H. Announced that Dr. Ed Grose will attend another meeting to discuss current & proposed construction as he is not available due to an accident.

3. REPORT OF THE UNIVERSITY PRESIDENT:

Dr. Angel stated he had three items for discussion: The governor’s directive to develop a 2003-04 budget reflecting a 10% reduction; the possible reassessment of peer groups; and national prominence.

He feels it is important that we all become involved in informing our legislators and the public that a 10% reduction is extremely harmful to Marshall University and higher education in West Virginia. He would like the legislature to introduce new taxes, raise the tobacco tax, or revise the pop tax so it is an equitable distribution. He would like to see Marshall become a leader in providing public health education.

He explained how Senate Bill 653 established the current peer structure for higher education based on an NCHEMS study and that there has been discussion by the Higher Education Policy Commission to begin a reassessment evaluation now and not wait until 2005 as stated in the senate bill. He feels this issue will be settled by the legislature in their next session.

He stated that national prominence is a difficult topic to discuss in light of a possible budget reduction. Currently we have programs recognized on a national level—rural medicine, rural education, HELP, and forensic medicine. He spoke of how research can lead to additional national prominence by selecting areas of research that will ensure success due to our existing talents and resources. A Research and Creativity Council has been formed to assist faculty in learning how to identify, apply, and secure research grants.

4. ACF REPORT:

Dr. Miller reported that the ACF met last week in Glenville, WV and a topic of discussion was faculty involvement with the legislature. Ideas for increasing communication between faculty and legislators were exchanged. He will share these
ideas with our Legislative Affairs Committee. ACF is preparing a pamphlet that can be customized for a particular institution, for distribution to legislators.

Also discussed was the HEPC decision to change its policy for reviewing programs with low productivity and graduation rates. The central office will provide notice to those programs but the final decision to continue or cut will be made by the local Board of Governors.

It was also noted that although scores are low for the higher education report card, the method for collecting and analyzing data is not fair to West Virginia institutions.

An issue of discussion was the desire of faculty to evaluate administration. Upon review it was determined that Marshall University has an established approach.

5. BUDGET REDUCTION TASKFORCE REPORT:

Dr. Onofrio reported that the taskforce has been charged with the responsibility to prepare recommendations with ideas of ways to increase revenue and reduce expenditures that will meet a 10% or less budget reduction. If you have any ideas send them to Herb Karlet or Layton Cottrill.

Dr. Onofrio reported on the request that he gather information pertaining to the evaluation of administrators. He distributed a handout (see office files) which summarizes how administrators (chairs, directors, deans, vice presidents, etc.) within Marshall and the Marshall Community & Technical College are evaluated.

6. COMMITTEE RECOMMENDATIONS:

SR-02-03-(4) 34 LA: Recommends that the Faculty Senate ask the University President, Dr. Dan Angel, and the Marshall University Board of Governors to exercise all available resources and connections with the Legislature and Governor’s office to mitigate any potential budgetary reductions in higher education.

IT WAS MOVED, SECONDED AND APPROVED TO AMEND THE AGENDA.
