Productivity Review: 2003-2008
Marshall University

Recent revisions to Series 10, Policy Regarding Program Review, provide for a biennial productivity review of programs. The purpose of the review is to identify those programs that have failed to meet the productivity standards summarized below. The standards are based on averages for the five most recent years.

<table>
<thead>
<tr>
<th>Degree Level</th>
<th>Degree Awards</th>
<th>Major Enrollment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Baccalaureate</td>
<td>5</td>
<td>12.5</td>
</tr>
<tr>
<td>Master/1st Professional</td>
<td>3</td>
<td>6</td>
</tr>
<tr>
<td>Doctoral</td>
<td>2</td>
<td>4.5</td>
</tr>
</tbody>

Series 10 provides an opportunity for institutions to petition that a program be exempt from further review by submitting documentation that addresses the reasons for the request, including how the program is critical to the mission of the institution. A request for exemption should be submitted to the Academic Affairs office by April 1, 2009.

Any programs not granted an exemption, will be forwarded to the Commission with a recommendation for placement on probationary status by the institutional governing board for a four-year period. During this time Marshall University will be expected to implement initiatives to increase program enrollment and degrees awarded.

The Commission is scheduled to meet on May 1, 2009. If the Commission approves the recommendation of probationary status, Marshall University will have 60 days to provide the Commission with a plan for meeting degree program productivity standards within the four-year probationary period.
