### Program Notes

**Velocity**  
Robert Sheldon is one of the most performed composers of wind band music today. A recipient of numerous awards from the American School Band Director's Association, Phi Beta Mu and the American Society of Composers, Authors and Publishers, his compositions embody a level of expression that resonates with ensembles and audiences alike. His music is performed around the world and appears on many international concert and contest lists. Mr. Sheldon regularly accepts commissions for new works, and produces numerous publications for concert band each year.

Mr. Sheldon is currently Concert Band Editor for Alfred Music Publishing.

Velocity is defined in physics as the rate of change of position. This brief musical essay seeks to portray velocity in all of its forms—breathtaking speed to brutal force, the flowing elegance of flight to the heart-pounding thrill of a reckless drive. Full of rhythmic intensity, Doppler effects and technical flair, Velocity takes you on a musical ride you won’t soon forget!

**Angels in the Architecture**  
Frank Ticheli is an American composer of orchestral, choral, chamber, and concert band works. He lives in Los Angeles, California, where he is a Professor of Composition at the University of Southern California. A number of his works are particularly notable, as they have become standards in concert band repertoire. Grants and commissions include his selection as a recipient of a Chamber Music America Grant to compose a work for the Philadelphia-based saxophone quartet Prism. He has also received commissions and grants from the American Music Center, Pacific Symphony, Pacific Chorale, Worldwide Concurrent Premiers, Inc., Prince George’s Philharmonic Orchestra, Adrian Symphony, City of San Antonio, Stephen F. Austin State University, University of Michigan, Trinity University, and the Indiana Bandmasters Association.

Angels in the Architecture, for concert band with soprano soloist, was commissioned by Kingsway International and received its premiere performance in July of 2008 by a massed band of young musicians from Australia and the U.S. at the Sydney Opera House. The work unfolds as a dramatic conflict between the two extremes of human existence: one divine, the other evil. The work's title is inspired by the Sydney Opera House itself, with its halo-shaped acoustical ornaments hanging directly above the performance stage. Angels in the Architecture begins with a single voice singing a 19th-century Shaker song. This "angel"
James Clifton Williams Jr. was born in Traskwood, Arkansas, in 1923. Despite the financial difficulties of the depression of the early 1930s, Williams fared well in school, learning the piano, mellophone, and French horn. In his senior class of 600, he was voted the most outstanding in artistry, talent, and versatility. In 1942, he joined the Army Air Corps as a bandsman, serving as drum major and composing works at every opportunity. After the war, he attended Louisiana State University and went on to earn his M. M. degree at the Eastman School of Music in 1949. He taught at the University of Texas at Austin for seventeen years. In the 10 years before his death in 1976, he served as chairman of the department of theory and composition at the University of Miami, where he was influenced by and became close friends with Frederick Fennell.

Richard L. Saucedo is currently Director of Bands and Performing Arts Department Chairman at Carmel High School in Carmel, Indiana. Under his direction, Carmel bands have received numerous state and national honors in the areas of concert, jazz and marching. The Carmel High School Wind Symphony was invited to the Bands of America national Concert Band Festival in 1992 and 1999 and was named the Indiana State Champion concert band in 1999. Mr. Saucedo did his undergraduate work at Indiana University in Bloomington and finished his master's degree at Butler University in Indianapolis. He is constantly in demand as an adjudicator, clinician and guest conductor for concert band, jazz band, marching band, orchestra and show choir.

Walking Into History (The Clinton 12) Following the U.S. Supreme Court's 1954 ruling in Brown vs. Board of Education, a federal judge ordered Clinton High School to desegregate in the fall of 1956. The integration of Clinton High School was forced to be first among Tennessee public schools. The twelve black students who attended Clinton High School that fall became known as the "Clinton 12". On the morning of each school day they walked together down Broad Street from Foley Hill to Clinton High. Rumor has it that on one of those mornings, the Clinton Band was on hand to welcome these students to their new school. In 1958, the school building was badly damaged by a series of dynamite explosions assumed to be related to the school's desegregation. While the school was rebuilt, the students were bused to Oak Ridge. Walking Into History includes musical quotes of the Clinton and Oak Ridge Alma Maters.

Sara's Soul is the 2nd movement from "Winanga-li". It has a warm, romantic, symphonic sound. This movement is simply Sara, according to Hardy! A homage from master to muse! Ironically born from a dream Hardy had, it is in sort a 'dreamtime'. One girl's dreaming of a better world, a world of spiritual awareness, a world in balance, a dream of freedom. Like it's source inspiration, it is a piece that...
seems to break musical rules, it sort of floats along, reaching out to an endless horizon, not putting a foot down. Reaching optimistically for that ultimate dream, willing all humanity to harness our deepest, purest, fertile potential. Sara's Soul has a dreamy atmosphere with big passionate chords and a full heart.

**Samuel R. Hazo** became the first composer in history to be awarded the winner of both composition contests sponsored by the National Band Association. He has composed for the professional, university and public school levels in addition to writing original scores for television, radio and the stage. Mr. Hazo's works have been premiered and performed at the Music Educators’ National Conference, Midwest Band and Orchestra Clinic, World Association for Symphonic Bands and Ensembles Convention, National Honor Band of America, National Band Association/TBA Convention, College Band Directors’ National Association Convention and also aired in full-length programs on National Public Radio. In 2004, Mr. Hazo's compositions were listed in a published national survey of the "Top Twenty Compositions of All Time" for wind band.

Mr. Hazo has been a music teacher at every educational grade level from kindergarten through college, including tenure as a high school and university director. Mr. Hazo serves as a guest conductor and is a clinician for Hal Leonard Corporation.

*Ride* was written as a gesture of appreciation for all of the kind things Jack Stamp has done for the composer, Sam Hazo. After being invited to participate in a composer's forum, Mr. Hazo followed Jack Stamp and Mark Camphouse back to Jack Stamp's house for dinner. This fifteen minute drive at high speed through the beautiful Pennsylvania countryside was the inspiration behind the piece, *Ride.*
