TV airs returning POWs

Student views brother's homecoming

BY LEW HARFORD Staff reporter

One POW's family celebrated by eating chili, one wife by going to the store and buying her husband some clothes, but Larry Jackson, whose brother Capt. Charles Jackson was among the first POWs to be released and flown to Clark Air Base, said he wouldcelebrate his brother's return with champagne, wine and "a lot of good friends."

Larry who sat up all night watching a "blank TV screen" hoping he would see live coverage of his brother's return to Clark Air Base said "My roommate and I saw the supposedly live broadcast of the POWs landing at Clark Air Base this morning on the Today Show. Local stations didn't carry it."

His hair muffed up and his eyesdrooping from not enough sleep Larry said, "I'll have to get all the guys together today and plan the celebration tonight." The champagne and wine are for now but when his brother comes home Larry said, "We have a bottle of Cutty Sark that hasn't been opened for a long time that will be opened in our own private celebration. As far as we know he likes scotch."

"We had a radio that kept us informed," said Larry. "The radio told us the first plane had landed but the TV still didn't show anything."

"When the broadcast finally came on the Today Show this morning I watched the face of every man that got off that plane," said Larry. "When I first saw him I didn't know whether to scream, laugh, shout, cry or what."

On the failure of the local TV stations to carry live coverage of the POW's return Larry said, "We started watching the TV and they said they would show live coverage of the planes landing at the Air Force Base. When three o' clock came around I was getting impatient but when four o' clock came around I was just plain mad."

Larry said he will be busy in the next few weeks answering letters from people with his brother's braclet, talking to newsmen, getting things ready to go see his brother and recuperating from Monday night.

Larry said plans are still incomplete on where his brother will be when he gets back in the states. "We should know in the next day or so where he will be."

Larry said when his brother first gets home he wants his brother and his family to be alone for a little while. "Then if Chuck wants to see some other people he can."

Larry said his neighbors and friends will be the first to see him after the family. "One little girl from Cross Lanes asked me the last time I was home when Chuck was coming home. I told her pretty soon. She said, "When he comes home could you have him come over and eat dinner with me?"

'Terminal Interview' established

By ED HARTMAN Staff reporter

Student drop outs at Marshall now have someone who wants to listen to their problems before they leave campus.

A student withdrawing does not simply throw away his books, file the withdrawal papers and walk off campus. There are people who want to listen to their problems and the student can not avoid them under a new program started this school year.

The purpose of the "Terminal Interview" program, established through the Center for Student Services last October, is not to talk any student out of "We simply feel that before a student leaves school he should talk to someone," Waite said. "We don't push for an explanation. We try to determine if dropping out is a realistic choice."

If the student's problems are academic, the center is prepared to help resolve conflicts with instructors, poor scheduling or study skills and even redirect vocational planning.

If the problems are more personal, the center offers private counseling. Those who do drop out will find guidance and useful information on vocation schools and programs available as alternatives to a college degree.

All of the resources of the center are available to the student in an attempt to rebuild his college career, reassess his vocational aspirations or assist him in entering a program or job outside the University.

The elimination of the draft may have some effect on Marshall's enrollment, but there have been few such cases as yet, according to Waite.

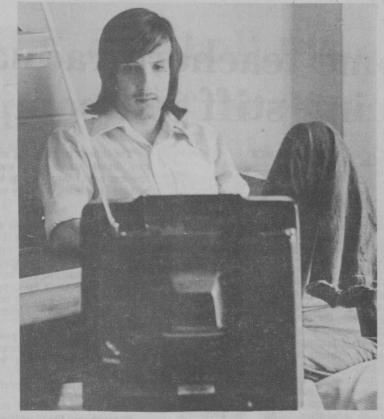

In any given semester, withdrawals for the first few weeks are largely a matter of ineligibility due to quality point deficiencies, Waite explained.

Later in the semester, the reasons are more personal, and finally, near the end of the semester, many students find themselves hopelessly behind in classwork.

"These are the people we wish had been in contact with us all along," said Waite. "Ideally, the student should become familiar with the center long before the withdrawal process becomes necessary."

JACKSON WATCHES his released brother landing at Clark Air base.

Graduate School's enrollment increased

By TIM MATCHETT Staff reporter

Enrollment figures for Graduate School this semester are highest ever, according to Robert H. Eddins, Marshall registrar.

Graduate students total 1356, up 11.5 per cent from last spring's total of 1216. Full-time students number 261, compared with 235 a year ago. Part-time students total 1,095, up 114 from last spring's 981.

All of these students won't earn a degree, said Eddins. Some won't finish some may not be admitted into candidacy for a degree, and some may not pass the comprehensive exam, he said.

The effect of the change in the Graduate School admission requirements can't be determined yet by the enrollment figures, said Eddins. Some of the students may have been admitted into Graduate School before the new policy began, and are just now beginning to take classes, he said. The new policy for admission into Graduate School, which went into effect last semester, now requires only a bachelor's degree for admission. Admission was formerly based upon the undergraduate quality point av rage (QPA), requiring a 2.7 overall average and a 3.0 average in the major subject.

According to Eddins, the Office of the Registrar and the Office of the Graduate School will attempt to better analyze the enrollment figures. Several new elements will be put into the computers when figuring enrollment, he said.

They will attempt to learn whether or not a student was affected by the new policy, if a student has gone from parttime to full-time or vica-versa, and how long a student has been taking graduate courses, said Eddins.

Dr. Herman N. Weill, dean of the Graduate School,said that he believes the greatest increase in graduate enrollment is yet to come. The new admissions policy is still somewhat unknown, said Dr. Weill. The old policy appears in the most recent catalog, and the new policy won't appear until the new catalog comes out this summer, he said.

MU Women's Liberation to submit health demands

Members of the Marshall Women's Liberation Group are scheduled to meet today with Vice President of Student Affairs Dr. Richard G. Mund to press for -Full-time gynecologist to come in at least one a week. -Full-time staff working only for the center

withdrawing from Marshall, but to discuss with him his problems, reasons, immediate plans and future, according to Dr. Richard W. Waite, center director.

The new procedure requires all withdrawals to be handled by the center and eliminates much of the footwork for the student. After filing the application at the center's offices at 1618 Fifth Ave., the student need only check with the library and the cashier.

The center has processed 427 withdrawals since the program began last Oct. 15. "We've run into very little resentment on the part of the student," said Waite. "If they don't want to discuss it, we don't force anyone. We're willing to handle it as a matter of process. Ninety-five per cent of the students who do drop out leave with a better feeling for Marshall." According to Waite, there are as many

reasons for dropping out as there are people. "Women often drop out to get married, freshmen try school for a semester or a year, decide that it's not for them and go into jobs at home." For students who plan to return to Marshall, the center offers continued guidance in the hope that any second effort will be more deliberate and manageable than the first.

" It's not really a matter of 'saving people' for the 'University," said Waite. "If we can refer a student to the correct vocational program or place him in the correct job, then that may be called saving him."

The American dollar.-it's going the way of the 'buffalo' nickel.

WASH. AP. The United States Monday night devalued the dollar by 10 per cent in an effort to solve the international monetary crisis

what they term 10 demands for improved student health services. The "demands" were outlined Thur-

sday night at a meeting of the Women's Liberation Group.

A group spokesman said the first objective "is to have competent health care for everyone- male or female."

"Information pamphlets should be in the health center to inform students," said Sara King, representative for Women's Liberation. Other demands are

-Dispensing all types of birth cntrol devices to students

-Students should be able to receive V.D. tests and pregnancy tests, without any discrepancies.

-Women should be able to get free pap smears.

-Find a better way for handi-capped students to get into the center more readily.

-Free post abortion and referral care. "All these demands are to be furnished

at no extra cost said Sara King," representative of Women's Liberation.

Dr. Richard G. Mund, vice president of student affairs, was contacted Monday but preferred not to comment until after the meeting with the group.

Election filing turnout yields few candidates

Student Government election filing didn't break any records Monday. There weren't any long lines waiting outside the Senate office either. Only three people showed up to file.

"The first day is always the slowest day for filing but it's never been this slow," said Donna Hamblin, Huntington senior and election coordinator. She added, "The turnout is usually better in the spring because the students are voting for president and vice-president of the student Body."

As of 4 p.m., three prospective candidates had filed for Senate seats, according to Ms. Hamblin. Alice Neal, Huntington junior; David C. Roberts, Huntington freshman and Lowell Altizer, Pineville sophomore, have filed for offcampus senator.

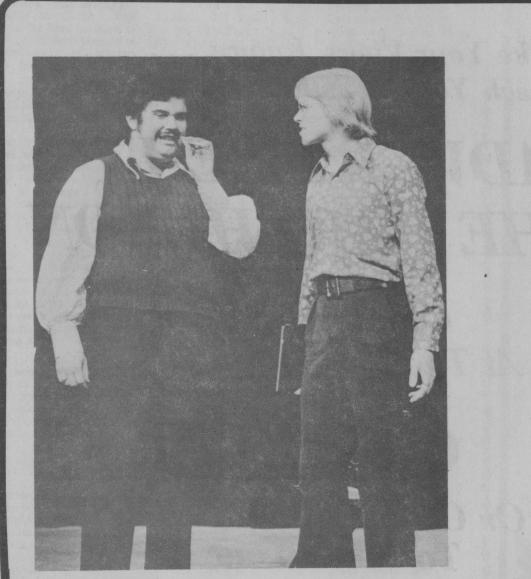

Prior to last year's Spring election, seven individuals had filed at the end of the first day. "Filing always picks up by the third day," the elections coordinator said. "I am expecting a big rush on the last day," she said.

Shelia Baxter, Student Government president said she feels "that running for Student Government gives a student a chance to do something constructive. "Senator Phil Hinerman, Transient senator said that "running for senator is beneficial to the Student Body."

Those students interested in filing for office may do so Tuesday and Wednesday between 8 a.m. and 4 p.m. at the Student Government office, Room 2W31 of the Student Senate. Students must be fulltime students (12 or more hours) with a 2.0 overall average. Filing fee is \$2 which can be paid at the time of filing.

Seats are open for president and vicepresident of the Student Body, six Transient senators, five dorm senators, and three off-campus senators.

Withdrawl date is set for Feb. 20. Candidates names will be left on the ballot after this date.

Some teacher graduates facing stiff job competition

By PAM FLORENCE

and the a

Staff reporter

Page 2

Graduating physical education majors may have trouble finding a teaching job in West Virginia this year, according to a survey published by the Office of Career Planning and Placement

Six or seven years ago a student could have applied most anywhere and gotten a job," said Reginald A. Spencer, coordinator of career planning and placement.

However, the survey of school systems in 50 West Virginia counties shows teachers of many subjects are no longer in demand. Among the least in demand are teachers of physical education, English and home economics.

Elementary education teachers are among the most in demand along with special education and mathematics teachers. More than half of the counties showed a special need for early childhood teachers.. Spencer pointed out that this is due to the mandatory kindergarten system now in effect in West Virginia. The survey doesn't mean a student

shouldn't apply for a teaching position because it is listed as one of the least in demand," Spencer said. "It just means there will be more competition.

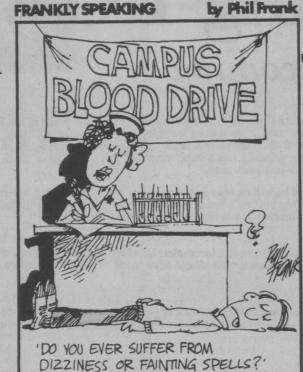

"The time is phasing out when a teacher can dictate where he wants a job,' Spencer said. Applying 30 or 40 places is nothing if a teacher really wants a job, he added

He commented that one of the obstacles to extensive applications is the interview. Time and finances are important factors involved in extensive applications, and students should not wait until school is out to begin interviews, Spencer said. "Spring break is a good time to begin," he said. "You can't uncover opportunities unless you get there."

Vacancies also make good employment leads, according to Spencer. He said the success rate is higher when a student applies for vacancies. A list of teacher vacancies is published every week at the placement office.

Spencer said the West Virginia picture of teacher needs corresponds to the national level.

"Teacher graduates must recognize that everyone approaches the job world on individual merits," Spencer said. "The student should have an idea of the situation he wishes and then apply extensively to schools.'

MU blood drive set Wednesday

Student Government is sponsoring a Marshall Blood Drive Wednesday in the Multi-Purpose Room of the Memorial Student Center from 10 a.m. to 4 p.m. and all MU students are encouraged to participate, according to Thomas Stevens, Huntington seniorand member of the committee.

Stevens noted that immediate relative of any student, faculty member, administrator or staff participating in the bloo d drive will have access to as much blood as they need for only \$15 a pint instead of the regular \$64.

Donors will be given a partial physical examination and then issued a card showing his blood type, Stevens said. A trophy will be issued to the organization donating the most blood, he added.

Counseling by Baptists is offered

Baptist counseling for Marshall students is now available at the Campus Christian Center, according to the Rev. Neil Hoppe, of the Baptist campus ministry.

The office which opened Monday offers counseling from 9 a.m. to noon every Monday through Friday, said Reverend Hoppe.

"All types of counseling, including draft, marital and personal will be available," he said. "Come by and see us. We are here to help you in anyway, get to know you and be your friend.

Appointments may be made with the secretary at CCC or students may drop by anytime, **Reverend Hoppe said**

Staff schedule is:

Monday, Suellen Luegers, education and youth director, Baptist Temple; Tuesday, Syl Adkins, minister, Baptist Temple: Wednesday, David Carrico, associate pastor, 5th Avenue Baptist Church;

Thursday, Gregg Terry, associate pastor and youth director, Highlawn Baptist Church and Friday, Neil Hoppe, minister, 20th Street Baptist Church.

ODK picking pledge class

Omicron Delta Kappa (ODK), national men's leadership honorary, is selecting a spring pledge class, according to Art Leuterman, Boston, Mass., senior and secretary of ODK.

Any organization having members whom it wishes to nominate can send their name to Leuterman via the ODK mailbox outside the Office of Student Affairs by Wednesday.

Each nominee should submit a complete listing of all on and off campus accomplishments, activities and honors received and his semester by semester grade point averages, said Leuterman.

Nominees are limited to junior and senior men with 2.5 or higher grade point averages.

Herd sees 'miracle'

By TOM BUNEVICH **Sports editor**

On the side of the Mabee Center basketball court in twofoot letters the words 'Expect a miracle' are written. It turned out to be a fair warning last Saturday night.

The miracle occured in the form of a 106-103 overtime win for Marshall's Thundering and Determined Herd over the Oral Roberts Titans, but how it was done was incredible.

Trailing by 78-60 with just over seven minutes remaining, the Herd looked destined to become ORU's 53rd straight home court victim. That was until the miracle started. Slowly, but surely, the Herd battled back to tie the game at 93-all, and sent it into one of the most exciting overtime periods in MU history.

Swimmers 5-5 after two losses

By GENE GARDNER Sports writer

The Marshall University swim team dropped to 5-5 on the season after suffering weekend defeat at the hands of Miami University and Ashland College.

The Herd, outmanned 22-11 by the large Miami, Ohio, squad fell to the Redskin tankmen 88-23 Friday evening. MU thenlost to Ashland College, Ohio, 67-43 Saturday afternoon.

The Marshall swimmers have now lost five of their six road meets this season. They are 4-0 in dual meet competition ath home wit one more home meet remaining Feb. 17 against **Cleveland State University.**

Marshall was down 16-0 before both meets began because the Herd's diver, Tom McCov, decided not to make the trip just as the swimmers were boarding their bus for Oxford, Ohio.

Ashland to take first and second Alpha Psi No. 1 vs. Zeta Beta in both diving events without Tau No. 2. Kappa Alpha No. 1 having to compete against an faces Hodges Hall Lakers and

"We started playing careless ball at the end," said losing coach Ken Trickey, "and we were just running and putting it 'We should have played better, but we were beaten by a fine team," said Trickey.

But winning coach Bob Daniels attributed his success to his players. "Our fellows stayed in there and kept hustling," said Daniels. "They never gave up-not until the end of the game.

With 4:39 left and ORU holding what looked like a safe 91-76 lead, the miracle went into full force. After a Marshall timeout and strategy session, Bill James got the Herd going by adding two free throws. Randy Noll hit a 20-foot jumper, but David Vaughan countered for Oral Roberts, giving them a 93-80 lead with 3:41 left. Those were to be ORU's last points in regulation time

then rebounded a last ORU shot

much I was glad to just contribute something. It was a great feeling to win this one, and it was probably our best

Bachelor, playing for only seven seconds, then hit a threepoint play, giving MU a 102-101 margin. But Greg Davis hit from the corner with 45 seconds left and ORU had a 103-102 lead. Joe Hickman's long jumper

the lead at 104-103. but was fouled and went to the ling in a 1 and 1 situation with 16 seconds left. He missed the free toss, but Bill James rebounded

giving MU the ball. D'Antoni was again fouled, this time wih five seconds left, and converted both free throws to give MU its final margin. "I felt sure we could do it," said Collins, "and when Mike went to the line at the end I knew we would win. He's the kind of player who will make them when they count."

But according to Trickey, Bachelor's three-pointer did the damage. "I told them not Ty Collins and D'Antoni put in two free throws a piece, sandthree-point plays, and they went wiched around a Joe Hickman right in there and gave up one," lay-up, cutting the lead to 93-86 said Trickey. "That killed us with 2:09 left. Hickman added a three point play, but MU trailed because they weren't supposed by four with just 39 seconds left. to score from there.' An ORU turnover, D'Antoni basket and steal, and Collins Bachelor's purpose was to shoot. "Coach put me in to field goal knotted it at 93-all with 15 seconds left. Collins muscle it up, and when I got the ball I knew that I wanted to shoot it," said the smiling

Bachelor. "Since I don't play to send into another period. In that exciting overtime, the two teams traded baskets and free throws until Vaughan hit a lay-up with 2:11 left to give ORU a 101-99 lead, but Marshall game of the year. We played real well as a team, and that's what we had to do."

Leading the Herd scoring parade was Collins with 24, Noll with 23, although each fouled out in the overiime period, and James with 20. D'Antoni added 16 and 10 assists, while Hickman and Wayne Smith contributed nine and eight points , respectively. Noll had 12 rebounds.

Leading the Titans was Davis with 20, Vaughan with 16 points, 16 rebounds, and eight blocked shots, and Larry Baker with 15. John Patterson, Eddie Wodds, and Greg McDougald had 12 apiece while Rich Fugua added only 10 points and 11 assists. Dougold Woods, and Fugua fouled out during the Marshall rally, but according to Trickey. 'They know they should have played better when they got in trouble. But we'll bounce back because our boys are winners."

Collins expressed the attitude of the Herd when he said, "Those tournament officals have to be looking after something like this. I just knew we could do it. I even had that funny feeling we were going to win. Wow, it feels great.'

Marshall will return to action Saturday night at Memorial Field House at 8 p.m. with St, Francis of Pa.

Women's gym plan 'in limbo'

> The proposal to move the Department of Women's Physical Education from the Women's Gym to the University Dining Hall is "in limbo," according to Dr. Dorothy E. Hicks, chairman of the department.

The proposal, made by Wood & Towers, Inc. in the Campus Facilities Plan, advised that the 52-year old Women's Gym be vacated this March and that the department be given \$610,000 to remodel the former University Dining Hall.

Dr. Hicks said the depart-ment "turned down" the old cafeteria because it "won't take care of our present needs, much less our future needs."

Alternatives to moving to the old cafeteria include a proposal to the West Virginia Board of believable, incredible and

Baseball team eager to start

By BILL LOCKHART Sports writer

"Can we take infield now?" "How about some more batting practice?"

"Who do we beat first this year?"

These are a few of the comments one can hear at a MU baseball practice session at Memorial Field House or Gullickson Hall.

Baseballers are in the fourth week of spring training and most say they are ready to play ball now even though the opening game is almost a month away and players haven't had an outside practice yet.

"The players are in much better shape this week and by the time the season starts we'll be ready physically," said Coach Bob Morgan. "Right now we don't have the weather on our side, we have to work out inside and when we start playing outside things will be in a different prospective,' added Head Coach Jack Cook.

The first game will be March 5 against Kansas City Royals Baseball Academy in Sarasota, Fla. The Royals consist of major league draftees who attend Manatee Junior College in the morning and play baseball in the afternoon.

Athletic, alumni tour upcoming

A "southern swing" combining varsity basketball and alumni meetings with President John G. Barker is scheduled Feb. 22, 25 and 26, according to Director of Alumni Affairs

Howard St. Clair. First stop will be Charlotte, N.C., where the Herd will play the Charlotte campus team of the University of North Carolina on Feb. 22. Marshall alumni will honor Dr. Barker with a 6-7:30 p.m. reception at 'The Lounge'' in Ovin's Auditorium, next to the coliseum where the game will be played. The meeting will be the second between Dr. Barker and Charlotte-area alumni since he became Marshall's president.

The Langford Hotel in

Orlando, Fla., will be the site of

The Royals play in the Gulf Coast League during the summer months and get in shape by playing such college teams as Vanderbilt, Texas A & M and the University of Maryland during the school vear.

Page 3

The Royals will have played 51 games when the Herd thunders into Sarasota March 5. "The competition will be tough in Florida, but in the four years I've been here this is the best team we've had," said Cocaptain, Larry Verbage, Huntington senior.

'The biggest change in the team this year is attitude," said Darren Woody, Huntington junior. Echoing Woody's st-tement, Tom Majher, Hun-tington senior, added "In the past I thought we could win but this year we know we can win.

The Herd has 14 returning lettermen this year. They are Bill Deems, Baltimore, Ohio sophomore; Larry Verbage, Huntington senior; David Campbell, Glen Burnie, Md. junior; Dick Grogan, Netcong, N.J. junior; Stever Grimm, Parkersburg senior; David Allie, Logan junior; Darren Woody, Huntington junior; Don Davis, Kenova senior: Tom Majher, Huntington senior; Steve Hall, Huntington sophomore; Mike Peppers, Cincinnati senior; Jim Willis, Logan sophomore, and Greg Webb, Wayne sophomore.

Intramurals squads seek tourney spots

Sports writer

Regular season play in in-tramural basketball comes to an end Wednesday night as the top 32 teams of an original 55 eye tournament action which starts next Tuesday. Forty-seven teams are still

involved in play after eight teams have been disqualified, most of them for failure to show for games.

Some tourney positions are still to be decided in the regular play. The 32 teams with the best records at the end of regular season play will go into the tournament in Gullickson Hall

Tonights's games at This enabled Miami and Gullickson Hall include Kappa

having to compete against an MU diver.

The Herd was never in it against Miami as the tankmen fell behind from the start. MU was down 23-2 before senier Jeff Pratt was able to tie for first in the 50-yard freestyle event. Three events later, Gary Weaber won the 200-yard butterfly and made the score 47-13.

Pratt picked up second place in the 100-yard freestyle and then came the Herd's brightest moment of the meet. Vince Berndsen won the 200-yard breaststroke in 2:19.3, good enough to qualify him for the the Omega attack with 11 college division nationals if the Herd were in that category According to Coach Bob Saunders, the Herd belongs in the college division because of a limited number of scholarships. belongs

Berndsen's win made the score 73-23. Marshall did not score as Miami won 88-23.

Marshall then traveled to Ashland where Saunders said he expected a real close meet. Ashland College is a swimming power in college division competition and has a number of swimmers who will be in the nationals, Saunders said.

Despite the 67-43 loss to Ashland, Coach Saunders said that his team swam well. The Herd was only beaten 51-43 without the diving. And without the two relay events, both of which Ashland won, MU would have won 43-37.

The Herd was led by Scott McMillen's two victories in the distance races and wins for Gary Weaber in the 200-yard freestyle and the 200-yard backstroke. According to Tom Gardner, who picked up two second places for MU, the sprinters made the difference.

Saunders said he expected Pratt to win both sprints, but Pratt could do no better than a second and a third. Assistant coach Tom Palmer said that Pratt just missed the turns in the unfamiliar pool

"They just out-finessed us," said Gardner. "I think we could beat them at home.'

Rangers tangle with Road Runners.

Sigma Phi Epsilon No. 1 meets Spartans No. 2 and Alpha Kappa Psi takes on Bozos. Sig Ep No. 2 will play Kappa Alpha No. 2 and ROTC No. 2 plays Pointers.

Library: data bank in future

Materials checked out of libraries of the future will all be "in facsimile" That's the prediction of Dr. Kenneth T. Slack, director of libraries at Marshall.

He says in the future the student will use a copying machine he needs and keep the copy himself. Original materials will be kept at the library for use and copying be changed —— "it will be a there.

huge data bank with information in every format always available," Dr. Slack predicted in an interview.

A system like this is needed now, he says. Students often need materials already checked out or unavailable. Also illegal copying is raising the cost of materials, such as record albums.

"Engineers have developed the technology to steal anything," Dr. Slack explained. "People abuse copyrights sometimes because they don't have money to buy materials and to legally copy and this is unfair to publishers and authors," he added.

If this pattern is to continue not only will costs go up, but many creative people will go out of business, Dr. Slack said. To combat the situation Dr. Slack proposes setting up a committee to select materials for a "universal bank of data." The committee would see that authors whose works are selected for this bank are substantially rewarded and the material put in the bank would then be used as much as possible, with students making copies of whatever they need. Distributing facsimile materials might also be cheaper, Dr. Slack says. "People have no idea how much it cost s just to lend a book and check it back in."

'This system sounds simple," Dr. Slack added. But it won't be in the free enterprise system and under copyright laws, he said. However, Dr. Slack said he considers himself a free enterpriser of the first calss despite its fallacies.

MU Christian athletes to meet

By K.D. LAWSON

Staff reporter Some of MU's athletes are materials they need, according joining the ranks of famous to Dr. Salck. He said the sports figures such as Tom Graduate center library in Landry, head coach of the Charleston is especially poor, Dallas Cowboys, and Jim Barnett of the Portland using Marshall's library. Warriors. They're not turning pro, but Marshall library would benefit they're starting a Marshall Marshall in two ways Dr. Slack chapter of the Fellowship of Christian Athletes, according to Jim Ullian, Holtsville, N.Y., junior and vice president of the Marshall chapter of FCA. inter-racial organizational of athletes to presenting the Christian way of life, will be having its second meeting at 9 p.m. today in Memorial Student Center Anyone interested and who has played high school or college athletics or is playing intramurals is invited to attend says Ullian. Ullian says members will be "Sharing Christian way of life by their actions such as visiting hospitals, rest homes, and speaking at high schools and junior highs." They will also be working with the Cabell County Youth Center at Ona. Meetings of FCA every other Tuesday night will feature a Bible study in additon to the regular business, accoring to Ullian. Tonight's program by Jim Snider, Bluefield freshman, will be on "An Every Day Religion-Not Just for Sunday."

Trip to UN set

Every spring trip doesn't have to end in Florida.

A group of Marshall students and Dr. Clair W. Matz Jr., assistant professor of political science, will spend part of their vacation in New York visiting the United Nations on March 4 and 5

Dr. Matz said the trip would be primarily for politcal science majors, but any student at Marshall interested in international affairs may go with his group.

Cost of the trip will vary with the indivdual. The tours of the UN and accomodations at the YMCA will cost \$10. Travel arrangements to New York will be individual, but car pools may b'e arranged by students.

Included in the trip will be briefings by a member of the UN Secretariat Officers. The briefings will cover the United Nations Development Program (UNDP). The UN Environmental Agency, and the United Nations Institute on Training and Research, (UNITAR)

The students will attend an NGO (Nor. Governmental Organization) meeting of Amnesty International, a London based organization concerned with political prisoners everywhere . It is hoped the group will talk about American draft evaders, said Dr. Matz.

Any student interested in participating in the trip is urged to contact Dr. Matz in the Department of Political Science by February

Luncheon set for students, businessmen

Marshall University's international students will join area businessmen for a luncheon Feb. 17 to begin a program intended to encourage a better understanding between the two.

The program, made possible by a \$250 grant from Regional Council for International Education has drawn enthusiasm from the business leaders contacted and the 36 foreign students on campus. according to Marvin E. Billups director of Marshall's Human **Relations Center and Program** coordinator.

Though lack of funds had restricted the attendance of a greater number of area business leaders, Billups said that he hopes the accomplishments of this year's program will call for more funding next year.

and students there already are

Wide regional use of the Marshall in two ways Dr. Slack and Dr. Michael J. Galgano, library committee and assistant professor of history pointed out. More funds would be made available for library FCA interdenominational, development and students might want to enroll at Marshall where the materials actually are.

"We can't justify a library collection unless it is utilized as far as possible," Dr. Slack said.

A tentative grant proposal for \$10,000 has been sent to the and a proposal is being prepared to send to the National

Gerke said "I think this talk of withholding paychecks is illadvised. One shouldn't tamper with rights when privile ges are abused. I would be in favor of a fine system....equal to student fines and subject to the same conditions. It seems to me a faculty member should do what he expects his students to do. I also think that when the fine total reaches a certain amount, say 60 days worth, the

music

privile ge of taking books from the library should be rescinded for the offenders ...

Also departmental requests for new books were due January National Science Foundation 31, but professors may still send requests to the library, Dr. Slack said. Not all of the Institute of Education, Dr. allocated money has been used Slack said. These grants would and there are other funds which be used to buy books and audio- may be used for the same purpose, he added.

Army ROTC usually takes four years of college. But you can do it in two.

If, for example, you couldn't take Army ROTC during your first two years of college.

Or if you just didn't want to take Army ROTC before. But now you recognize the benefits.

You start the Two-Year Program by going to our six-week Basic Camp the summer following your sophomore year.

Camp-a little classroom work; some challenging physical training-replaces the Basic Course you would have taken during your first two years of college. You're well-paid for this six-week catch-up.

Then, after camp, you complete your Advanced Course during your junior and senior years.

Maybe you'll decide that the chance to get real management experience earlier than most people will be worth a lot later on.

Maybe you can use the \$100 per month subsistence allowance you will get for up to 10 months of each school year.

Maybe qualifying for two careers simultaneouslymilitary or civilian-is insurance against job uncertainties.

Or, maybe the opportunity for an Army ROTC scholarship is exciting.

The Army ROTC Two-Year Program is another chance for a better career, through Army ROTC. Talk over the Two-Year Program with the Professor of Military Science at your school. Or use this coupon. There's no obligation. Army ROTC. The more you look at it, the better it looks.
