CURRICULUM COMMITTEE
RECOMMENDATION

SR-03-04-55 CC

Recommends approval of the listed COURSE CHANGES in the following colleges and/or schools:

- COLLEGE OF FINE ARTS

  ART 219  Typography and Computer Skills
  Change in title to: Computer Skills for Art
  Rationale: The computer skills will be emphasized. Typography will be included in ART 312, Graphic Design Course.
  - AND -
  Change in content: FROM: Typography studies, computer, and layout skills. TO: Art and design computer skills, excluding typography.
  Rationale: Students need to acquire computer skills early in the BFA program in order to apply them to their specific areas of emphasis.
  - AND -
  Change in catalog description: FROM: This course surveys the origins and use of letterforms, calligraphy, typographic principles, basic computer skills for artists, and layout skills emphasizing conceptual design. TO: This course introduces the computer as a creative and practical tool for artists and designers. Vector, vaster, editorial, multimedia and presentation graphics software will be included. Conceptual design will be emphasized.
  Rationale: Typography content has been deleted from ART 219. The focus will change from the role of typography in design to the use of technology and relevant software as art making tools. Students will apply what they learn in this course to all art courses.

  ART 312  Graphic Design Skills
  Change in content: FROM: Studio skills, airbrush techniques, specifying type, preparing mechanicals. TO: Studio skills, the computer as a design tool, typography.
  Rationale: The intention is to update the course to include current technology and focus on the use of typography in graphic design problems.
  - AND -
  Change in catalog description: FROM: Practical studio skills; specifying type, photographic and airbrush techniques and the preparation of mechanicals. Also, the designer's relationship to agencies, clients, printers, and other professionals. (PR: ART 219). TO: Practical studio skills: Typography, application of design principles in print and digital media, and introduction to the computer as a design tool. Also, the designer's relationship to clients and other professionals. (PR: ART 219).
  Rationale: The description requires new language to describe current terminology and the inclusion of typography in the course.

  ART 315  Photography
  Change in title to: Photography I
  Rationale: To clarify order of classes. Reflects other course changes.
ART 324 Advanced Black and White Photography  
**Change in title to:** Photography II  
**Rationale:** To clarify order of classes. Eliminate term “advanced”

ART 423 Studio Photography  
**Change in title to:** Photographic Lighting  
**Rationale:** Reflect broader scope of topics covered, including flash photography, and on-location lighting.

ART 490 Apprenticeship/Field Training  
**Change in content:**  
**FROM:** Apprenticeship in graphic design and preparing and presenting a portfolio.  
**TO:** Apprenticeship in graphic design.  
**Rationale:** Art 490 will be divided into two courses: a 1-credit Apprenticeship/Field Training course which will remain as ART 490, and a 2-credit Graphic Design Portfolio course (a new course). With this arrangement, a student may take the internship at a separate time and receive a separate grade for this part of the requirement.

- AND -  
**Change in catalog description:**  
**FROM:** Student is placed in a supervised work situation, offering the opportunity to perform professional design work. At this time, a proper portfolio and resume are produced and presented for graduation.  
**TO:** Student is placed in a supervised work situation, offering the opportunity to perform professional design work. This will include 160 hours during the semester.  
**Rationale:** Art 490 will be divided into two courses: a 1-credit Apprenticeship/Field Training course which will remain as ART 490, and a 2-credit Graphic Design Portfolio course (a new course). With this arrangement, a student may take the internship at a separate time and receive a separate grade for this part of the requirement.

- **COLLEGE OF SCIENCE**

MTH 127 College Algebra – Expanded Version  
**Change in credit hours:**  
**FROM:** 5  
**TO:** 4  
**Rationale:** This change was recommended by the Mathematics Undergraduate Committee and approved by the Mathematics faculty. This change should alleviate some student and advising concerns and have a positive effect on student retention.

MTH 340 Discrete Structures  
**Change in course number to:** MTH 220  
**Rationale:** The new Computer Science Program desires that this course be open to freshmen. The PR for this course is being reduced from Calculus II to Pre-calculus to accommodate CS. The previous PR was set higher than necessary to increase the “mathematical maturity” of the students. The new course number reflects that this course is at a level similar to MTH 229, which has a similar PR.

- AND -  
**Change in catalog description:**  
**NOTE:** A change in prerequisites:  
**FROM:** MTH 230 or permission  
**TO:** Mathematics ACT or 27 or higher or MTH 132 or MTH 130 or MTH 127.
