**STUDENT CONDUCT AND WELFARE
RECOMMENDATION**

SR 22-23-46 SCWC

Recommends that the Faculty Senate support the trauma-informed resilience-infused campus initiative by encouraging faculty education through the various available mental health trainings. We also recommend that we increase the availability of these trainings and that the university provide financial support to increase the number of certified trainers.

RATIONALE:

Based on research that shows a surge in demand for mental health care on other college campuses including our own, these trainings would enable faculty to fulfill our responsibilities to students by improving our ability to competently assist students with their mental wellness challenges.
