have the money when he takes the shot, the health clinic will charge it to his account and he may pay at his convenience.

A day to day count of the number of students taking advantage of the shots will be made and the campaign will feature a large rocket to be placed in front of the Student Union upon which this information will be recorded daily.

Emphasis will be placed on tetanus and polio immunizations. According to Dr. Charles Hegan, college physician, these particular shots are ignored by most students. Tetanus shots consist of a series of two and a booster shot

every four years. Polio inoculation, consists of two shots one month apart, one shot seven months later, and a fourth shot one year later.

Dr. Hegan stated that there has been a 98 percent decrease in polio cases among those who have had the shots. Tetanus and diphtheria consist of one shot together. Smallpox is a single vaccination which no longer leaves a large scar which most of us are familiar with.

Drawings and oil and water color paintings by Dr. Arthur S. Carpenter, professor of art, and Miss Joan Gregory, instructor in art, are now at the Huntington Art Galleries. They will be exhibited through March 15.

Dr. Carpenter attended the Maryland Institute of Fine Arts, Baltimore, Md., and received his Master's Degree in art and Doctor of Art Degree from Penn State University.

He has exhibited at the Washington County Museum in Hagerstown, Md., gave a one-man exhibition at New Hope, Pa., and was represented in two group shows at the Norllyst Gallery in New York.

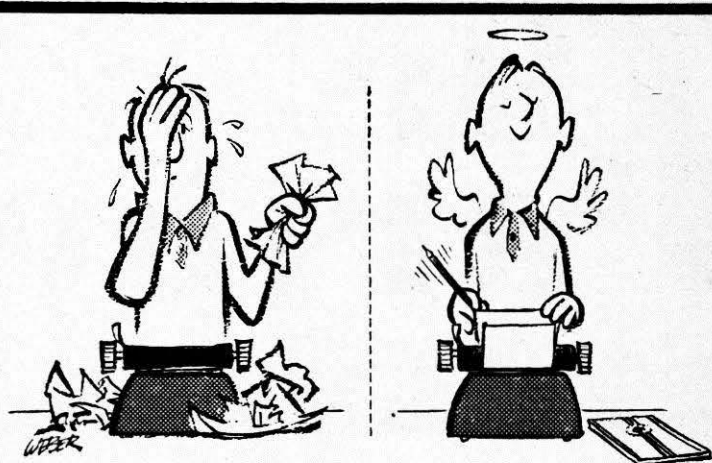

He has won several art awards

and is represented in private collections.

Miss Gregory, who received her A. B. in art at Alabama College, Montevalle, Ala., and her

M.A. in art from George Peabody College on a Carnegie Fellowship. She presented a one-man show at Alabama College and has presented her work on exhibition since 1956.

Next Three A Must For Big Green Five

By RON HUTCHISON
Sports Editor

Trying to salvage a losing season, the Marshall Big Green will travel to St. Francis this weekend for the first of three games the Big Green must win to finish with a .500 season.

With a 9-12 mark, Coach Jule Rivlin's cagers must knock off St. Francis, Eastern Kentucky and Bowling Green to avoid Marshall's first losing year since 1936.

Both the Frankies and Eastern Kentucky have beaten the Big Green this year. St. Francis by a 86-78 margin in a nip and tuck overtime game. Eastern defeated the Green by a 90-82 count.

Several reasons, as inexperience, injuries and a tough schedule, have been put forth concerning Marshall's dismal showing.

This year's edition of the cage team shows only one senior on the roster, team captain John Milhoan. Coach Jule Rivlin's squad lists seven sophomores, three on the starting five. The lack of experience has hampered the Big Green in the closer games with more seasoned opponents.

Injuries to such key players as Herm Conner, Bob Burgess and Chuck Gordon has weakened the Big Green squad, especially in the rebounding department.

Playing one of the toughest schedules in the nation, the Big Green has met four of the country's top twenty teams. Cincinnati, number one, Toledo, 12th, St. Bonaventure, 14th and Ohio University, 18th, have opposed the Big Green this season. These teams have a combined won and lost record of 63-11.

The Big Green has had to cope with the three top scorers in the nation this year in the persons of Oscar Robertson (Cincinnati), Tom Stith, (St. Bonaventure) and Jimmy Darrow (Bowling Green).

In tomorrow night's game Marshall will face a familiar situation, superior height plus a more experienced team.

The Frankies boast a starting team averaging about 6:5 and one of the best pivot men in the East in Wilbur Tosch. The height advantage gave the Frankies the edge in their win early in the year at Huntington. Their record, up to Feb. 10, stands at 10-6.

The last home contest of the season will be Monday against the Eastern Kentucky Maroons. Eastern lost its last outing by the score of 38-20 to Western Kentucky. The Maroons walked off the floor in the first half, forfeiting the game.

Coach Rivlin has announced the following probable lineup for the St. Francis game: Milhoan, Burgess, Bruce Moody, Tex Williams, Jim Gallion or Lou Mott.

Track Team Meets; Plans Not Complete

Coach Forrest Underwood has announced that the first meeting for the Big Green track team will be held at 3 p.m. today.

The meeting, to be held in the Physical Education Building, will concern team organization and practice plans. All lettermen, members of last year's freshman team and any interested students may attend the meeting, Coach Underwood said.

According to Coach Underwood the plans for the new track schedule are incomplete.

Pikes Defeat Faculty, 55-45

By RICK TOLLEY
Sports Writer

In Intramurals Monday and Tuesday of this week basketball action was limited to ten games.

Monday night the PKA No. 1 defeated the Faculty by a score of 55 to 45. McNeles was high scorer for the PKA with 18 points, and Lambert was high for the Faculty with 15 points.

In a later game the SAE No. 3 tumbled to the ASP 56 to 26. Bob Koehler was top man for ASP with 22 points, and Forrest Jones came up with 10 points for the SAE. Also playing Monday were the Rebels and the Engineers. The Rebels dumped the Engineers 66 to 45. Turner and Wilson each scored 10 points for the Engineers and Patrick scored 16 points for the Rebels.

In a Tuesday night game the Trouncers lost their first game of this season to the PKA No. 1 team by a score of 63 to 55. Mickey Sydenstricker had 20 points for the Trouncers. Top scorer for the PKA was Hensley with 17 points.

In another Tuesday game the PKA No. 2 was defeated by ROTC 52 to 47. Manor scored 19 for ROTC and Stanebecker totaled 12 for the PKA. The Cavaliers met the LXA No. 2 for a 41 to 38 win.

50,000th Point Rattles Hoops

A milestone in Marshall basketball history was passed earlier this season but went unnoticed until last week.

The event was the scoring of the 50,000th point by Marshall's cage teams. The scoring span, covering 46 campaigns, extends from 1906 to the present time.

By checking this season's scores it has been determined that the point breaking the mark was the 59th tally scored in the Big Green's 90-81 win over Western Michigan.

Another record was broken this week was the fact that Marshall teams, for the first time in 162 games, failed to score at least 50 points. The last time Marshall hit under 50 markers was in 1952 against Miami.

Milhoan Leads Scorers; Big Green Offense 2nd

Although Marshall's Big Green is out of the running for the MAC cage championship, several of the Big Green hoopsters are vying for individual league honors.

Team captain John Milhoan closed in on conference scoring leader Jimmy Darrow, last week with a 39 point outburst. Milhoan, now averaging 23.1 points in the conference, solidified his second place scoring niche as he began an scoring assault on Darrow's leadership.

Milhoan leads the Mid-American Conference in points scored with a total of 254. The slender senior also holds down the number two spot in free throwing averages. Milhoan has connected at the charity stripe for a .864 percentage. In hitting 82 of 168 shots from the field, Milhoan is connecting for a 48% average, good enough for sixth position.

Big Bob Burgess is another Marshall cager in the thick of the individual races in the MAC. The husky center ranks ninth among the top scorers with a 15.5 average per game.

The Sharples sharpshooter leads the league in field goal accuracy, scorching the cords at a .576 clip. Burgess is also number two man in the rebound department with a total of 165 and a 16.5 game average.

Fast break middleman Lou Mott is the other Big Green player in the scoring leaders. Mott has scored 133 for a 12.1 average.

In total team statistics Marshall is second in total average with a 79.4 mark. The Big Green also ranks third in field goal shooting with a .432 average and third in rebounding with a .505 percentage.

STEP OUT IN IT

Get the quiet proof of Chevrolet's superior performance on the road—No other car in the low-priced three can match the borne-on-the-wind sensation you get from a ride in the 1960 Chevrolet. But that's not surprising when you consider to what lengths Chevy has gone to provide for your comfort at no extra cost to you. As you drive, count the ways Chevrolet has been thoughtful:

Supple Full Coil suspension—Coil springs at all four wheels melt bumps as no other suspension can. Taking the punch out of rough roads is their only function—they don't have to anchor the rear axle.

Butyl rubber body mounts—Thicker, newly designed body mounts

further insulate you from the road.

Body by Fisher—Only Chevy in its field offers the polish and craftsmanship of Body by Fisher.

Foam cushioned seats—Chevy offers foam cushioned seats in both front and rear in all series but one.

Safety-Girder frame—X-built and not merely X-braced, the Safety-Girder frame affords greater rigidity to minimize twisting and squeaks.

Hydraulic valve lifters—Oil hushed hydraulic valve lifters reduce engine noise to a whisper.

Cushioned steering shaft—A universal joint and cushioned coupling keep those annoying road tremors from the steering wheel.

Precision balanced wheels and tires—Here again Chevy has shown concern for your comfort by eliminating vibration in this vital area—tire life is longer, too.

Easy steering ratio—Chevy's high ratio Ball Race steering takes the work out of steering for you.

Superior weight distribution—Chevy rides better, handles better and stops better because the car's weight is more equally divided between the front and rear wheels.

Wide choice of power teams—Choose from 24 different power combinations to satisfy the itchiest driving foot—more than any other car.

Now—fast delivery, favorable deals! See your local authorized Chevrolet dealer!

Miss Woolwine Member On Magazine's Board

Bonnie Lee Woolwine, Charleston freshman, has been chosen from national competition as a member of *Mademoiselle* Magazine's College Board.

She is among 819 students at 314 colleges who will report to *Mademoiselle* this year on college life and the college scene.

As a College Board member, Miss Woolwine is now competing for one of the 20 Guest Editorships to be awarded by the magazine at the end of May.

If she is selected as a Guest Editor, Miss Woolwine will go to New York City for four weeks this June to help write, edit, and illustrate *Mademoiselle's* 1960 August College issue. Guest Editor's transportation will be paid to and from New York by the magazine and they will receive a regular salary for their work.

Miss Woolwine was selected by

Coyle and Richardson's department store of Charleston, where she does modeling, as an entry in the original contest. When her entry and recommendation were accepted by *Mademoiselle* she was given an assignment to write an essay on some phase of fashion.

She chose "The Store House of Fashion" as the topic of her winning essay. In the article she used the Coyle and Richardson's store as a model of a store house of fashion.

Miss Woolwine, a graduate of Stonewall Jackson High School, is a pledge of Sigma Sigma Sigma social sorority. Majoring in retailing, this nineteen year old coed enjoys modeling, sewing, and music as her hobbies. If she is chosen as a Guest Editor, she will be the first to represent Marshall in *Mademoiselle* Magazine.

BONNIE WOOLWINE

PSI CHI MEET

"Opportunities in Applied and Industrial Psychology" will be the topic of psychologist Walter Stevens at the next meeting of Psi Chi, psychology honorary society at 8 p.m. Tuesday in M 310.

HE'S DUE AT PARLEY

Dr. Conley H. Dillon, chairman of the Political Science Department, is attending a meeting in Atlanta, Ga., today, conducted by the Southern Regional Education Board and U. S. Office of Education to discuss Language and Area Centers.

Marshall plans a Russian Language program next September and this meeting will set forth prospects for establishing an Area Center in the southern area.

HOMECOMING 1960

October 22, has been chosen as the 1960 homecoming date. Marshall will be hosts to the University of Delaware for the annual homecoming football game.

Field House Status Discussed, But Any Action Soon Unlikely

Could the operation of the field house, where Marshall's basketball team plays its home games, ever change?

This has been discussed "on and off" for some time. John Lenhart, chairman of the Cabell County Recreation Commission which controls the field house, said this week all recreation activities in the county "ought to be under one head", including the field house. But "I don't know how we'd work it out."

His comments came on the heels of a statement by Dr. Stewart H. Smith, Marshall College president, that he was approached about a year ago "by some people" who asked if the college would be interested in taking over and operating the field house.

The "people" he talked with had no official connection with any board, he stressed.

President Smith said, in answer to the query, that he requested additional information, including costs of operations, before he would consider the matter further. No further action has been taken since that time.

"There's been all kinds of talk, but nothing serious," he said.

Any changeover would require State Board of Education and legislative approval.

But if all recreation activities, such as swimming, parks, and the field house were consolidated under one board, only legislative approval would be required, Mr. Lenhart indicated.

Honor System Seen Delayed

(Continued from Page One)

In the event the faculty should not give a vote of confidence to the departmental installation of the Honor System, Karickhoff said any further attempt to install it would be "fruitless." He said faculty support is a necessity to the success of the system.

Discussing the present situation, President Stewart H. Smith said, "I will go through with a proposal made some time ago to discuss the Honor System more thoroughly at a faculty meeting, purely for the purpose of enlightenment."

"I have felt we need to study the system a long time before a vote."

"After thorough discussion, the faculty might be asked for endorsement of the idea of an Honor System experiment in the ROTC and philosophy departments."

"Actually, I feel that any department is perfectly free to try an Honor System within their department."

'SHAVETAIL' BIGGEST

The ROTC publication "Shavetail", is the largest of its kind in West Virginia, according to ROTC officials. It contains material of local and national interest to the cadets. It comes out the last week in each month and is edited and published by the cadets.

Capt. Robert Zargan is adviser for the paper with Cadet Sgt. William Calderwood as the Editor.

Et Cetera Due In Mid-March

Et Cetera, campus literary magazine, is scheduled for release in mid-March, according to Sharon Woods, Huntington junior and editor.

Publication is temporarily held up by want of a second bid.

Previously Et Cetera had been printed by the college duplicating department, but this year the work is to be done by a Commercial printer.

The student government has promised \$450 for publication, an amount about three times as

great as before due to the printing change.

Twenty-five hundred copies will be printed this year, the largest number since publication began in 1953.

Art composition will be featured for the first time this year.

The editor said this year's edition will be a better publication due to commercial printing, higher calibre composition and more varied literary forms.

Criticisms, essays, stories and poems will be published.
