Rob Beauchamp, Huntington his skis Wednesday and prepared senior, takes a unique approach to test the slopes around to traveling in snow. He donned Marshall's Central Field.

Biggest snowfall this winter hits

By BELINDA ANDERSON **Managing Editor**

Let it snow, let it snow, let it snow.

That's exactly what the skies were doing from 12:30 a.m. Wednesday morning to about 5 p.m. that night. The storm, which dumped most of its precipitation before 7 a.m., brought seven inches of snow, and although one inch was blown away, the two inches already on the ground added up to a total of eight inches.

The heaviest snowfall seen this winter leaves Huntington with 200 tons of salt for clearing the roads, according to Royce Perry, street superintendent. He described the situation left by the storm as "terrible, just terrible." Wednesday's road-scraping took 150 tons of salt, making a total of 1,100-1,200 tons used this season, Perry said, adding that sand will be used if the salt supply is ex-

Wednesday's snowfall beats last year's record of 6.1 inches Jan. 19 and again Jan. 20, although a total of 20 inches was deposited during that period. The outlook for the weekend, according to the National Weather Service, is fair and cold, with a high of 25 degrees Saturday and a low of 10 degrees Saturday night.

With 14 routes to cover, Perry said

the four snow plows were kept busy from 2 a.m. on just trying to keep the bus routes clear, and were unable to work on dirt roads.

However, Huntington police dispatcher Charles Esslinger said there were no more traffic accidents "than normal." Twelve accidents were reported Wednesday afternoon, minimal compared to 67 counted last week in a four-hour period when the roads were covered with ice.

People tend to drive more slowly in snowy weather, according to Esslinger, and this may be why there was no increase in automobile mishaps.

The Tri-State Airport reported that no flights had been cancelled, but that some were coming in about an hour late with 4-5 inches of snow on the planes. In fact, it seemed there wasn't as much problem with Pittsburgh, Atlanta, Washington, Albany and Chicago flights as there was with motorists trying to drive their vehicles up the steep hill to the airport.

More than 30 area school districts did not hold classes Wednesday, and although Marshall University operated on its usual schedule, some instructors cancelled their evening classes because they had a high number of commuting students.

Collective bargaining bill uphill battle-union official

By TAMMY TUPIS Reporter

The passage of Senate Bill 84 would establish a legal framework for collective bargaining for West Virginia public employees. It is going to be an "uphill battle tion of Teachers (Local 3796), of the American Federation of Teachers (AFL-

"The bargaining process is traced through achievement of exclusive recognition for a bargaining agent in an appropriate bargain- relevant to the case of employees of ing unit, through the negotiation process and certain impasse procedures designed to facilitate settlement such as mediation and fact-finding," William G. Cook, associate professor economics, said.

The Committee United for Rights of Virginia Federation of Labor, Cook said. PEC took the bill, discussed it and made changes. The bill was then returned to CURE. CURE approved all changes except "the most important one," Cook said.

Section 29-9-18 of S.B. 84 (H.B. 826) provides for compulsory arbitration for teachers, police, firefighters, and other public safety employees.

On Jan. 31, Cook testified on behalf of the to get (the bill) passed," according to the West Virginia Federation of Teachers (AFLpresident of the Marshall University Federa- CIO) to the Senate Judiciary Committee against Section 29-9-18 of S.B. 84(H.B. 826).

> "Whatever the merits of compulsory arbitration for public safety employees might be,"Cook said, "they would not be educational institutions."

The language the groups want deleted from Section 29-9-18 (which denies the right to strike) begins on line 12 of page 22, Cook said. It refers to "school personnel, Employees made up a bill and submitted it to employees of multi-county vocational Public Employees Committee of the West centers, faculty at state colleges and universities," Cook said.

> West Virginia Labor Federation (AFL-CIO), Public Employee Department, various West Virginia AFL-CIO central

labor councils and public employee unions in the state overwhelmingly voted to support the removal of the limitation in teacher bargaining rights, Cook said.

Joseph W. Powell, president of the West 'Virginia Labor Federation(AFL-CIO) testified on the behalf of the United Labor Committee, before the judiciary committees of the Senate and House, according to Cook.

Powell proposed an amendment to the collective bargaining bill, Cook said. The amendment would not require teachers to submit to compulsory arbitration, Cook said. The amendment would not include educational employees in the public safety employee section, he said.

The Huntington District Labor Council, on Monday, Feb. 5, unanimously approved a statement which recommended that employees of educational institutions be removed from Section 29-9-18, according to Cook. The section prohibits the teachers

Hands down?

Some people believe earnestly that all the trials and tribulations one may encounter in life are accurately predicted by the etchings in the palm of the hand. On the other hand, some people are skeptical. Page 4.

Coffeehouse available for TGIF's

By PAM THOMPSON Reporter

A proposal to allow TGIFs in the Coffee House was approved Tuesday by Memorial Student Center Governing Board.

Any recognized student organization will be able to use the Coffee House for a TGIF at times specified by the governing board. These times include Saturday 1-6p.m., Sunday 3 p.m. to closing and one week night, which has not yet been decided on.

The student organization will be required to pay a \$75 damage deposit fee. This deposit is to cover any possible damages done to the downstairs area by students attending the TGIF. If there are not damages, the \$75 would be returned.

This program is to be on a trial basis until the end of the semester. At that time the governing board will re-evaluate the program and decide whether or not it will continue next semester.

The board also voted to allow use of the MSC cafeteria for a Student Government sponsored dance marathon. The cafeteria will remain open for the marathon March 30 and 31. Student Government agreed to provide meals for the dancers, clean-up and security committees. All proceeds from the dance marathon will go to Muscular Dystrophy.

After the regular meeting, a special food service committee met in closed session. The food service requested price raises for food items and labor wages in MSC cafeteria. The request is presently awaiting approval by the governing board. If approved, food prices and labor wages will increase by 10.9 percent, beginning Feb. 13, according to Barry Stinson, food service manager.

Memorial Student Center Governing Board has a student vacancy. If interested, applications may be obtained in 2W6 of the student union. The only requirement is the student must be a full-time Marshall student. Applications must be turned in by Feb. 16.

Senate advising job to be joint venture

Reporter

Two advisers, a secretary, a change in the dance marathon, a senate dorm meeting and motion before any official action can be the spring concert all were discussed at taken on the matter. Tuesday night's Student Senate meeting.

he Senate approved the dual adviser of Dr. William N. Denman and Ira B. Sprotzer after a committee recommenda-

Student Senate President Kevin Bowen, South Point, Ohio senior citied the advantages ofhaving two faculty advisers, "They can give us insight from the faculty viewpoint, from the experience viewpoint, insight that we haven't had in the past. The fact that we now have two advisers will give us access to twice as much information and advice.

Also, the bill to hire a part-time student government secretary for a minimum of 20 hours per week passed its second reading,

Frank A. Black, St. Albans junior, said that with the addition of a student government secretary, the position of a business manager is no longer needed.

Black recommended that the powers of the business manager be delegated to the Finance Committee, thus saving the senate approximately \$880 that could be applied toward paying the secretary.

Other senators and Student Body President Ed Hamrick disagreed, but the matter must be presented in the form of a bill or

The annual Spring concert was also

discussed, and the senate is now in the process of obtaining a beer permit from Huntington's Park Board. The date for the Muscular Dystrophy Dance Marathon has been changed due to

the inavailability of the student center cafeteria on the original date. The marathon is now scheduled for the weekend of March 30-31 and students can

obtain more information about the event by calling 696-6435 or 696-6420. In other matters, the Senate tentatively

scheduled Tuesday, Feb. 20 at 9 p.m. as the date for a senate meeting to be held in the study lounge of Twin Towers East. Bowen said that the purpose of the dorm

meeting is to "explain to the students what we have been doing with their money, and get their input and feeback."

The meeting will bring student government out in the open and generate interest and involvement from the students, accor-

Administrators discuss delay of sports facility

At least two Marshall administrators would like to see the multi-purpose facility begin construction without delay, even if it means that the facility would lack air

"I think we should expediate the plans we have now because expansion possibilities have been added to the plans," said Joseph H. McMullen, director of athletics. "If additional money is obtained later, other things could be added to it."

MU President Robert B. Hayes said he does not have any plans for efforts to obtain additional money for construction of the

"We were told by the legislature when we got money, we'd get \$18 million," he noted. "We're trying to work with them under those guidelines.

The 10,000 seat sports arena has been scaled down by \$5,997,000 after the first bids for the facility exceeded \$20 million.

Cuts include deleting central air conditioning from the arena, down-sizing the facility by approximately 39,000 gross square feet, and performing only required alterations to Gullickson Hall.

However, Cabell county legislators have said that they are unhappy with plans to eliminate the air conditioning.

At the same time Sen. Robert Nelson, D-Cabell, has said that he will be searching for a way to obtain the additional money for the

Bids for the construction of the facility will be opened March I and award of the contract will be March 13. If the bids are under the estimated amount, the facility will be constructed with the reductions

Nelson had said that Marshall should have made a greater effort to get the facility as originally planned. The sentiment was shared by Delegate Forest "Spike" Underwood, D-Cabell, according to the Herald Dispatch report. Underwood had said that he is concerned that "Hayes isn't fighting for

When asked for his reaction to Underwood's statement, Hayes replied, "I haveno reaction. I don't know how he knows what I'm doing.

"I've been fighting for that multi-purpose facility ever since I've been president," he said. I don't know how anyone could arrive at that conclusion.

"If you want to know, just go back four and a half years to when I first became president and see if I've been fighting or not,"

An amount of \$10,000 is lost for each day the project is delayed, according to Mc-Mullen. Immediate constuction would help defray those costs, but the facility would not

be constructed as originally planned. McMullen said lack of air conditioning

would make the arena uncomfortable at a few events, but he does not expect any basic

Hamrick investigating dorm fees

Social fee illegal?

By CINDY MARTIN Staff Writer

The voluntary social fee paid by resident hall students "could possibly be illegal" and "misappropriated," according to Student Body President Ed Hamrick.

Hamrick said he makes these charges after student complaints led him to investigate payment procedures and usage regarding the \$4.50 fee.

The Marshall University Housing Contract lists the fee as a "voluntary social fee payable at the time of check-in by each student." The contract also stipulates that the fee "provides funds for newspapers, magazines, parties, and intramurals."

However, the undergraduate and graduate catalogs list the fee under a "special fees" section which also includes such mandatory fees as key deposits, and room damage and reservation deposits.

Student Senator Brian E. Angle, Huntington sophomore, said he questioned several students from different residence halls regarding the fee. Twenty-two of 25 students surveyed said they were unaware the fee was voluntary, according to Angle.

Angle said he spoke with one Twin Towers East resident advisor who said he informed all students on his floor that the fee was voluntary. Angle said he later spoke with a resident of that floor who claimed he had never been told the fee was not mandatory.

of the Board of Regents, and he said neither of the two members knew the fee was an optional one.

Hamrick said he spoke with two members

Hamrick said he also spoke with Richard

him that any monetary account listed with MU has to be either a state account or a university account. Hamrick said Vass told him the fee was not a university account. The BOR members said the account was not a state account, either, according to

Hamrick said he believes "with a fee of this type, which is supposedly optional to begin

with, students should have more individual control over the money they are spending." Hamrick said students already pay activi-

ty and service fees which provide funds for Hamrick. Hamrick said since the account is the items listed in the housing contract as neither a state or university account, it using the social fee.

Gifted students recruited to improve MU academics

By CATHY COOPER Reporter

Talented people are being recruited "hard and heavy", according to Director of Admissions Dr. James W. Harless.

Marshall's Search Committee on Recruiting Exceptional Students, which has been active for two and a half years, uses ACT scores as its primary tool for deciding who are the exceptional students to be

High school graduates who have sent ACT scores of 24 or better to MU are contacted by a steering committee, which consist of one faculty member from each college on campus.

All students who took the ACT test in October and received exceptional scores were recruited by SCORES and admitted to Marshall, according to Harless.

When recruiting, Harless said, the interests of the student are found first and the student is then shown around campus while the departments and faculty that concern him most are emphasized.

SCORES is a "great asset" to the admissions office, according to Harless, who explained that "athletic recruiting is important, but also academic recruiting is important." MU wants to "put emphasis on recruiting excellence."

An "academic fair" is planned in April where different high schools within a 50-mile radius will be asked to participate, according to Dr. Craig Monroe, assistant professor speech. This will include southeastern Ohio and northeastern Kentucky.

High school students who are chosen by their counselors or teachers will be given tests involving approximately 20 academic departments on campus.

Money for the academic fair is coming from the MU foundation, according to Chairman and Professor of History Dr. Alan B. Gould. "We are trying to build up our academic program."

Confidence

James Campbell sure of Herd success

Interchange Editor

Although most Marshall fans have given up hope of receiving a first round home game in the upcoming Southern Conference basketball tournament, there is

one person who hasn't lost hope. James Campbell, Memphis, Tenn., freshman, has every intention of playing the first round of the SC tournament at Memorial Field House Feb. 24.

"We are going to win," Campbell said. "That's all I've got to say. We are going to win."

Campbell is used to winning on touch him." year at Melrose High School, Campbell led his team to a 38-1 record and a state championship. Campbell himself received Tennessee AAA player of the year award for hitting 17 points a game in his senior year.

almost everyone expected Campbell to be a starter at MU.

Everyone, that is, but Campbell. "I knew when I got here that I wouldn't start," said the collected 6-5, 190-pounder wing man. "I knew the only chance I would have to start would be if someone got hurt. I just have to do the very best I can when I do get to play."

Surprisingly, Campbell agrees sion not to start him.

to start for George (Washington) way. I would have to be able to take the ball to the hoop and handle the ball as well as he does. I'm going to work on that, but right now, I'm not as good as George at taking the ball inside. "On the other hand, if I were to start for to beat them too. Bunny (Gibson), I would have to shoot as well as Bunny," he said. "I consider myself a good shooter, but right now, I can't However.

"I consider myself sort of a part-time starter," Campbell woes is youth. said. "Stu doesn't put me in the game to make mistakes, so I have playing four freshmen and a to be ready when I get in there. I sophomore. With credentials like that, need to get a quick rebound or a quick basket to pick up the team

> and get us going again." How does the player of the year come off a 38-1 season and adjust to a losing record? "Not getting, how to play ball, and we all know bother me unless I don't get to play and we lose," Campbell said.

with coach Stu Aberdeen's deci- the way the season is going, but we're still in there. We just have "I have to look at it from two to get it all together, work harder points," Campbell said. "If I were and get some breaks to go our

> "I think we can still finish in the top four," Campbell added. "I know we are able to win all of the rest of our games. The only one we should have trouble with is Furman, but we're good enough

"All we have to do is play up to our potential," Campbell explained. "Just get it together."

With a bad season, fans the basketball court. In his senior Campbell is getting a lot of naturally try to analyze problems playing time coming off the that the team may be facing. One possibility that has taken most of the blame for most of the Herd's

At many times, Aberdeen is

But Campbell isn't buying the "inexperienced baby" theory. "Youth doesn't have anything to season. do with it,"Campbell said. "We know we can win. We all know we are going to get it together.

"If youth is hurting us "I don't mind not playing as long anywhere, it's in the mental mistakes we make, like not

"Everybody is disappointed in hearing the coach call a time out when we really need one."

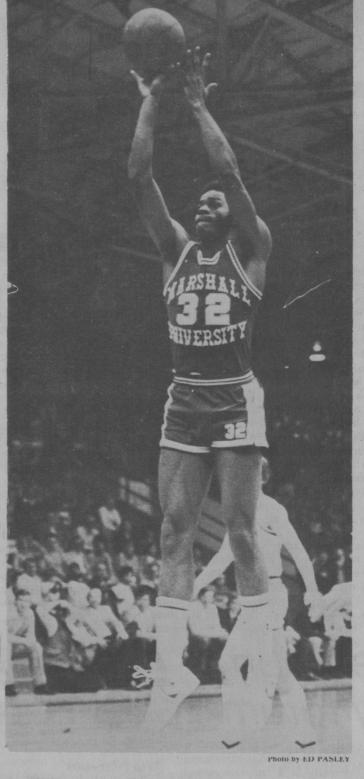

> Another thing Campbell is having to adjust to is the fans. "I'm not used to having the fans boo. But many times, we don't even realize they are booing when we are out there playing," Campbell said.

"The fans don't really understand what is going on a lot of times. They don't understand the situation. Sometimes, it feels like the weight of the world is on my shoulders, especially after we lose, but I can't let that bother me," Campbell said.

"We can't let it get us down. We have to come back the next day and have a good practice. If you are going to have good games, you have to have good

James Campbell remains optimistic, even though the Herd has all but been eliminated from a home berth in the first round, and is spinning its tires in a 9-13

"We are going to win," Campbell said. "We want to win badly enough to pay the price. We're paying our dues right now, and we will win. I guarantee it," Campbell promised, flashing a

"We are going to win," is the optimistic attitude of James Campbell, Memphis, Tenn. freshman. "Soup" does not seem to mind his "part-time starter" role. "I just have to do the very best I can when I do get to play."

Indoor runners in bad situation

By MIKE CHERRY **Sports Editor**

Imagine trying to practice tennis without a tennis court or trying to practice putting without a golf green.

In a sense, Marshall's indoor track team does not have to imagine, because it already is practicing with no indoor track. On cold, snowy days, the closest the squad comes to the track is the second floor of Gullickson

"We are completely at the mercy of the weather," track coach Rod O'Donnell said. "This winter I'm in a better mood than the last two because we have been able to practice outdoors more. Last year, we literally didn't see the track until a week before our outdoor season. It was a disasterous season.

O'Donnell said his team, when they are forced inside by inclement weather, uses the handball room and the hallway in Gullickson and utilizes the gym Monday nights. Despite the lack of a legitimate indoor facility, O'Donnell said he is pleased with his team's performance in their two meets thus far.

I'm happy with the performance this season," O'Donnell said. "Especially considering the situation we have with the weather here." In the two meets, Marshall has set one school record and tied another.

Being forced to practice in Gullickson hurts the short distance men (quarter-mile on down) the most, O'Donnell said. They are unable to run any further than 45 yards without having to stop.

"The field people, except the pole vaulters, are the least affected," O'Donnell said. "However, on the positive side, it makes you more creative. For example, we broke the pole vault into four phases and work on each one individually. This way we concentrate on the basics."

The team is able to practice starts, plus some hurdling and jumping in the handball room

and use the halls for the distance running events.

O'Donnell said there are several reasons that Marshall runs indoor track, even without the facilities. "If a team is going to compete outdoors, it must run indoors. I don't know of one good program that doesn't have an indoor team," he said.

"If most of our meets were in May, then we wouldn't have to worry about training now," O'Donnell said. "But with our unique academic calender, we have most of our meets (including the Southern Conference meet) in April so we need the meets early."

The sport also serves as one toward Marshall being classified as a Division I school.

Athletic Director Joe Mc-Mullen said the indoor track team will have better indoor facilities when the proposed Multi-purpose Facility is completed. "The facility will give us more room and we will put in pits for jumping and the vault," he

"Right now, we are underfacilitied in a lot of things," McMullen said. "Rod has never come in to talk to me, so as far as I know there are no problems. Until a couple of years ago, you could run outside every day. We are making strides-six or seven years ago we had no all-weather

O'Donnell said he thinks the team will do well in the upcoming Southern Conference championship, in which they finished fifth last year. "If we finish in the same position, I'll be disap-

"We are in a unique situation being the northernmost school in the conference," O'Donnell said. "Although only two schools have an indoor track (VMI and East Tennessee State), let's face it, when it is 30 degrees here, it is 70 in Charleston, S.C. (home of the Citadel). No doubt about it, the lack of facilities has to hurt

Present day palm readers do not have the mysticism, crystal balls or long flowing robes stereotyped tradition has given them.

A trip to a palm reader in this area could have meant a visit to a Wayne County home. Carmen, a palmist who is no longer in business invited passing motorists along U.S. 52 at Lavalette inside for a palm reading and a look into the future by means of a large white sign with two large red hands.

The entry to the simple yellow frame house is dominated by a large color console television topped by a colorful statue of Christ.

The palm reader, perhaps in her late twenties, greets her customers in blue jeans and a lavender shirt. Some of her brown hair shows underneath a multicolored

The customer is led through a darkened room, a brightly lit kitchen and into a small bedroom. Carmen seats her guest in a navy blue director's chair, while she sits opposite on the bed.

"I need to see how you form your letters and write numbers," she says as her customer is handed a piece of paper and a pencil with Carmen's instruction to write his name and birthdate.

Hardly glancing at the paper, she takes her customer's right hand and examines it while a clock ticks loudly in the background. Looking directly into

her subject's eyes, she says "You have a complicated lifeline." She explains her remark by saying the patron has had, or soon will have, a sudden and drastic change in his life.

Carmen asked her customer whether he had written a book. When the reply was negative, the patron was advised to write his autobiography at the age of 35, because he would have an interesting, but hard, life. Carmen told him he would have a successful life as his search for perfection would not permit less. She advised her customer to lower his standards, for perfection can never be found.

Carmen then studies the back of her patron's hand and tells him he will have at least two children. The customer's left hand is then examined.

Carmen ended by saying her customer acted too much on impulse and problems were not rationalized before making a decision.

Dr. Donald Chezik, associate professor of psychology, said most palm readers are "conscious fakes" but there are some who believe they really have "the

Palm readers are flatterers, he said. When a palmist discloses to a person that he is "artistic," "poetic," or "impulsive," that person finds it hard to disagree with the palm reader. He said it is hard to tell someone, or yourself, that the good things being said are untrue. Chezik said he had been the subject of a mind

proving the man was a fake, but he said he came out uncertain, as some of the things were correct, while others were wrong. He said he was flattered by being told be was a good psychologist and that he ought to become a writer.

Another strategy palm readers employ is making generalized statements, according to Chezik. "If they spout random guesses, they are bound to get it right,"he said. There are some things that are common to everyone, such as being nervous. He said palm readers realize this and capitalize on it.

The palmists cover statements that are not correct, according to Chezik. When the person lets the palm reader know something is not correct, the statement is qualified by the palm reader saving that it could be a problem in the future, he said. In this manner the palmist is safe no matter what he says, he explained.

Palm readers are expert in reading a person's facial expressions and mannerisms. Chezik said they get practiced and can tell "when they strike home." He added the positive expression on the subject's face encourages the palmist to continue in the same vein of foretelling.

Chezik said he wishes people would "move to a scientific investigation of facts" instead of believing there are people who can foretell the future and divulge the past.
