

Euscorpius at 100

With the publication of Graeme Lowe on *Vachoniolus* from Oman, our journal *Euscorpius* celebrates its 100th issue.

Euscorpius is the first and only research publication completely devoted to scorpions (Arachnida: Scorpiones).

Since its inception in 2001, *Euscorpius* published 100 issues authored by 79 zoologists from 23 countries (USA, Argentina, China, Colombia, Cuba, Czech Republic, France, Germany, Greece, Guadeloupe, India, Iran, Italy, Kazakhstan, Mexico, the Netherlands, Norway, Pakistan, Russia, Switzerland, Turkey, United Kingdom, and Venezuela.)

In 2002-2010, 82 new species from 28 countries (Afghanistan, Australia, Chile, China, Colombia, Dominican Republic, Guadeloupe, India, Iran, Iraq, Malaysia, Mauritania, Mexico, Morocco, Myanmar, Nepal, Oman, Pakistan, Peru, Thailand, Tunisia, Turkey, Turkmenistan, USA, Uzbekistan, Venezuela, Vietnam, and Yemen) and nine new genera of scorpions have been described in *Euscorpius*.
