**University Curriculum Committee  
RECOMMENDATION**

**SR-19-20-22 CC**

Recommends approval of the listed **UNDERGRADUATE COURSES CHANGES** in the following college and/or schools/programs:

**College of Information Technology and Engineering**

**CE 241 Introduction to Geomatics**

**Summary of Change:** Change Credit hours from 4 to 3

**Rationale:** The change is being made in an effort to bring the Civil Emphasis closer to 120 credit hours for a degree requirement. The change will not effect the breadth of content, only the depth in a few select areas.

**Curriculum:** <http://www.marshall.edu/senate/ucc/archives/CE241.pdf>

**College of Liberal Arts**

**GEO 360 Weather Analysis**

**Summary of Change:** Course number change from 360 to 460

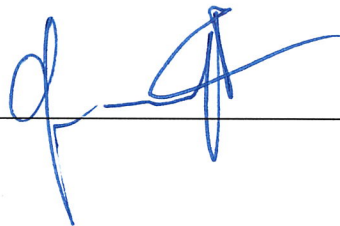

**Rationale:** Due to the increased demand from Geography graduate students wanting to take a graduate-level weather course, the department would like to change GEO 360 Weather Analysis to GEO 460 Weather Analysis.

By changing to a 400-level course, it allows the department to create a similar 500-level Weather Analysis course in which graduate students can take.
