MARSHALL COLLEGE STUDENT NEWSPAPER

Vol. 59

HUNTINGTON, W. VA.

THURSDAY, JUNE 23, 1960

NO. 66

This Is Work Not Play

MEMBERS OF THE PARTHENON STAFF seem to be working diligently to get their stories ready for print. A new staff was recently appointed for the summer term.

Atkinson Made Summer Editor Of Parthenon

Susan Atkinson, Northfork senior, has been named as Editor-in-chief of the summer Parthenon.

Other members of the staff include: Charles Liebel, South Charleston junior, Business Manager; Frank Childers, Peytona junior, Managing Editor; Carol Newman, Wayne senior, Campus Editor; Archie Glaspell, Huntington sophomore, Sports Editor; Donna Meredith, Clarksburg senior, Society Editor; Louise Corum Scragg, Huntington junior, News Editor; Margaret Comm, Huntington junior, Feature Editor.

Staff reporters are Ruth Esheaur, Point Pleasant senior; Egbert Frye, Huntington senior; Ida Napier, Prichard junior; Cora Proffitt, Point Pleasant junior; and Click Smith, Huntington junior.

W. Page Pitt, Professor of journalism, is the faculty advisor. The Parthenon is published weekly and comes out each Thursday.

Nursery School Open One Term

The Nursery School is in operation for the first summer term only, according to Miss Adella Strouss, Director.

Miss Strouss, said "the nursery school is being kept open this summer in conjunction with the Home Economics 305 Child Development course being offered this summer." Students from Education 118 are now helping to staff the school.

The nursery school is open to two and three year old children only. There seems to be an abundance of girls during the summer as opposed to the number of girls attending during the winter.

Persons who wish to enter their children in the school should make reservations for the entry. Children are accepted in order of application.

The nursery school is located at the corner of Elm Street and 5th Avenue.

HAL GREER

... Taking Summer Courses

Syracuse Nats Star Enrolled

Syracuse Nationals basketball star, Hal Greer has enrolled for the first term of summer school here.

Greer is a Huntington senior and is enrolled in two sociology courses. He is a former Marshall basketball star, and while playing for the "Big Green" had the pleasure of being named to the "All Mid-American Conference Basketball Team".

Greer had this to say about the difference between playing college ball and professional ball. "The biggest difference is professional ball does not have the spirit college ball has. Professional ball is more like a job and college ball is more of a contribution to the school."

Greer said that he will resume professional practice this September at the conclusion of summer school.

When asked what he wanted to do after his ball playing days are over, he said "I hope for a long professional basketball career and when that ends I would like to be a coach."

SCHOLARSHIPS AWARDED

Recipients of Student Government scholarships have been named by the Student Scholarship and Loan Commission.

The following students received the scholarships: Lewanda Sanders, Ranger freshman; Steve Ewing, Charleston sophomore; Frank Dent, Charleston junior; and Jeanne Pitts, Huntington senior.

Institute Now Are Being Held For Summer

Two of the summer institutes now in session are a Counseling and Guidance Training Institute and a Science Institute in conjunction with the National Science Foundation.

A Counseling and Guidance Training Summer Institute opened June 8 here with 24 enrollees attending, according to Dr. Clark F. Hess, associate professor of education and institute director.

The institute, continuing to Tuesday, July 19, is one of 84 being conducted in all 50 states, Puerto Rico and the District of Columbia. Approximately 3,000 teachers in public and private secondary schools are attending the various institutes.

Sixty-three physical science and mathematics teachers on the high school level are attending the summer science institute, now in session, according to Dr. Donald C. Martin, chairman of the physics department and director of the institute.

Marshall is co-operating with the National Science Foundation in sponsoring the institute for the fourth year, said Dr. Martin.

Tuesday, July 19, will end the first term of the institute, with the second term immediately following July 21 through August 24.

Guest speakers for the institute will be Dr. Leah Bloch-Frankenthal from the Department of Experimental and Cancer Research of the Hebrew University Medical School of Jerusalem, Israel, and Dr. Earnest A. Braun from Harlow Research Laboratories, Harlow, England.

Assisting Dr. Martin on the science institute staff are: Dr. John H. Hoback, associate professor of chemistry; Dr. Robert V. Digman, assistant professor of chemistry; Dr. William M. Pierce, professor of physics at Ohio University, Athens, Ohio;

Dr. James J. Barron, professor of mathematics; Dr. Raymond E. Janssen, professor of geology, and Mr. Thomas Bauserman, associate professor of mathematics.

Nursing Project Now Going On

The Marshall College Nursing Department will participate in a special project of Associate Degree Nursing Education during the 1960-61, 61-62 school terms, according to Mrs. Margaret T. Shay, chairman of the department of nursing.

The project, which is provided in conjunction with the National League for nursing, is financed by the Sealantic Fund for Associate Degree Nursing Education.

Marshall is one of several colleges selected to take part in a program which includes a one week national conference annually, attended by two representatives from each participating college, and followed up by consultation at each college by members of the National League of Nursing staff.

"The next conference will probably be in late February" Mrs. Shay said.

Six new colleges are brought into the program each year. In the coming year, 18 colleges will be participating in the program.

According to Mrs. Shay, the purpose of the project is to improve the individual nursing program. In addition to sending representatives to the Annual conference and holding consultations, the nursing department will submit to progress reports and adhere to principles expressed in "Guiding Principles for Junior Colleges Participating in Nursing Education."

Colleges participating in the project are: Vincennes University (Indiana); Ricks College, Rexburg, Idaho; Northeast Mississippi Junior College, Bonneville, Mississippi; St. Petersburg Junior College (Florida); Lasell Junior College, Auburndale, Massachusetts; Southeast Missouri State College, Cape Girardeau, Missouri;

Lander College, Greenwood, South Carolina; Gwynedd Mercy Junior College, Gwynedd Valley, Pennsylvania; Newton Junior, Newtonville, Massachusetts; Boise Junior College (Idaho); Port Huron Junior College (Michigan); and Indiana Central College, Indianapolis, Indiana.

I.S.A. NAME CHANGED

The title of the Independent Students' Association has been changed to the Independent Students' Association Executive Council.

The change of title was made to further better student relations on the campus. The council will function much the same as the Interfraternity Council. Officers will be selected from the Cavaliers and the Societas. There will be four representatives, other than the officers, from each organization.

DEBATE TOURNAMENT SET

Pi Kappa Delta national debate tournament will be held next spring at Oklahoma State University, Stillwater, Oklahoma.

Marshall plans to send representatives in men and women's debate, oratory, and extemporaneous speaking. Students will be chosen from the regular debate squad.

The national intercollegiate debate question for the coming year will be announced in mid-August.

Final Total Shows 2191

By FRANK CHILDERS

Managing Editor

Registration for the first term of summer school has been completed with a total of 2,191 students enrolled.

This number is an 8 per cent increase over the first term of the 1959 summer school when the enrollment of students numbered 2,014.

Of the 2,191 there are 1,207 women and 984 men with the greatest number of students being graduate students.

As for the complete statistical breakdown of classes the number turned out like this with the graduates leading with 645 students. There are 512 seniors, 338 juniors, 325 sophomores and 245 freshmen. There are 120 unclassified students. These people are not working towards a degree.

The number of out-of-state students was not compiled, however, there are quite a few transit students, according to Luther E. Bledsoe Registrar "The summer school is always heavy on transit students."

There are 996 students enrolled in Teachers Colleg, as to 777 for the first term summer school last year. The number in the Arts and Sciences College totals 550 as compared to 517 last year. The Graduate School enrollment is down somewhat as compared to last year. The total for last year was 770 and this year it is 445.

According to Mr. Bledsoe most of the summer enrollment is teachers renewing their teaching certificates or students doing graduate work.

Cole Member of Examiners Board

Ernest W. Cole, assistant professor of business administration, is spending a part of the first summer session as a member of the Board of Examiners of the American College of Life Underwriters at Philadelphia, Pa.

He will also serve as the collegiate representative on the review board representing the professional teachers of insurance subjects in the colleges of the United States.

Before returning to Marshall for the second summer term, he will serve as senior and final grader of the A. C. L. U. professional qualifying examinations, a post which he has held for the past six years.

APARTMENTS AVAILABLE

Ten apartments are now available for married students at Donald Court.

An apartment can be rented for \$28.50 per month, and the utilities are paid. The apartments are unfurnished.

To apply a student must see Deap Harold L. Willey, Dean of Men in Old Main.

Photo by Charlie Leith

"Of Course, I'm Busy!"

SHOWN ABOVE ARE MRS. "Jackie" Watterson and her four children, Johnny, age four; "Rusty", age one; Debbie, age six; and Charley, age two. Besides taking care of her children, Mrs. Watterson runs a Dairy Farm and teaches school.

Grass Can't Grow Under Jackie Watterson's Feet

By CAROL NEWMAN
Campus Editor

Mrs. Elizabeth "Jackie" Watterson, Apple Grove graduate, has a full time job on her hands. This diminutive brunette is the mother of four children, aged six, four, two, and one. Besides driving 26 miles every day from her home in Apple Grove, she and her husband run a dairy farm which has 47 head of cattle. And of course, this is a big job in itself.

Mrs. Watterson teaches biology at Hannan High School in Mason County and handles the school publicity for the Point Pleasant Register.

In the summer of 1954 she was enrolled in a journalism class to W. Page Pitt, professor of jour-

nalism. One day, Prof. Pitt heard a child crying in the hall. Upon investigation, he found "Jackie" with one of her children. Mrs. Watterson told Mr. Pitt that she couldn't get a baby sitter so she had to bring the child to class with her. She and her children were invited into the class, but not much journalism was taught that day, according to Mr. Pitt.

John Watterson, "Jackie's" husband attended Marshall in 1950. He is 6 feet 2 inches tall and "Jackie" is not quite five feet tall and weighs only 89 pounds. Naturally they enjoy quite a bit of kidding from friends and are often called "Mutt and Jeff".

Mr. and Mrs. Watterson met at a high school dance while he

was playing the "fiddle" for a square dance.

Mrs. Watterson attended Marshall while her fiance was in Korea. She hopes to receive her M. A. in biology next summer. "Jackie's" parents are both Marshall graduates and teachers.

Mr. and Mrs. Watterson lived for one year in Larime, Wyoming, but it was "too windy and too much winter" so they moved back to Apple Grove.

Since she has been at Hannan High School, which has an enrollment of 200, Mrs. Watterson has organized a Social Club that raised enough money to put school signs around the school. She is also sponsor of the cheerleaders.

Study Habits Get Scrutiny

By CLICK SMITH
Staff Reporter

A number of people have been curious about the difference between winter and summer study habits. A few students were willing to give their opinions about the matter.

Ray Bane, Huntington senior, said "I feel more relaxed while studying during the summer, since I have more time to devote to my studies."

Julia Kish, Gary senior, believes that "I do more studying during the summer, since I know that the work has to be done day by day."

Roger Rose, Fairmont junior, said "I find the work much easier during the summer, since I am working with the courses day by day with no intervals." He went on to say that this especially applies to language courses. He intends to do some of his studying at the swimming

S.A.E. OFFICERS NAMED

Sigma Alpha Epsilon, social fraternity, has elected officers for next year.

The new officers are: Conrad Smith, Huntington junior, president; Vern Scandola, Weirton junior, vice-president; Paul Beckett, Huntington sophomore, secretary; Don McNew, Ripley junior, treasurer; Warren Reeser, Huntington junior, warden; Bob Scott, Huntington sophomore, chronicler; Rory Perry, Huntington sophomore, Harold; and Tom Ross, Wheeling sophomore, chap-

lain. pool so that he can cool off when he wants to do so.

Audrey Saunders, Huntington senior, reports that "summer studying is more difficult, since I need to keep an eye on my son while he plays with his friends in his wading pool."

OFFICERS ELECTED

Pi Kappa Alpha, social fraternity, has elected officers for next year.

The new officers are: Myers E. Jarrell, Whitesville junior, president; Wayne Scott Peavler, Marion, Va., junior, vice president; Roderic Sharp, Glen Ridge, N. J., sophomore, secretary; Ivan Magers, Moundsville junior, treasurer; and Richard Thompson, Huntington junior, pledge master.

DEAN ATTENDING INSTITUTE

Dean J. Frank Bartlett, Dean of Arts and Sciences is attending the University of Michigan Institute in College and University Administration. The institute began Monday and will run through tomorrow.

Dean Bartlett will return to the campus next Monday.

One Woman Crusade Acquires New Road

A One Woman Crusade has persuaded Governor Underwood to promise a new road to students of a one-room school in Summer's County.

These children want to go to high school after eight grades but cannot due to poor road conditions.

Juanita Bascham, Mount View graduate, has been teaching in a one room school for eleven years. She came to this country several years ago from the Dominican Republic when she married an American Marine. They settled in Summer's County, West Virginia and when the youngest of her two sons was ten years old, Mrs. Bascham decided to finish her high school education.

After graduation, she won a scholarship from a local club and went to Concord College, West Virginia. She attended only summer sessions and returned home every fall to teach in her one room school.

Mrs. Bascham developed the school from an unclassified to a first class school. They now have a hot lunch program and a 4-H Club. With the children's help, Mrs. Bascham prepares the meals, does the dishes, and acts as school janitor and nurse. In addition to the regular subjects she teaches home economics, folk dancing, Spanish and social graces. After graduating from Concord in 1957, Mrs. Bascham came here to work on her M.A. degree during summer sessions. She received her Master's in August, 1959 and now is back at Marshall to earn enough credits in Spanish to be qualified to teach it.

Recently Mrs. Bascham wrote to the governor saying that her children are ready and willing to go to high school but are not able

due to poor road conditions. Governor Underwood replied that hers was the most unusual letter that he had received on the subject of education and he had guaranteed her that the road to the high school will be widened, drainage ditches added, and a shale base constructed to make it an all-weather road.

Dr. Wichers Will Speak

Dr. Edward Wichers will speak next Tuesday at the NSF Summer Institute for high school mathematics and physical science teachers, according to Dr. Donald C. Martin, professor of physics.

Mr. Wichers was born March 25, 1892, in Zeeland, Michigan where he attended Zeeland public schools. He received his A. B. degree in 1913 from Hope College. In 1915 he received his M. S. from the University of Illinois and in 1917 received his Ph. D. in chemistry from the same school.

Mr. Wichers is with the National Bureau of Standards. He is the Associate Director of Chemistry.

His fields of specialization are; inorganic and analytical chemistry of the platinum metals, determination of impurities in chemical reagents, methods of preparing highly purified substances and physical methods of evaluating purity. He has had approximately fifty publications published concerning the above fields.

All conference games are indicated by asterisks.

Up It Goes

TWO STUDENTS WATCH the progress of the new chapel now being constructed at fifth avenue and seventeenth street. The chapel is being built with money received through donations.

Intramural Tournament Hurt By Heavy Rains

By ARCHIE GLASPELL
Sports Editor

The intramural softball tournament has had havoc heaped on it because of the heavy rainfall of the past few weeks.

The muddy condition of the field has made it impossible to play the scheduled games, but the tournament will be completed in the next few weeks so that the mushball program can begin. Mushball is almost the same as softball except that the ball used is sixteen inches in diameter.

Tennis has seen quite a large reception on campus. In single play, there are four matches scheduled, according to the lineup of matches posted in the Student Union, John Sayre meets Barry Myers; Harold Willey, dean of men, meets Joe Krulick; Toddy Fugate will go up against Charles Griffith; and Coach Jule Rivlin will play Bill Grass.

Along with the tournament play on the courts, recreational tennis has made quite a splash when the weather has permitted. Recreational tennis is available to all students. Tournament games will be played during the next weeks, but whenever the courts are open, then students are permitted to use the courts.

Tournament croquet has been posted on the board in the Union also. There are two semi-finalists already, Toddy Fugate and Bill Grass. Two more semi-finalists will come out of the matches between Carl Hickey and Jim Thurman, and David Curry and J. T. Davidson.

Handball has also been tendered a large reception. The games scheduled are; Jule Rivlin verses Charles Griffith, Olen Jones versus Fred Fitch, Mike Josephs versus Dick Barger, and Sam Clagg meeting Toddy Fugate.

Recreational swimming has seen a good turnout during the past weeks, according to Barry Myers, student life guard. Many of those students who have turned out have also received some instruction in swimming. This recreational swimming referred to has taken place in the men's pool. The pool is also being used by the faculty and their families from 4 until 5 on weekdays.

All bridge games scheduled must be played by June 30. There are two semi-finalists teams now and two preliminary games scheduled to select the other teams who will make up the semi-finals.

In darts, there were seventeen contestants competing for the championship. Edward Milton Auxier won the top position with a score of 2450 points out of a possible 4000 points.

Nutrition Workshop Here For 5 Days

At the request of the State Department of West Virginia School Lunches, the Home Ec. department of Marshall College is conducting a Nutrition Education Workshop this week, Monday, June 20 through Friday June 24.

According to Miss Cleo Margaret Gray, associate professor of Home Economics and director of the workshop) the purpose of the workshop is "to acquaint teachers, supervisors, and lay people with the needs of nutritional education and how it can be applied through the school lunch program." Lunches are being prepared daily for five students of Marshall Laboratory School. Approximately 20 graduate and undergraduates are enrolled for the course.

Guest speakers include: Mrs. Nancy Stone Depper, representing Martha White Mills of Huntington; Mrs. Katherine Wisely, U. S. Department of Agriculture; Miss Nancy Matthews, State Department of Education; Mrs. Evelyn Murray, State Supervisor of Elementary Education; Mr. William Stormer, NDEA, State Department of Education; and Mrs. Marian Cornell, State Department of Education.

COMMITTEE APPOINTED

A committee has been appointed by the Student Conduct and Welfare Committee to study campus-wide health and accident programs presented by various insurance companies.

The members of the committee are: Ernest W. Cole, chairman and assistant professor of business administration; Fred Smith, college comptroller; Margaret Bobbitt, reference librarian; Ethelene Holloy; William Spotts, director of food service; Percy Galloway, bookstore manager; and Howard Serrell.

Ann Drescher, music instructor, left the United States June 6 and will return August 29. After visiting friends in England, they will tour France, Spain, Italy, Austria, Switzerland, Germany, and the Netherlands.

Foreign Travel File Scheduled

By WILLIAM PIERCE

Are you planning a trip abroad? Would you like to learn, before you leave, something of the place you are going to visit?

The Audio Visual Aids Department is planning a file on foreign travel which will be ready for use by September, according to Walter Felty, associate professor of social studies and co-ordinator of the department.

The file will include flat circulars, such as travel posters and leaflets, and maps. Phonograph and tape recordings of songs and languages from every geographical center of importance will also be included in the file.

This reference file will be set up principally for student teachers and will include other sources such as text books and aids which may be helpful to the student.

DICK KYLE NAMED

Dick Kyle, Huntington graduate, has been appointed state co-ordinator of the West Virginia Young Democrats.

His appointment came through William Beckett, state president of the Young Democrats.

Kyle is to report on the activities of college Young Democratic Clubs and to start new college clubs.

INSTRUCTORS TOUR EUROPE

CALL HAMILTON 9-1341

Student Chapel To Be Completed Soon

By EGBERT FRYE
Staff Reporter

Construction is under way for the Student Chapel and will be completed in November of this year. The Chapel will be a one story birch structure with a large basement. About 18 rooms will be constructed, including a large auditorium, recreation room, and fellowship hall which will seat approximately 270. The Chapel will seat about 250; the classroom approximately 35; and the library from 15 to 20.

The Chapel originally was to cost 250,000 dollars, however due to need of special piling and decorations, the cost is expected to reach 300,000. Lander Beal,

Religious Director says about 15,000 dollars are still needed to complete the badly needed chapel.

Various organizations in Huntington that have contributed to the building fund and several groups on campus have donated money to be used for furnishings. The student body also has contributed. The major portion of the donations has come from the boards of education of the different churches. Industry also contributed to the Chapel. Reverend Beal says that this project is the only one of its kind in the U.S.

The Chapel will be strictly interdenominational and is greatly admired by other colleges, according to Mr. Beal, and it has attracted national attention.

Science Fair Officers Elected For Coming Year of 1961

Newly elected officers of the 1961 Science Fair Committee have been announced by Dr. Donald D. Cox, associate professor of science.

They are: Ralph M. Edeburn, professor of zoology, director; Robert V. Digman, assistant professor of chemistry, secretary; and Raymond E. Janssen, professor of geology, treasurer.

A plan for limiting the number of entries in the fair next year has been adopted by the committee.

Under this plan the senior division, grades 10-12 will be limited to four entries from each class. The junior division, grades 7-9, will be limited to two entries

from each class. Thus, each school may send 12 entries in the senior division and 6 in the junior division.

100 spaces will be reserved for entries from schools which have not entered the Science Fair previously.

GREEN ATTENDING MEETING

Dr. N. Baynard Green, chairman of the zoology department, is in Chicago, Ill. attending a four day meeting of the American Society of Ichthyologists and Herpetologists.

Dr. Green holds the office of publications secretary in the society and is a member of the Board of Governors.

JUAN FORS, PROFESSOR of Spanish seems to be telling his daughter, Peggy Fors, that this is the only way a problem can be worked out.

Two Girls Have Dads As Instructors In Class

By MARGARET COMM
Feature Editor

What is it like to be in Father's class?

Peggy Fors, Huntington sophomore and daughter of Spanish professor, Juan Fors, feels that it is a definite disadvantage. She knows that many of her fellow students believe that she has a "snap course" because her father is the instructor.

Actually Professor Fors is determined to see that he makes it no easier on her than anyone else and may consequently make it a little tougher.

Both father and daughter feel that they are under pressure. If Miss Fors does well in the class, someone is apt to think that it was made easier for her and if she does not, they will wonder why Professor Fors was so hard on his daughter.

In case you are wondering, no she does not receive extra help at home. Miss Fors said, "If I had another instructor I know my father would be glad to help me but under the circumstances he is afraid it would be an unfair advantage."

Miss Fors admits that because of the pressures the situation creates she would have preferred to have taken the course to another instructor. However, Professor Fors is the only one teaching it this semester.

DZ and SAE, Wins Award

Delta Zeta, social sorority, and Sigma Alpha Epsilon, social fraternity, are the 1959-60 Scholarship Award winners.

Delta Zeta, with an average of 2.858 for the first semester and 2.7865 for the second and an overall 2.813, will be the recipient of the Panhellenic Scholarship Cup awarded for the highest sorority grade average during the past academic year.

Sigma Alpha Epsilon will receive the Inter Fraternity Council Scholarship Trophy for the second straight year with a combined average of 2.5188 for the year.

Other sororities rated on a two-semester average were: Alpha Xi Delta, 2.70; Sigma Sigma Sigma, 2.694; Sigma Kappa, 2.655; Alpha Chi Omega, 2.629; and Alpha Sigma Alpha, 2.371.

Other fraternities rated were: Lambda Chi Alpha, 2.4672; Sigma Phi Epsilon, 2.3204; Tau Kappa Epsilon, 2.300; Alpha Sigma Phi, 2.2732; Pi Kappa Alpha, 2.2722; and Kappa Alpha, 2.1533.

Bill Chambers Takes Position At W. Michigan

Bill Chambers, head baseball coach, has resigned from the faculty to take an assistant coaching position at Western Michigan University. He will serve under Charlie Maher, recognized dean of American baseball coaches, and will hold the position also of associate professor of physical education.

According to publicity director Ray Cumberledge, it will be some time before Chambers' successor is named. A successor will have to be named before football season though, because Chambers also held the position of assistant football coach and freshman football coach in addition to his baseball position.

Coach Chambers received his high school education in Huntington. He did undergraduate work at the University of Kentucky where he lettered in football, baseball and track. Prior to his coming to Marshall, Coach Chambers served as head coach at Milton High School.

In 1955, he became a member of the Marshall coaching staff and also received his master's degree. During the next five years his teams racked up an overall record of 44 wins and 57 losses. The best year was in 1959 when the team had a record of 12 wins and 10 losses.

In the Mid-American Conference race of this spring, the Big Green tied for second place with Miami University and Kent State. Hugh Reynolds of Marshall was voted into a slot on the Mid-American Conference first team, Marion Majher and Tex Williams received positions on the second team, while Fred Conley and Jack Marcum took berths on the third team.

OTHELIA HERNANDEZ

Dating Customs Of Puerto Rico Strange To Us

By RUTH ESHENAU
Staff Reporter

What would be your reaction if your mother said to you, "Dear, I've asked Mrs. Yubero to go along as chaperon on the date you have with Enrique, Saturday?"

If you were Othelia Hernandez, you would not be surprised because this is one of the dating customs in her native country, Puerto Rico.

Miss Hernandez made several interesting observations about the similarities and differences of life in the United States and Puerto Rico when interviewed.

"A boy and a girl are never alone on a date in Puerto Rico. Couples do not go steady, but they do have engagements before marriage. After marriage, the husband has much more authority in the home in my country than here in the United States."

"Native girls do not wear shorts in public and do not like to see tourists wear them."

"Rock and Roll is popular with teenagers, and the men prefer

Luncheon Attended By Health Group

The West Virginia Department of Mental Health held a luncheon at the Marshall College dining hall at 12 noon Monday.

It was attended by representatives of the State Department of Mental Health, the West Virginia State Board of Examiners for Registered Nurses, the West Virginia Hospital Association, the West Virginia Board of Education, the Marshall College staff and others.

Professor A. E. McCaskey, head of the Engineering Department and dean of the proposed College of Applied Sciences, acted as chairman in a discussion of the possibilities of cooperative educational, research and consultation activities between Huntington State Hospital and Marshall College and the extent to which Marshall may assist the West Virginia Department of Mental Health in achieving some of its many goals.

attractiveness to character in a woman."

Miss Hernandez does not believe that curriculum standards are higher in the United States than in Puerto Rico because college credits can be transferred from schools there to here and vice versa. Puerto Rican schools copy the system used in the United States rather than that used in Europe.

Two differences in the student body Miss Hernandez pointed out were that Puerto Rican students take their studies more seriously and that a greater percentage of young people in the United States attend college than in Puerto Rico.

Miss Hernandez has been studying in the United States for about three years and is receiving a National Science Foundation scholarship in chemistry here. She has attended Fresno State College, California; New Mexico Highlands University; Iowa State Teacher's College; and New York University.

Miss Barbara Beck, Huntington sophomore and daughter of philosophy professor, Lolyd Beck, is also taking a course to her father. Because she is only auditing the course, Miss Beck declined to have her picture taken.

As a contrast to Miss Fors' opinion, Miss Beck feels that it is an advantage to be able to take a course to her father. She says, "It has increased my understanding of my father's position and what it means to him. However, I do think that I am more critical of my father and more apt to disagree with him than I would be with another instructor." Miss Beck believes that her greatest difficulty was the first day adjustment when she had to realize that Professor Beck was her instructor and not her father.

Woods Teaches 50 Children New Thinking

By LOUISE CORUM SCRAGG
News Editor

In conjunction with the federal government and the W. Va. State Board of Education, Dr. Roy C. Woods, professor of Education and head of the Institute of Creative School Administration, is teaching a highly selected group new techniques as applied to administration problems.

The course, which is designed to encourage individual judgment in dealing with administration problems without necessarily adhering to old school thought, is being taught the first six weeks by Dr. Woods and the second five weeks by Eric V. Core, Associate Professor of Education.

Upon completion of the course, students will be qualified as assistant principals in the North Central Association of College and Secondary Schools. The course will count as 12 hours toward a masters degree or toward certification as an administrator.

50 Children Benefitters

A special program for the youth of the surrounding area is being conducted on campus this summer.

For several years consecutively, the A. T. Proctor Youth Program is providing a variety of recreational activity for local youth that is intended to be both educational and enjoyable.

The program is designed primarily for children who do not have access to playground facilities; the program offers swimming, ball games, camping trips, hay rides and weiner roasts.

On the educational side, they will be taking tours and field trips.

Director of the program is Bill Crawford, Huntington senior, who is a pre-ministerial student majoring in psychology and minoring in philosophy. Crawford also directed the program last summer and has had seven years of experience in youth work.

As director he will receive the \$500 ministerial scholarship set up by Mr. Proctor.
