Textbook listings hard to get—Stationers

Staff Writer Obtaining necessary textbook listings for courses offered at Marshall University presents a problem for an area commercial bookstore which services many MU

"It's a definite problem," said Pete Barr, manager of Stationers, Inc. Barr said the bookstore obtains approximately 95 percent of the listings. However, when the practice of acquiring the information was first begun, only 60 percent of the listings could be obtained.

The Marshall University Bookstore and Stationers obtain the textbook information through department chairmen, who receive the needed information from individual faculty members.

However, some of the department chairmen do not give the lists to Stationers,

Warm

students

Looks like the nice weather is back, at least for a while. The National Weather Service predicts a high of 75 degrees, with a low of 55 tonight. There is a 30 percent of showers today and tonight.

Get your cards

Students who have not yet picked up Student Buying Power Cards will be provided with another opportunity today and Friday.

Student Body President Ed Hamrick said distribution will begin at 12:30 in the lobby of Twin Towers West and a table will be set up in Memorial Student Center.

Distribution in the residence halls will alternate among Twin Towers East and West and South Hall.

Hamrick said any student who cannot obtain a card during the scheduled distribution period can pick one up in his office, Memorial Student Center Room 2W29.

Dorms to elect only one senator

instead of two residence hall senators will be elected, according to Tony Fenno, head election commissioner.

Fenno explained the circumstances leading to the decision. "Last semester there were three dorm senators elected. I thought there were only two voted in.

"Because there were three elected, there is only one vacancy open in the dormitory," he said. "Of the three people running, only onewill be elected."

The seat held by Danny Kuhn, Beaver sophomore, which he assumed after it was vacated by Liz Turner, is the sole residence hall seat to be filled April 5.

The three students who have filed are Susan Divvens, Parkersburg sophomore; Brian Kappler, Wheeling freshman; and Mark Veazey, Nitro freshman.

contacts the department chairmen to obtain the listings.

"We tell them to turn it in to him, drop it in the mail. We'll even given them a selfaddressed envelope if they want," Barr said.

Barr citied inefficiency as the reason for neglecting to give textbook information to Stationers.

Barr added that department chairmen often forget to give both bookstores the

Barr said he did not know of any pressure by the MU Bookstore which would prevent information being given to Stationers. However, according to an April 14, 1978, PARTHENON article, Barr had pointed to influence by the MU Bookstore in causing the lack of the information.

Barr would not comment on the situation's present applicability. "I will say one thing. There are some classes which use publications published by Marshall University. We've sent out purchase orders for purchasing so many copies."

Barr said the purchase orders are not filled by the Marshall bookstore. The reason given, is a lack of copies. Barr said it has only enough copies to cover anticipated enrollment, he said.

Faculty department chairmen interviewed said they did not perceive any pressure by the Marshall bookstore to not give Stationers

"If Stationers asks for it, we give it to them," said Dr. Robert F. Godfrey, associate professor and chairman of the accounting department.

The MU Bookstore requests textbook information from department heads through a request form. The bookstore asks faculty members to advise the bookstore, if the information also is being given to Stationers. "Double ordering will result in a substantial loss to the university," the form reads.

Joseph L. Vance, manager of the Marshall University Bookstore, said the bookstore wanted to be advised if Stationers is receiving the information to reduce out-of-

"If Stationers does not receive the information we have more demand," he said. The Marshall bookstore does not publish textbook listings for use by private outside

"As it exists currently, a private store generally has an equal right and free right to collect whatever information they can," Vance said. "We feel no obligation to make that information available to outside sources.

Vance said the university's present textbook policy does not deal with giving textbook information to outside agencies.

"It is not inclusive. It is not comprehensive. It does not encourage or restrict," he said.

Vance said Stationers has never "specifically requested the information" from him.

"We operate and keep that information for the benefit of our customers, not someone else's," he added. "If we look at things in reverse, I don't think a private company would share their information with

Vance said labor and time costs are included in gathering the information. He added that he considers the gathering of textbook information a "fair and equitable system."

Vance would not comment on whether service from the two bookstores is better than service from just one.

"It would be speculation," he said. "There has not been any research information done

If you take a look from a cost standpoint, I can't see where the individual student would benefit. but there are too many intangible factors unsurveyed."

Other variables would include service availability and access to students, according to Vance.

Barr said warnings against double orderings in the textbook information

request forms are unnecessary. "I do not see it as double ordering. We see it as filling a percentage of the order. He's

saying we're both ordering 100 percent." "We should be able to ascertain what percentage of the market we have," Barr added. "I think he's just trying to ignore us in the market place."

Vance said purchasing orders are not filled because Stationers orders books that are not yet ready, books without sufficient stock, and books that are not yet in stock.

Dance marathon plans finalized

Senate discusses all-freshman dorm

By VICKI DEAN Reporter

All-freshman dormitories, the dance marathon, the spring concert, faculty evaluation forms and the passage of a bill concerning tardiness were covered at Tuesday's Student Senate meeting.

In the Cabinet discussion, Student Body President Ed Hamrick discussed his opposition to the proposal by Ann Zanzig, director of Residence Life of establishing allfreshman dormitories.

"I have been getting a lot of calls here against it and administrators have even received calls from the parents of potential freshmen objecting to the proposal," Hamrick said.

"I would support a senate resolution as I am already supporting Laidley Hall residents in their fight to keep their 'home'." Hamrick said there are som good points to all freshman dorms, but added that the administration "is trying to pull the wool over your eyes" by first establishing a few floors in Laidley Hall as all-freshman on an experimental basis. "Laidley Hall will eventually become an all-freshman dormitory" Hamrick warned.

Dave Phillips, Circleville, Ohio, sophomore, who attended the last Residence Hall Government Association meeting said a f girls from Laidley were present to contest their expulsion from certain floors.

"Special Interest floors I am not against; freshman housing I am against," Phillips

Phillips, a resident adviser in Hodges Hall, described an all-freshman dormitory as a "madhouse" which would put all the pressure of maintaining order on the resident

freshman to "learn the ropes" of college life is to consult with an upperclassman who has experienced it firsthand. Senator Frank Black, St. Albans junior,

Hamrick added that the best way for a

said "Living in dorms is supposed to be an open living environment, that's an important part of education." In many cases, Black said, students can

learn more through association with other students rather than from the classroom, and added "you're not going to learn anything from someone who hasn't been here before.'

Senate President Kevin Bowen said he

lived in a freshmen dormitory his first year at Miami (Ohio) University and could realize the advantages of associating with persons experiencing the same problems.

"I would encourage you from the residence hall constituency to talk to students to find out how they think," Bowen

John Rulli, Long Island, N.Y. senior, a visitor to the meeting and candidate for Student Body President also commented on the proposal Rulli said he favored freshman dor-

of a dormitory exclusively for upperclassmen. He explained that this would allow "things to be run a lot smoother" and allow the RA system to function as it was designed to do

mitories and also favored the establishment

In other matters, another prize, a trip to King's Island near Cincinnati, Ohio, was added to the long list of prizes for the winning couple of the Muscular Dystrophy Dance Marathon according to Danny Fulks, Chesapeake, Ohio, freshman and committee member.

Guests scheduled to appear at the 24-hour marathon include Secretary of State A. James Manchin, Marshall football coach Sonny Randle, Marshall basketball players and cheerleaders. A disco dance show sponsored by Mill Runn will be featured as well as a host of contests for spectator participation.

Fulks said 43 couples were registered for the marathon which begins at 7 p.m. Friday and continues until 7 p.m. Saturday.

Senator Frank Black discussed the April 27 Spring Concert which is jointly sponsored by Student Government and Student ac-

This year, Black said, because of the fence installed around the ampitheater in Ritter Park, only students will be allowed inside. which will resolve some problems faced last year involving non-students.

"This will be the best concert we have had," Black said.

He said Student Government's role would be to check ID's at the gate and help in crowd control. It's financial obligation included providing the sound equipment, bathroom facilities, obtaining security guards from Marshall's security office and cleaning up after the concert.

Nancy Campbell, Greensburg, Pa., senior attended again to discuss the faculty evaluation forms.

She said the Purdue Rating Scale, a copyrighted document, will be used, and additional questions concerning laboratory classes and seminars could be added.

The first trial run of the questionnaire will be April 16-17 to test the computer center's ability to coordinate the two sets of

"It should be ready to go by next fall," Campbell added.

Candidate focuses on academics

passed its first reading by a 9-3 margin.

The bill, introduced by Rules Committee Chairman Dave Phillips calls for three unexcused tardies to be equivalent to one unexcused absence and three excused tardies to equal one excused absence.

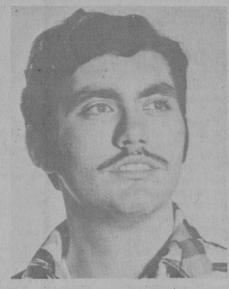

Tardiness is designated to be the appearance of a senator after 9:05 p.m. at teh Tuesday meetings.

Next Tuesday's Student Senate meeting is "Meet the Candidates" night, in which all candidates in the April 5 election are invited to attend and comment on issues in the Spring Election.

Senate President Kevin Bowen said this would give candidates an opportunity to witness a meeting and for senators and the press to become familiar with the candidates.

"We get to see 25 people who have expressed an interest to be a part of Student Government. Losing candidates names and faces can be kept in mind for future projects The bill to regulate tardiness of senators they might be interested in participating in."

New alternative

Kenneth Wright Candidate

Editor's note: This is the first in a fivepart series about the candidates competing for the office of Marshall's student body president. It is designed to familiarize students with the candidates' backgrounds and election platforms.

> By CINDY MARTIN Staff Writer

"A new alternative for Marshall" is the theme of Kenneth Wright's campaign for the office of MU student body president.

Wright, Bancroft junior, is listed third on the election ballot. His running mate is Daniel Huston, Huntington junior. Wright is a member of the College Bowl

team, and is active in University Theatre. He also works for WMUL-FM. He is a chemistry major, and plans to attend Huston, a sociology major, is a current

member and past secretary of the Model UN

platform focuses on academics at Marshall. The candidates said they believe academics has been left out of past elections and campus life. "The primary purpose of a university is to prepare tomorrow's leaders," Wright said.

Wright said he would be in support of establishing doctoral programs at MU, and promote the building of more research facilities at MU, so the university could receive research contracts from government and private industry. He said he would also support more funding for the campus

The candidates said they are also in favor of revising the credit/non-credit grading policy to include an evaluation period at the beginning of classes during which students could decide on the credit/non-credit op-

The candidates support "integrating Marshall University's academic and ex-

A majority of Wright's presidential tracurricular activities more fully." Huston also said the candidates support more recognition for Marshall's "unsung heroes." Huston said he believes Student Government could work to promote campus activities which do not receive large amounts of recognition, such as the College Bowl, the forensics teams, and minor sports.

Wright said he would like to see the intramural programs promoted more, and made more accessible to students.

Huston said he believes that due to "misguided public opinion, groups that can do something to make MU look good, do not receive the attention or funds necessary."

For the residence halls, Wright supports repairs to existing situations, such as dormitory elevators.

Wright also is in favor of constructing a new parking facility near the university. preferably on the north side of Third Avenue. He said he also believes all new campus buildings should include both underground and ground level parking.

EMOTIONAL CONFLICT

'Coping' a problem for many college students

EDITOR'S NOTE: Judy, Tom and Juanita are not their real names since all contact with counselors is kept confidential, but their emotional problems are real as reported in interviews with counselors who have provided professional help for students with problems of "coping" with college life.

By KIMA JOHNSON Staff Writer

 Judy had always been considered an average person. She is an intelligent young woman, successfully maintaining good grades, both in high school and as a student at Marshall. Described as "not the homecoming queen type," she nevertheless, had many friends. But, trying to end a depression-filled life as a freshman at MU, Judy attempted suicide by trving to jump out a dormitory window.

• Tom is on the quiet side. Not a "Robert Redford type," he is still a fairly nice looking guy. A little shy, Tom is a normally functioning

person, able to cope with most aspects of life. Yet, unable to meet and mix socially with women, Tom was ready to drop out of school.

 Juanita was working hard at a happy marriage as well as being a student at Marshall. Devoted to her husband, she invested a lot of time in trying to please him. But Juanita was becoming disgusted with herself. Her temper was out of control. Angry when projects didn't turn out as she planned, she took her frustration out on inanimate objects. Throwing things in the heat of her rage, she was later embarrassed by her

Judy, Tom and Juanita are typical examples of students suffering from personal emotional conflicts, according to campus counselors.

"College is very anxiety-producing," according to Stephen Hensley, counselor in the MU Student Development Center. "Students often have to cope with social, academic and financial pressures. I don't think college is that fun time people looking back tend to remember it as."

MU students often approach the counseling center during crisis times, Hensley said, such as

"College is very anxietyproducing. Students often have to cope with social, academic and financial pressures. I don't think college is that fun time people looking back tend to remember it as."

the end of a relationship. However, reaching the

breaking point is not necessary. "Seeing a counselor is not like seeing a doctor," Hensley noted. "You don't have to get sick to get better.

Jackie Seher, emergency counselor at the Region II Community Mental Health Center. Inc., said, "We all have things we have to go through. How one copes with them indicates whether they have an emotional problem.

Mental illness is one way of coping with a situation.'

Common causes of emotional conflicts are problems with parents, boyfriend-girlfriend relationships, studies, and a lack of direction or self awareness, according to Kenneth E. Blue, associate dean of student development. Any situation that can cause stress may trigger an

Judy was suffering from depression which parallelled her arrival at Marshall.

emotional problem, Seher said.

"This is a kind of a blood and guts story," said Hensley, who counseled Judy for a year and a half while she came to terms with her problem.

When she came down here she had problems. It was nothing you could put your finger on to explain it," Hensley observed. "One reason didn't exist. It was a combination of things."

Judy's dormitory resident adviser called Hensley to solicit help for the depressed young woman after her attempted suicide. Hensley began meeting with Judy a couple of times a week. He learned that Judy had come from an emotionally distraught family.

A daughter in a home with few children, Judy

grew up with a domineering father who drank heavily and often lived elsewhere for periods of time. As a girl, she was sexually abused by members of her own family.

"I was very supportive of her," Hensley noted. "I didn't feel like she had anything to fall back on Although attempted suicides cannot be

described as commonplace, emotional conflicts are common among college students, according to Hensley. Almost everyone experiences one at some point in their lives.

"Generally, people who have emotional problems are people who have emotionally distraught backgrounds," Hensley explained.

'Counseling is nothing more than teachingteaching you to behave or control your feelings

in ways you didn't before." Hensley said he believes emotional problems stem from the differences in people's expec-

Daily miracle

Journalists try the impossible in informing, pleasing public

overtaken by them.

Performing services of consequence and significance to the public interest.

Maintaining a steadfast in-

These are the four ideals presented to Marshall University But while the journalism majors materialize. are gaining an understanding of their role in society, the general public remains uninformed.

It's about time that changed. The Parthenon has had its share of criticism, and I think some knowledge about the paper's operation might dispel some myths.

The Parthenon is a laboratory paper. Students majoring in the news editorial, broadcasting and public relations sequences must take Journalism 202 before they can enter the professional world. The class demands that students produce copy for the paper. While broadcasting and public relations majors then go on to specialize in their fields, news editorial majors either become reporters or pick another major. It's a "sink or swim" deal.

Each reporter is assigned a beat, which varies in size each semester according to the size of the 202 classes. For instance, as a 202er, I was assigned the custodial and faculty unions, faculty organizations, faculty meetings, etc. I was responsible for knowing and reporting on everything happening on my

It is in 202 that students realize journalism is not glamorous like the Watergate movie starring Robert Redford and Dustin Hoffman. It is, for the most part,

plain hard work. The rewards for wearing out the ribbon on your typewriter? Well, you have proven yourself and are therefore entitled to more hard work as a staff writer, sports editor, copy editor, copy desk supervisor, layout chief, photographer, Interchange editor, managing editor, editor,

The news ed majors also move on to Journalism 302, a copy editing class where the students polish the copy, write headlines, cut copy that is too long, check out any missing or possibly misleading information, etc.

So, Parthenon mornings are usually centered around 202 and staff writers. The afternoons are given to the copy desk, where all entered Smith Hall at 8 a.m. and and packaged. The production to ask my friends if the sun shined who trust him."

rest of the campus community. I do it because I believe in the journalistic standardsresponsibility, 'freedom of the press, independence, sincerity, truthfulness, accuracy, impartiality, fair play and decency.

The public however, also needs an understanding of journalism's role in society. The Parthenon is not Marshall University's publicity channel. Despite some opinions, the paper should not serve to "push" Marshall. If it did, it would soon be disregarded as a source of discovering what is truly happening on campus.

Good or bad, we have to print the news, which may range from an award-winning College Bowl team to the firing of a football coach. WASHINGTON - Congress began work Wednesday on legislation that would give members of the House and Senate a \$50a-day income tax deduction to help offset the cost of living in

Rep. Daniel Rostenkowski, D-III., chairman of a House Ways and Means subcommittee, conceded he was moving into a 'sensitive" area. But he said he would push for swift subcommittee approval of the bill. A vote on the measure was expected at the next subcommittee meeting scheduled for April 4

Off-campus news

Political tax break

facing Congress

The bill would cost the government an estimated \$2.5 million a year in lost income tax revenues. This figures out to an average tax reduction of more than \$4,600 annually for the 535 members of the House of Representatives and the Senate.

The bill seems likely to rekindle a debate over the way Congress has handled its own financial affairs in recent years.

The Senate was widely criticized when earlier this month it decided - without a roll call vote - to delay for four years imposing an \$8,600 ceiling on how much outside income they can receive. The only current limit for senators is a \$25,00 annual ceiling on speech fees.

Two years ago, Congress came under attack when it voted its members a \$12,900 annual pay raise. Members of Congress now receive an annual salary of \$57,500.

The tax deduction bill appears to have considerable support in

Marijuana authorized for medical purposes

CHARLESTON - Gov. Jay legislation requires it to limit Rockefeller signed a bill allowing the use of marijuana for medical purposes just before a lobby sued to force the federal government to authorize wider use of the

Under a bill signed by Rockefeller Sunday, glaucoma and cancer patients could use the drug if authorized by a threemember board of physicians.

The bill, which takes effect June 8, was on a list of signed bills released by the governor's office Tuesday night.

Legislative supporters of the bill said marijuana has been found effective in relieving nausea experienced by cancer patients undergoing chemotherapy and in relieving pain of patients suffering from glaucoma, an eye ailment. The legislation as passed was a Senate Judiciary Committee revision of a bill originally introduced by Sen. David G. Hanlon, D-

were taken.

The Public Service Commission issued an order Wednesday allowing the utility the same coal cost increment in base rates for the six months starting April 1 as has been in effect the last six months. The increment is \$1.35744 per million BTUs. A BTU is a standard heat unit.

Rejected in the PSC order were Appalachian's request that the increment be raised to \$1.5461 and a PSC staff recommendation that it be lowered to \$1.30. The order, culminating a semi-annual fuel cost review by the PSC. means the portion of Appalachian rates reflecting fuel costs will remain unchanged through Sept. 30. Appalachian serves 350,000 West Virginia customers.

No beer allowed during and averaged only 10.3 points per game. Randle said he is hopeful training for Schlitz meet

By SANDE GENUNG Reporter

Schlitz Brewing Company may be sponsoring the Schlitz Intramural Championships, but there has been no beer drinking on Twin Towers East

"It's been a strict training routine," 14th floor TTE Resident Adviser Kevin Ireland said. "There is no drinking, no beer and no pizza."

Fourteenth floor will represent Marshall in the men's division in the Eastern Regionals to be conducted at Marshall this weekend at Gullickson Hall.

The Towers men will participate in an 880-yard relay, a 100-yard freestyle swimming relay, basketball and volleyball during the weekend competition.

The team has been practicing everyday working out the wrinkles in each event, according guys to gain a spiking advantage," Littlehales to Ireland. "We got a lot worked out in swimming. We're flowing through the water a lot easier," he said. "We've got individual laps down Bob Bowman, Vienna freshman, will be the to 15 seconds," Ireland explained.

Dan Kay, Dunbar freshman, Wayne Britton, Sissonville freshman, Wally Johnson, Martinsburg sophomore, and Ireland are scheduled to swim for the 14th floor.

Jackie Pannell, Beckley sophomore, Ed Littlehales, Wheeling sophomore, Kay and Britton will run the relay.

Littlehales said basketball will be a big event for the 14th floor. "We're going to start the tallest line-up we can," he explained.

Towers will start 6-6 Jackie Pannell at center, 6-3 Littlehales and 6-2 Pat Farrell, Lewisburg sophomore, at the forwards and 5-10 Rick Barthlemess, St. Albans freshman, and 6-0 Jon Donathan, Union freshman, at the guard spots. Towers will use a fastbreak offense and two-

three zone defense, but they will use a man to man if necessary, Littlehales said. "If they start hitting from outside, we won't be

afraid to match-up with them," Littlehales commented Heighth will benefit the 14th floor in the volleyball event. "Again we'll start our biggest

Ireland, Johnson, Britton, Kay, Littlehales and

starting line-up in the volleyball games. The time is right for the Towers team, according to Ireland. "I don't believe everyone feels so good. The timing is right for us to peak this weekend," Ireland said.

Baseball team takes two from W. Va. State, 5-2,5-1

Softball team faces Salem

The Green Gals fast pitch softball team will be traveling to Salem today to play in a doubleheader.

The team has never played Salem before and it is expecting a tough game, according to coach Linda S. Holmes. Last year Salem beat West Virginia University in the state tournament, according to Holmes. Holmes said she expects Salem to have a strong team this year.

This will be the first doubleheader for the team this season. "The ladies will have to play hard" in both games, Holmes said. Jill Rowland will pitch the first game and Thea Garland will pitch the second game, she said. This will be the first game

Garland will be pitching for the Green Gals. The team has worked on its offensive game this week and it is ready for the Salem game, Holmes

She said the team is ready for the season since playing the first game. "Once the first game was out of the way, (the team) got rid of the jitters and got ready to play again," Holmes said.

Appalachian State 0-0

Friday, the Green Gals will be at home against Kent State for a doubleheader. This is the first year Kent has played fast pitch softball, Holmes said. Holmes said she does not know what to expect from Kent, but she does know they had a strong slow pitch softball team. "It depends on their (Kent) pitching staff' if the game will be tough or not.

Saturday the team will play West Virginia University at home. WVU is a strong team, Holmes said. "There is a rivalry between WVU

and Marshall; everyone wants to play their best." ast year WVU had strong hitting against the Green Gals, she said. "This year the pitching has improved and it will not "be as easy to hit against

Friday's game against Kent will start at 1:30 p.m. Saturday's game against WVU will start at noon. All home games will be played at St. Cloud

imaaine reading prayers from a

It's true. Episcopalians base a large share of every worship service on "The Book of Common Prayer," a very UNcommon piece of literature.

book!

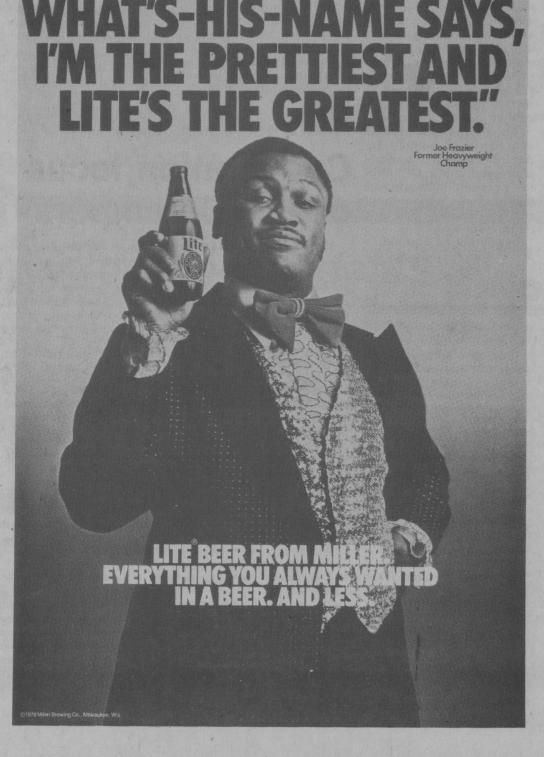

The word "common," in this instance, means "together." Most churches use a hymnal because they want to together. Episcopalians use a prayer book, too, because they like to pray together. No one is ever asked to "lead in prayer,"but each finds ample opportunity during the service to frame his own private prayers.

To those who decry written prayers, Episcopalians point out that The Lord's Prayer is just that...and yet its meaning to every Christian is undimmed by its being reproduced in print.

They believe there's good reason for following the Prayer Book's carefully-planned schedule and form of services throughout the Christian year. For one thing, an individual church is thus spared

from becoming mired in its minister's "hang ups." Pretty good point, these days? The biblical

background, the history, and the simple form of the Episcopal prayer book make a fascinating story. Marshall students led by The Rev. E. Moray Peoples, Jr. will be worshipping from this book today and every Thursday at 4:30 in the Campus Christian Center. Visitors are welcome.

tations versus their realities. People have three basic needs, he said.

"One is a significant other person in their life. Someone who loves them and whom they love," he said.

People also have a need to accomplish. "And last, you have to have fun-do

things you enjoy doing.' Judy's problem stemmed from the non fulfillment of her three basic needs, accor-

ding to Hensley The young woman was unsure of her

reasons for being at college. She also didn't have any one special friend, Hensley added, describing her

friends as mostly social acquaintances. Unhappy and depressed, Judy was unable to sleep for days.

'She struggled for a while," Hensley said. 'She became dependent on me. Sometimes when people don't have anyone to depend on, I let them depend on me for a while, and then work that out.

"Judy's all right now," Hensley said with a touch of pride. Judy's counseling sessions dwindled as she improved. She still occasionally sees Hensley, but "but it's more or less a social thing," the counselor

The Counseling and Group Resources Center at Prichard Hall is available to students who seek help. Hensley said approximately 165 people are seen individually in a typical month, with 260 seen in group situations. Fifteen percent of the

student body is seen on an individual basis throughout the year, he said.

Tom's problem was solved by a behavioral progress program—taking one step at a time. The young man first had to ask a girl if he could borrow her class notes. The next step was a soft drink with the same girl, Hensley said.

"That was a big hurdle for him," Hensley

The young man went on to ask the girl for a date, and was turned down.

"But, you know what he found out? He found out it didn't matter.'

Juanita went to the counseling center to get help in controlling her anger. Hensley began therapy by initially having her count to 10 when she became angry. They worked together on a specific condition—her need to seek approval from other people. In doing so, Juanita had neglected her own

"I let her realize other things didn't control her," Hensley explained. "She made herself mad. It wasn't failure, but the inability to achieve what she saw as perfec-

Juanita began to improve. After about a month and a half of weekly sessions, her visits to the counseling center tapered off to twice a year.

However, not everybody can be helped,

Hensley said. Many students are not. "But we are more successful than unsuccessful," he added.

Help available.

Emotional problems, a common affliction of college students as well as of others, can be resolved through counseling in many instances, area professionals say.

Depression, withdrawal, loss of appetite, physical complaints, overeating and sleep. disorders are signals a person is suffering from an emotional problem, said Jackie Seher, emergency counselor at the Region II Community Mental Health Center, Inc.

An overall change in attitude, drinking, smoking and social habits also are indications, according to Kenneth E. Blue,
