# One last hurrah

Marshall cheerleader Kim Peters, Ceredo senior, whoops it up for the Thundering Herd for what will probably be the last time ever in

Carolina 80-68. Only an unlikely turn of events would give the Herd one more home game, a Southern Conference tournament showdown, this year.

# PE facility air conditioning not essential —Hayes

By BELINDA ANDERSON Managing Editor

Although a state legislator is still fighting to keep the air conditioning in the arena of Marshall's proposed multi-purpose physical education facilty, MU's president has stated air conditioning is not an essential.

Despite Sen. Robert R. Nelson, D-Cabell, wanting to pull back the advertisement for new bids for Marshall's proposed multipurpose physical education facility to salvage the \$5.9 million cut from the original plan, President Robert B. Hayes sees no reason to delay the March bids, insisting "what we're getting is a quality facility."

The advertisement for new bids came after the lowest construction bid received the first time was \$4 million over available funds. Marshall administrators cut \$5.9 million out of the plan and resubmitted it to bids. The cut, which includes elimination of air conditioning in the arena, has been criticized, and Nelson contends that the university will "end up with a second-rate facility."

As an alternative to the extensive cuts, Nelson suggested that the whole planning package be redesigned to put Gullickson Hall under funding from the West Virginia Board of Regents capital improvements account. Doing this, he explained, would put about \$1 million back in the fund for the multi-purpose facility, allowing the reinstallation of the arena's air conditioning, which would cost approximately \$825,000.

However, Hayes said there are more important priorities for the facility, and that with a delay "we would just lose that much more." Cuts from the original plan also included a reduction of space of 39,000 square feet, Gullickson Hall renovations, and a change in building materials.

Although administration only needed to reduce the cost by \$4 million, \$5.9 million was cut to allow for inflation, Hayes said.

A number of "add-alternates" have also been advertised for bids. If the construction bids due March I come in at a level below the available funds, Hayes said Marshall's first priority "will be to provide additional

renovations to Gullickson Hall, particularly air conditioning for Gullickson classrooms and offices. On a year-round basis, this is more important for students and faculty than air conditioning of the arena."

Nelson noted that schools such as Ohio University and Furman have airconditioned arenas, adding, "It is essential. Those 10,000 or so bodies are going to produce heat, and that place will be like an

However, Hayes pointed out that such schools as Rutgers and West Point do not have air-conditioned arenas. "You have to check the purpose the facility is being used

In a statement issued by Hayes on the subject of the multi-purpose facility, he said, "Since we do not plan to be staging commercial shows - particularly in the summer when few students are here — very few large-crowd events can be expected in. the hot weather season. Air conditioning would be desirable after all other needs have been met."

The arena will be adequately ventilated to accommodate commencement, Hayes said, adding that the Huntington Civic Center can be used for other events where air conditioning would be needed

Nelson also charged that with the \$5.9 million cut, "They're dropping back to second-rate quality materials and design,

and they're leaving things unfinished." For example, a planned glass-curtain wall for the building's exterior will be replaced with a less-expensive material, "Kal-Wall," which is a translucent, fiberglass and aluminum sandwich material.

Hayes emphatically denied that the cut funds reduced quality. "There has been no sacrifice of quality. We really were carefulwith that, and we studied it intensely. It's a matter of strategy."

The original budget was trimmed considerably so that the base bids would not have to be done a third time, according to Hayes, so that any money left over could be spent on other priority items, including Gullickson Hall renovation. "We all know that Gullickson needs work, and that the handball courts will have to be finished sometime. It's just a matter of when it will be

Nelson plans to "continue to explore financial alternatives" for the facility, although "at this point I don't know whether you can really justify it unless there is a demonstration on the part of students and

"If the Marshall community just sits backs and allows this to pass, by their silence they have endorsed the tragedy that has befallen the facility. I'd like to hear them stand up and say, 'We're the ones paying for this and we want to see it complete'," Nelson said.

#### Scholarship rights to be reciprocated to Thralls, there are now 4,900 Pennsylvania

By CHRISTY PERRY

A West Virginia Senate bill allowing Pennsylvania state scholarship recipients to receive full benefits of their state grants at West Virginia colleges and universities may not affect Marshall initially, but it could set a precedent for reciprocal agreements with

According to John F. Thralls, director of student services for the West Virginia Board of Regents, a reciprocal agreement allowing an exchange of scholarship rights between West Virginia and Pennsylvania would bring more money into the state and would increase the number of students transferring to both states.

Senate Bill Number 40 is now in the Senate Finance Committee, according to Thralls. It is being amended to allow the Board of Regents certain powers to arrange reciprocal agreements with other states.

According to Thralls, the specific state in this case, Pennsylvania, will stop allowing students to attend out-of-state schools on Pennsylvania grant funding if West Virginia does not enter into the agreement with them

If Senate Bill 40 is not passed, Thralls said, West Virginia schools stand to lose not only enrollment but approximately \$750,000 now being brought into the state by Pennsylvania grant transfers. The monetary loss to Pennsylvania schools if West Virginia does not agree to reciprocity would be approximately \$58,000.

Thralls said that approximately 1500 Pennyslvania state scholarship recipients now attend West Virginia colleges and universities. Of the reciprocity agreement, he said, "Of the institutions is West Virginia, WVU and West Liberty would be most affected." These schools, he explained, have the greatest enrollment of Pennsylvania students.

For Marshall, Thralls said, the passing of Senate Bill 40 would not affect a great enrollment or economic change. According

Senator to take oath

> By VICKI DEAN Reporter

The swearing in of a senator will highlight tonight's student senate meeting.

Kevin Bowen, senate president, said Danny Kuhn, Beaver sophomore, will be sworn in to replace Liz Turner, Hansford junior, who resigned after changing her constituency.

Kuhn was runner-up to Turner in the last senate election and with his appointment, the senate will once again have its maximum 15 members.

Other matters to be discussed include the usual committee reports on rules, the kiosk, the dance marathon, and the spring concert. Bowen said the senate should know whether or not it has received a beer permit from the park board for the concert by tonight's senate session

The final plans for the dormitory meeting will be announced by the committee assigned to the matter.

Also, Bowen said he expects more discussion on the proposal introduced last week by Frank Black, St. Albans, junior, of combining the positions of business manager and finance committee chairman.

Ed Hamrick, student body president, will present a cabinet report. The senate's newly appointed advisers will attend the meeting and their roles will be determined in collaboration with student government

Board of what?

# Governing body baffles students

Staff Writer

It governs all state colleges and universities within the state, but many students are unaware of what the Board of Regents is or how extensive its powers.

The Board of Regents remains a mystery to many students, although the body has been governing higher education within the state since its formation in 1969. What is the BOR?

"I don't know," David W. Butler, South

Charleston junior, said simply. "Isn't it a student thing?" said Paula Heck, Huntington junior, confusedly. After a little explanation, Heck recalled information on the Board. "Well, just what I read about it in the paper as far as appropriating funds and stuff like that."

When interviewed about the BOR, Joe A. Eppolito, Charleston freshman, replied, "I've heard of it, but I don't know what it is." Eppolito said he first heard of the body when

reading the university catalog. "I've heard of it and everything. I guess it's some kind of governing board," said

Shannon Ferguson, Huntington junior. "It beats me," Frank J. Mirkow, Westfield, N.J., sophomore, said. "I've heard it,

but I never pay any attention." The words varied, but the answers from

most students interviewed came out the same. Most of the students said they have heard of the body, but do not really understand what it is. Some students, however, have a general

idea of the BOR's function, but their concepts of it are limited. Most of the students view the body as a

board governing allocations of revenue to schools. And even then they aren't sure. "Aren't they an advisory board of West

Virginia," Patty L. McCullough, Cumberland, Md., junior, said warily. "They give grants and act as an administering board to the schools in West Virginia."

"I know they make all the decisions on what school gets how much money — all the colleges and universities," David Dailey, St. Albans sophomore, said when interviewed. "They have, I believe, it's one representative from each state-supported school."

Willie C. Wilson, Huntington freshman, reduced the body to simple terms. "It's the governing board where they decide what school gets what — a state thing," he said. It's in Charleston," said Tad E. Jones, Peterstown junior. "It has to do with the West Virginia state colleges. They give

tuition, and it has to do with policy."

The BOR is a body which controls the financial, business and educational policies of state colleges and universities. It is composed of 12 members, nine of whom are appointed by the governor with the advice and consent of the Senate.

The state superintendent of schools and the chairmen of the Advisory Council of Faculty and the Advisory Council of Students serve as ex-offical members of the

Not more than five of the appointees can belong to the same political party, and at least one must be appointed from each congressional district.

Universities and graduate schools governed by the body include Marshall University, West Virginia College of Graduate Studies, West Virginia School of Osteopathic

Medicine and West Virginia University. Four-year colleges under the BOR's control include Bluefield State College, Concord College, Fairmont State College, West Virginia Institute of Technology and West Virginia State College.

State-supported two-year branch and community colleges are also controlled by the Board. They include Potomac State College, Parkersburg Community College, Southern West Virgnia Community College and West Virginia Northern Community College.

The BOR replaced the Board of Education as the policy and budget-making body for higher education in West Virginia, giving the Board of Education an opportunity to devote itself solely to the public school system of secondary and elementary schools within the state.

With the creation of the BOR, West Virginia University and Potomac State College's Boards of Governors were also eliminated. The body has a professional staff to carry out its functions, headed by a chancellor who serves as the chief executive officer of higher education within the state.

There are five advisory councils to the board which include the Advisory Council of Students, the Advisory Council of Faculty, the Advisory Council of Public College Presidents and the Advisory Council of Federal Resources, a council composed of three members from the public-at-large, two members representing public institutions and three representatives of private in-

Greenhouse plants suffer from frigid temperatures

#### By E. BONZO-SAVAGE Reporter

Near-freezing temperatures in the greenhouse Jan. 31 and Feb. 1 caused plant damage that will diminish the effectiveness of experiments for biology students, according to Dr. Howard Mills, professor of biological sciences.

Mills said the plant damage was not as severe as originally feared, but that it will affect the work of students in some classes.

Total extent of the damage cannot be determined at this point, Mills said. "It will be several weeks before we know whether the plants have root damage," he said.

On Wednesday afternoon, the temperature in the greenhouse was 48 degrees, 22 degrees below the 70 degree daytime temperature normally maintained, according to student assistant Darrell Samples, Elkview senior. Samples said the temperature had dropped to 37 degrees at 8 a.m. Thursday.

Mechanical foreman Dorman B. Sargent said the heating problem was caused by two separate incidents. He said the original drop in temperature occurred when heat to the greenhouse was cut off while steam lines were repaired for two rooms on the second floor of the science building.

Installation of a boiler in the science building caused the second incident, according to Sargent. Contractors disconnected the electrical circuit to the greenhouse at the electrical supply box so they could use the electrical source for a welding machine, he

The greenhouse circuit was connected again after Samples discovered and reported the error, Sargent said. Mills said 75 percent of the coleus plants

were lost and ten percent of the tropical plants were damaged. Plants grown by Botany 420 students for nutrition study were also damaged, he said. The coleus plants are used for experiments

by Biology 101 students, Mills said. It is impossible to get coleus plants this time of year, but plants will be provided for the classes "in a minimal fashion," he said.

Mills said some plants will be available for every class, but instructors will probably have to organize students into groups for experimentation.

Substitutions can be made for the tropical plants, or if necessary, they can be replaced by private donation, Mills said.

Damage to the plants of Botany 420 students will nullify some observations expected in the experiment, he said. Any plant subjected to cold damage will be in poor physiological condition and will not be in the shape it needs to be for use by students, he said.

Mills said the "state of disrepair" at the greenhouse compounded the problem. If panes of glass had not been missing, the temperature would not have dropped so low, he said.

"The loss at this point is not bad, but it could have been," Mills said. More than 300 students will suffer from lack of plants this semester, he said. If plant damage is greater than we anticipate at this time, we may not have plants in the proper stage for observations for students attending summer and fall sessions, he said.

# Clarksburg crash kills 2, injures 4

CLARKSBURG — An Allegheny airlines plane with 25 people aboard flipped and crashed as it took off from Benedum Airport here during a snowstorm Monday afternoon, killing two people, authorities said.

"I didn't realize what was going on and all of a sudden we were hanging from the ceiling," said Sally Bishop, a passenger who vas not badly hurt.

One person was in critical condition at United Hospital Center in nearby Clarksburg. Another was in serious condition and 18 others were being examin-

One of the dead was a crew member, said airlines spokesman Nancy Vaughan. But she said she could not provide the identity of either of the dead.

The plane, Flight 561, was taking off from Benedum at about 1:10 p.m. and was bound for National Airport in Washington, D.C., with a stop in Morgantown, said Dave Shipley, director of public relations for Allegheny. Clarksburg is in north central West Virginia.

# Public favors balanced budget

overwhelmingly favor a constitutional amendment requiring a balanced federal budget because they don't trust politicians to put a lid on government spending, an Associated Press-NBC News poll shows.

The public, weary of continuing inflation which they blame in part on deficit spending. says cutting waste in the federal bureaucracy would save enough money to balance the halftrillion-dollar budget.

But Americans' distrust of politicians is so deep that they don't believe their elected officials will act. Thus, they are split over whether the deficit actually could be wiped out in the next few years.
The AP-NBC News poll found

70 percent of those interviewed Feb. 5 and 6 favor a budge! balancing amendment. Eighteen percent opposed such a move, and 12 percent were not sure.

Support for an amendment has slipped in the past three months, however. The current level is 5 points below the finding of the November AP-NBC News poll and 9 points below the December

Despite the high level of support, Americans don't think their elected officials will actually accomplish the balancing act.

Only one in four said politicians will work to balance the budget. Seventy percent said politicians will not work to wipe out the deficit. Six percent of the 1,600 adults interviewed were not

the budget. Twenty-three percent don't think so. And 6 percent were not sure.

But there is a contrast between what the public would like and what it realistically sees happening. Only 45 percent think that a balanced budget is actually possible in the next few years. Forty-nine percent say it's impossible, and 6 percent are not sure.

Those who favor a balanced budget say by a 52-43 margin that their hope can become reality.

Those who oppose a balanced budget don't think one is possible anyway. Two-thirds of this group thinks it is impossible to wipe out the deficit, while only 28 percent think it is possible.

As with the sample survey, the results of the AP-NBC News polls could differ from the results of interviews with all Americans with telephones because of chance vartiations in the sample.

Of course, the results could vary from other polls because of differences in the wording of questions, timing of interviews or the method of interviewing.

# Herd tries for fourth in SC

By MIKE CHERRY Sports Editor

In order to follow the Marshall basketball team, it is advisable one has a supply of aspirin and an empty stomach

During this season, the Herd has given its fans its share of headaches in its up-and-down, roller-coaster like year. Yet despite four conference losses at home Marshall thanks to Saturday's 80-68 win over league rival Western Carolina, has a chance to finish in the top four of the Southern Conference and thus gain a home berth in the first round of the league playoffs.

Marshall, currently sits in fifth position with a 4-6 league record and trails Western (5-6) by a half game. Western has one league game remaining, at home against three remaining on the road spots in the top three. against VMI, Furman, and The Citadel

ride, having won three of its last three games to finish fourth four games. Despite only one win

situations and handling them

"Naturally, winning on the road is tougher," Zuffelato said. player motivation. Physically, there is not much difference - a player has to do the job in getting himself mentally ready on the

Zuffelato said the team is have become a team in the last month or so," he said. "It is the natural maturation process. We time." The first round games in the conference playoff is Feb. 24.

Quite unsimply, the conference situation is this: in the eight team league, Furman, The Citadel and The Citadel, while the Herd has Appalachian State have clinched

If Western losses its final game to The Citadel and Marshall wins Marshall, 10-13 overall, is on two of three on its road trip, one of its upswings of its seasonal Marshall will have to sweep the

Still to be considered in the on the road all year, associate battle for the final home berth are coach Bob Zuffelato said fourth VMI (2-5 in conference) and UTplace is a very real possibility. Chattanooga (3-6). VMI has "Saturday's win gave us great three conference games remainincentive to shoot for fourth," ing whil UTC has two. If both Zuffelato said. "We feel like we Western and Marshall lose all

are playing good basketball now. their games and either VMI or about six minutes to go, Marshall claim the fourth spot.

All that math would not have been necessary if Western, who "The fans are not there to give a earlier this year defeated Furman and Appy State, had defeated Marshall Saturday night at Memorial Field House. A win for the Catamounts would have assured them of fourth place.

As it turned out, Marshall hitting its peak about now. "We defeated Western for the second time this season, the other being the Herd's lone road victory of the season, 69-54 on Jan. 20. couldn't have picked a better Zuffelato said the key to both victories was Marshall's ability to control the tempo of the game.

"We were fortunate to get the lead in the second half and thus they (Western) could not influence the tempo," Zuffelato said. "Their coach (Steve Cottrel) even said his team would slow the ball down if they got the lead in the second half."

Western did gain the lead briefly in the second half with 17:05 left when leading scorer Raymond Person (24 points) hit a layup for a 38-37 Catamount However, Western never was able to possess the ball with the lead as it was unable to score in its next five possessions. In the meantime, Marshall had built a 47-38 lead, with Ken Labanowski scoring six of the points in that 10 point string. Labanowski was

Now we are facing different UTC sweep its remaining league unfolded its "four-to-score" games, then such a sweep would offense, which continually allowed Labanowski and sub Larry Watson to drive toward the basket in a lane totally void of opposition. One of the "strolls down the lane" resulted in Watson's first dunk of the year.

Basically, the offense spread out, leaving the lane wide open. Then with the defense drawn out. one of the Marshall players would cut down the lane with no fear of resistance in this game.

"It is a scoring offense, not a stall," Zuffelato said. "The key was they (Western) were behind and had to gamble with a pressing man-to-man. When they overplayed us, we cut to the basket and went backdoor. We left (Terry) Rutherford (WC's center) in the dust.

"The offense takes advantage of an aggressive defense,' Zuffelato said. "It is demoralizing to a team to see people scoring easy layups. We felt we needed something drastic like this to counteract such a defense."

In addition to Labanowski, four other Herd players tallied in double figures: Bunny Gibson (19), George Washington (12), Greg White (10, plus nine assists), and Watson (10). Labanowski led all rebounders with 10.

The Herd's next game is Wednesday at VMI, a team that Marshall's leading scorer with 20. defeated Marshall 63-58 Feb. 5 at With the lead at 61-51 and the field house.

Marshall's Bunny Gibson goes for a shot just over the hand of a Western Carolina defender. Gibson, playing in his last regular season home game, scored 19 points in the Herd's 80-68 victory over the Catamounts Saturday.
