3. REPORT OF THE UNIVERSITY PRESIDENT:

In his first report to the Faculty Senate, Dr. Kopp stated that:

- September 22nd is the birthday of the university’s namesake, John Marshall, and there is a celebration being held in conjunction with Constitution Week. He asked if the senate was favorable to making an annual event of the West Virginia Supreme Court being on campus during this week.
He related that SB603 removes red tape and restrictions from the university but comes with additional responsibilities that include presenting all university policies to the Board of Governors for reauthorization and transferring land holdings from the Higher Education Policy Commission to the university. The bill also gives latitude to the university in the area of program development. He would like to see the clustering of programs. Teams are being developed to respond to the more than 100 different articles of the bill.

He is working with the Board of Governors to define the duties of the president as in relation to the day-to-day operation of the university.

Next week he will present a salary increase proposal to the Board of Governors for their approval. Instituted in two phases, November 1st and January 1st, faculty will receive, on average, $3500, with new faculty receiving market but not merit monies. He stated that he would like to shift future salary increases from July 1st to November 1st as this will provide an opportunity to relate increases to student enrollment, retention, recruitment, and graduation rates.

He would like to begin an inclusive strategic planning process where he presents a skeleton plan with the foremost areas of consideration being enrollment, retention, recruitment, and graduation. He would like the plan to be completed by January 1st with action plans established on clear goals to be completed within one or three years.

4. **BOARD OF GOVERNORS REPORT:**

Dr. Sottile distributed copies of the July 25, 2005 and September 14, 2005 Board agenda and a roster of the various Board committees. He expressed thanks to Mr. Ketchum and Drs. Denman and Kopp.

He stated that:

- The structure and process of the Board of Governors is to discuss recommendations as presented by administration to the various committees of the Board.
- That item VIII, 4a of the July agenda was tabled (M-Club Request—Naming of the Pavilion)
- He is still working with the Board on the Athletic Policy and feedback he has received is related to increasing the communication process between the Athletic Department and the Faculty Senate. Dr. Kopp is currently reviewing the policy.

5. **ACF REPORT:**

Dr. Miller reported that:

- Representatives of ACF met with Governor Manchin to discuss the Annual Employment Increment (AEI) and other topics relating to higher education.
- ACF has developed its legislative agenda for the upcoming session and is planning on attending meetings and making contact with legislators. ACF would appreciate receiving the Faculty Senate’s endorsement of its agenda.
- Among the ACF there is a general feeling that higher education has not done a good job in engaging legislators about the importance of higher education and its impact on the
economy of the state. There needs to be a combined effort to change legislator’s attitudes of the value of higher education.

- There has been discussion to change the concept of education in West Virginia from K-12 to P-20 (preschool to graduate degree) to provide a seamless pipeline of education to its citizens. It is felt that this concept would benefit higher education as the legislature would provide more funding.
- Recent successes were a team effort with AFT (American Federation of Teachers) but ACF is the voice for all faculty and they have no desire to compete with AFT.
