MARSHALL COLLEGE STUDENT NEWSPAPER

VOL. 59

HUNTINGTON, W. VA. THURSDAY, JULY 30, 1959

NO. 5

Cosimo Liberti of the regional Civil Defense office at Olney, Maryland, demonstrates the use of the Geiger counter to local officials attending the

Civil Defense radiological training course this week.

CD Instructor Certificates To Be Received By Twenty

A five-day Civil Defense radiological training course for instructors will close tomorrow.

With the completion of the course, approximately 20 Huntingtonians will receive certificates as instructors, and will be called upon to train others in detecting and protecting against radioactive fallout.

Colonel Edgar M. Sites, state director of Civil Defense, is conducting the school, assisted by Miss Elizabeth Massing, assistant director.

Instructors for the classes are Cosimo Liberti of the regional CD office at Olney, Md., and Harvey Roberts, deputy state director in charge of radiological defense.

Classes held from 8:30 A.M. to 5 P.M. daily consist of lectures, films and practical application.

Instruments used in the course include gieger counters, for detecting radiation, and dosimeters, a device to measure fall out over a period of time. Cobalt 60, a highly radioactive material has also been used to demonstrate the registration of radiation upon the geiger counters. The deadly Cobalt is stored in a lead container to prevent bodily harm from radiation.

Subjects covered during the course include "Basic Concepts of Nuclear Science," "Principles and Types of Radiation," "Radiation Measuring Devices," "Interaction of Radiation With

Matter," "Formation, Distribution and Dispersion of Radioactive Fallout," "Biomedical Aspects of Radiation," "Radiological Monitoring Techniques," "Protection from Radiation," and "Physical Aspects of Nuclear Weapons."

The class is being held with the cooperation of the college and Dr. Donald C. Martin, head of the physics department.

The 20 attending the course represent Huntington industries, hospitals, the county health center, post office, fire departments, detective bureau, Veterans Administration, U. S. Corps of Engineers and schools.

Five New Instructors Approved

Five new faculty members have been approved by the State Board of Education in Charleston. They will begin their jobs here effective the first of September.

The faculty members include: Dr. Althea Lucile Stoeckle of Alton, Ill., to be assistant professor of social studies. Dr. Stoeckle was formerly research assistant

for the Illinois Historical Society and holds an A. B. degree from Shurtleff College and M. A. and Ph.D. degrees from the University of Illinois.

Betty Pauline Jarrett, to be instructor in education and teacher in the core program of the Laboratory School. She holds an A.B. degree from Concord Col-

lege and an M.A. from West Virginia University.

Ruby Jane Kilgore, to be instructor in art in the laboratory school. She holds an A.B. degree from Marshall.

James Edward Irvin to be associate professor of education. He has been supervisor in (Continued on Page Six)

Dr. McCaskey Stays Here

By PATTY POLISKEY
Campus Editor

Contrary to rumors in the Huntington papers, Dr. A. E. McCaskey, head of the engineering department, will not leave Marshall College to accept the position of director of public works for the City of Huntington.

Dr. McCaskey said, "I was considered for the position of public works at the City Hall, and after a lot of careful consideration, I have decided to remain at the college."

This statement followed unofficial reports that City Manager

R. M. Hosington had offered the position to Dr. McCaskey to replace Mr. Frank S. Whitney who held the position for 16 years until his death earlier this month.

Dr. McCaskey indicated that calls and messages from former students, alumni, private citizens, and members of the staff advising him on what to do, ran approximately 5 to 1 recommending him to stay with the college.

He also said, "I think that Marshall College has a very bright future. Its influence in the state of West Virginia is rapidly in-

creasing and it will undoubtedly develop into a major national institution within a few years."

Dr. McCaskey came to Marshall in 1936, but left in 1942 to enter the United States Army. He remained for ten years with the chief of engineers in Washington in a position of supervising public works officials for the Corps of Engineers.

He received his BSCE and MSCE at West Virginia University and his Ph.D. at the University of Wisconsin.

1,382 Enroll For Second Term

Figures on enrollment for the second summer term indicate a drop of about 700 from the total enrollment of the first summer term, according to figures released from the Registrar's office.

The total enrollment for the current term is 1,382, which includes 67 still in courses entered last term for a duration of 9 weeks. There is generally a drop in enrollment for the second term, but this term is down more than a hundred from last year's second term enrollment of better than 1500.

The 1958 total, according to Registrar Luther Bledsoe, was

accounted for in part because more regular college students were attending summer school than is usually the case. The possible answer to this was due to the lack of summer employment.

An all time total for a second term summer enrollment was reached in the 1950 invasion of veterans, which brought the total to 1,707 students.

As yet, no statistical breakdown of this semester's enrollment has been completed. Data concerning the number of men and women enrolled, the number of students in each college, etc., will be available next week.

College To Replace Outdated Switchboard

By LUCY WALLEN
Feature Editor

Direct outside and interoffice telephone calls without any connection through the college operator will be made possible in the near future with the installation of a new switchboard, according to President Stewart H. Smith.

Outside calls will be made directly by dialing outside numbers, leaving the switchboard free to handle only incoming and long distance calls from the college.

Also, the new switchboard will allow outside calls to be made from the departmental offices at night.

The switchboard will add two outside trunk lines to the eight now in service.

A survey, conducted this summer by the Chesapeake and Potomac Telephone Company at the request of the college, revealed that the present switchboard now handles an average of 134 calls per (Continued on Page 5)

Plaque Honors Summa Cum Laude Graduates

A plaque which will honor students graduating Summa Cum Laude has been donated to the college by the 1959 graduating class.

The names of the past year's Summa Cum Laude graduates have already been inscribed on the plaque, which was installed in the front hallway of Old Main July 27. The two students graduating with a 3.85 or better were Georgia Loomis Fullerton of Ironton, Ohio, and Joseph Smith of Huntington.

The plaque was bought with unused funds left in the senior

class treasury from the past year's expenses. Betty Harbert of Madison and president of the class, met with senior senators Ann Crockett, Huntington, Eileene Kerwood, Cottageville, Barbara Varney Brown, Williamson, and past student body president Asa Meadows, Huntington, to decide what could be bought for the college.

The group discussed their intentions with President Stewart H. Smith, and he suggested the plaque which will honor Summa Cum Laude graduates.

Betty Harbert, president of the senior class of 1959, and President Stewart H. Smith examine a plaque, donated by the class of '59, which honors the summa cum laude graduates of the class.

Hopkins Chosen

New Chairman Selected

DR. MELVILLE HOPKINS

and rhetoric, Professor Hopkins received his AB from Bucknell University in 1942. Further speech study by Dr. Hopkins was interrupted by the war. During the war he served as a paratroop Captain with the famed "Screaming Eagles" 101st Airborne Division.

Resuming his speech studies, Dr. Hopkins received his MA from Bucknell in 1947. Later, in 1951, he completed work on his Ph.D. at the Pennsylvania State University.

Prior to joining the Marshall staff in 1957, Professor Hopkins taught at Syracuse University in the School of Speech and Dramatic Arts. In 1948 he joined the speech staff at the Pennsylvania State University and later taught speech at Temple University.

Dr. Hopkins succeeds Professor A. Otis Ranson as chairman of the speech department. Professor Ranson, who resigned as chairman early this spring, will continue as a member of the department.

Professor Hopkins and his wife, Catherine, have one daughter, Lisa Evans.

The appointment of Dr. Melville Hopkins, associate professor of speech, as chairman of the speech department has been announced by the college administration. Dr. Hopkins' appointment became effective in late May.

Specializing in public address

Spanish Department Chairman Researches Recent Culture

By MARIA J. ROBBINS

The chairman of the Spanish department, Dr. Juan Fors, who is on his sabbatical leave, is now in Barcelona, Spain. He will remain there until the end of August when he will return for the fall semester. There has been some doubt. According to Professor Page Pitt, "We at least know that he arrived in Spain for I received a box of Spanish saffron which he promised to send; however, there was no return address."

Dr. Fors is engaged in research to study recent Spanish literature and culture since the Spanish civil war in 1936. He teaches the advanced courses in Spanish Literature, and the course on Spanish Culture.

Dr. John Martin, Professor of Spanish, acting head of the department in the absence of Dr. Fors, spent the month of June in Huntington with his family. He later had two weeks of active duty in the Army Reserves, and

now is resuming his teaching for the second summer term.

According to recent information from Miss Gladys Baker, Instructor of Spanish, she has been in Mexico for the past six weeks and considers it a beautiful country. She plans to visit her family in Maine before returning for the fall semester.

Mr. James Stais, Assistant Professor of Spanish, plans to spend the second summer term in New York City where his mother lives. He has completed the residence work for his doctorate at New York University, and his dissertation is in progress.

With the cooperation of Dean Bartlett and President Smith, the language departments are receiving mechanical equipment which will be used for a language laboratory. The unusually heavy enrollment in Dr. Stais' course in advanced conversation has necessitated an additional section of this course, Spanish 310, beginning in September.

Intramurals Need Players

By ROGER F. BLANKENSHIP

More participants are needed in the intramural sports program if it is to be a success. According to George Nisbet, acting sports director, some of the sports such as Horseshoe Doubles, Hearts, and Handball Doubles do not have enough participants to warrant scheduling the games.

Any student wishing to participate in any of the events may do so by signing his name under the desired sport which is listed on the intramural bulletin board in the Student Union.

The time when the sport will be played will be placed on the intramural bulletin board.

Marriage Trend Younger

WASHINGTON (AP) — Eighteen was the favorite age for girls getting married last year.

Brides and bridegrooms in the United States are getting younger all the time.

In fact, the average marriage age today is probably "the lowest of any industrialized society," says Robert C. Cook, president of the Population Reference Bureau.

This private, nonprofit research organization, after poring over statistics for 1958, reported "the average age of first-time marriages in the United States last year was 23 for men and 20 for women. More girls married at 18 than at any other age."

Looking back to the first U. S. census in 1890, the bureau notes the average of men marrying then was 26 and women 22.

A generation ago, the married coed was a rarity, the married high school student unheard of.

"Is the day coming," Cook asked, "when married high school couples will be commonplace?" Well maybe, if the trend follows some of these statistics cited by the bureau.

Last year, about 43 percent of women marrying for the first time, and slightly more than 13 percent of the men were under 20.

While the marriage age is declining across the country, there seems to be a nationwide trend to make the minimum legal age higher. Five years ago, four states permitted girls to marry at the age of twelve if they had the consent of parent or guardian.

By 1958, the lowest legal minimum age for girls to marry in any state was 14. Only two states, Missouri and Idaho, permitted boys of 15 to marry.

On remarriages, the bureau reported: About a quarter of all marriages last year were remarriages. One of every 20 divorced women remarrying was a teenager. Divorced men remarried on the average at 36, divorced women at 31.

Lab School Offers High School Courses

Marshall's laboratory school has furnished summer school programs for students of grades 1 through 12 this summer.

The elementary school program, consisting of grades one through six, for the first six weeks of the summer term, said Principal Rex C. Gray.

Priority was given to children whose parents were attending Marshall graduate school for the summer term.

The elementary school averaged 20 students and 12 students per grade.

The junior and senior high school, including grades 7 through 12, will end August 7th.

Classes last from 8 to 12 A.M. and one unit of credit may be obtained, announced Principal Lawrence H. Nuzum.

The junior high and high school program includes: 7th and 8th grades; arithmetic, 9th grade; civics and algebra, 10th grade; biology and plane geometry, 11th grade; American History, and 12th grade, English.

MARY LYON SUTTON, assistant professor of psychology, who is perhaps the only golfer among the women of the college faculty.

Sutton Golf Enthusiast

By VIRGINIA WISE

Society Editor

Mary Lyon Sutton, assistant professor of psychology, says that as far as she knows she is the only woman faculty member who plays golf.

Dr. Sutton participated in the Women's Western Amateur Golf Tournament held at the Guyan Country Club during the summer of 1956. The tournament was attended by amateurs from all over the United States. She has also played in numerous tournaments with other members of the club. In 1957 she became chairman of the Woman's Golf

Association at Guyan.

She explained that her interest in golf stemmed from her father who was a golf enthusiast but added that this interest did not develop until five years ago. At the present, Dr. Sutton is taking golf lessons with plans to break 90 this summer.

She says that she thoroughly enjoys playing because of the exercise and that once she gets wrapped up in a game, her problems are out of her mind. She prefers golf over other sports since one can play alone but added that she usually plays with others.

Repairs, Cleaning Set For Union During Vacation

By BETTY MARSHALL

During the two week break between terms, the cafeteria, union, bookstore, and student union will be getting ready for the fall semester. Only the bookstore will be open to the public.

The cafeteria will be closed from the 22nd of August until September 8, according to Thalia Wiltshire, cashier. Part of the time will be used for cleaning.

The Student Union will also remain closed between terms. During the break the floors, walls, woodwork, lights, and equipment will be cleaned thoroughly. Mr. Don Morris, manager of the Union, said that some of the seats needed to be repaired and re-upholstered. He pointed out that each summer from six to twelve thou-

sand dollars are spent on repairs and new equipment.

According to information received from the office of President Smith, the library will be closed to the public, but will be open for emergency services to the faculty and staff. The library staff will be engaged in inventory work until registration begins in the fall.

Only the bookstore will have service for the public. According to Everett D. Newman, assistant manager of the bookstore, "We never close." The store will be open from eight to four-fifteen during the week and from eight until twelve on Saturday. Although they will serve customers, the majority of the time will be devoted to getting ready for the fall term.

Second Term Staff Named

Responsibility for publication of The Parthenon for the second summer semester rests in the hands of twelve student journalists.

The students who comprise the staff of The Parthenon are enrolled in journalism classes 309, Feature Writing, and 328, Journalistic English, taught by Prof. W. Page Pitt, chairman of the journalism department and faculty advisor to The Parthenon.

The Parthenon will be published each week throughout the second semester, and will

appear each Thursday on the stands in the first-floor hallways of Old Main, Northcott Hall, the Science building, and in the Student Union and cafeteria.

Editors for the second semester are: Don Fannin, editor-in-chief; Ron Hutchison, managing editor; Patty Poliskey, campus editor; Keith Ray, news editor; Johnny Stewart, sports editor; Virginia Wise, society editor; and Lucy Wallen, feature editor.

Tom Lowe is business manager.

Staff reporters are: Roger Blankenship, Wilma Christian, Mike Hoback, Betty Marshall, and Mary Robbins.

The Parthenon was established in 1896 as the college's student newspaper. It is a member of the West Virginia Intercollegiate Press Association, and maintains a full-lease wire of The Associated Press.

Issues of The Parthenon are printed by the Commercial Printing and Lithographing Company of Huntington.

Parthenon staff members for the second summer term are, seated in front of the desks: Virginia Wise, Daytona Beach, Fla., junior; standing, Lucy Wallen, Huntington sophomore, and Wilma Christian, Fort Gay senior. Seated at the desks, front to rear, are: Don Fannin, Barboursville junior; Ron Hutchison, South Charleston senior; Patty Poliskey, St. Albans sophomore; and Keith Ray,

South Charleston junior. Standing behind the desks are, front to rear: Mike Hoback, Huntington freshman; Maria Robbins, Huntington senior; and Roger Blankenship, Wayne junior. Absent when picture was taken are: Betty Marshall, Walker junior; Johnny Stewart, Huntington sophomore; and Tom Lowe, Williamson junior.

Cycling Schoolboy

Disgusted with the parking situation, Harold Frye is attempting solution with the aid of a trusty steed—the bicycle.

Miss Ruth Marion Flower, professor of English, and Dr. Jack R. Brown, professor of English, were married last Friday at the First Presbyterian Church of Huntington.

Flower, Brown Married In Noontime Ceremony

By VIRGINIA WISE
Society Editor

Dr. and Mrs. Jack Richard Brown are at home to their friends at 1231 Kanawha Terrace after their noon marriage July 24th at the First Presbyterian church of Huntington.

The ceremony was performed in the presence of the immediate families by the Reverend Dunbar Ogden, assisted by Dr. Howard J. Brown, brother of the groom and minister of the Methodist Church of the Savior, Cleveland Heights, Ohio.

The bride, formerly Miss Ruth Marion Flower, was given in marriage by her brother, Mr. Harry L. Flower. Dr. Nellie Shoemaker, chairman of the department of English at Baldwin Wallace College, Berea, Ohio, acted as best man. Wedding music was played by Mrs. C. R. Keesey of New Smyrna Beach, Florida, cousin of the bride.

Mrs. Brown is the daughter of

the late Mr. and Mrs. Marion H. Flower of Parkersburg, W. Va., and this city. She was graduated from Marshall College and the University of Michigan. She is a member of Delta Kappa Gamma and Alpha Chi Omega sororities and the First Presbyterian church of Huntington.

Dr. and Mrs. Brown have been professors of English for a number of years and are well known on campus and in town.

Dr. Brown is the son of Mr. J. C. Brown of Cleveland, Ohio, and the late Mrs. Brown. He holds a doctor of philosophy degree from Northwestern University and is a member of Phi Beta Kappa and Phi Kappa Tau at Ohio Wesleyan University.

A luncheon was held at the Chimney Corner in Ashland, Kentucky, following the ceremony. Afterwards, the couple journeyed to the Campbell House, Lexington, Kentucky for brief honeymoon.

Parking Problem Solved

By KEITH RAY
News Editor

The parking situation has been alleviated somewhat by Huntington junior Harold Frye, who began riding a bicycle to school last week.

"Day after day of searching for a parking place, sometimes for as long as twenty minutes, convinced me that something had to be done," Frye said, "so I borrowed a bike as an experimental means of getting to class. It worked, and I like it."

Frye lives at Donald Court, the college-sponsored housing project for married students, located about three miles from the campus.

"Now," Frye said, "I can get

up in the morning without worrying whether or not I'll find a parking place within two miles of the school. I don't have a parking problem, I park anywhere I please."

He said that there are no hills to pedal across, so the ride doesn't tire him. He described his morning cycling trip as "healthful exercise."

It takes a few minutes longer by bike, he explained, but it's quicker in the long run. Too, he said, it's far more economical.

He expressed doubt that he would cycle through his senior year because of the winter cold, "but if we have a mild winter, I just might do it."

Discussing the problems of the modern family are l. to r. Grace Damron Olive Hager, Marjorie Van Dien, Walter Chapman, and Louis Conner. Standing is Dr. Harold Hayward, director of the workshop.

Working on one of the individual projects of the workshop are l. to r. Tom Hurley, Gypse Adkins, Nannie Skeens, Pansy Elliott, and Maxine B. Sullivan.

Workshop Is Conducted On Modern Family

By **PATTY POLISKEY**
Campus Editor

A workshop dealing with the basic structure of the modern American family is now being conducted under the direction of Dr. Harold M. Hayward, professor of sociology.

The theme of the workshop is "Designs for Better Family Living in a Changing World," and covers the problems of youth,

general functions of the family, problems of the older age group, mobility in the family, changing values, and cross-cultural studies of Greek and Negro families.

Held daily from 9:10 to 12:00, the purpose of this group is to better understand the family as it fits into the present day situation with its changing culture. Within the one workshop are several smaller groups which se-

lect the various topics and projects with which to deal.

This workshop, which will close August 8, offers three semester hours of graduate or undergraduate credit. However, the students are mostly graduates and the professions of the students range from elementary, secondary, and college teachers to coaches, principals, a pupil-personnel worker, a minister,

three ministerial students, and a radio-journalism major.

Part of the time, the group meets as a unit. In these meetings, it discusses the annual aspects or problems of the workshop.

At other times, the unit divides into smaller groups and work on individual reports.

Although this workshop is not

annual, it has been held several times in the past. Each time the group prepares an annotated bibliography which will be helpful to those who are interested in the general subjects of the workshop.

In the past, this workshop, Sociology 406-506, has been held here on the campus, at Beckley, and at St. Albans.

Meeting as a unit are the members of the Sociology workshop covering the problems of the modern family and its relation to the changing American culture.

Snyder Stresses Defense

By **JOHNNY STEWART**
Sports Editor

When the "Help Wanted" sign went up in the football office early this year, there was scattered speculation that Marshall College might dip into the professional ranks to produce a replacement for its departed head coach, Herb Royer.

Yet when the final countdown came to name a successor, a man whom the late Cam Henderson sent on to greater accomplishments in the coaching field was recalled to lift the Big Green from its football doldrums.

He's Charlie Snyder, a dynamic, highly articulate disciplinarian who faces perhaps the toughest challenge of his career—that of building Marshall's fortunes back to the status of the Henderson era.

Although he was among the few candidates who were mentioned for the post, Snyder's chances of returning to his alma mater appeared nil. The most talked-about possible replacement was Frank "Gunner" Gatski, another protege under the Henderson regime.

Gatski had gone on to make a name for himself in the National Professional League with the Cleveland Browns after his graduation back in the early 1940's. He appeared the logical choice.

Nonetheless, Snyder, a markedly successful coach since his graduation 11 years ago, was summoned to the aid to rebuild the faltering football situation.

A genial man whose appearance belies his years, Snyder is a proven head coach in his own right, a trademark of his late teacher. He has a jutting, you-bet-I-will jaw and a convincing manner which has commanded the respect of his fellow workers and players.

His selection for the job was a natural, although he knew full well at that time what magnitude of a task lay ahead.

"Naturally I feel very pleased," Coach Snyder said when asked how he felt about returning to Marshall, leaving behind him the prospects of perhaps a better place in the coaching field.

After 10 years of coaching in the Kentucky high school system, the mild mannered fundamentalist had made his first venture into the college ranks. Only a year ago he was assigned as freshman line coach at the University of Kentucky.

But the alumni's dream of returning to his alma mater played a definite part in swaying Coach Snyder "home."

A month from now, Coach Snyder will make his debut in what he called a "tremendous task ahead." A lot will rest with untested sophomores and scattered veterans at various positions.

While he was quick to point out that rebuilding with a small nucleus will prove the toughest job, Coach Snyder was looking to the future.

"We'll have to improve our recruiting," he said. In his opinion, winning and recruiting go hand-in-hand. "If a team wins, it will help the recruiting."

When Coach Snyder came to Marshall to begin his playing career in 1940, he was an established tackle. Although he had gained no great acclaim at Catlettsburg, Ky., High School, he, nonetheless, played in the East-West High School All-Star game.

After a brief interruption during the war years, he returned to hold down a regular position for three years under Henderson. Following graduation in 1948, he returned to Catlettsburg as head coach to begin a nine-year tenure, one in which he had never had a losing season.

His credentials were so impressive that in 1957 he was summoned to take over the head duties at Lexington Lafayette High School, a position he held until being called up to the Kentucky job a year later.

In February of this year, when Coach Royer resigned from the coaching chores and later accepted a teaching position in California, Snyder was to enter the Marshall athletic picture.

Veteran observers called spring practice this year one of the best in recent years. Perhaps it was the articulate manner in which it was conducted. Coach Snyder agreed it was a "good practice."

With him when he begins his tenure some 30 days away, Coach Snyder will introduce a new offensive system into the Marshall pattern—the winged T, based principally on the single wing philosophy.

"We'll have to feel our way along," he said in pointing out that the rebuilding process is similar to the adage that "Rome wasn't built in a day."

"Our biggest need is overall defense, which we feel can make the difference between winning or losing a game. Therefore, we want to stress defense as much as possible in the short time we have before opening game.

"The main weaknesses will be speed and experience, and they need blocking and tackling work," he added. Another phase of the game which he dealt with was pass defense. "It depends on who starts just how well we do in protecting against passes."

Guard—in reference to depth and experience—appears now to be the strongest position when the Big Green begin preparing for its opener on September 19 against Virginia Military, tabbed a comer in the Southern Conference.

Four lettermen, two of them juniors, return to bolster the middle of the line, plus two promising members of last year's freshman squad. Upcoming sophomores are Ron Reynolds and Jim Keatley, comparatively light in comparison to the others. Reynolds is 176, Keatley 183.

Senior members are Don Trimboli and Bill Gillespie and juniors Scott Jarrell and Wilson Latham.

Tackle, while well fortified in the front line but lacking depth, will be manned by 246-pound Jim O'Connor, a draftee already by one of the professional teams, converted guard Dave Stull, and junior Norm Mullins, who also takes a turn at center.

Three junior veterans man the end position—Larry Jarrett (192), Alpha Mayfield (205), and Bill Roberti (203). Backing them up are sophomores Gregory Porter (183) and Jim Michel (188).

Leading contenders for the starting center job appear, according to Coach Snyder, to be a tossup between senior Fred Lipscomb (191) and sophomore Rucker Wickline (191), with a challenge also coming from 202-pound sophomore Nick Nichols.

Barboursville senior Jim Maddox, who stepped into the starting job near mid-season last year, returns as the No. 1 man at quarterback. However, he may get stiff competition from heralded sophomore Tags Meredith, a 150-pounder, and two members of last year's frosh squad, Ralph May and Jim Cook. Halfback could present the

CHARLIE SNYDER
Faces Tough Challenge

biggest problem to Coach Snyder, however. Here again sophomores will play a prominent part. Seniors Dewey Ballengee and Bob Lester head the list of returnees, backed by senior Paul Miller and sophomore Malcolm Price and Richard Thomas.

Fullback will be well taken care of, with one upperclassman and two promising sophomores ready to step into full-time service. Snyder will be counting on senior Bob Wilson (185) and touted sophomores Dixon Edwards and Bill Bruce to carry the load. Edwards is earmarked for a potentially outstanding career.

Two players whom Snyder was counting on to ease the situation are questionable because of scholastic inefficiency. They are halfback Emory Ross, who runs 100 in 10.1, and tackle Lester Little, who saw some duty a year ago.

So you can see that Coach Snyder's situation is acute, one he covered well in recalling the old axiom: "Rome wasn't built in a day."

FOREIGN STUDENTS

Foreign students who wish to extend the time of their temporary stay in America must submit an application, announced Dr. John Martin, professor of Spanish and advisor to foreign students.

They should contact Dr. Martin in his office, Main 318B, from 10:00 to 10:50 A.M. daily, as soon as possible.

SAYRE ATTENDS

Mr. John M. Seyre, director of development and alumni affairs for the college, is attending a 10-day conference in Pittsburgh, Pa.

Mr. Sayre, who assumed the new post July 1, is attending the first Institute for College Development Officers sponsored by the American College Public Relations Association. The sessions are being held on the campus of Chatham College.

The conference will end August 5.

COLLEGE

(Continued from Page 1)

hour.

David L. Armstrong of the Chesapeake and Potomac company said that during the winter the switchboard may handle as many as 500 calls per hour. He said that the existing facilities are not adequate to handle this volume of calls.

Summing up the obsolescent switchboard facilities at the college, Mr. Armstrong said that the present system would have been a good system about 25 years ago.

As a result of the findings of the telephone company survey, the company recommended the institution of a new type switchboard to accommodate the increasing volume of calls at the college.

The report pointed out the fact that the inadequacy of the pres-

ent switchboard results in a bottle-neck in the handling of telephone calls to the campus during periods of peak traffic.

The 1959-60 budget request for the college included a provision calling for the necessary funds to allow the installation of the new switchboard facilities.

The cost of the new switchboard, which will be installed by the Chesapeake and Potomac company, will amount to an approximate \$200 increase over the cost of operating existing telephone equipment.

Installation of the switchboard will begin as soon as an area with adequate space has been found.

George Nisbet, Logan, graduate student, has received a coaching position in the Logan County School System. The particular school at which he will teach has not been determined yet. Mr. Nisbet will receive his Master's degree in Geography at Marshall at the end of this summer term. He is now serving in the position of sports director during the absence of Otto "Swede" Gullickson.

Baptists Attend Conference

By WILMA L. CHRISTIAN

Fifteen Marshall Students will leave August 29 by car to attend the National Baptist Student Movement Conference at the National Assembly Grounds, Green Lake, Wisconsin.

The group will be accompanied by Mr. and Mrs. Sam Pinson, advisors for the group, and Rev. John C. Barbour and Rev. Richard W. Kyle who have assisted in getting the group organized. Dates of the conference are August 30 thru September 4.

Approximately 700 students from all over the United States will take part in the conference which is designed for study and discussion on the nature and program of the church. The central theme of the conference is "To Seek To Serve."

The main speaker will be Harmon R. Holcomb, associate professor of philosophy of religion at Colgate Rochester Divinity School. Professor Holcomb will present a series of morning lectures on the nature and life of the church. Each morning students will divide into small groups and discuss problems concerning the central theme and relate the Bible to them. A similar discussion will follow each evening. All of the conference will be in keeping with the national theme "To Seek, To Serve."

Four Huntington Baptist churches are helping to sponsor these delegates to the convention. They are Fifth Avenue Baptist, High Lawn Baptist, Temple Baptist, and Twentieth Street Baptist.

This newly organized campus group with the assistance of Reverend Lander Beal, student religious counselor, is part of the drive to develop denominational fellowship among the Baptist students which make up 27.2%

of all the students enrolled at Marshall. This is the first concerted effort to fully engage representatives from Marshall at the National Baptist Student Movement Conference.

Students other than those in the picture who plan to attend the conference are Eddie Ban-

nister, Delbarton, Junior; Becky Farley, Mary Lake Farley, Delbarton sophomores; John Gunter, St. Albans, Senior; Carrie Sue Pinson, Huntington, Sophomore; Ramona McCoy, Matewan, Junior; and Kay Moss, Lewisburg, Sophomore.

"To Seek, To Serve . . ." will be the theme of the conference at Green Lake, Wisconsin, which will be attended by these members of the newly formed Baptist Student Movement. They are:

standing, Jim Kinkead, president of the group; first row, left to right, Sam Pinson, Geraldine Pinson, John Barbour, Wilma Christian; second row, Jennie Windsor, Dick Kyle, Willis Chipps.

FIVE
(Continued from Page 1)
the Mason County school system. He holds A.B. and M.A. degrees from Marshall and a Ph.D. degree from Ohio State University.

Martin Dennis Barnett, to be assistant professor of chemistry. He holds an A.B. degree from

Washington University at St. Louis, an M.S. degree from the University of Wisconsin and a Ph.D. from the University of New Mexico.

The board also granted tuition and fees scholarships for four students in the elementary teacher field—Miss Ramona Kay Jarvis, Milton Route 3; Miss Brenda

Lynn Keys, Kopperston; Miss Brenda Jane Bobinson, Wheeling, and Miss Loretta Josephine Stepp, Crum.

Secondary teaching trainees: Miss Karen Jo Adams, Huntington; Miss Joyce Ann Grainer, Clarksburg; Miss Brenda Jenkins, Glenwood Route 2, and Miss Toni Smith, Nitro.

Jantzen gems
in stereo tones

You'll find new depth and richness in the Jantzen Keynote Collection for fall. Stereo Textures and Tones such as this staccato-check skirt and sailor sweater. "Gambler's Check" wool skirt 15.98. "Heart Strings" (feel that tug!) pullover in Blend 61 of wool and Acrilan, 12.98. You saw them both in Mademoiselle and Seventeen Magazines.
