Union, operators agree on contract terms

By The Associated Press

WASHINGTON—Bargainers for the United Mine Workers and the coal industry agreed Tuesday on new contract terms that^{*} both sides hoped would win the support of miners and end their 99-day strike.

Sources close to the contract talks said representatives of both the soft coal industry and the UMW compromised some earlier positions in agreeing on the lates version of a tentative three-year contract.

The UMW's bargaining council had approved an remained in telephone contact on resumed the full-scale talks Tuesday.

pact was rejected by the rank-and-file miners by a 2-1 margin. Prior to that, an industry offer was nixed by the bargaining council by a 32-6 vote.

Since last Friday, negotiations for the union and the Bituminous Coal Operators Association had been taking place at a Washington hotel, without the assistance of federal mediators.

The main bargaining talks recessed on Sunday while representatives of the two sides broke into smaller groups to work on individual issues. They remained in telephone contact on Monday and resumed the full-scale talks Tuesday. Under the new proposal, sources said, miners would still be required for the first time to pay a portion of their health care costs, but the sum would be far less than was called for under the contract that was voted down a week ago. That rejection prompted President Carter to invoke the strike-stopping provisions of the Taft-Hartley Act. The sources also said the industry lost its long fight

The sources also said the industry lost its long fight for at least limited contract controls on wildcat strikes, but won some form of productivity incentives.

The contract must now be approved by the UMW bargaining council and submitted to the members for

ratification.

A Justice Department spokesman said the government still is scheduled to go to U.S. District Court here Friday to argue for an 80-day cooling off period under terms of Taft-Hartley.

The spokesman, Mark Sheehan, said government attorneys had not given full consideration to other legal options at this point. But he said the administration might agree to seek a 10-day extension of the temporary restraining order if requested by the union. Sheehan acknowledged that there could be a psychological advantage to an extension of a temporary order rather than an injunction at a time when rank-and-file members would be preparing to vote on the new agreement.

Earlier in the day, sources had indicated the expected agreement would include wage increases for miners amounting to \$2.40 an hour over three years, the same as in the rejected contract. They now receive an average of \$7.80 an hour.

WVU local union president attacks MU administration

By BELINDA ANDERSON Reporter

President Robert B. Hayes could recognize the Marshall union local for custodians and maintenance workers "if he wanted to" said Charles Lazelle, WVU local union president, calling the administration "antiunion and anti-employee."

A local chapter of the North American Laborers International Union has been in existence at West Virginia University since 1962, according to Lazelle. The union has been recognized by university presidents at both WVU and West Virginia Tech, he added.

The local cannot engage in collective bargaining, but Lazelle said a Memorandum of Accord was passed to allow for union handling of grievance procedures and employee rules and regulations. Lazelle called the MU administration "a bunch of bastards," adding that Hayes "discriminates because of sex and race." Lazelle further charged the administration with unjust firing of employees and "not giving proper pay."

"The president is going to do whatever he wants, regardless of the law," said Lazelle,

Hayes said no law permits recognition for grievance procedures through a union and that he was told by the Board of Regents (BOR) he could not establish relations with the union.

"Technically, we cannot bargain," said BOR Chancellor Ben L. Morton. "According to my best understanding, neither we nor any state agency can do that."

If pay raise percentages were checked, Hayes said, figures would show that MU is as "fair as anyone else in the state."

"Marshall is very much employee centered," said Hayes, citing the establishment of grievance procedures, job classification, and the anniversary pay raise system as examples.

Hayes said Lazell's statements could not be verified.

Alan R. Ward, union steward at MU, said there should be a grievance committee consisting of faculty and staff members to handle personnel problems.

"A lot of the people are afraid they're not going to get fair treatment from white-collar workers," Ward said, adding that sometimes the administration does not understand the problems of maintenance and custodial workers.

However, Hayes said the current system is a good one. "We've had no suggestions to change it."

Under the present grievance system, the employee first tries to settle the problem with the supervisor and

then with the department head, according to Ray A. Nissen, director of personnel.

If the grievance is not resolved, the employee and his supervisor state the problem in writing, which should be responded to in three days by the personnel and department head.

The worker can make a final appeal to the executive vice president, who forwards it to the president for a final decision.

No one has submitted a complaint in writing, said Nissen, adding that the year old system is not used. "Lots of times employees have a beef, but they let it smolder instead of using the procedure," he said. "Sometimes the supervisor doesn't even know the employee is ticked off."

Another area of personnel concern is the recent letter system of warnings, which the administration developed to reduce employee absences. Ward said he has decided the system "is not against union members at all," but he is "looking into" specific cases where employees believe they were given letters when they weren't supposed to.

Emily K. Simon, custodian and secretary of the local, said she missed work due to a foot injury received on the job and had her vacation time taken away.

Nissen said, however, he thinks she did receive workmen's compensation, and that she took two weeks' vacation, after coming back to work, to attend a church meeting in Florida.

Ward said he is also looking into specific cases regarding the anniversary pay raise system. Some employees have stated they are still waiting for a decision on their raisc, while administration says all raises prior to the state "freeze" have been given.

Behavior prompts Zanzig memo TTE six residents warned

By KEN SMITH

Managing Editor Sixth floor residents of Twin Towers East were warned Monday night by residence hall officials that "irresponsible" behavior would result in disciplinary action, including possible expulsion from all halls.

A memo from Ann Zanzig, director of residence life, was distributed to sixth floor residents at the Monday meeting. The document listed "actions taken as common behavior by sixth floor" and pointed out "serious consequences may be in order." Alleged behavior problems listed in the memo included "dope smoking," harassment of university personnel, painting signs on walls, false fire alarms, trying to see "official reports" kept by personnel without permission and "behavior unbecoming a resident." or any other irresponsible type" were listed in the memo as immediate expulsion from all halls with no refund, "room changes at my (Zanzig's) discretion" or "more serious" disciplinary action through the Coordinator of Student Conduct and other administrative officials.

"This was her (Zanzig's) directive," said Mike Santoro, Welch senior and TTE residence director, who also attended the Monday meeting. "None of this came out of my office. I work through Miss Zanzig. It's out of my jurisdiction."

Penalties for "any further behavior of this any other irresponsible type" were listed the memo as immediate expulsion from all

Such action had been implemented last semester, he said. "I can't divulge the residence hall or the floor, but it was basically the same thing."

Santoro said the sixth floor was not being victimized or singled out. "We weren't picking on sixth floor," he explained. "That's not the point." The allegations against the floor are based on fact, Santoro said. There is "more documented" use of marijuana on the sixth floor, he pointed out.

Student election polling rules stated

Polling places for the upcoming student government elections will be located in the lobby of Twin Towers West and in Memorial Student Center Alumni Lounge.

Polling locations are included in an informational pamphlet prepared by the Marshall University Student Government Commission on Elections. The pamphlet

Warm, cloudy

Today will be partly cloudy with a high near 55, according to the National Weather Bureau. The chance of precipitation is about 20 percent. The low tonight will be about 30 degrees with the high Thursday near 40 degrees.

There may be snow flurries Friday, but temperatures should rise to near 55 by Sunday.

Break

Thursday is the last publication day for The Parthenon before spring break. The next scheduled publication date is March 29. details all events and rules concerning the April 6 elections.

The polling location in Twin Towers West will be restricted to full-time undergraduate or graduate students who reside in one of the campus dorms. The Alumni Lounge location will be restricted to full-time graduate and undergraduate students who do not reside in campus dorms.

Both polling places will be open from 9 a.m. to 6:30 p.m. on election day.

Filing dates for candidates will be Thursday and Friday from 9 a.m. to 5 p.m. Candidates file in the student government office, Room 2W29 in the student center.

Each candidate must announce which constituency he is filing in. Constituencies fall into three categories: dorm residents, students who live off-campus and transient students.

Constituencies also play a part in the voting process, as only the names of senate candidates who are from the dorms will appear on the ballots in Twin Towers West. Transient and off-campus senate candidates' names will appear on the ballots in the Alumni Lounge. All presidential and vice presidential candidates' names will appear on both ballots.

Although presidential candidates are not

required to run with a specific vice presidential candidate, if two candidates are running together they must also file together.

Election candidates may begin campaigning at any time. No restrictions are placed as to the size, number or quantity of printed material used by any candidate; however, all candidates must follow university policies regarding placement of campaign materials on campus.

No campaigning, campaign signs or materials are allowed within a 30 foot radius of the polling places.

Candidates must also follow university regulations regarding the use of sound amplification of any kind. Copies of the policy are available in the Student Life Office.

Students must vote at the correct polling place, and each student must present a validated ID in order to vote. Ballots will be counted by the election commissioners, the chief justice of the student court, and the dean of student life.

Any complaints or irregularities that are found are to be reported to the commission on elections in writing within 24 hours of the occurrence. The commission must then hold a hearing within 48 hours to determine the merit of the complaint. A spokesman for Zanzig's office said Santoro had most information relating to the situation and suggested The Parthenon contact him instead.

Santoro said the decision to meet with the sixth floor residents was made last week. "It

"Harassment" charges involved the "verbal abuse" of a residence adviser, he said. "There's no excuse for that, or with any university personnel. In this case, it was the RA." (continued on page 3)

New form of student government may be issue in campus election

By KAREN McGEE Reporter

Reorganization of student government is an issue students may be faced with in the campus election this spring.

Student Body President Rick Ramell, the moving force behind the board of directors form of government, said he expects senate approval to put the issue on the ballot. The board would be made up of students who have seats on standing faculty committees.

"The main idea is to bring out the prominence of standing faculty committees," Ramell said.

The student body has one or more representatives on seven of the standing faculty committees. Those commitees are the academic planning and standards committee, students having one vote; the athletic committee, two votes; commencement and honorary degrees committee, one vote; physical facilities and planning committee, two votes; publications and public relations committee, two votes; student conduct and welfare committee, four votes; and the university council, one vote.

At this time the board would have 13 positions. Ramell plans to submit a proposal to the senate asking for more seats on the present faculty committees. If the senate approves this proposal, Ramell says he's not sure who within the MU administration will have to approve additional seats.

Ramell says the board would perform all the legislative functions in student government. "The board would have the same responsibilities as the senate, but they would have added responsibilities," he said. "They would meet with the faculty committees and report to the board."

Ramell says he's particularly interested in

getting more students on the student conduct and welfare committee. He would like to see an equal number of students and faculty members on the committee.

Students will run for seats on the board. Those elected will be appointed to the faculty committees by the student body president.

"I believe the board of directors form of government will improve attendance and participation at student government meetings," Ramell said. Mary Ann Thomas, adviser to the student government, would not comment on the change though she will assist the student government in setting up the organization.

Dr. Richard G. Fisher, vice president!dean of student affairs, says an adjustment is needed in representation and accountability. "Although the senate has been more involved this year, in the past too many people have been superficially involved and not willing to commit themselves," Fisher said.

Athletic department strives to meet Title IX

Athletic Director Joseph H. McMullen told the Student Activity and Service Fees committee Friday the athletic department is working to meet federal guidelines for funding of women's sports, but said the requirements are not clear.

"I'm working on good faith that what the department is doing is acceptable," Mc-Mullen said.

He appeared before the committee to explain how the increase in student fees for athletics is being used to meet the July 21 deadline for Title IX requirements.

The athletic department has received an increase in student fees the last three years to insure approximately the same opportunities for male and female athletes in sports at comparable levels of competition.

The \$1.75 increase this year will add \$15,000 to the budget to be used for women's sports, according to McMullen, who explained some of the difficulties in complying with Title IX.

How athletes travel and are housed is not "a sex decision as it is a revenue decision," he said. Football and basketball are big revenue sports and players are treated as such, he explained. "They are the headliners, when they benefit, everything benefits."

Game receipts make up 44 percent of the athletic budget and of the \$387,900 expected receipts this year only \$720 has come from women's sports,, according to McMullen's report to the committee.

Student fees compose 24 percent of the athletic budget, while Big Green receipts result in 32 percent according to the report.

Women's sports moved into the athletic department three years ago and student fees were raised to help develop new programs for women athletes.

It appears that per athlete women are receiving more money than men but that is because it takes a lot to start new programs, McMullen said.

A model program is needed to explain what the government wants done, he said, "the effects of Title IX are deep with many ramifications."

The university athletic program will be reviewed this summer, McMullen said.

For one thing, cir-

'I am the contract' Dorm charges overblown

One of the best examples of how this university treats its dormitory residents was rather evident in a "mandatory" floor meeting on six floor Twin Towers East Monday evening.

The meeting, called by Ann Zanzig, director of residence life, and Mike Santoro, director of Twin Towers East, was held because of what Zanzig alleges is flagrant violations of student conduct codes. These alleged violations, according to Zanzig, are "common behavior on the floor.'

According to a handout circulated by Zanzig, these alleged actions include "excessive 'dope' smoking, harassment of university personnel, painting signs on table walls, false fire alarms, trying to see official reports kept by personnel without permission and behavior unbecoming a resident.'

Zanzig made it rather explicit anyone who did not work to patterns could receive "imdorm.

Then came the clincher: Zanzig, when questioned about the university housing contract and some of the allegations, referred to herself as the university housing contract. "I am the contract," said Zanzig. Moreover, according to the handout, she believes she can be firm in her stance. "Should any of you wish to test this, or my authority to do so, please rest assurred it will be carried out, so don't waste your time!"

As a resident of six floor Twin Towers East, I will say that most of the charges have been either overblown or based on shaky or some degree, some of the violations may have occurred. But, ironically for Zanzig, ac-

By Howard M. O'Cull **Interchange** Editor

are based on frivolous, insupporevidence. In fact, some of the alleged violations seem so outrageous they are not worth wasting time or space to discuss. As for the charge "trying to see official reports kept by personnel

without permission," this is totally ridiculous. First, the very correct these alleged behavior principle of keeping cards on each resident is a most severe and mediate expulsion from the flagrant violation of one's greatest liberty-the right to

privacy In fact, is it any reason students to. They, again, will accept some are concerned about these cards? . Who knows what is on them? Who knows to what dastardly purposes they could be used? authority based on some shaky, Who knows how convenient they authority based on some snaky, are for "railroading?" Who will knows if innocent students have not been subjected to un-

of these cards? The entire tirade centers around student rights or an evident lack thereof. According to Zanzig, dorm residents are to

necessary loss of dignity because

try to find the culprits responsible capacity. Furthermore, there is for these alleged acts. Then they circumstantial evidence. Ture, to is are to be reported to the "authorities" as a means to squelch such activities.

Well, first of all, since it has sion. But all parties involved tivities of a similar nature occur been established these allegations must realize dormitory problems on every floor of Twin Towers may not be supportable by the are matters far too complex to be ncrete evidence, how will settled by simply resorting to insight to take this into account? students carry this out? "Use of this product may be hazardous to your health. This product contains saccharin, which has been determined to cause cancer in laboratory animals."

Although this warning is appearing on sugar free soft drinks, many Marshall students seem to neglect it and continue their sweet tooth needs.

According to Bill Hall, manager of Central Vending of Ashland which services all the vending machines on campus, sales of these sugar free drinks have not declined in the past few months. He said that he still orders the same amount for Marshall.

Sam Stein, manager of Twin Towers cafeteria, said they have noticed no decline in the amount of sugar free Dr. Pepper used.

Sadat denounces terrorists

CAIRO-President Anwar Sadat on Tuesday denounced the weekend Palestinian terror attack on Israeli civilians, urged Israel to refrain from retaliation and appealed to warring Middle East factions to halt the 'vicious circle" of attack and reprisal.

"Let us hope that we can overcome the sadness and this tragic action that has happened and establish peace once and forever in the area," the Egyptian president told reporters in the Nile valley town of Beni Suef, about 70 miles south of Cairo.

The statement in English, broadcast live by Cairo radio, was the first Arab denunciation of Saturday's raid in which 33 Israelis were killed and about 80 wounded. It was Sadat's second attack on the Palestinians in recent weeks. Other radical and moderate Arab regimes had praised the raid as a bold move Sadat called for an end to "this vicious

circle of action and reaction because it will lead to nothing. "I am against anything done against the civilians," the Egyptian leader said, breaking a three-day silence on the subject. "This is

our position here in Egypt...Really, I shall always condemn this irresponsible action. "I describe it as a very sad and tragic incident and when I heard that the Palestine Liberation Organization declared their responsibility about it I asked myself this question-what will be the result? I should

expels toxic gas STEUBENVILLE, Ohio-An

explosion and fire at a manufacturing plant Tuesday unleashed chlorine fumes which sent 38 people to hospitals and prompted the mayor to evacuate all downtown streets of Steubenville.

Mayor William Crabbe, who said he was afraid the fumes would spread, ordered all available police, fire and rescue personnel to the southwestern section of this northeastern Ohio city of 28,000 persons.

"We want everybody away from this area," Crabbe said.

"We've got 30 ambulances on the way. We don't want anything to happen. We've got plenty of police protection, so don't worry about your homes."

Fourteen persons were admitted for oberservation, including Fire Chief Bernard Bickerstaff, and 10 were treated the bedding, and flames spread athrough the and released at Ohio Valley to the emergency room at St. John Medical Center, and four other were at Weirton General Hospital in Weirton, W.Va.

However, attacked guards during a morning inspection and blockaded the entrance to the cellblock with most said they disagreed strongly bedding when their attack failed. They set fire to with Zanzig's action.

cellblock before firemen could move in, it said. Prison guards lobbed teargas grenades into the second floor of the cell block as army troops surrounded the prison to prevent escapes.

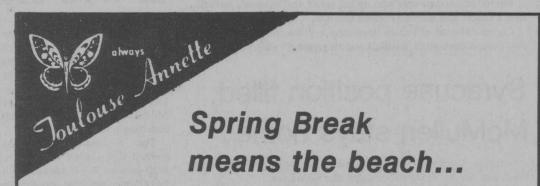

The independent news agency Noticias Argentinas said one guard was taken hostage early in the uprising the later killed.

The agency said two cars raced past the prison entrance shortly before the riot and first at guards, but that report was unconfirmed by official sources.

After the riot, ambulances escorted by police motorcycles took the injured to hospitals with burn centers.

The prison was built for 2,500 prisoners but reportedly houses more than 4,000, bout 80 percent of them women. Local human rights groups claim 2,000 of the inmates are political prisoners jailed since the armed forces seized power two years ago and moved to eliminate leftwing guerrillas.

Hospital spokesmen said all the victims were treated for inhaling chlorine gas fumes.

TTE 5 takes lead in dormitory intramurals

Eight teams have advanced in the first round of the intramural basketball tournament Monday night.

Winners in the dormitory division were 14th floor of Twin Towers East, 64-66 over Hodges Traveling Show; Hodges Invaders, 56-37 over second floor of South; fifth floor of TTE (number one), 37-36 over third floor of TTE and Hodges TTA, 54-27 over fifth floor of TTE.

In the social division Cinzano won in double overtime over Ohio Players, 44-43; Teays Valley Boys won by forfeit over Harveys Hackers; AKD beat Easy Company, 45-13 and Valley Hai won over the Scrollers, 50-32. According to Thomas A. Lovins, director of intramurals, all games were played this year with a full schedule of games. "School was canceled last year for two weeks, so a lot of games weren't played," Lovins said.

role in a campus production of college "Purlie Victorious," which was one of five shows in the southeast Johns finished sixth in the discus selected from 43 entrants for at a United States Track and regional competition Jan. 26-29 at Columbia, S.C.,

The play was chosen by judges from the American College Theatre Festival. If the MU production wins at Columbia, it advances, along with six-to-nine other regional victors, to the national performance in the Kennedy Center at Washington, D.C.

Because of his performance as "Purlie," Johns was chosen as one of 11 candidates for the festival's Irene Ryan scholarship, which is worth \$500 on a regional basis and \$1250 nationally.

Although he did not win the award, Dr. N.B. East, associate professor of speech and the play's director, said he was among "the top three."

East said "approximately" 430 performers, about 10 per show, were originally eligible to be nominated for the award.

"I think he's a very talented young man," East said. "He has a lot of vitality and energy. I have very high regards for him."

Ironincally, Johns, a 6-3, 225pound junior who's a track team co-captain, said he threw the shot competitively only five times at Columbus West High School

Hunger program needs applicants

The Marshall Hunger Committee has been encouraged to apply for an additional \$11,600 grant for the Hunger Program's second year, according to Dr. Hugh B. Springer, director, Campus Christian Center.

But more applicants are needed for this coming year's program. he added. The deadline for applications has been changed from March 15 to 28, the day after spring break.

Springer said only six or seven applications have been turned in. The program offers work-study funding for ten students to work in Crum and Little Harts Creek on Tuesdays and Thursdays. This is to gain experience in working with hunger and poverty on a closer level. If ten people don't participate, some of the money will have to be given back, he added.

The director encouraged interested students to talk to him or members of the project committee before preregistering.

"We don't want them to stay away because of inflexible schedules," Springer said. "We can arrange for them to go to Crum and Little Harts Creek on Fridays."

He added that applications are available at the Campus Christian Center or from the project committee members. The members are Dr. Richard O. Comfort, professor of sociology and anthropology; Dr. Ruth C. Harris, chairman of pediatrics; Dr. E. Bowie Kahle, assistant professor of biological sciences and Dr. Clair W. Matz, Jr., associate professor of political science.

Seminars and field trips are included in the program to give students ideas on solving problems encountered during field experience, according to Springer.

A Washington, D.C., field trip will enable students to meet with members of the Inner Religion Task Force on U.S. Food Policy, he added. The force rallies people to lobby on matters of legislation and assists other nations with famine control.

"We will be working with them to set up field experience at spring break next year," he said.

Springer pointed to the opportunity for students to meet members of the Agriculture and State Departments and members of their own legislature.

The poorest attendence on the MU campus isn't to a class, it is to the art exhibit, "Contemporary Printmaking," on loan to the Marshall Gallery from Ashland Oil, Inc.

The collection of 50 prints is a selection from the permanent collection of the company, said Beverly H. Twitchell, art instructor

"It's a shame when we have a professional show no one takes advantage of it," said Jennifer Lynn, Huntington graduate student.

Former graduate student William R. Sargent organized the show to highlight the four major forms of printmaking: relief, intaglio, stencil and planographic. The exhibit illustrates the wide variety of techniques within each method of printmaking, Twitchell said. .

"The show is designed to be a total learning experience," Steve Watts, Huntington graduate student, said. It is set up for people not familiar with printmaking, he added. Works are grouped according to technique.

The show is important because prints are the most readily collectable and least expensive medium of the visual arts, Twitchell said.

"Contemporary Printmaking" continues until March 26 at the gallery. Gallery hours are noon to 4 p.m., Monday through Friday.
