University Curriculum Committee RECOMMENDATION

SR 20-21-28 CC

Recommends approval of the listed **UNDERGRADUATE DEGREE PROGRAM CHANGE** in the following college and/or schools/programs:

College of Science

Degree Change: CIP 30.0106/SI10 BS in Int. Sci. and Tech.

Brief Summary of Changes: Change of name.

Rationale: Change the name of the degree program to “BS in Computer and Information Technology.” The IST department was reorganized into multiple unites in 2016. The only major remaining in the Integrated Science and Technology Program is the Computer and Information Technology major. This change makes the program name match the major.

College of Education and Professional Development

Degree Change: CIF Pre-Elementary (EZ81), Elementary (EE00), Concentration Elem Ed K-6 (EEM4)

Brief Summary of Changes: Revisions to degree requirements and change to credit hours for CI 248 to increase to 4 credit hours.

Rationale: The new course (CI 348) will include methods for elementary teacher candidates in teaching Physical Science and Engineering concepts appropriate for the elementary grades, according and aligned to the WV Next Generation Science Standards K-6. It will combine the appropriate elementary required content of PS 121 and PS 122, while adding much needed engineering and methods for teaching these concepts to elementary students.

CI 348 will eliminate the need for PS 121 and PS 122 in the elementary program (These course will not be deleted on out end since they are not in our college.)

CI 248 will raise to a 4-hour course to take a little of the content from PS 121 and 122.
